On the 31st of January, an express arrived at Vera Cruz from Mexico, bringing the news that Gen. Minon gained a victory over the Americans near Victoria, capturing 800 men.

The following States have remonstrated against the proposition to sell the Church lands to carry on the war:—Mexico, Zacatecas, Queretaro, Durango, Oaxaca, and Sonora.

Gen. Scott was to embark immediately for Lobos, 75 miles distant from Vera Cruz. The attack on Vera Cruz, it was supposed would take place about the first of March.

The Congress of the state of San Luis passed a decree authorizing the Governor to negotiate a loan in forty-eight hours by force or voluntarily.

RIOTS ON THE NEW YORK AND ERIE RAIL ROAD.

Some serious disturbances have recently occurred among the workmen engaged on the portion of this road lying between Otisville and Port Jervis, the particulars of which, as far as we have been able to gather them, are as follows:—That portion of the labourers known as Shamrock men, or Fardowns, who were the most numerous on the line, it seems, had determined to drive the Corkonians and all others from the ground, and thus monopolize for themselves, the labour on these sections.

About three weeks since, these Fardowns made an assault, on Saturday night upon the Corkonians engaged on Carmichael and Stranahan's section, at Shin Hollow, beating them severely, and compelling them to promise to quit the line immediately. On Monday morning they proceeded to another part of the section, fired guns over the heads of the workmen and told them if they did not quit work they would fire into them. They drove the men off to the contractor, and compelled them to settle and leave the work. Many they knocked down and beat in a shameful manner. They then traversed the whole line, compelling the proscribed labourers to quit work, beating and abusing them with much severity. In this riot one man is supposed to have been killed. During this outbreak, the rioters attacked a party of Dutch engaged on this same section. The Dutch gave them a little better than they sent, and the assailants were glad to retreat.

Work was pretty much suspended on the road, but no further outbreak occurred until Wednesday of last week. During the evening of that day repeated discharges of fire arms were heard along the line, which was probably the signal for the gathering of the rioters. About midnight one of the two shanties situated in Shin Hollow, occupied by Irish labourers, was assailed. The windows were dashed in, guns fired into the building, and soon the insurgents had possession of the lower part of the tenement. The assault was made by about one hundred men. There were about fifty men in the shanty all in the loft. The rioters cut away the beams, and let them down into the lower room, many of the assailed were then beaten, and made to promise to leave the work, one man was thrust into the oven, with the comforting assurance that he should be baked when they had time to attend to him. After the "regulators" had disarmed the men and settled things to their satisfaction as this shanty they proceeded to the other buildings occupied by the Irish, which was but a few rods distant. Here they enacted much the same savage feats as they had done at the first. They had stolen several kegs of powder from the office of the contractor, and threatened to blow up the shanty if the men did not come down from the loft. The men were frightened and finally came down. The rioters drove all the men into one end of the room and taking one of the number, compelled him to get upon his knees, and then presenting muskets at his breast, threatened him with instant death if he did not give up his pistols, and take an oath to leave immediately. Having finished their work at this shanty, they set out for an assault on the Dutch, whose quarters were about fifty rods off.

The Dutch had heard what was going on at the other shanties and were prepared for the attack.—They had fire arms, but unfortunately had nothing but small shot to charge them with. Their principal man, Whistler, had mustered them in two platoons, on the outside of the shanty, ordering the first division to give the assailants their fire as they approached, and the second to rush upon them: firing when in close contact. The Irish approached and having fired a few shots, the Dutch opened upon them in a style that put all their bravery to flight and themselves with it as fast as legs could carry them. The Dutch peppered the wrong side of their valor in fine style, and the impulse of the shot quickened their pace wonderfully. They took two prisoners. One of these they discovered clambering up a rock on his hands and knees and they brought him to a surrender, after greeting him with a full charge of fine shot upon that part of his corporality which, in that attitude presented the fairest mark. These prisoners were taken into the shanty and bound together, and Whistler had some difficulty in restraining his excited countrymen from taking summary vengeance upon them. They are now in Newburgh awaiting their trial. On Friday, Sheriff Welling repaired to the scene of disturbance and on Monday, was again on the ground accompanied by a large posse. Some fifteen or twenty were arrested who are now under examination in this village. Every precaution has been taken to prevent a repetition of these scenes. The Dutch are well armed, and able to defend the mountain against any similar assaults.—*Goshen Democrat. February 12.*

Wistar's Balsam of Wild Cherry

the greatest remedy for

CONSUMPTION,

And the best Medicine known to Man for

Asthma, of every stage, Liver Complaints, Bronchites, Influenzas, Coughs, Cold, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c., and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this "Balsam" exerts a powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had suffered long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectually remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing.

It not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavour to give a fair statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that Consumption may and "CAN BE CURED," if this medicine be resorted to in time.

SANDS'S SARSAPARILLA,

For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or habit of the system, viz:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules in the Face, Blotches, Biles, Chronic sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, stubborn Ulcers, Syphilitic symptoms, Sciatica or Lumbago, and diseases arising from an injudicious use of Mercury, Ascites or Dropsy, Exposure or imprudence in Life; also, Chronic constitutional disorders, &c.

"EVERY cell and organ of the human body" says a distinguished medical writer, "is originally built of, grows, and is renewed by an independent vital force; and when causes which have arrested such growth or renewal, are removed, then by the influence of this vital force, the actions in a part, or in the whole system, resume their harmonious course, and the ravages consequent upon disease are overcome, obliterated and repaired." Here is the whole theory of disease, and the same author proceeds to say, that in many diseases "substances are conveyed into the blood which are incapable of assimilation." In order therefore, to restore this "vital force" and get rid of these substances, it is necessary to employ an agent which will act with directness and certainty upon the blood in the process of its manufacture, preventing the introduction of non-assimilating substances, and thus cutting away, as it were, the very roots of disease. That this preparation is such an agent is abundantly proved by the innumerable successful results that have attended its use. It expurgates the source of the disease, and of course its outward evidence, robbed of their infectious substance in the blood, are rapidly absorbed, and the patient is restored to health.

The Proprietors submit to the Public the following certificate from a highly respectable source, of a cure made by using their preparation of Sarsaparilla:

NORWICH, N. Y., Oct. 6, 1846.

Messrs. A. B. & D. Sands—

Gentlemen—Feelings of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out in different parts of my head and face. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the efficacy of your valuable medicine. Your's with respect and gratitude,

PHEBE CAHOON

Being personally acquainted with the person above named, I believe her statement to be correct.

JAMES M. D. CARR, Justice of the Peace.

The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:

BEAVER, Pike Co. Ohio, sept. 7, 1846.

Messrs. A. B. & D. Sands:

Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no person would have known they belonged to a human body, as all appeated to be one mass of putrifying sore. His hand and other diseased parts are all restored to their natural size and feeling; are entirely healed over, and his leprosy cured; he intends using a few more bottles to permanently establish his health.

Your's respectfully, G. W. RAYNOLDS.

For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton street, corner of William, New York.—*Sold also by T. WALKER & SON, Saint John, N. B.; Morton & Co., Halifax; John Musgrave & co., Quebec, and by Druggists generally throughout the United states and the British Provinces.*

Price $1 per bottle; six bottles for $5.

☞ The Public are respectfully requested to remember that it is Sands' Sarsaparilla that has been and is constantly achieting such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for *Sands' Sarsaparilla*, and take no other. Feb. 12.
