A splendid new ship called the Oxford, for the old line of New-York and Liverpool packets, was launched at New-York on the 14th inst. Her length on deck is 148 feet, 33½ feet beam, 21½ feet hold—800 tons. Her sides are thicker, and the ship every way stronger than any ordinary Sloop of War. Captain John Rathbone is to command her.

A NOVELTY!—On Wednesday last, the steamer *Novelty*, which has again commenced plying on the river, completed the trip from Fredericton to Saint John and back, the same day. She performed the passage down in *seven hours*, and returned in seven hours and a half—averaging *twelve miles an hour*.—This is the first time that this feat has been accomplished, and proves the *Novelty* to be by far the swiftest boat on our waters.—*Courier.*

EARTHQUAKE.—On Wednesday the 6th inst., the shock of an earthquake was experienced in this Province. We have been informed that it was very sensibly felt at Wickham, in Queen's County.—At Saint Stephen's, County of Charlotte, it occasioned a heavy rumbling sound, not unlike the distant discharge of artillery. It was also observed at Milltown, in the same County; two gentlemen who were sitting in a house engaged in conversation at about 3 o'clock on that day, had their attention suddenly arrested by a violent concussion resembling the fall of a very heavy substance upon the building in which they were. The raftsmen on the river near the last mentioned place, saw the water much agitated, although it was perfectly calm at the time. The cattle were seen to run into the woods as if affrighted.—We have not learned if this phenomenon has arrested attention in other parts of the Province.—*Gazette.*

Passengers in the ship *Saint Andrew* for Liverpool, the Rev. William Murray, Wesleyan Missionary, Mrs. Murray, and daughter. Severe bodily affliction and almost entire prostration of strength have deprived Mr. Murray of ability to discharge his ministerial duties, and compelled him to seek the restoration of health in a voyage to his native country.—*Gazette.*

We have authority to state that replies have been received from the Rev. Dr. Buckland, Professor of Geology in the University of Oxford, and from Dr. Thompson, Professor of Chemistry at Glasgow, to the letters of enquiry some time since addressed to those distinguished gentlemen, respecting a Lecturer in Natural and Experimental Philosophy for King's College, Fredericton.

In consequence of an expected vacancy in the Professorship of Mathematics and Natural Philosophy, a resolution was lately adopted by the College Council, requiring in the gentleman who might be appointed to fill such vacancy, a thorough competency to give instruction in Experimental Philosophy: a resolution was at the same time passed, requiring any gentleman who might be appointed to the Lectureship, to be equally well versed in Mineralogy and Geology.—*Royal Gazette.*

On Saturday a deputation from the Students of our College, waited upon the Rev. Dr. M'Cawley, and requested his acceptance of a Silver Cup, as a mark of well merited esteem, on his advancement from the Chair of the Mathematical Professor in Fredericton College, to the high situation of President of the University at Windsor. The Cup is of very beautiful workmanship; within a wreath of flowers is placed an appropriate Latin inscription, and over this the College Arms in relievo. We understand it had been the intention of the Students to have presented it previously on the Encœnia, but in consequence of some delay the order was not executed before the commencement of the Vacation, when they had all retired to their respective homes.—*Ib.*

SAINT ANDREWS RAIL ROAD.—Among the arrivals at the Albion Hotel, yesterday, was J. Wilson, Esquire, of St. Andrews, N. B. agent of the projected Railway from that town to Quebec. The very liberal support this undertaking has met on the part of Lord Glenelg and the authorities, will probably be supported by the home and colonial public.

We have seen a MAP and PLAN of the Railway from Saint Andrews, (a port open to navigation at all seasons of the year,) executed with skill. It indicates the exact line of route to be followed, which turns round the point of the monument of the North Eastern Boundary.

A prospectus of the proceedings in New-Brunswick, with other information, is also in town. The reconnoissance of the route will, it is said, be commenced at Pointe Levi, and it is stated that Captain Yule's services are to be again engaged.—*Quebec Gazette.*

Steamboat Burnt and loss of Lives.—The steamboat Union Candienne, which run between Montreal and Chambly Basin, was destroyed by fire on the 9th inst. at 11 o'clock at night, near the latter place, and several lives lost; a Mrs. Homes, of Sorrel, in the consternation of the moment threw herself from the cabin with her child in her arms, and both were drowned, and the steward was burnt to death in the vessel. The fire is supposed to have been produced from a candle, left burning in the ladies cabin.

The steamer British America, a few days previous, came near sharing the same fate, near the wharf at Sorrel, having taken fire near the boiler, and the flames had got such an ascendancy ere they could be extinguished, that her paddle boxes were nearly destroyed. She had upwards of 200 passengers on board; had the fire occurred at night, in the confusion of the moment, no doubt many lives would have been lost through fear or otherwise.—*New-York Mercantile Advertiser, July 13.*

THE ARMY.—*Horse Guards, 23d May*, 1836.—The King has been graciously pleased to approve of the 34th Regiment resuming the Tuft worn by it in commemoration of the action at Arroyo de Molinos, on the 28th October, 1811.

[Among the prisoners made at Arroyo de Molinos were the French 34th, taken chiefly by the British 34th. The Drums and the baton of their Drum-Major are still with the English 34th.]—*Halifax Times.*

MARRIED,

On Wednesday evening, by the Rev. G. L. Wiggins, at Portland Village, Mr. James Lenton, to Miss Catharine Charleton.

At Digdeguash, on the 7th inst. by the Rev. Dr. Thomson, of St. Stephen, the Rev. Samuel Thomson, A. M., Rector of St. George, to Charlotte, daughter of the late James M'Master, Esquire, of that place.

DIED,

On Wednesday, Helen, infant daughter of Isaac L. Bedell, Esquire, aged two months.

On Wednesday last, after a long and most painful affliction of twelve months' duration, Hannah, wife of Mr. James Redfern, a native of Whitehaven, County Cumberland, England, in the 46th year of her age.

At Grand Lake, on the 9th of June, Mrs. Lydia Brill, in the 76th year of her age, wife of Mr. David Brill.

At St. Mary's, York County, Mr. Rice, senior, aged 75 years. He was a man who feared God, honored the King, and cheerfully persevered in unwearied labours for his family, by whom his memory is most affectionately cherished.

On the 22d June, at St. Stephen's Ledge, after a painful and protracted illness, which she bore with much resignation to the Divine Will, in her 70th year, Mrs. Elizabeth, relict of the late Captain James Quinton, who fell a victim to the Fever in the island of Tobago, in the year 1804.

Same day, at St. George, after a short but severe illness, Mr. Andrew Sutherland, in the 53d year of his age, a native of Ross Shire, North Britain.

Port of Saint John.
