Ladies' Summer Vests 25c Each. **Wood's Fair** A Full Line of Baby Carriages And Go-Carts.

G. T. R. MACHINISTS MAY WALK OUT

Big Strike May Be Matter of Few Hours Only.

A STATEMENT BY MR. CHAMPION

Vice-President of Union Says Strike Will Be Declared Unless the Company Yields.

Toronto, May 3. — A general strike of the Grand Trunk Railway machinists, about 2,000 in number, may be declared at any moment, according to the statement of Mr. Alex. H. Champion, second vice-president of the International Association of Machinists, made this morning. Last night, the question of a strike was discussed at a meeting of the Toronto machinists in the Labor Temple, and at similar meetings in St. Thomas, Montreal, Stratford and Fort Gratiot.

"It may be a week; it may be a day; or it may be only an hour—just as we take a notion," said Mr. Champion in discussing how soon the men would go out.

"Then you stand firm?"

"Yes, unless the Grand Trunk concedes our demands we will fight."

Mr. Champion stated that full authority for a strike, with the promise of unlimited support, had been received two months ago from the Washington headquarters of the International Union, one of the most powerful labor organizations in the world.

"What is your grievance?" he was asked.

"Nominally, we have none. We cannot have a grievance until we have some sort of an agreement with the company telling what we are entitled to. It isn't so much a matter of an increase in wages, although that is included in our request. We want a signed schedule which will set forth in detail all the conditions under which we work. With such a schedule it would not be possible, for instance, for the company to discharge 300 or 400 men on a pretext, and in reality to intimidate them, as they did at Stratford and Port Huron. In these places the machinists have been walking the streets for three weeks.

"We do not want to strike," said Mr. Champion. "We will give the company plenty of time if they show that they are ready to consider our demands. So far we have dealt with Superintendent Robb, and his advice was to lay our complaints before the master mechanics or district superintendents. This is out of the question. If Mr. Robb cannot act for the company as a whole, then we want to meet the man—Chas. M. Hays, or whoever he is—who can.

Mr. Champion declared that the Grand Trunk was the only large railway system in America that did not have a signed agreement with its machinists.

He himself is evidently a born fighter. He says he owes his present position as an officer in the grand lodge of the union to his fighting propensities.

Mr. W. D. Robb, superintendent of motive power, interviewed in Montreal yesterday, said that the rumor to the effect that the machinists were on the verge of a strike was news to him. He pointed out that the machinists in the west had come to him with a schedule which referred only to local conditions, and these men he had advised to see their mechanical foreman. So far as he was aware they intended to follow that advice. He said the reason the shops at Stratford and Fort Gratiot were closed was to make alterations and repairs, requiring considerable time.

Mr. W. Kennedy, mechanical superintendent in Toronto, said that he had received no communication from the men since last Saturday. They had not acted upon Mr. Robb's advice to lay their grievances before the local officials.

IMPURITIES IN THE BLOOD

TELL OF TORPID, SLUGGISH LIVER ACTION AND INDICATE THE NEED OF

DR. CHASE'S KIDNEY-LIVER PILLS

There is no getting round the fact that the liver is responsible for the impurity of the blood in the spring.

Awaken the liver to action by the use of Dr. Chase's Kidney-Liver Pills and you at once remove the cause of the ills and discomforts of this time of year.

Coated tongue.
Bitter taste in the mouth.
Shortness of breath.
Gas on the stomach.
Dull, sick headache.
Biliousness.
Irregularity of the Bowels.
Weak, dizzy feelings.
Irritable temper, discouragement and despondency.

These are some of the most common indications that the liver is failing to filter the poison waste matter from the blood.

Dr. Chase's Kidney-Liver Pills cleanse the system thoroughly and well, by causing a free action of the bowels.

By their direct and certain action on the liver they purify the blood and bring about a good flow of bile into the intestines — the only means by which constipation can be actually cured.

Dr. Chase's Kidney-Liver Pills are an indispensable family medicine of proven worth. One pill a dose, 25c a box, at all dealers, or Edmanson, Bates & Co., Toronto. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

A SUCCESS INDICATOR

Letters of Congratulation Are Coming From All Points of Ontario to Gourlay, Winter & Leeming, Toronto.

When a manufacturer can turn out an article which will please people he can be assured of success. This is the happy position of the firm of Gourlay, Winter & Leeming, whose Gourlay piano has been received in all parts of Canada and by all classes of music lovers, professional and amateur, with every indication of approval. Indeed, the luscious tones of the instrument is causing so much pleasure that scores of purchasers are writing back to the firm to express their congratulation. This is a condition of things almost unique in the piano business, and augurs continued success for the instrument. A few extracts from these letters follow:

Glen Allan, Ont.: "The Gourlay piano never suffers by comparison with others."

Brantford, Ont.: "I wish to express our continued delight in the Gourlay."

Granby, Que.: "The instrument is a thing of beauty and a joy forever."

Sault Ste. Marie, Ont.: "The piano is improving in tone all the time."

Hamilton, Ont.: "The new Gourlay piano, with which I am charmed."

Toronto: "I feel it a duty to write and tell you of the satisfaction it gives."

Drayton, Ont.: "We are even better pleased with it than when we made the purchase in your warerooms."

Essex, Ont.: "The tone is so sweet and yet so full, the touch is elastic."

Preston, Ont.: "The tone is beautiful and delights everyone who has tried it."

BURNED PART OF TOWN

A Russian Mob Holds High Carnival On Easter Monday.

St. Petersburg, May 3. — Reports of slight disturbances in various places of European Russia during Easter Monday are now coming in. The gravest occurrence in that part of the empire was at Militopol, where a mob for several hours held high carnival and burned a portion of the town.

At Nizhni Novoroda a regular battle occurred between soldiers and the crowds on Millonaia street. The soldiers fired, killing one person and wounding many.

The reports received by the embassies here substantially agree in saying that the number of persons killed at Warsaw on Monday was forty to fifty. The figures given of the wounded vary from sixty to two hundred.

HARCOURT TEMPORARY HEAD

Mr. Ross Will Not Take Opposition Leadership This Session.

Toronto, May 3. — The Opposition met in caucus this afternoon and passed resolutions, congratulating Mr. Ross upon his improved health, and renewing their confidence in him, and thanking Mr. Harcourt for his efforts in behalf of the party during the leader's absence. The understanding is that the real work of leadership will fall upon Mr. Harcourt during the remainder of the session. Several resolutions were prepared and they will be offered on going into supply. It is understood that the Opposition will not debate the Gamey resolution, although Mr. Ross will briefly state his objections.

MR. GOODERHAM'S FUNERAL

Quietly Laid to Rest in the Family Vault at Toronto.

Toronto, May 3.—Simplicity was the chief characteristic of the funeral services of the late George Gooderham, held this afternoon at the family residence. An absence of any pomp or undue ceremony marked the proceedings, as it was the wish of the family that the funeral should be conducted as quietly as possible. No flowers were brought to the bier. The pallbearers were the four sons of the deceased—Messrs. W. G., Albert, George H., and M. Ross Gooderham—and the sons-in-law—Dr. J. F. W. Ross, Mr. C. W. Beatty, and Rev. E. C. Atcheson, of Middleton, Conn. Rev. Canon Welch, of St. James' Cathedral, conducted the service at the house, where, in addition to the relatives of the deceased, his closest friends and those who had been his associates in business life were gathered. Canon Welch's references to the deceased were simple and appropriate. His quiet, gentle life, his charity, his prominence as a citizen of worth and true public spirit were touched on, and the rites of the Anglican Church having been duly observed, the body was borne to St. James' Cemetery, where it was placed in the family vault.

Four countries — Bavaria, Austria, Wurtemberg and Switzerland — border on the Lake of Constance. Passengers on the boats have heretofore had much trouble in finding out what stamps to use on their letters. It has now been decided that letters, mailed on the boats may bear the stamps of any one of the four countries named, as well as German imperial stamps.

THE LOCAL HOUSE DOWN TO BUSINESS

Many Measures Introduced and Pass Committee.

THE CITY OF LONDON BILL

Notification Sent to the Fishery Overseers That Savors of Spoils System.

[Special to The Advertiser.]

Toronto, May 3. — Today's session of the House was thoroughly businesslike, and a considerable hole was made in the order paper. Nearly a score of bills were introduced, a dozen were passed in committee, including the London street railway bill, and the same number were given their second readings.

At the evening session neither the Premier nor the leader of the Opposition were in their places. There was no quorum present when the Speaker mounted the throne at 8:05. Mr. St. John ordered that the bell be rung to call in the members, and for five minutes its sound buzzed through the corridors. Enough members drifted in to make a quorum, and the evening's business began.

City of London Bill.

Mr. Hodgins' bill to amend the municipal act was, he explained, intended to enable the city of London to grant to a company the exclusive right to establish an abattoir within the limits of the municipality or of an adjoining municipality.

Mr. Graham objected that the case seemed to be one for a private bill, and not one where the whole act should be changed to meet the desires of one municipality.

The bill went to the municipal committee.

Is This More Spoils?

Mr. Reed (South Wentworth) brought to the attention of the House a matter which provoked a brief but spirited discussion. He asked if the Minister of Public Works was aware of a circular having been sent out to fishery overseers, asking for a private report on applications for fishing licenses, after the overseer had conferred with the Conservative member or defeated Conservative candidate in the riding.

Dr. Reaume, replying, said that he was aware that such a circular had been sent out as a part of the routine work of the department, within a day or two after he had assumed his office. He had adopted the policy of having all applications indorsed by the fishery overseers, thus recognizing the principle of recommendation by Government officials.

Mr. McDougall (Ottawa) said that Dr. Reaume had not answered the real point involved. He asked if it was true that applicants had to be indorsed by the Conservative members or defeated candidates.

After the Speaker had called Mr. McDougall to order for the form in which he had couched his remarks, Mr. Hanna said the Minister of Public Works might have answered that in sending out the circular the department had but followed the practice pursued in former years by the Government's predecessors.

Mr. Whitney said that he understood from the Minister of Public Works that he had not sanctioned the sending out of the circular. Mr. Whitney said it would be his duty, personally, and the duty of other members of the Government, to ascertain if officials who had been treated with the greatest kindness by the incoming Government were to be allowed to make political capital against that Government.

Hon. Dr. Reaume, speaking further on the subject, said that after becoming aware that the circulars had been sent out, he had emphatically stated to the deputy commissioner that he did not wish such a course pursued, the only indorsement he wanted being that of the overseers. This policy he was carrying out in all department affairs.

Hon. Dr. Willoughby stated that on becoming aware that the circulars in question had been sent to his riding, he had seen Mr. Bastedo, who informed him that the circulars had been sent out in pursuance of the usual course of the former Government.

Public Owned 'Phones.

In reply to a question by Mr. Lucas, the Commissioner of Public Works said that the Government had considered the question of acquiring the long distance telephone lines, but no communication regarding it had been received from the Dominion Government.

Mr. Auld secured an order of the House for a return of copies of all correspondence, petitons, or other papers in connection with the appointment of license commissioners for the east riding of Lambton.

Mr. Hoyle had his bill to amend the Ontario companies act referred to a special committee.

Convict-Made Goods.

Mr. Preston (Brant), in moving the second reading of his bill respecting convict-made goods, explained that it provides that all goods made in prisons or reformatories must be plainly branded with the words, "Prison Made." The warden of the Central Prison, said Mr. Preston, was opposed to the provisions of this bill. The best way to employ convicts was not to have them build roads, because that necessitated their absence from prison, but to have them manufacture articles for other public institutions. Competition between convicts and free labor should be eliminated.

The Provincial Secretary said that the provisions in the bill that all kinds of convict-made goods, whether made in Ontario or other provinces, be branded, was too wide and might be regarded as without the jurisdiction of the Legislature. Apart from that the bill dealt with a question that demanded consideration, and the whole question was now being considered by the Government. Just now brooms were being made under a contract at the Central Prison, and between September, 1903, and September, 1904, there was earned $5,732 51, and the actual cost of earning was $4,080, outside of the cost of labor altogether. The $1,652 net profits represented the labor of 51 men in prison all the year around, and the cost of keeping those prisoners was $14,280. If it were that the brooms were made outside of the prison Ontario would have lost over $12,000 on the contract. The Government had decided that Ontario, outside of the sentiment of the question, broommaking would be discontinued this summer. Convicts should be employed in work which did not involve the expenditure of money for machinery. He agreed that the sale of the products of prison labor should not come in contact with goods made outside. In view of the fact that the Government were dealing with the whole question, Mr. Hanna asked that the bill be withdrawn, and Mr. Preston acceded to the request.

Dehorning of Cattle.

Mr. Crawford's measure to make the dehorning of cattle compulsory provoked considerable discussion. The dehorning of cattle, said the mover, was not a painful operation, and, in fact, was a good thing for the animal. A Government commission had thoroughly gone into the whole question, and had recommended in favor of dehorning for humane, economic and other reasons. The age at which cattle should be dehorned was one year or under.

Mr. Racine (Russell), was opposed to the bill, and said they might as well ask the farmers to have their ears cut off.

Hon. Mr. Monteith gave it as his opinion that the bill as it stood was too drastic. Many breeds were judged largely by their horns. The operation of the bill would deprive breeders of certain markets, as outside buyers in many cases would not buy dehorned cattle. The question would gradually work out its own cure. As for the operation itself, it was painless, and not dangerous to the animal.

Mr. Gamey said that coming from the greatest stock-raising and grazing district, he could not let the bill pass without some comment. The bill would be a hardship to the people of Manitoulin Island, where 10,000 head of cattle under one year of age would have to be dealt with each season. These young cattle were not confined to farms, but were scattered over the ranges of the island. The people were not agreed on the advisability of dehorning.

Mr. Crawford withdrew the bill.

Hon. G. W. Ross gave notice that he would move for an order of the House for a return of copies of all circulars issued by the department of fisheries respecting the appointment or dismissal of fishery overseers since the fisheries were taken over by the Province.

The London Street Railway bill, introduced by Mr. Hodgins, was passed through the committee stages at the evening session, and will receive its third reading tomorrow.

Cracker Perfection

The finest wheat in the world grows here in Canada. The best flour is milled in the Dominion. The whole Mooney factory is brand new from top to bottom, and has every modern time-and-labor-saving improvement. The head of the bakery, and every man under him, is a master in the art of cracker-making. This is why

Mooney's Perfection Cream Sodas

are the most inviting, most toothsome crackers in Canada.

Grocers everywhere have them.

All It Needed.

There is more real oxygen in a liquified form in the "Solution of Ozone (the coupon kind)," than in any other preparation of a similar nature. As a prompt cure in the killing of all inside germs of thirst, lungs, stomach or bowels, it has no equal when coupled with "Celery King," the famous laxative. That the stringent Ozone needed a tonic of this nature to procure the best results was so apparent that the Public Drug Company, of Bridgeburg, Ont., offer through your druggist a free package of "Celery King" with every 50-cent or $1 bottle of "Solution of Ozone (the coupon kind.)"

Theodore Roosevelt, jun., at the request of the President, his father, has been elected a member of the New York Athletic Club. The youngster is a good athlete and wants to take part in some of the club contests.

A SUCCESSFUL MEDICINE.—Everyone wishes to be successful in any undertaking in which he may engage. It is, therefore, extremely gratifying to the proprietors of Parmelee's Vegetable Pills to know that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The indorsation of these Pills by the public is a guarantee that a pill has been produced which will fulfill everything claimed for it.

Charles Elliot, of East Barnet, Vt., has a scheme to raise mink for the fur. He believes in his idea and has placed an old henhouse on the banks of the river as a start in the business. Woven wire will keep the animals where he can find them and a part of the stream thus fenced off will give them the water required.

THE WORLD IS FULL OF PAINS.—The aches and pains that afflict humanity are many and constant, arising from a multitude of indistinguishable causes, but in the main owing to man's negligence in taking care of his health. Dr. Thomas' Eclectric Oil was the outcome of a universal cry for some specific which would speedily relieve pain, and it has filled its mission to a remarkable degree.

SMALLMAN & INGRAM,

149, 151 and 153 Dundas Street. London.

MUSIC AND DRAMA

WILLARD AT THE GRAND TONIGHT.

E. S. Willard is one of the few actors who insist on drawing a sharp line of distinction between professional obligations and personal necessity. He has made it a rule for years to put away business of the theater when his season ends and his vacation begins. He gets out of the very atmosphere of the playhouse, and devotes himself with enthusiasm to wholly contrasting interests. Perhaps none of his brethren had so ideal an existence during the vacation period. And not many have so much to draw them from the mimic scenes. Mr. Willard will be at the Grand tonight, appearing in a complete scenic production of "The Middleman."

"OVER NIAGARA FALLS."

American capital and American talent are directly responsible for many of the most prominent successes of the English stage. "The Prince of Pilsen," Henry Savage states, fairly took London by storm, and just at present the playgoers of the popular-priced houses are paying considerable attention to Rowland & Clifford's melodrama, "Over Niagara Falls." Clarence Brune and his all-American company, after record-breaking runs at the Royal Princess and Grand Theaters, London, England, was selected by Messrs. Fred Denton and Fred L. Little, managers of the Prince of Wales' Theater, Hilston street, Wolverhampton, England, to inaugurate a season of melodrama at that theater. "Over Niagara Falls" is being played by three companies in America, the principal one of which will be at the Grand tomorrow night.

"BABES IN TOYLAND."

The attraction at the Grand on Saturday afternoon and evening will be "Babes in Toyland," a musical extravaganza in three acts. "Babes in Toyland" possesses a story that, while it may not be very original, is still one that is worthy of some consideration. It takes the audience back to childhood's happy days, and introduces such well known characters as "Tom, Tom, the Piper's Son," "Jack and Jill," "Contrary Mary," "Bo-Peep," "Little Red Ridinghood," and other characters to be found in the Mother Goose stories. All of these personages have been woven into the tale in a consistent manner, and each of them has some connection with the plot. Among the very large company concerned in the production of the extravaganza are Ignacio Martinetti, Bessie Wynn, Mabel Barrison, Gus Pixley, Charles Guyer, Marguerite Ferguson, John F. Ward, May de Souza, Joseph Green, Katherine Bell, and the eccentric dancing comedians, Rome and Stone. The chorus is one of the largest to be found in any production and has been carefully trained in the various songs and dances.

NOURISHING.

Tens of thousands of physicians are constantly prescribing Angier's Emulsion, because it makes easy, the digestion of wholesome food and nourishes the tired or worn-out system. It cleanses and enriches the blood, creates firm flesh, quiets the nerves and acts as a general tonic. It is quite pleasant to take. Try a 50c bottle.

STEAMERS ARRIVED.

May 3.—At Father Point—Dominion, from Liverpool.

At New York—Mesaba, from London; Oceanic, from Liverpool.

At Liverpool—Lake Erie, from St. John.

A GOOD MEDICINE REQUIRES LITTLE ADVERTISING.—Dr. Thomas' Eclectric Oil gained the good name it now enjoys, not through elaborate advertising, but on its great merits as a remedy for bodily pains and ailments of the respiratory organs. It has carried its fame with it wherever it has gone, and it is prized at the antipodes as well as at home. Dose small, effect sure.
