LAIDLAW, KAPPELE & BICKNELL, BARristers and Solicitors, Imperial Bank Buildings, Toronto. William Laidlaw, Q.C.; George Kappele, James Bicknell, C. W. Kerr.

Early Navigation.

Capt. Wigle of the steamer Lakeside was in town yesterday. He has completed arrangements for running that popular steamer between this city and St. Catharines during the coming season. She will begin with one trip a day as early as March 20, if possible, provided the canal is open, and as soon as the business warrants thereafter to make a trip twice a day. Capt. Wigle intends to keep the boat going until Dec. 1.

HUMBUGGING THE ELECTORATE.

The Sphynx never proposed a more difficult conundrum than that which the country is now asking Mr. Laurier to solve. Mr. Laurier hesitates to give us the solution. We don't know why he should do so. He himself proposed the conundrum. He ought to know the answer.

The riddle is this: The Liberal party, when it is returned to power, is, in the first place, going to secure for Canada commercial reciprocity with the United States; and, in the second place, it is going to adopt a free trade tariff. The conundrum is, which of these two policies must the party adopt first in order to carry out both?

Some say the idea is to carry out commercial union first. This theory, however, will not work in practice. Reciprocity between the United States and Great Britain is impossible, because the latter has no advantage to offer the United States in return for a reduction of the American tariff favorable to Great Britain. The same argument will apply to Canada and the United States, under Mr. Laurier's policy. The Americans know that Mr. Laurier is committed to a free trade policy for Canada, and they know Mr. Laurier will introduce that policy at once in order to relieve Canada of the extreme distress that Mr. Laurier says exists and for which he alleges the protection policy is responsible. Mr. Laurier will certainly not wait longer than one year to adopt his measures of relief. This being the case, the United States will entertain no proposal for reciprocity when it will have to wait but twelve months to get all the reciprocity it wants, without equivalent of any kind.

The next possible solution is that he will introduce his free trade policy first, and then make a bold move to secure reciprocity. This proposition needs only to be stated to prove that it is even more absurd than the previous supposition.

The third possibility is that Mr. Laurier will introduce both measures at the same time. It has been suggested that the modus operandi in this contingency will be as follows: Mr. Laurier will attend to the Canadian tariff, making it as free and reciprocal as possible, while Messrs. Charlton and Cartwright will, when the negotiations are proceeding at Ottawa, be despatched to Washington with full power from the Canadian Government to alter the American tariff as may be most advantageous to Canada. But this theory, too, leads to a reductio ad absurdum, the same as the other two theories.

The question naturally arises whether it is not just probable that Mr. Laurier may be humbugging us. That seems to be the logical inference from our syllogisms. On a certain occasion in history one of the Kings of England propounded a conundrum. His Majesty called together the learned members of the Royal Society and asked them this question: "How is it that a tub of water containing a fish weighs exactly the same as the same tub of water without the fish?" The learned gentlemen took the problem into their serious consideration and debated the pros and cons for many a day. Finally one of them, smarter than the rest, proposed that they weigh the tub under the different conditions. This was done, and it was found that the tubs didn't weigh the same at all—that the difference between the two was exactly the weight of the fish. The King had been humbugging the learned men of England. This is just what Mr. Laurier is doing with the electorate of Canada. He is proposing to give us free trade and commercial reciprocity at the same time. After he gets into power, if he ever enjoys that distinction, he will reply to those asking for the fulfilment of his promises that reciprocity and free trade are inconsistent and that any fool might have known it.

THE PEOPLE WILL DECIDE

The Fire and Light Committee yesterday almost unanimously decided to leave to the people the decision of the question whether we shall light the streets of the city by contract or by the installation of a plant of our own. Within the course of a few weeks, if some unforseen and adverse circumstance does not arise, the people will have an opportunity of voting upon the question. The fact that the committee has recommended the taking of a vote is prima facie evidence that the committee favors civic ownership as against the contract system. The arguments that have been adduced up to date have apparently convinced the aldermen that the former is the better system. If the aldermen are convinced of the truth of this we feel pretty certain that the ratepayers at large are even more strongly convinced of the economy of municipal ownership. However, a vigorous fight will be made to have the contract awarded to an outside company. The Gas Company, the electric light companies and other similar corporations will use all the influence they possess to defeat the scheme of civic ownership, and when their combined power is brought to play it is no mean opposition the people will encounter.

THE SITUATION IN THE STATES.

Mr. J. Castell Hopkins is constantly before us by his articles in Canadian, American and British reviews, and we must say that they have a very high average merit and are well worthy of careful perusal. The last article of his that we have seen is in The Economic Review of London, and is entitled "The American Situation." It is a severe but trenchant criticism of the evils that effect the United States of to-day. We can do no more than recommend our readers to read the article for themselves. For those who are not able to do this, we simply give the opening paragraph, which outlines the evils complained of, and the concluding portion which is made up of suggestions in the way of remedies.

The evil of the situation is thus summarized:

"Englishmen would do well to watch closely the progress of events in the United States. He is the best friend of the great republic who at this juncture examines with care the grave defects in its constitution, the serious dangers which menace the maintenance of law and order, the causes which threaten to permanently undermine national confidence and commercial stability. At the present moment the cloud of depression which rests upon the land, the wave of passionate discontent sweeping over the surface of society, the low mumble of angry and suppressed masses of men, the persistent outbreaks of lynching lawlessness, the corruption so often seen in municipal, state and national politics, the opposing forces of plutocracy and organized labor, the ostracism and oppression of the negro and the distinct development of classes, the growth of socialism, anarchy and communistic principles—all combine to make this a most critical period in the evolution of American institutions and the hoped-for development of higher ideals amongst the American people."

The suggestion in the way of a remedy made by Mr. Hopkins are as follows:

1. A strengthening of the Federal power over the States in all matters affecting strikes, popular lawlessness, or the right to vote.

2. The election of the President for six years without the privilege of reelection.

3. Members of the cabinet to sit in the House of Representatives, and to be publicly responsible for the legislation which may be introduced by the party to which they belong.

4. A Senator to be allowed for each half million of people, and to be elected by manhood suffrage, in divisions to be made without reference to state lines.

5. The civil service appointments, including postmasters, etc., to be made for life or during good service, which in England and Canada are found to usually mean the same thing.

6. The judiciary, high or low, to be appointed by the Federal and State authorities, as the case may be, and for life.

7. The establishment of a uniform divorce law.

8. Goverment control of railway rates.

9. Limitation of the powers of organizations of capital and labor.

But, after all, the great and absolute need of the day is increased public respect for the law, and those who represent the law. First and foremmost the elective judiciary system must be destroyed root and branch, and all officials having charge of national institutions or connected with the carrying out of the law—judges, jailers, sheriffs, etc.—must receive appointment from and be responsible to the Government of the state. Until this is done, lawlessness will inevitably increase, and the mob, whenever it desires, will override the feeble instruments of justice, who owe their election and position to the very people against whom the law has to be enforced. Given this one reform, beside which all others sink into comparative, though not positive, insignificance, combined with a stronger measure of legal opposition to intimidation at the polls, and the foundations will have been laid for a better and brighter era of American development.

THE GOSPEL OF BETTER FARMING.

Not a bad kind of gospel to preach is that which the president of an American granger railway has lately taken up. It is the gospel of better farming. President Stickney of the Chicago Great Western Railroad, with a party of better farming evangelists, are traveling over that railway in a private car and stopping over at all the towns to address the farmers on the subject of improved farming. The gospel of these farm evangelists will be preached from one end of the line to the other. It is claimed that the 100,000,000 bushels of potatoes that are imported annually into the United States could be raised along the line of the railway, if the farmers only understood the proper rotation of crops and the best system of cultivation.

Trout Culture Near Toronto.

One of the most interesting industries of the present day is that of "trout raising." It is as yet comparatively new to us, but is making much more rapid strides than many are aware of. There certainly is no fish in the world more deserving of worship than the speckled trout. Living as he does only in the freshest and coldest of spring water, he is always without an equal, both for his gamey qualities and the excellence of his flesh.

There are at present three hatcheries near at hand, one being situated near the headwaters of the Credit River, and owned by Mr. Charles Wilmot; another near Newcastle, which Mr. C. Cockburn started last year, and the Silver Creek Trout Ponds, situated right in our midst, being only five miles from the corner of King and Yonge-streets, Toronto, and owned by Drs. F. J. Capon C. H. Riggs and David Chapman. Here, at this season of the year, you may see the little fellows hatching out every day in thousands, not much to look at, not even so large as the hook with which they will be caught, but wait a few months and they will be fish that none can despise, for they are fed three times a day, just as regularly as you are, and they seem to enjoy it quite as much. To give one an idea of the value of these little mites, Mr. Stone, United States Fish Commissioner, of California says that one hundred thousand, kept for thirty months, are worth thirty thousand dollars, which he considers a low estimate.

Anyone desiring to see how trout are raised will be shown through by the keeper of the Silver Creek Ponds at any time. At this hatchery the "German Brown" and "California Rainbow" trout are also raised. These two species often attain the weight of from seven to eight pounds, and are full of fight and flavor. These ponds are situated near Little York, not fifteen minutes' walk from the street railway.

Burns—Lepper

A quiet and unpretentious wedding ceremony was performed yesterday afternoon at the house of Mr. C. D. Daniel, 509 Ontario-street, when Miss Effie O. Burns was married to Mr. James A. Lepper of Lepper, Wilson & Ellwood, dry-goods merchants, Buffalo. The Rev. Dr. James Henderson of Sherbourne-street Methodist Church officiated. The bridesmaid was Miss Emma Boddy of Toronto, who is well known in musical circles, and a former member of the Metropolitan choir, and the groomsman, Mr. Arthur Nichol, Toronto. Among the friends of the contracting parties present were: Mr. and Mrs. Dagge, Toronto; Mr. Lepper, uncle of the groom; Mrs. Nichol, Mrs. K. F. Daniel and Mr. and Mrs. George Wright. The newly-married pair left to spend their honeymoon in touring the Eastern States.

No family living in a bilious country should be without Parmelee's Vegetable Pills. A few doses taken now and then will keep the Liver active, cleanse the stomach and bowels from all bilious matter and prevent ague. Mr. J. L. Price, Shoals, Martin Co., Ind., writes: "I have tried a box of Parmelee's Pills and find them the best medicine for Fever and Ague I have ever used."

The City's Assessment.

The Mayor yesterday received the final returns of the assessment for 1895. It shows gross assessment as returned by the assessors, $149,054,951; reductions by Court of Revision, $2,054,918; reductions by the County Judge, $661,349; leaving a net assessment of $146,338,684.

A NEW WHARF TO BE BUILT

ALL THE CITY WHARVES WILL BE LEASED FOR ONE YEAR.

Police Stations for the Island—Another Attempt to Secure Russell-Square—The Dog Bylaw—Dangers of Crowded Halls and Churches—Fire Escapes to Be Considered—The Waterfront Question.

To the Property Committee yesterday Judge McDougall and Chief Grasett, on behalf of the Police Commissioners, preferred three requests: 1. For the erection of a stable and shelter for a police wagon at Wilton-avenue station; 2, for an extra room at St. Andrew's station; and, 3, for a police station at the Island.

In reference to the last request it was stated that four or five constables are stationed there during summer months, and their board had to be paid by the city. Ald. Sheppard said if the city erected two lock-ups, one at Centre Island and the other at the western end, the city would save money. The commissioners will report at the next meeting on these three requests.

The City's Interest in the Waterfront.

Solicitor Jones, on behalf of a client, wished a lease of a portion of the water front west of Bay-street for dockage purposes.

Ald. Scott objected to entertaining any applications without information of parties interested and the objects sought. He would be chary of leasing water lots. Four years ago he brought a cargo of lumber from Georgian Bay to Toronto and could not for love or money find dockage.

Ald. Oliver said things were different now. Any amount of dockage could be had along the water front now. The council had frightened enterprise away; let them now reverse this policy.

Mr. Jones' application was referred to a sub-committee consisting of Ald. Scott, Saunders and Burns.

New Wharf at Bay-Street.

Commissioner Coatsworth recommended the erection of a wharf at the foot of Bay-street. This will have 200 feet frontage and extend out to the windmill line. There is adepth of 18 to 22 feet of water there. The cost would probably be $15,000 to $20,000.

The recommendation was adopted and the amount will be placed in the estimates.

It was resolved to advertise the letting of all the city wharves for one year from April 1 next.

The commissioner will investigate complaints of the unsanitary state of Brockavenue fire hall, also the requested use of city property at Dufferin and Kingstreets for a skating rink.

A letter was read from a ratepayer stating that if the civic restrictions as to dogs were carried out he would apply to the Provincial Government for a license. The chairman having stated that he thought there was too much interference with the liberty of dogs, the letter was ordered to be sent on to Council.

Russell-Square.

The question of the city's claim to Russell-square, on which the old Upper Canada College is situated, came up in a letter from the City Clerk in reference to the legislation the city is seeking.

Ald. Scott said the only way in which to test the city's claim would be to take possession. (Laughter.)

The Chairman remarked that, although the late City Counsel (Mr. Meredith) had reported adversely to the city's claim, prominent lawyers were of a different opinion.

A committee consisting of Ald. Sheppard, Scott and Oliver was appointed to confer with the City Solicitor and to report.

Overcrowded Halls.

The letter of the Chief of Police as to the need of powers for the prevention of blocking of aisles and stairways in public halls, as shown by the packed Laurier meeting in Massey Hall, led to discussion.

The Chairman said a bylaw would be necessary.

Ald. Sheppard said the law at present only prevented camp-stools, chairs and draw-seats being used in aisles.

Commissioner Coatsworth said he had recently furnished all churches and places of public entertainment with copies of the bylaw, with a request that the same be publicly exhibited.

Ald. Oliver instanced a place of entertainment on a fourth floor, which was regularly crowded and from which there could be no escape in case of fire. The law should provide for such.

The Commissioner agreed, stating such escapes were compulsory for licensed houses and factories under government inspection.

Ald. Davies, Sheppard, Oliver, the Commissioner and Chief of Fire Brigade will present a report on the whole subject.

The cost of a clock for Cowan-avenue Police Station will be placed in the estimates.

In the East End.

A well attended social in connection with Fifth-avenue Baptist congregation took place last night. Rev. P. Clifton Parker presided, and among others present were Mr., Mrs. and Miss Langley, Mr. and Mrs. Weston, Miss Zarfass, etc. Miss Morrison won great applause for her tasteful rendering of two songs, and Mr. Copeland was deservedly encored after his song in the second part of the evening's entertainment. Misses Tedd and Haining were successful in their readings, the latter especially in her amusing selection of "An eight-hours bill for women."

The Brotherhood of St. Andrew, belonging to St. Matthew's met yesterday evening in the vestry. There was a very good attendance, and arrangements were entered into for the anniversary gathering on March 23. Rev. J. Scott Howard, M.A., presided.

A concert took place in Broadview-avenue Congregational Church yesterday evening which was well attended. During the evening interesting addresses were delivered by Revs. Joseph Unsworth and J. P. Gerrie.

Mrs. W. F. Summerhayes presided yesterday afternoon over a large meeting of the ladies of St. Matthew's congregation belonging to the Women's Auxiliary of C.W.

Messrs. Northrup & Lyman Co. are the proprietors of Dr. Thomas' Eclectric Oil, which is now being sold in immense quantities throughout the Dominion. It is welcomed by the suffering invalid everywhere with emotions of delight, because it banishes pain and gives instant relief. This valuable specific for almost "every ill that flesh is heir to," is valued by the sufferer as more precious than gold. It is the elixir of life to many a wasted frame. To the farmer it is indispensable, and it should be in every house.

Dr. Gaul's "Una."

The Toronto Festival Chorus held their combined rehearsal last night and are making good progress towards the completion of "Una," which will be given March 7 in Massey Music Hall. Orchestra rehearsal Saturday night.

$7000 Worth of Diamonds By Auction.

Mr. Charles M. Henderson & Co. will sell to-morrow, Thursday, at 2.30 p.m., a very valuable collection of diamonds. We have no doubt this sale will attract a large number of buyers, as they will be sold without reserve. The sale takes place at Taggart & Co.'s, No. 89 King-street west.

The proprietors of Parmelee's Pills are constantly receiving letters similar to the following, which explains itself. Mr. John A. Beam, Waterloo, writes: "I never used any medicine that can equal Parmelee's Pills for Dyspepsia or Liver and Kidney Complaints. The relief experienced after using them was wonderful." As a safe family medicine Parmelee's Vegetable Pills can be given in all cases requiring a Cathartic.

WHAT THE PARKS COST.

Estimates Submitted Yesterday Exceed Fifty-Three Thousand Dollars.

Ald. Hallam presided yesterday at the meeting of the Parks and Gardens Committee. Tenders for the erection of an iron bridge at the Island were referred to the City Engineer for report.

Park Commissioner Chambers submitted his annual budget. He explained that the public parks of the city are largely maintained by the revenue derived from property deeded to the corporation by the Crown. This revenue now amounts to about $28,000 annually, and is steadily increasing, as new leases are granted, owing to the enhanced value of the property. Following are his estimates for the following year:

For Maintenance.

Queen's Park, $3000; Riverdale, $1250; jail section, $350; Horticultural Gardens, $4345; High Park, $3739; Island Park, $6015; Stanley, $585; Bellwoods, $704; Jesse Ketchum, $475; public squares, $1820; nursery, $350; office, $600; Commissioner, $1425; miscellaneous, $1000; Metropolitan Gardens and St. James'-square, $300; Total, $25,958.

For permanent improvements, $12,450 is put down, divided as follows: Riverdale, $1000; Horticultural Gardens, $1350; High Park, $2600; Island Park, $5400; Stanley, $500; Prince of Wales' Walk, $1400; nursery, $200.

The maintenance of Exhibition Park is placed at $10,348; painting, $2800; permanent improvements, $2055. Total $15,203.

The estimates were adopted by the committee.

London Gaiety Girl.

Next Monday evening Augustin Daly's "London Gaiety Girl" Company will open a two-nights' engagement at the Grand Opera House.

The Cantata "Una."

The cantata "Una," which is to be given in Toronto, March 7, at Massey Music Hall, was composed by Dr. Gaul of London, England. The Toronto Festival Chorus will evidently do it great justice, each rehearsal being more and more satisfactory, and the director being very much pleased with the progress made by orchestra and chorus alike. The instrumentation of this work is not only difficult, but exceedingly brilliant. It is safe to say "Una" is one of the leading cantatas of the present, and its favorable reception at Norwich will be endorsed in Toronto. The Angelus with bell accompaniment is most charming, and leaves a lasting impression upon its hearers. The introduction of "The Campanels" gives a most picturesque coloring to the whole. The enthusiasm which marked the performance at Norwich resulted in an ovation to Dr. Gaul, and we feel sure he would be as heartily appreciated here if he could be present on March 7, when the cantata is to be given by the Toronto Festival Chorus.

A Society Affair.

Under the patronage of His Honor the Lieutenant-Governor and Mrs. Kirkpatrick the ladies of the University are providing for their friends an evening's treat in the form of a musicale, to be given by the Yunck String Quartet in the hall of the Normal School on next Monday evening.

H. M. S. Pinafore.

St. Andrew's Hall was filled to overflowing last evening on the occasion of the second performance of the ever popular "Her Majesty's Ship Pinafore," by the same clever amateurs who lately gave "Trial by Jury." The opera was given in aid of S. Matthias' Sunday school, and was most successful, both artistically and financially. With a small, but excellent orchestra, under the able leadership of the Rev. F. G. Plummer, who played the piano, a well-balanced chorus, including several pretty girls and principals, who acquitted themselves remarkably well. A very satisfactory performance was given.

Henry George.

At the present time when problems most profound are puzzling the statesman, and in the presence of which the ordinary man stands dumbfounded, the circulation of this eloquent plea for the study of the science which must give the answer to these problems, is certain to result in much good. Political economy as taught by the disciples of Malthus is indeed repulsive, but in the hands of Henry George it is transformed into a message of love and brotherhood.—Colorado Catholic.

No one should miss hearing Henry George Friday evening in Massey Hall. Plan of seats now open at Hall.

Provincial Land Surveyors

At the Canadian Institute yesterday the Association of Ontario Land Surveyors commenced their third annual meeting, which is also the tenth annual meeting of the Association of Provincial Land Surveyors of Ontario. The report of the secretary-treasurer, V. Sankey, O.L.S., chairman, Toronto, showed the finances of the association to be in good condition. President M. J. Butler delivered an address and papers were read by D. D. James, Toronto; C. C. Fairchild, Brantford, and Otto J. Klotz, Ottawa. At the evening session interesting papers were read by J. F. Whitson, Toronto; Willis Chapman, Toronto; L. B. Stewart, Toronto and W. A. Browne, Toronto. The meeting adjourned until 10 o'clock this morning.

Dropped in for a Drink.

James Tumlenn, an employe of Messrs. Macon & Thompson, Duke-street, was yesterday evening driving a horse and sleigh near Government House. Suddenly the horse took fright and bolted furiously down King-street, banging the sleigh against a lamp-post and curb-stone and reducing it to a useless condition. The driver jumped out when near the Academy, fortunately escaping without injury. The horse continued his headlong course to the corner of York-street, when he slowed up and walked into the Metropole Hotel. The animal is the property of James Scanlon.

Must Be Kept Up to Its Present Standard

It was practically settled by the Police Commissioners yesterday that the force must not be reduced below the present number. All vacancies occurring during the current year will be filled. The estimates will be considered when the board meets to-day. P.C. Lillburn was given two months' leave of absence. Lillburn intends making a visit to Ireland.

There are cases of consumption so far advanced that Bickle's Anti-Consumptive Syrup will not cure, but none so bad that it will not give relief. For coughs, colds and all affections of the throat, lungs and chest, it is a specific which has never been known to fail. It promotes a free and easy expectoration, thereby removing the phlegm, and gives the diseased parts a chance to heal.

Wabash Railroad Company.

If you are contemplating a trip to California, Mexico or any point South, please consider the merits of the only true Southern route. Every morning at 10.50 a.m. the California special starts on its flight towards the land of the setting sun, passing through St. Louis and over the great Iron Mountain route.

Palace sleeping cars to the gateway of Old Mexico, tourist sleepers to Los Angelos and San Francisco without change. No delays from snow blockades. June weather all the way. Ask your nearest ticket agent for tickets and maps of this great railway, or write to J. A. Richardson, Canadian Passenger Agent, northeast corner King and Yonge-streets, Toronto.

Valuable Furniture By Auction This Day

A very valuable assortment of household furniture, carpets, linens, etc., will take place this morning at 11 o'clock at C. M. Henderson & Co.'s, 167 Yonge-street. Parties furnishing will do well to attend this sale. Mr. Charles M. Henderson will conduct the sale.

TECHNICAL SCHOOL BOARD.

Various Sites Suggested for the Proposed New Quarters.

Chairman Orr presided at last night's meeting of the Technical School Board. Secretary Horwood presented the estimates for the present year, amounting to $9875. The assets are $4435, an increase of $1372 over last year. The estimates were laid on the table until the next meeting of the board, with an addition of $200 for extra rent. The Property Committee's report brought up the question of permanent quarters. Mr. Polson stated that a purchase of the old Wycliffe College building was practically not feasible. Others urged that so long as the school lacked permanent quarters it could not have its proper status as an educational institution. The committee will inspect St. Andrew's Hall, which the city has proferred, but it is thought to fall somewhat short of the requirements. St. Lawrence Hall was reported to be altogether too small. The Christian Institute Building in Richmond-street is considered a favorable site, and will be considered. The Upper Canada College building will also be reported on.

To Anyone Who Tries Dr. Chase's Ointment for Itchy Piles
Saying It Will Not Cure or Relieve.
Itching piles is an exceedingly painful and annoying affliction, found alike in the rich and poor, male and female. The principal symptoms are a severe itching, which is worse at night when the sufferer becomes warm in bed. So terrible is the itching that frequently it is impossible to procure sleep. Often the sufferer unconsciously during sleep scratches the parts until they are sore, ulcers and tumors form, excessive moisture is exuded. Females are peculiarly affected from this disease, causing unbearable irritation and trouble. These and every other symptom of Itching Piles or irritation in any part of the body are immediately allayed and quickly cured by Chase's Ointment. It will instantly stop itching, heal the sores and ulcers, dry up the moisture.
Price 60 cents, of dealers; or by mail by addressing,
EDMANSON, BATES & CO., 45 Lombard-street, Toronto.

DICKSON & TOWNSEND
TELEPHONE 2072
JUDICIAL Sale of Property on Scollard-street, near Yonge-street, Toronto.
Pursuant to an order of the Chancery Division of the High Court of Justice in a certain action of Hugill v. Crapper, and with the approbation of Neil McLean, Esquire, Official Referee, there will be offered for sale at public auction by Messrs. Dickson & Townsend at Number 22, King-street west, Toronto, at the hour of 12 o'clock, noon, on Saturday the 2nd day of March, A.D., 1895, the following property in one parcel and subject to a reserve bid, lots Numbers 25 and 26 on the south side of Scollard-street, according to plan Number 179, Yorkville, registered in the registry office for the said city, the said lots each having a frontage of twenty-five feet by a depth of eighty-three feet. On this property are erected a pair of semi-detached brick dwelling houses, known as street numbers 67 and 69 Scollard-street. In case the reserve bid is not reached, each house will be offered for sale in a separate parcel subject to a reserve bid.
TERMS OF SALE: Ten per cent. of the purchase money is to be paid at the time of the sale to the Vendor's or their solicitors, and the balance in thirty days thereafter, without interest, into court to the credit of this matter. The other terms and conditions of sale are the standing conditions of Court.
For further particulars and conditions of sale apply to GEORGE H. KILMER, Vendors' Solicitor.
Dated at Toronto this 13th day of February, 1895.
Neil McLean, Official Referee. 633
