HAMILTON NEWS

BUSINESS OF PARKS BOARD

Offer of St. Patrick's Church Declined Because of the Expense of Keeping Grounds in Order.

LOW OFFER MADE FOR LIGHTING.

Hamilton, April 10.—(Special.)—The Parks Board met this afternoon and adopted the reports of the committees.

It was decided not to accept the offer of the property adjoining St. Patrick's Church, as it would entail a considerable expenditure. The priest of the parish offered the property free for five years.

It was decided also to plant 200 trees in Victoria Park, and to make some changes in the driveway.

The City Engineer will be notified to instruct T. M. Williamson, Wellington-st., to remove a foot-path which he has constructed in an alley in the rear of Wellington Park.

An offer to light the parks at much lower prices than the Electric Light Company did last year was received, and it was decided to have three lights put in Dundurn Park on trial. Last season the Electric Light Company charged the board a higher rate for four hours' service than was charged the city for all night service. The Electric Light Company offered to give the board the same rate now, providing a contract for eight years is signed.

Rev. J. L. Gilmour Resigns.

At the close of the prayer meeting in the James-street Baptist Church to-night, Rev. J. L. Gilmour tendered his resignation, and intimated that he felt it is his duty to accept the call to Olivette Church, Montreal. The resignation was not accepted. Action was deferred till Sunday. Rev. Mr. Gilmour asked that his resignation take place May 1. Among those who spoke expressing regret at his intended departure were W. J. Copp, C. W. Bradfield, Henry New.

Cases at the Assizes.

At the Assizes this morning Justice MacMahon dismissed the application for a nonsuit in Fallis v. Gartshore, and the case went to the jurors at noon. They were out over three hours, and brought in a verdict for the plaintiff for $400 and costs.

John Ainsborough and Arthur Bradford were arraigned, and pleaded not guilty to several charges of rape, indecent assault and assault. Their trial was set for 9.30 o'clock to-morrow morning.

The action of Watt v. Gibson, in which Jacob Watt, this city, sued William Gibson, ex-M.P., of Beamsville, for $2000, for injuries caused thru the fall of a derrick at Beamsville last February, was settled out of court. Watt receives $250.

Potter v. Marshall, an action brought by Joseph Potter against ex-Warden Marshal for $1000, for injuries caused by plaintiff's horse shying at a pile of wood left on the roadside by the plaintiff, was next taken up.

A Meeting for Naught.

A meeting of the City Baseball League was held to-night, but no business was transacted, as all of the representatives were not present.

Children's Aid.

A meeting in the interests of the Children's Aid Society was held in the Y.M.C.A. parlor this afternoon. Among those who spoke were J. J. Kelso, Toronto, Adam Brown, William Hunter and Mrs. Urquhart.

Police Points.

At the Police Court this morning Herbert Ridler was found guilty on a charge of stealing pigeons from Richard Allan. He was allowed to go on suspended sentence. This was Allan's first appearance in public since he was palmed off on the Farringdon Club of Brantford as a knight.

John Urick and Arthur Weeks got judgment for $14.70 and $22.40 respectively for wages. John White, at one time a big cigar manufacturer, was the defendant, and he did not appear in court, altho summoned.

Eccentric Water Committee.

When the Fire and Water Committee gets back to where it was in former years in regard to water rates on churches, it will not have got thru with its troubles, by any means. As a result of its instructions, waterworks accounts have been sent to the Wentworth and Ferguson-avenue sewage disposal works, to the Fire Department, for rates on all the fire stations of the city, to the Board of Works for its city property, and to every other department, as well as to the Board of Education for all the city schools. The City Hall alone escapes.

Some Small Paragraphs.

A post card was received here to-day from Mrs. T. H. Tuckett-Lawry. It was dated at San Diego Beach, Cal. The writer said she and her children were in good health and were leaving for San Francisco. No reference is made in the card to Mr. Lawry, who has been missing for two weeks.

George Bell, Toronto, the well-known dog judge, is in the city to-day, the guest of Rev. Father Geoghegan.

Francis W. Plummer, Catharine-street, died unexpectedly last night. He was 62 years of age.

THE COOK CHARGES.

Senate Committee of Investigation Will Resume Next Week.

Ottawa, April 10.—(Special.)—The Senate Committee on the Cook charges will not meet until next week.

Hon. George H. Murray, Premier of Nova Scotia, has arrived in the Capital to confer with the Government on Provincial matters.

Art in Piano Cases.

The new art pianos that the old firm of Heintzman & Co. are placing on the market meet a very pressing call from many of the best people in all parts of the Dominion. The cases are of the antique or olden style—Colonial, Chippendale, Empire, Sheraton, Henri—and are built to conform with the surroundings, appointments and architecture of the home. Mr. Heintzman reports that the firm are busy with many special orders for these pianos from prominent citizens in Toronto, Ottawa, Montreal and other centres.

Service of Praise.

An enjoyable service of praise was given Tuesday evening by the choir of College-street Presbyterian Church, assisted by Mrs. H. W. Parker, soprano; Miss J. McNab, mezzo-soprano, and Mr. Oscar Wenborne, baritone. Rev. John Neil of Westminster Church gave a stirring address during the evening, "The Service of Praise in the Sanctuary." The choir, now numbering nearly 50 voices, under the leadership of Mr. Arthur H. Greene, organist, sang Simper's Easter anthem, "King of Kings," and several other selections in good style. There was a large congregation present.

An Electric Light Squabble.

Several St. Catharines litigants are here in regard to a squabble between two factions of the Electric Light Company of that city. Mr. George Burch and others, representing one faction, will apply for an injunction at Osgoode Hall to-day to restrain Mr. Nihan and his supporters from carrying on the business of the company. Mr. Burch will be represented by A. B. Aylesworth, K.C. The trouble has been brewing for about a month, and there are two Boards of Directors, each trying to make the St. Catharines light takers believe that the other fellows are up against the real thing.

Col. Tilton Will Command.

Ottawa, April 10.—(Special.)—Lt.-Col. Tilton will command this year's Bisley team.

CONDITIONS

Competition for cheapness alone—and not for excellence of workmanship—is a race that we do not care to enter. The prize isn't alluring.

We will do the best dental work that skill — experience — and superior facilities make possible.

We will charge as little as—often less than—you will be asked to pay for much cheaper work. That's all.

DR. G. F. KNIGHT, Prop. TORONTO

Public Amusements

"A Pair of Specs."

"A Pair of Spectacles" was presented by John Hare and his excellent company yesterday afternoon at the Grand. The play is a comedy of wholesome life, by Sydney Grundy, a London barrister, who has written 53 plays and is 53 years of age. Mr. Hare has been seen before in Toronto as Ben Goldfinch, and has indelibly impressed the happy character on Toronto's theatregoers. It is sufficient to say that the old cunning has not departed from him, and that yesterday afternoon's presentation will not be the least pleasant memory he will leave behind when he bids America adieu. As Ben Goldfinch, the actor sits enthroned in many minds as a sort of deity whom they appeal to when happy days need recalling.

West's Minstrels Coming.

When the William H. West Big Jubilee minstrels make their appearance in this city at the Toronto Opera House on Monday, theatre-goers will be given an opportunity to witness a minstrel performance the equal of which, from an artistic, comedy and vocal standpoint, has rarely been seen in this country. It includes such famous performers as Billy Emerson, Billy Van, Ernest Tenny, Raymond Teal and Charles Whalen, a quartet of fun-makers hard to excel. The list of singers is headed by the world's greatest contra-tenor, R. J. Jose, and includes Manuel Remain, John P. Rodgers, W. H. Hallett and others of note. The olio presents a series of acts of pronounced fame, including Billy Van, the great Rio Brothers, Waterbury Brothers and Tenny, the De Elmar Trio, and Teal and Whalen. One of the big features with the show this season is the monster spectacular street parade, introducing some novel ideas, never before attempted by any other minstrel company.

Frederick Warde's Engagement.

It is believed that the coming production of "The Duke's Jester," at the Grand Opera House next week, will be the feature of this year's dramatic attractions. The play was written especially for Mr. Frederick Warde and the Brune company, and was originally produced at Seattle the latter part of last season. The plot deals with the life of a court jester, and is full of such instances and amusing situations as might occur in the daily life of a fool. The play has been heartily received thruout the country. Mr. and Mrs. Spencer, two well-known stars, have won great praise for their share of the entertainment. The play will be staged with all the elaborate completeness characteristic of Mr. Warde's productions.

An Excellent Concert.

Miss Saxton and her Toronto pupils appear to-night in St. George's Hall. Miss Saxton will recite with music from Henry, Before Agincourt, and Harfleur, Shakespeare's immortal tribute to the valor of the English Soldiers, and as Elizabeth in Mary Stuart, in the garden scene, and sign the death warrant of Mary, Queen of Scots. Miss Blanche Devolla Loraine Lovelace and Mr. J. B. Wilson received loud and long applause in a scene from Ingomar, in Town Hall, Newmarket, Tuesday evening last, when Miss Saxton gave a recital for the benefit of the Public Library Fund. New costumes have been made by Mme. McKenna for this occasion.

At the Princess.

Next week the Valentine Company will present a melodrama of striking merit under the title of "Woman Against Woman." The play achieved great vogue during the several years it was offered as a road attraction, and since the inception of the stock company system it has proved one of the notable successes in its line, the story being constructed in such a way that there are half a dozen very strong characters, thereby giving all of the principal artists in stock companies roles of importance. "Woman Against Woman" teems with strong situations and effective climaxes, and it also has a vein of comedy that lends added charm. The Valentine Company will make a handsome scenic production of the play and, in addition to all of the regular members of the organization, the cast will include Mr. Harry Glazier, a big local favorite. Mr. Glazier has just concluded his second tour as a star and met with such splendid success that his connection with the Valentine Company is sure to add materially to the strength of the already efficient organization. "Uncle Tom's Cabin" is proving the best drawing card of the season at the Princess this week. There will be a matinee to-day.

The Henschels To-Night.

This evening at Massey Music Hall Mr. and Mrs. Georg Henschel, the greatest artistic interpreters of vocal music of the present day, who have been the musical success of the season, in America, will make their final appearance in this city. Speaking of them a well-known American critic says: "Mrs. Henschel's voice production is a lesson in the art of song, and her phrasing is so beautiful that it is difficult to find its equal on the stage to-day. There is certainly none superior to it. Her singing is to-day as it has been for some years, the perfection of refinement. And then what can be more restful than the bewitching grace of Mrs. Henschel's style?"

"The Great Lafayette" Coming.

"The Great Lafayette," who will be seen at the head of his own traveling company of vaudeville celebrities, at Shea's next week, is a very clever mimic and pantomimist, but he does not believe much in patter, but relies on his amusing acting and his surprising dexterity and suddenness—in fact, he is so exceedingly sudden that the audience often fail to grasp one of his tricks until some seconds after it has been performed. Lafayette was seen at this theatre earlier in the season, and at that time created a furore. Lafayette brings with him many acts new to Toronto theatre-goers, among whom are James J. Morton, a great favorite here, and the originator of rag-time singing. A late foreign comedy sensation will be shown by Kelly and Ashby, who are the originators of the Bounding Billiard Table. Stine and Evans will present their new comedy, "Wanted, a Divorce." Bert Howard and Leona Bland, in "A Strange Boy." Others are Smith, Doty and Coe, musical comedians, Maud Meredith, vocalist, and the Farleys, singers and dancers.

For the Horse Show.

His Excellency the Governor-General telegraphed yesterday to Mr. Beardmore, chairman of the Canadian Horse Show, that he will be present on Friday and Saturday, the last two days of the show. On Friday the Governor-General's prize will be competed for, and word was received from the Hon. Sydney Fisher yesterday that he would give a second prize of $20, which he gave personally, on account of his interest in the show. H.M.S. Charybdis, from which the detail of seamen will come to present their interesting manoeuvres, has arrived at Halifax, and arrangements are now under way for their reception and visit to Toronto.

The entries to the Horse Show close today, and the public are reminded that the sale of boxes will take place at the Publishers' Syndicate, 7 East King-street, on Wednesday morning next, at 11 o'clock.

"The Gondoliers."

That pretty comic opera of the late Sir Arthur Sullivan, "The Gondoliers," will be produced by the Young People's Harmony Club, supported by well-known professional talent in the leading roles, in the Grand Opera House on the 25th, 26th and 27th of this month. There will be no expense spared to produce it in all the brilliance and dash that is necessary in comic opera work. Over $2000 is being spent on stage dressings alone. The chorus is 100 strong, under the conductorship of Mr. Adam Dockray, and the principal roles will be played by Miss Theresa Rolleri, Miss Mabel Glover, Miss Cecilia Rolleri, Miss Margaret George, Edward Beech, Cecil Elliott and Corney Meehan. The public will remember that the same club produced "The Chimes of Normandy" last year. The performance this year is given for the special benefit of the soldiers' memorial fund, and it is under the personal supervision and management of Miss Theresa Rolleri, who has shown wonderful ability in this line.

TEACHERS ELECT OFFICERS

All the Various and Manifold Departments Did Good Work Yesterday.

MANUAL TRAINING IN THE EVENING.

Professor Robertson Says the System Will Teach Common Sense First of All.

Business was the rule with every section of the Teachers' Association at their second session yesterday. Besides the election of officers for the ensuing year, papers of appropriate technical or literary interest took up the time of all the branches.

Of general importance, however, is the emphatic rejection by the Trustees' Department of Mr. Lawrence Baldwin's Voluntary school project. The terse remarks of Prof. J. W. Robertson on "Manual Training" before the general association in the evening are also of great value, as emphasizing the present tendency towards a more practical and less learned educational system.

Trustees' Department.

The election of officers for the ensuing year resulted as follows: President, John A. Leitch of Brantford; 1st vice-president, John Anderson of Arthur; 2nd vice-president, W. J. Kidd, B.A., Ottawa; secretary-treasurer, George A. Aylesworth of Newburgh; Executive Committee, Rev. Mr. Crawford, Niagara Falls; Dr. R. B. Bray, Chatham; R. McKnight, Owen Sound; Rev. Mr. Walsh, Brampton; P. Christie, Manchester; J. C. Rogers, Hawkesbury; J. S. McCallum, Smith's Falls; Dr. Wood, Kirkfield.

A resolution was adopted that all promotions in both Public and High schools should be arranged by the teachers themselves upon such examinations as they may deem advisable.

They followed up the recommendation of the Public School Department on Tuesday by adopting a resolution that no minor should hereafter receive a professional certificate, and urged upon the Minister of Education to give the matter his immediate consideration.

J. H. Burritt strongly condemned the movement to introduce voluntary Public schools. He held that these schools would break up the Public school system and divide the community into various hostile camps. State aid would not be granted.

Mr. Lawrence Baldwin urged that the question he held over till this morning. He defended voluntary schools, of which he is a leading promoter. Eventually, Mr. Baldwin's plan of voluntary schools was defeated by a considerable majority.

Dr. Noble smashed into the High School system. He condemned it on account of its lack of practical teaching and its encouragement of idealistic tendencies. He wanted the Public schools to teach agriculture, mineralogy, forestry, etc., and the elementary principles of commercial education.

The subject was discussed and a resolution adopted that these subjects, and also manual training and domestic science, be given more attention in the general educational system.

Mr. John B. Dow of Whitby introduced the subject of modern languages in the Public schools. A resolution was adopted that such instruction be optional.

Public School Department.

A resolution, introduced by Mr. McAllister, was unanimously carried that the metric system of weights and measures be made a part of the Public school curriculum. President E. I. Young of Hamilton spoke on "Optimistics v. Pessimistics." Election of officers: President, W. F. Moore; vice-president, E. W. Bruce; secretary, C. J. Fraser; treasurer, Mr. Gray; director, William Linton; councillors, Messrs. Young, Spence and Taylor.

Inspectors' Department.

In the Inspectors' Department, Mr. J. J. Tilley, inspector of Model Schools, read a paper on "County Model Schools." He recommended that the training term of teachers be lengthened; that grants and fees be increased, and that the course be broadened.

The following officers were elected: Chairman, T. A. Craig; secretary, Robert Park; director, R. H. Cowley.

Mr. William Johnston, M. A., discussed the reason for the poor remuneration of Public school inspectors. Sufficient effort had not been made by the inspectors to increase their incomes, to keep up the increased cost of living. He recommended that inspectors be appointed by the Minister of Education.

Modern Language Section.

The meeting was chiefly of a literary character. Papers were read on "Chaucer," "George Meredith," "Stephen Phillips," "Edmund Rostand" and "Hermann Sudermann," by R. B. Page, Mrs. L. R. Sykes, G. M. Jones, Miss Alice Willson, Miss L. L. Jones respectively. An interesting article on "Church Architecture in Northern France" was contributed by Prof. J. Squair. Mrs. Sykes' paper was read in her absence by Mr. J. H. Cameron.

Classical Section.

In the classical section, Mr. C. S. Kerr read a paper on "Greek in the High Schools," showing how the demand for a more practical education had crowded Greek out of the curriculum. He laid emphasis on the idea that the most important side of education is not the materialistic, but the humanistic.

Papers of excellent literary value were read on "Tiberius," by C. V. Bennett, and "Browning's Portrayal of the Greeks," by M. Hutton.

Training Department.

"Sexless Schools" was the title of a paper by S. Silcox, read before the members of the Training Department. He argued that a consideration of the distinctions of sex from the standpoint of natural science should lead teachers to aim at maintaining and increasing these distinctions, in order to secure the best educational results. The disregard of this made schools sexless.

Another feature in which schools were becoming sexless was in the matter of teachers. The number of male teachers in Canada was very small, and was yearly becoming smaller. It was desirable that there should be more male teachers, especially in the education of boys above the age of 12. At present nearly all the boys in the cities and towns never came under the direct influence of a male teacher. How could they be prepared to do a man's work? Now, in Germany, for instance, 90 per cent. of the teachers were men, while in Scotland 90 per cent. were men.

Kindergarten Department.

What child study has done for the teaching world, was the subject of Mrs. W. Scott's paper. Miss Duff gave a talk on some new symbolic games. Afterwards she led the games, assisted by Mrs. Hughes and a number of the younger ladies who were present at the convention.

A Joint Meeting.

A packed room again greeted the joint meeting of the Inspectors', Public School and Training Departments in the afternoon.

Dr. McLellan spoke upon "The Ethical Content of Literature and How to Make the Most of It."

The question was dealt with at great length and with ample illustration from prose and poetry.

Mr. W. F. Moor introduced the question of Public School text books, holding that they should be prepared by teachers, who have a knowledge of child-psychology.

Books might be written on the competition plan, and a generous prize given for the best.

Historical Section.

Election of officers: President, A. C. Casselman; vice-president, Rev. O. Rigby; secretary-treasurer, J. S. Carstairs; committee, W. S. Milner, Adam Carruthers, Adam Shortt, G. M. Wrong, William Houston, W. C. Mitchell, Miss Nellie Spence, Miss Alice Kelso, Miss Janet Carmichael.

Rev. Oswald Rigby read a paper, which was highly appreciated, upon "King Alfred."

Mr. J. S. Carstairs spoke upon "The Culture Value of History;" Mr. William Houston on "The Quebec Act, 1774." Mr. W.

Mathematical and Physical Section.

The first business of the mathematical and physical section was the election of officers for the following year:

Hon. president, R. A. Gray; president, J. J. Birchard; vice-president, R. Gourlay; secretary-treasurer, H. S. Robertson; councillors, A. T. DeLury, J. T. Crawford, W. Gowanlock, T. Murray, C. L. Crassweller, S. Martin, W. E. Rand, R. A. Thompson.

Mathematical papers were read by J. T. Crawford, J. C. Glashan, C. Fessenden and Dr. J. J. Birchard.

The afternoon session was taken up with an illustrated lecture in the physical laboratory of the university, given by Dr. J. C. McLennan before a joint meeting of this section and the natural science section.

General Association.

A large attendance was present at the meeting of the general association in the evening. Mrs. A. M. Hughes presided.

On the platform were Prof. J. W. Robertson, R. W. Dean, R. H. Knowles.

After Rev. Mr. McKee had conducted the devotional service, Prof. J. W. Robertson spoke on "Manual Training."

He contended that manual training was a necessary part of all education. It was not for the sake of the object constructed, but for the educational value of such training. Children love to do, not to listen. The kindergarten recognizes this.

To introduce the new manual training system teachers were already being schooled in Ottawa. The system would teach first and foremost common sense, a subject which unfortunately had no place on the present curriculum.

Mr. R. H. Knowles read a delightful paper reminiscent of his past teaching experiences.

Then followed the election of officers, which resulted as follows:

President, John Henderson, St. Catharines; secretary, R. W. Doan, Toronto; treasurer, W. J. Hendry, Toronto.

A resolution was enthusiastically carried to the effect that some scheme of superannuation, under control of the Department of Education, be adopted. It will be brought to the notice of the Minister of Education.

Major Manley wished to have the general meetings assume the form of a conversazione, instead of the present intellectual gatherings.

A somewhat acrimonious discussion followed, the decision of the meeting going against Major Manley's resolution.

The books of the treasurer show a balance on hand of $395.53.

The meeting of the general association to-morrow night is of particular importance. The much-talked-of report on the "Preparation of Teachers" will be discussed.

COMES FROM BRAIN.

Phosphates Found on the Skin and Thrown Out From Pores.

We know that active brain work throws out the phosphate of potash, for this product is found on the skin after excessive brain work; therefore, brain workers, in order to keep well, must have proper food, containing phosphate of potash, to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proven in thousands of cases among users of Grape-Nuts Food.

This contains phosphate of potash in minute particles, just as it is furnished by nature in the grains.

This product makes from albumen the grey matter that builds the brain and fills the nerve centres.

In no way can this grey matter be made except by the action of phosphate of potash upon albumen, and this mineral should be introduced to the body just as it comes from Nature's laboratory, and not from the drug store. The system is more or less fastidious about taking up the needed elements, and, as might be suspected, it will favor the products of Mother Nature rather than the products of the drug shop, however valuable the last may be for certain uses.

Lawyers, journalists, doctors, ministers, business men and others, who earn their living by the use of the brain, are using Grape-Nuts Food. It is manufactured for a reason, and was originated by an expert. The regenerative value of the Food has been demonstrated beyond question.

A LEATHER TEST.

AIR tight leathers cause foot trouble!

Mineral tannages, produce sweaty, tender, irritated feet.

And so there appears as a substitute, several "Vegetable tannages."

These are claimed to be porous.

But none of them are proven porous.

Their makers merely theorize about porosity.

And people don't need to buy theories when they can have proofs at the same cost.

There is but one leather—"Normal Calf"—which volunteers the test pictured here, because only this one leather is sufficiently open pored—sweat dispelling.

If it be not as porous as cloth, how could ordinary gas pass through it, and burn as freely as though no leather intervened?

This test may be seen at any Slater Shoe Agency.

"Normal Calf" is cool, clean, light and brilliant, —the ideal summer leather.

To be had only in that Goodyear Welted symbol of progress.—

"The Slater Shoe"

TWO MEN BURNED TO DEATH.

Fraser Steamer Royal City, Owned in New Westminster, B.C., Was Destroyed By Fire.

Vancouver, April 10.—The Fraser passenger steamer, Royal City, of New Westminster, was burned at Mission wharf this morning, two of the sailors, Paul Peter of Hammond and F. Edwards of Hatzic, perishing in the flames. The steamer, which was valued at $15,000, was partly insured. She was owned by West Brothers of New Westminster.

Yesterday the British ship Falls of Garry, 1971 tons, loading lumber at this port, caught fire. The German ship Autuco, which was alongside, was also in danger. The prompt and efficient work of the firemen, aided by the ship's crew, however, enabled the flames to be extinguished and damage confined to a small portion of the first-named vessel.

ST. KITTS ELECTRIC CAR BURNED.

Niagara Central Loses One of Its Handsome Cars—Close Connections for the Pan-Am.

St. Catharines, April 10.—Between 2 and 3 o'clock this morning fire destroyed one of the handsome new cars of the N. St. C. & T. Railway in the company's yards here. The night watchman discovered the fire in time to save the car, but instead of turning in an alarm he ran for the telephone to call up the company's manager, and before the brigade arrived the super-structure was completely destroyed. The cause of the fire is unknown.

It is reported that the Niagara Central are making arrangements for close connections with the Erie Railway at Niagara Falls during the Pan-American, by which the time consumed between this city and Buffalo will be reduced to one hour and a half. There will be thru cars from Port Dalhousie to the Falls. The company to-day put on five new cars for the local traffic between St. Catharines and Port Dalhousie.
