Surveys of the Isthmus of Darien—The results of the recent surveys of the Isthmus, undertaken by the United States Government, with a view to the construction of a ship canal between the Atlantic and Pacific, show that a tunnel ten miles long, and high enough to accommodate the mass of ships, would be required. The expense is regarded as too great to warrant the undertaking. Further surveys towards the south are yet to be made.

The Saving of Life.

Among all the maladies incident to the varied change of climates, there is nothing so much affected as the Liver. This fact has been highly indorsed for ages. To overcome the many impurities which weigh upon it in divers ways, and particularly upon divers occasions so as to produce no disastrous ulterior consequences, has been the one great study of Dr Radway, for the last half century. Yearsago he triumphant by conquered, and made good the secret to the Public, by introducing (by absolute unadulteration) *Radway's Regulating Pills*. For a disorder of body, with its diseased functions in effecting acure and speedy cure these Pills known world-wide as "The Great Purgative," differ essentially from all other cathartics. They save life from being sacrificed by delay, reinforce so soothingly a feeble system, overcoming Indigestion, by regulating the Liver, and make matter inoperative, operative. The causes of Digestion are made right; the various kinds of Fevers are prevented to absorb life, and, in their prostrations, are mild while acting upon the secretive organs. They make themselves the patient's favorite. No pain or prostration, for, as an alterative, a general laxative causes Their exterior beauty consists in being tasteless (covered with sweet gum), therefore, never sicken or gripe; a vegetable compound free from salivating and corrosive properties. For Biliousness, Loss of Appetite, Cutaneous and Ulcerous Diseases, Nervous Debility, General Prostration, Headache, Typhoid and other malignant Fevers, Bilious Colic, Diarrhea, Dysentery, Fever and Ague, with other ailments, these Pills, by uniform experience, are generally regarded as the only medicinal preparation worthy of that serious attention which they have uniformly received.

Hypochondriasis is one of the most difficult to treat successfully of all nervous diseases. Reasoning with nervous or hypochondriacal and insane persons rarely proves serviceable. The mind cannot be overcome while the nervous system is irritable. In many instances the derisive laugh at the unfortunate, or the more temperate appeal to the reason, is absolutely injurious by exciting further irritation in the mind of the sufferer who thinks his advisers either unfeeling or in conclusion towards his complaint. Under the use of Fellows' Compound Syrup of Hypophosphites, there is no longer necessity of resorting to such treatment.

Price $1 50 a bottle, 6 for $7 50. Sold by apothecaries and by F. Cundill & Co., wholesale agents Montreal.

At a Public Meeting held in Buffalo, a few days since Ex President Fillmore is reported to have said, that he would do nothing to excite the ire or provoke the hostility of his Canadian neighbours, they were a worthy people, and were for the most part friendly, an immediate outbreak was not to be anticipated, but he would advise his fellow citizens to heed the lesson which history had taught all nations, 'In time of peace prepare for war,' hence it would be well to have our Northern frontiers well fortified.

Is not this a lesson to us to fortify our Southern frontiers? and while doing so would it not be well to fortify ourselves against the attacks of rheumatism, coughs, colds, heart complaints and all other diseases incident to this climate by keeping ourselves with the "Canadian Pain Destroyer"? Can be had of any Medicine Dealer at 25cts per bottle.

MONEY TO LEND

ON EASY TERMS

(INCORPORATED) THE (A. D. 1864)

HURON & ERIE SAVINGS & LOAN SOCIETY.

CAPITAL, - - - - $700,000.

THIS SOCIETY ADVANCES MONEY ON SECURITY of Real Estate, and on Terms very favorable to borrowers.

NO LAWYERS' COSTS ARE CHARGED.

The Society pays its Solicitor's charges. Any sum of money, from $200 upwards, is lent for any number of years, from one to fifteen. Money may be obtained at any time with little or no delay beyond the time occupied in investigating the title and preparing the Mortgage, the cost of which is paid by the Society. The full amount of the loan is advanced—no deduction being made for commission or other charges, which often add so materially to the cost of a loan from other Societies or from individuals. The borrower can repay his loan by yearly, half-yearly, or monthly payments. The periodical instalments include, besides interest, a small sum for principal, and they are so divided that by their payment the debt is entirely extinguished, and the mortgage discharged at the end of the time stipulated.

EXAMPLE.—A Borrower obtains $500 for 15 years; he pays $36.70 each year, and at the end of the time his Mortgage is paid off. The rapidly increasing business of this Society is the best indication of the favor with which it is regarded by the farming community, and its popularity will become greater as the merits of the system of lending become better known and understood. By the small payments of principal included in the yearly instalment, the borrower gradually, and without trouble, pays off his loan—thus avoiding the risk of losing his property, which is often happens when the principal falls due in a large sum at the end of the term. He can, at any time, pay off his loan in advance on favorable terms (which can be settled at any monthly meeting by the Directors, on the application of the borrower,) and interest at six per cent. per annum will be allowed on all payments in advance.

Full particulars and loan table may be obtained at the Society's Office, or by letter postpaid, addressed to the Secretary, or from any of the Society's valuators.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this unrivalled remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most efficient remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed in all localities subject to colds and coughs, it should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it is in no wise injurious any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
