LIVERPOOL MARKET DIRECTLY AFFECTED

Fears of Reduced Supplies of Cereals Indicated in Trading.

WHEAT DULL, HOWEVER

Light Rains in Argentina Have Improved Prospects of Corn.

Special to The Toronto World.

New York, Feb. 1.—Broomhall sent the following cable from Liverpool today:

'All the markets were affected today by fears of renewed submarine activity and the resultant reduced supplies. The general freight market was quiet. River Plate rates were firm and a small business was reported for government account. Rates to India and Australia are prohibited, except for government loading, this is increasing. Wheat was dull and featureless. Flour was dull, with millers' supplies fair and increased admixture. The latest regulation by the food director gives millers a broader scope for mixing maize. Barley and rice flour and all stock of white corn are owned by millers, and the demand for American mixed on spot is good. Corn was firm, with arrivals moderate, and offerings from Argentina light. Barley and rye were strong, with supplies light and the demand for actual consumption good.

Provisions were strong, with a continued good general demand and light arrivals. Bacon was strong, with offers light. Lard opened easier, but later advanced, with shorts covering on decreased stocks. Oats were firm, with offers and arrivals small. Consumption continues good, with the weather cold. Shipments from Argentina for the week were expected to be small. The surplus in that country has been largely reduced, and what remains for export has already been purchased by continental interests. Brazil is taking moderate quantities for actual consumption. Absorption by the continent is large.

Corn Prospects Better.

"Further light rains occurred in the south of Argentina last night and prospects for corn have improved, but locusts are reported to be doing much damage in the west. All offers of grain are light and strongly held. Wheat at Buenos Aires closed firm and unchanged with weakness in America, offset by light supplies and fair shipments. Corn was steady ½ cent lower, with a moderate demand, on shower reports from Argentina, but holders remained reserved. Oats were in good demand. Shipments for the week, with the actual figures of last week and this week last year, in bushels, are estimated as follows:

	This wk.	Last wk.	Last yr.
Wheat	1,100,000	2,417,000	1,032,000
Corn	2,200,000	1,408,000	3,052,000
Oats	360,000	.....	1,060,000

"In the United Kingdom the movement is hampered and late plowing delayed by rain and snow."

WINNIPEG GRAIN MARKET.

Winnipeg, Feb. 1.—Wheat rallied 1c or 2c from the low points of the day, but closed 7¾c down for May, 7¾c lower for July and 6½c down for October. Oats were down 3½c in May and 3½c in July. Barley dropped 7c. Flax was 5c lower. All markets recovered a little, and on evening-up rallied to wait for the next move. After the opening drop trade was spasmodic. Wheat recovered, but broke and rallied again on active fluctuations, making a fair volume of trade. The government agent was credited with buying under cover, after selling heavily short for a week. The run of stop-loss orders was fairly heavy, but the market was caught with a light speculative interest for this time of the year. Fluctuations for the day were 3¾c to 6⅜c in the local market.

The cash situation was completely upset, and had a very small trade.
