FINANCIAL AND COMMERCIAL

HAY IS SELLING AT $15 A TON

But Only a Few Loads Changed Hands at This Price.

FRUIT WAS PLENTIFUL

Oats Are Active at $1 27 to $1 30 Per Hundredweight—Big Markets Expected.

Hay is once more selling at $15 per ton on the local market. The ruling price, however, is about $14 50 per ton, only a few loads topping the market at $15.

Oats are active at from $1 27 to $1 30 per cwt. New oats are not yet on the market, but the first of them will probably come within a few days now. Not until the farmers commence to thresh the oat harvest will the price attain to anything like permanency. Various reports have been circulated relative to the size of this year's harvest, but threshing day will tell the truth about the matter.

Good prices will likely be offered for new oats, however, in view of the fact that old oats are very difficult to obtain.

Fruit was probably as plentiful today as at any time previous this season. Peaches, according to the size of the basket, sell all the way from 30 to 75 cents per basket. Plums vary from 60 to 65 cents.

Canteloupes bring 65 cents per basket. Lawton, or thimbleberries, are steady at 11 and 12½ cents per box.

Thursday and Saturday markets ought to be large on account of the street fair of Old Boys' week which will occupy a large portion of the market square. Already dealers in poultry and other produce are stocking up for the increased population which the city will show next week.

WINNIPEG, Aug. 1.—The markets today were decidedly nervous, and the shorts made a scamper to cover. The cause in the south was probably a report of the extension of the black rust damage. Cables came ⅜c to ½c lower, but no export was done locally in either wheat or oats. In the option market October opened at 93½c, or ¼c lower, and twice during the morning reached as high as 94⅞c, and on one occasion to 95c, finally closing at 94⅞c, split, or 1¼c split higher, after a 1¾c range. December opened ¼c lower, but was also active, reaching as high as 94½c, and closing at 94⅝c, or 1¼c higher, having had a range of 1⅝c. May, which was quoted for the first time, opened at 99c, and rose to 99⅝c and remained there, closing at that figure, after a range of half a cent. Oats were firm. October closed at 37⅜c, or ⅛c higher, and December at 37⅞c split or ⅛c split higher. The map of the west showed higher temperatures had been general with no rain to speak of. Cash grain—Wheat—No. 1 northern, 96c; No. 2 northern, 94⅛c; No. 3 northern, 92¼c; No. 4, 86c; No. 5, 79½c; No. 6, 71c; feed wheat, 62c. Oats—No. 2 Canadian western, 35⅞c. Barley—No. 3, 59¼c.

FINANCIAL.

[From Charles Head & Co., by private wire to J. J. Tearney.]

NEW YORK, Aug. 2.—(Noon)—The market was under feverish influence from a period after the opening all through the rest of the first hour. Prices of nearly all the active issues moved down with the heaviest losses in the copper stocks. No special reason for the decline could be ascertained. The general market was adversely influenced by attention to the confusion that may result from disintregration of consolidated industries. Both on the curb and exchange stories were current that the usual dividend on American Tobacco, com., would be passed. These stories had a good deal of influence, and the market started off until near 12, noon, it was from 1 to 2 points off.
