METHODIST DELEGATES SELECTED.

Conference Declines to Recommend a Secretary for the Epworth League.

The Methodist Conference resumed business yesterday morning, the President presiding. Several visiting clergymen present, among them being Rev. Dr. Sims, Bond-street Congregational Church, who made a short fraternal speech.

The first business of the afternoon was the election of the following delegates to the General Conference:

Lay—Hon J C Aikins, Mayor Kennedy, Joseph Tait, Dr J J Maclaren, Edward Gurney, George A Cox, G F Marter, J T Moore, N H Rowell, Dr W W Ogden, H S Lovering, H Ross, L Holtby, E J Davis, Richard Brown, J F Morris, Sheriff Bettes and M Green. Reserves—Dr Willmott, William Beattie, J W Brayman.

Ministerial: Revs Dr Galbraith, Dr A Sutherland, A E Langford, M L Pearson, Dr Briggs, Dr Parker, Dr Stone, Dr Potts, Dr German, Dr Dewart, George Webber, W H Barker, Alfred Brown, J M Simpson, J E Lanceley, H S Matthews and two others, who will be elected at this morning's session.

The Epworth League report will be presented by Mr N W Rowell, one clause of which concurred in the recommendation of the Barrie district that the general conference be asked to appoint a general secretary of the Epworth League work. Although piloted by Rev. J. E. Lanceley, Rev. Dr. Withrow, Rev. R. N. Burns, Rev. H. S. Matthews, Rev. J. A. Chapman and several other ministerial as well as lay delegates the motion struck a snag and was lost by quite a large majority.

Mrs. George Kerr presented the report of the Woman's Missionary Society, showing prosperity in all the branches of this work.

Rev. Mr. Cassidy and Rev. Dr. Eby of Japan were introduced and presented the needs and claims of the church in Japan.

TRADED REAL ESTATE FOR A HORSE

And Are Now Charged With Obtaining the Animal by Fraud.

Isaac Van Buskirk of Dovercourt was the happy possessor of certain real estate at Blackwater Junction. Mr. Van Buskirk never got anything out of the property, but it got him into the clutches of the law on a criminal charge.

Squire Wingfield yesterday heard the preliminary investigation of a charge of fraud and conspiracy against Van Buskirk and Thomas Keen. John Bell, the complainant, alleges that he was induced to part with a horse, buggy and accoutrements for some vacant property and says that the defendants could not give title to it. Van Buskirk said that the horse was as valuable as the property, which might be assessed as minus 0, and declared that the exchange was a fair one, as no value was passed on either side.

Rosebery's Turf Proclivities a Preacher's Text.

LONDON, June 18.—Dr. Percival, Master of Rugby, preached in Westminster Abbey last night, taking as his text, "Am I My Brother's Keeper?"

In the course of his sermon he referred to Lord Rosebery and horse racing, and said that the whole world appeared to have taken Cain's words as a motto.

When an English nobleman patronized the turf, with its weedy growth of dishonesty and degradation, simply to gratify a feeling for excitement, and did not use an effort nor stir a finger to reform it, he came under the same condemnation.

For Liverpool.

The Allan royal mail steamship Parisian leaves Montreal for Liverpool on Saturday at daylight.

There are two or three vacant berths to be had yet in first cabin, also the doctor's and chief steward's rooms. There are some second cabin and steerage berths to be had yet. This popular ship will have a large number of Toronto passengers.

Unhealthy Spot in the North.

Numerous complaints are being made concerning the stagnant pool of water in rear of Nos. 310 and 312 Avenue-road. Since the heated spell the stench has become almost unbearable, and a good deal of sickness is reported in the neighborhood. The attention of the health authorities is directed to this nuisance.

It may be only a trifling cold, but neglect it and it will fasten its fangs in your lungs, and you will soon be carried to an untimely grave. In this country we have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Bickle's Anti-Consumptive Syrup, the medicine that has never been known to fail in curing coughs, colds, bronchitis and all affections of the throat, lungs and chest.

Nova Scotia Coal.

We notice by press reports that the Canada Coal and Railway Company is taking profitable advantage of its increased plant and completed railway. The company had large orders from the Intercolonial and Canadian Pacific Railways and the cities of Boston and Portland, and now comes the information of a contract for 30,000 tons for St. Andrews, Maine, U.S.

Still Another Triumph.—Mr. Thomas S. Bullen, Sunderland, writes: "For fourteen years I was afflicted with piles; and frequently I was unable to walk or sit, but four years ago I was cured using Dr. Thomas' Eclectric Oil. I have also been subject to Quinsy for over forty years, but Eclectric Oil cured it, and it was a permanent cure in both cases, as neither the piles nor quinsy have troubled me since."

British Markets.

LIVERPOOL, June 18.—Wheat, red, 4s 6d to 4s 7d; do No. 1 Cal., 4s 10d to 4s 11d; corn, 3s 8½d; peas, 5s 0d; pork, 66s 3d; lard, 35s 6d; bacon, heavy, 32s 6d; light, 33s 6d; tallow, 24s 9d; cheese, 46s 3d.

LONDON, June 18.—Beerbohm says: Floating cargoes of wheat, steadily held. Maize nil. Cargoes on passage—Wheat quiet and steady; maize easier.

Mark Lane—English wheat quiet and steady, foreign slow. Maize rather easier, flour slow.

Liverpool—Spot wheat, upward tendency; maize, moderate demand. No. 1 Cal. wheat 4s 10d, half-penny dearer; red winter 4s 6d, half penny cheaper.

French country markets steady.

Weather in England seems less settled.

4.30 p.m.—Liverpool wheat futures strong; red winter 4s 7d for July and 4s 8¾d for Sept. Maize steady at 3s 8¼d for July and 3s 9d for Oct. Antwerp—Spot wheat quiet and 12½ centimes lower. Paris—Wheat quiet and 10 centimes higher for July; flour 40 centimes higher for June and 50 higher for July.

Cotton Markets.

At Liverpool cotton is easier at 4 1-16d for American middlings.

At New York cotton futures are also easier. July closed at 7.10, August at 7.14, Sept. at 7.15 and Oct. at 7.21.

Business Embarrassments.

G. H. Birch & Co., stationers, who assigned a few days ago, have compromised with their creditors at 40c on the dollar.

A meeting of the creditors of R. Park & Co., Newmarket, was held at Assignee Clarkson's office yesterday afternoon.

WENT INSANE AT 68

And Poisoned His Brother of 70 With Whom He Lived.

NEW YORK, June 18.—Cornelius and Dan Hogan, two men aged 70 and 68 years respectively, kept a tailor's store at No. 235 West 46th-street, this city. Last night Cornelius was found dead in his room and Daniel was discovered in the next room, naked and a chattering idiot. An empty pill box found in the room near the body led the police to believe that the idiot had given his brother an overdose of medicine that had resulted in death, and that the idiot's insanity was caused by the fact that he thought he had done something clever.

Cornelius had complained on the previous day of having pains in the stomach and it is supposed the medicine was procured for that purpose. James Hogan, a cousin of the old men, visited the house regularly. On Saturday night he and his wife were there and they found the old men in their usual condition of health.

Deep Waterways Committee.

The committee appointed at the City Hall meeting of 5th inst. met yesterday at 34 Victoria-street, President Blain in the chair. Messrs. J.B. Eager, James R. Roaf, Dr. H.E. Adams were added to the committee. The committee appointed the following to act with the sub-committee appointed by the City Council for the calling of the convention in September: Messrs. John Brown, R. C. Steele, J. H. Boyle, ex-Ald. Bell, P. G. Close and Secretary McIntyre. Messrs. Redway, Leake, Faulkner, Parsons and Mackenzie were appointed a committee to get an estimate for the probable cost of work yet to be done to get 20 feet of water between the lakes and ocean, and all information relative to this work.

Haydentown, Pa.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.:

MRS. SWEENEY.

Gentlemen—We cannot sufficiently thank you for the great amount of benefit my wife received from the use of your medicine. My wife had a bad case of leucorrhea, and she used Dr. Pierce's Favorite Prescription for it. I cannot praise it above its value. I have a daughter who has been poorly over a year; she is taking the "Favorite Prescription," and is already feeling better, after taking two bottles. Yours,

GEO. W. SWEENEY.

"THE TRIUMPH OF LOVE

IS HAPPY FRUITFUL MARRIAGE."

Every Man Who Would Know the Grand Truths: the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you had dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N.Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

Tips From Wall-street.

The earnings of St. Paul for the second week of June show a decrease of $168,242.

Moore & Schley were the chief buyers of Gas to-day.

Henry A. King & Co.'s special wire from Hubbard, Price & Co., New York: The London stock market opened this morning from steady to strong in tone with prices generally about even with the closing price on Saturday night. Later in the day the list became considerably easier on the reception of the news of St. Paul decrease for the second week in June, which was considerably larger than had been expected and gave the railroad list generally a downward trend. In New York there was some irregularity at the opening, but first quotations were generally quite steady. The Industrials were the strong features, and the Grangers for the reason above mentioned the weak ones. A demonstration against the short interest in Sugar. Insiders were also free buyers on Washington advices, which indicated that the opponents of the present Sugar schedule are not sanguine of being able to carry their point. Chicago Gas advanced upon the intimation that within a few days the directors will meet to declare the regular quarterly dividend. Mr. Maloney's attitude with regard to this stock is not exactly known, but good judges are inclined to believe that he will not use the court to depreciate its value. Union Pacific was weak and together with the loss of earnings in St. Paul has rather demoralized the R.R. list and has at last checked a tendency to improve. The Atchison Organization Committee meets to-day to receive the ultimatum of London holders of its securities.

INVESTMENT BONDS

I have a few bonds very suitable for small investments which, in consequence of financial depression, I can sell in $100 or larger lots to pay the buyer 7 per cent. per annum, payable half yearly. Satisfactory testimony given as to safety and I invite enquiry. 246

Schwartz, Dupee & Co. wired Dixon: The market to-day proved another surprise, advancing from 58c for July at the opening to 61⅝c, closing at 60⅝c. It was a hard day on stop orders, prices jumping on the upturn half a cent at a clip without intervening trades. The stimulus of advance was the unfavorable weather abroad and later the sharp advance in foreign markets. Export bids were generally under the market, although 140,000 bushels were worked here on foreign orders and an unconfirmed rumor of 80,000 bushels more that had been done near the close. To-morrow's cables will probably come better with no improvement in the weather on the other side. The visible supply of corn decreased 441,100 bushels. The business was not large. The strength was due principally to moderate offerings: prices will be governed by the volume of receipts. There was about 100,000 bushels taken at the seaboard for export to-day. Oats irregular, opening easier, rallying later more in sympathy with the advance in wheat and corn than anything else. There was nothing of any account done in the. Reports from many sections indicate that the rains will greatly benefit the oat crop.

Henry A. King & Co.'s special wire from Logan & Co., Chicago: An old-fashioned bull market in wheat to-day. It is broad, with a large general business. Conditions are about as they have been. Confirmed damage to the spring crop, although there have been some rains that no doubt will be of benefit. Wet weather in Kansas, which will put the crop back and do no good to wheat, although it will to corn and oats. Cables are all higher, and unfavorable weather from France helped the advance here. We have looked for the advance to come from Europe and still do. South America and the Californias practically out of the market should cause, and we think will cause, a heavy drain on the quantity afloat, and with this and the present low price 10 shillings per quarter advance before the close of navigation should be in order. The great merit to wheat is its low price and the uncertainty of the spring crop.
