give (not to take the extremest view) only one representative to a large County of Westmoreland for 15,000 inhabitants, and to a small County like Restigouche one for every 3,000. The people would never consent to such injustice. In view of the abolishment of the Legislative Council, it was argued that the number of members should be increased instead of reduced, and that it would be an anomoly to have a Government of nine, in a house of twenty-nine members, it would give them too much influence. A number of objections was raised to the Bill. Some of the members did not treat it serio sly. On the other hand Mr. Wedderburn, while allowing that the Bill was faulty in detail, said that the object it sought to accomplish was worthy the serious consideration of the House. Sooner or later they would have to confront it. Finally progress was reported.

Business men have been taking most careful measures for the prevention of a rise in the price of any of our commodities. They expect an increase in the tariff as the first instalment of the National Policy, and many of them, anxious to make a little money by anticipating that, have imported dutiable goods enough to make an increase in Custom duties of about two hundred thousand dollars for January of this year, as against January of last year, and the duty collected this month is expected to exceed by three hundred thousand dollars that of the corresponding month of last year. All of which means that although the tariff may be higher, merchants will have to sell at a low figure to get rid of their enormous stocks. The result is a foregone conclusion—more disasters in trade, and more bankrupts. The Premier must have seen it coming and given orders to grant anybody's application for an assignee-ship. Killing the goose that lays the golden eggs has always been condemned as bad in policy, but our merchants have killed the goose before it had the chance to make a nest.—*Ex.*

THE MANUFACTURE OF GLASS IN PITTSBURG.—Pittsburg, Pa., prrduces more than half the glass made in the United States. Its factories number 73, with 630 pots, and give employment to 5,248 hands, whose wages approach $3,000,000 a year. The materials employed in the manufacture were, the past year, 12,110 tons soda ash, 48,340 tons of sand, 152,000 bushels of lime, 1,218 tons nitrate soda, 793,500 bushels of coke, 4,525,760 bushels of coal, 4,025 cords wood, 6,055 tons of straw, 2,760 barrels of salt, 250 tons pearl ash, 370 tons of lead, 150,000 fire brick, 2,955 tons of German clay. The packing boxes cost $484,250, and required 2,100 kegs of nails. 96 wagons and 130 horses were employed in hauling. The space occupied by the buildings is equal to 208 acres, and the capital in buildings, machinery, and grounds is, in round numbers, $3,500,000. The business produces about $7,000,000 a year.

Labor-Saving Machinery for Farmers.

All wide-awake, intelligent farmers promptly supply themselves with every new invention that promises to lighten their labors and save them money, and will heartily welcome the latest improvement, a simple but effective instrument for sharpening the knives of Mowers and Reapers in the field and WITHOUT REMOVING THEM FROM THE MACHINE. Every practical farmer knows that dull knives loosen the roots of the grass and tend to destroy his meadows, besides increasing the labor of his team, and he fully understands the necessity of having and keeping the knives and guards sharp and in perfect order. THE CHAMPION SHARPENER is light and easily carried about the field, and may be used occasionally while the horses take a rest, and does away entirely with the frequent trips to the grindstone, heretofore necessary.

If there is a person in this country who does not know of *Johnson's Anodyne Liniment* we hope this paragraph will reach that person's eye and that he will write us for particulars of it. It is more valuable than gold, silver or precious stones.

The manufacturers of *Sheridans' Cavalry Condition Powders* inform us that their powders will effectually prevent hog cholera and all other diseases in hogs, and that they will increase the size and weight one-quarter.

Why Will You.

Allow a cold to advance in your system and thus courage more serious maladies such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for cure of Coughs, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.*
