APPLES OF GOOD QUALITY ARRIVE

Fairly Large Shipments Reach the Wholesale Fruit Market.

PEACHES ARE POOR

Pears Remain About Stationary in Price—Spinach Plentiful.

Apples are now coming in fairly well on the wholesales, and there are some good quality No. 1's—the bulk, however, grading three or under. Snows are bringing from $4 to $6 per bbl., an especially choice car of Kings selling at $5.50 to $6 for 2's and 1's—other varieties ranging from $3.50 to $6 per bbl, some choice snows in 11-quart baskets selling at 50c.

Quinces—There were some choice quinces shipped in on Saturday, the 11-quart baskets selling at 50c to $1, according to quality; a few especially fine ones bringing $1.25 per 11-quart.

Peaches were still shipped in in small quantities, but were exceedingly poor quality, selling at 25c to 45c per 11-quart basket.

Grapes brought from 25c to 35c per six-quart basket—some poor ones going as low as 15c per six-quart.

Pears remained about stationary in price at 25c to 35c per 11-quart basket for Kieffers; 40c to 50c per 11-quart for Anjouns, Duchess, etc.

Spinach is coming in quite freely, and sells at 65c to 75c per hamper and case.

Tomatoes of fair quality brought 25c per six-quart basket, the green ones selling at 12½c per six-quart and 20c per 11-quart.

A. A. McKinnon had two cars of New Brunswick Delaware potatoes, selling at $2 per bag.

McWilliam and Everist had a car of choice snow apples, selling at $4 to $6 per bbl.; a car of apples at $3.50 per bbl., and another at $3.75 to $4.50 per bbl.; a car of western potatoes at $1.85 per bag.

H. Peters had a car of Emperor Grapes (Cal.), the second car to arrive on the market this season, selling at $4.75 to $5 per drum.

White & Co. had a car of mixed grapes, peaches and pears from Hastings of the Winona Fruit Growers, Limited, and a car of mixed quinces, pears and apples from J. M. Crysler of St. Catharines; a car of Manitoba potatoes, selling at $1.85 to $2 per bag; a car of apples at $3.50 to $6 per bbl.

Jos. Bamford & Sons had a car of New Brunswick Delaware potatoes, selling at $2 per bag.

Peppers—Green, 50c to 75c per 11-quart basket; red, 75c per 11-quart basket; imported, reds, $1 per 11-quart.

NORTH TORONTO AND ST. LAWRENCE MARKETS.

There was a large attendance at both markets Saturday, trade opening quite brisk at firm prices, but becoming slow and draggy in some lines later in the day.

New-laid eggs were quite scarce, the bulk selling at 60c per dozen, a very small quantity bringing 65c per dozen and some closing at 55c per dozen.

Butter advanced slightly, one vendor receiving 47c per lb., the greater number opening at 45c and 44c per lb. The high prices, however, caused it to become rather a slow sale, and the market closed quite weak at 42c and 40c per lb.

Chickens were brought in in very large quantities and tho some brought 25c per lb. and even more early in the morning, the supply so greatly exceeded the demand that prices quickly declined to 23c, 22c, 20c and 18c per lb.; some selling out below those figures. Ducks were also plentiful, and sold from 18c to 22c per lb., the bulk going at 20c. Geese, too, were brought in heavily, but proved a fairly good sale at 18c to 22c per lb.

Vegetables did not vary much in price from previous weeks, and were mostly of choice quality. Some especially fine cauliflowers being offered at 5c to 30c per head, according to size.

Apples were quite plentiful and sold at 25c to 40c per six-quart basket; crabapples bringing 25c and 30c per six-quarts, and pears 25c to 30c per six-quart.

FINE SHOWING MADE BY DAVIDSON MINE

Business and Mining Men Impressed by Visit to Property.

BIG ORE BODY FOUND

Good Progress is Being Made in Development Work.

The special party of twenty-five business and mining men who had been on an inspection trip to the Davidson mine in Porcupine returned to Toronto on Sunday, greatly impressed with the outlook for this company. They spent all day Friday on the property, and as everyone was given carte blanche by the management, every part of the holding was given a thoro examination.

The visitors were particularly impressed with the extensive free gold showings on the property and especially those on an extension of the main vein about 400 feet to the north of the shaft. Here an open cut has been made about 10 feet deep and 25 feet wide, and the ore is probably more spectacular than any other to be seen in the camp. Splashes of free gold are visible on every side, and some of the specimens which were brought away were phenomenally rich.

The main shaft on the Davidson is down 315 feet and the crosscut on the 300-foot level is in 60 feet toward the vein. Three shifts are being worked and about six feet of progress made daily, so that it is anticipated that the ore body will be reached early next month, as on the 200-foot level the vein was cut into only 75 feet in from the shaft. Indeed, had it not been for a delay occasioned by a breakdown in the underground plant it is probable that the crosscut would have been in to the ore before now.

Extent of Vein.

The most impressive feature of the Davidson from the mining standpoint is the extent of the vein on the 100 and 200-foot levels, where considerable lateral development work has been done. An enormous body of ore has been demonstrated to exist at these depths. During the past month the management has concentrated work on the 300-foot level in order to provide for tonnage, but further work will be done on the upper levels as soon as the vein has been reached below. At the present time one drill is being used for development on the 100-foot level, where the ore is high-grade, and the results are most promising.

The No. 2 shaft, which is being sunk on the new south vein discovered two months ago, is down 30 feet and is being continued with three shifts. The ore here is high-grade and everything points to the development of an extensive ore body as depth is attained. It is planned to start lateral work when the 100-foot level is attained.

The party was royally treated by the management, and each member was allowed to take away a nugget, these to be mounted in tiepins.

N. Y. BANKERS TAKE UP BRAZIL NOTES

Proceeds of Sale to Be Used in Linking Up Telephone Lines.

Mr. Alexander Mackenzie, president of the Brazilian Traction, Light and Power Company, Limited, confirmed the report on Saturday that New York bankers had purchased an amount of $7,500,000 of three-year six per cent. notes of the company. Mr. Mackenzie stated that the whole of the proceeds of the loan were to be used for the replacement of advances on capital account in connection with the acquisition of important telephone systems of Brazil owned by the company with the exception of an amount of $2,000,000, which would be applied to the construction of trunk lines and the extension of the telephone properties generally resulting in a very considerable increase in the earnings of the company with, in his opinion, the result that before the maturity of the notes an excellent market would be available for its definitive bonds. The Brazilian Traction Company thru subsidiaries which it now controls for some time has operated the telephones in the principal Brazilian cities, including Rio de Janeiro, Sao Paulo, Campinas, Santos, and Nichtheroy. These various systems which cover practically every industrial centre of the territory in which its operations are conducted are now to be linked up and consolidated into one company to be called the Rio de Janeiro and Sao Paulo Telephone Company, Limited, which will be the counterpart in Brazil of the Bell Telephone Company of Canada. The Brazilian Traction, Light and Power Company owns the entire capital stock of the new corporation, and the $7,500,000 of notes just sold are secured by bonds of the telephone company.

Within the past year the most important banking institutions in the United States have evinced a disposition to seek investments in the South American republics, chiefly Brazil. A few days ago the city of Sao Paulo closed a loan of $5,500,000 in New York on very advantageous terms. The present loan of $7,500,000 is the first financing other than by a government or municipality yet made for Brazil, but in view of the fact that branches of a New York bank have been established in the republic and that official encouragement is being given to the extension of United States trade with the South American republics, it may be expected that the tide of capital which formerly came from Europe and which was interrupted by the outbreak of the war will now flow from New York to the South American countries.

The negotiations which resulted in the present financing was the result of the intimate knowledge which New York general interests have obtained within the past year of the large operations of the Brazilian Traction, Light & Power Company in Brazil.

PRICE OF WHEAT AGAIN ADVANCES

Report of Snow in Western Canada Influences the Chicago Pit.

REACH RECORD LEVEL

Corn Rises to Highest Price in Twenty-Nine Years.

Chicago, Oct. 28.—Unabated demand from export houses and foreigners added sharply today to wheat prices that were already well above the record for the last 28 years. The market closed unsettled, 1¼c to $2.8c net higher, with December $1.88 7-8 and May $1.86 5-8.

Corn finished unchanged to 5-8c down, oats up 1-8c to 5-8c, and the active months in provisions varying from the same as yesterday's close to a gain of 35c.

Topmost prices of the day for wheat were reached in the last 15 minutes of the session. Previously, a somewhat general effort to realize week-end profits on holdings had tended to check the advance, which started as soon as the trading began. The initial impulse for the upturn in values here was due to rising quotations at Liverpool, accompanied by despatches explaining that supplies arriving in Europe were insufficient to meet requirements. In addition pit offerings were meagre and there were continued bullish crop advices from Argentina. Subsequently word came that snow in Canada nullified any hope that threshing would be resumed before spring.

Primary Receipts Less.

Rapidity of the advance in wheat rather than changes in bullish conditions formed the chief basis of the profit-taking which holders indulged in during a considerable part of the session. The swiftness of the rise was shown by the fact that top prices today were 15¼c higher than last Saturday's close, and 33c from the low point of the week before the present. On the other hand, it was pointed out that domestic primary receipts this week have been about 10,000,000 bushels less than for the corresponding period last year.

In the corn market signs of an increased movement from the country acted as more than an offset for an early advance in sympathy with wheat. No. 2 yellow corn sold here today at $1.12 per bushel, the highest price since 1887.

Demand for oats was stimulated by gossip as to the relative cheapness of oats as compared with other cereals. Export call for oats was good.

Big shipments of lard, much of it supposed to be for Europe, gave strength to the provision list as a whole. Lower prices on hogs were ignored.
