TOOK HIM BY SURPRISE STATES MONTREAL MAN.

Larkins Says He Had No Idea Tanlac Could Fix Him Up Like It Has—Eats Hearty, Sleeps Good And Feels Fine Every Way.

"I'll admit I tried Tanlac more out of curiosity than anything else for I didn't think it would help me, but, it's a fact, five bottles have the same as made me all over again," said Michael Larkin, 408 Montcalm St., Montreal, recently.

"I had a stubborn case of indigestion that cheated me out of many a good meal. My appetite was so near gone that I never did feel hungry, and it seemed that my stomach stayed sour and upset all the time. I would bloat up with gas so bad I thought sometimes I would lose my breath entirely. My head ached a lot and my nerves were all undone. I couldn't sleep much and was rundown all over and felt weak and played out all day long.

"If anybody had told me Tanlac would fix me up like it has I would not have believed a word of it. Why, it took me by surprise the way I began to pick up, and I kept improving until now I couldn't ask to feel any better. I'm in the best of health—eating hearty, sleeping good and sound and feeling fine. I'm convinced that Tanlac will do what they say it will and from this on it gets my recommendation every chance I have."

House of Assembly.

NOTICE OF QUESTION.

Mr. Bennett—To ask the Honourable the Colonial Secretary if the Food Control Board have in contemplation the importation of an additional twelve hundred and fifty barrels of Sugar, if such Sugar has been purchased, and if so, from whom and at what price, and state if other dealers have been asked to quote prices on this Sugar.

Mr. Bennett—To ask the Honourable the Prime Minister to lay on the Table or the House a copy of any circular or letter issued by the Poor Commissioner to relieving officers in the outports prescribing the amount of flour, molasses, tea and other articles of food to be given as poor relief to those in distress and to ask if the opinion of any Medical men has been obtained as to whether the ration provided is sufficient to maintain the vitality of the recipients and if not whether the Government will take steps to ensure such an increase in the quantity as will suffice to keep body and soul together.

Sir M. P. Cashin—to ask the Honourable the Minister of Marine and Fisheries if any negotiations are in progress between the Government and the Marconi Company for a series of wireless telephone stations to be located at different points on our coast, and what progress is being made in connection therewith; also to say if special provision has been made for the stations on Signal Hill and Port Union to communicate with each other, and what is the special necessity for communicating with Port Union rather than any other point around the coast; and to lay on the Table copies of all Order-in-Councils, correspondence and other documents in connection with this whole matter.

To ask the Honourable the Prime Minister, in the absence of the Honourable the Minister of Finance and Customs, from what source the $10,000 shown in a question tabled yesterday to have been paid to Messrs. Burn & Berridge for services, etc., in connection with the Labrador Boundary was obtained; (a) from the Treasury, or (b) from any other fund; and to lay on the Table of the House a copy of the Order-in-Council providing for the payment of the same.

Sir M. P. Cashin—To ask the Honourable the Minister of Marine and Fisheries if the salt conveyed by S.S. Tuckahoe to Port Union last year and landed there was German salt or Russian salt and from whence it was obtained; also if it is of a quality altogether unsuited for curing fish, being in blocks which have to be broken up, and if also it burns the fish and likewise the hands of the men who have to use it and whether it is intended to use the balance of this salt the present year or not.

Sir M. P. Cashin—To ask the Honourable the Prime Minister to lay on the Table of the House a statement with reference to his interview with the Presidents of the Dominion and Nova Scotia Steel Companies in Canada last December in regard to the securing of increased work on Bell Island during the winter and spring and to state the number of men now employed there, and

(a) Whether operations on an enlarged scale will be undertaken during the coming summer;

(b) Whether the present number will be continued, and

(c) Whether there will be any curtailment, and if no increase the number employed is proposed, whether the Government can take any steps to secure an enlarged operation in view of the great need of employment for our people owing to the existing depression.

Sir J. C. Crosbie—To ask the Honourable Minister of Public Works to lay on the Table of the House the total amounts of Grants for the District of Port de Grave and how expended since December 31st, 1919, to March 31st, 1921, and the names of all parties who received Grants.

Mr. MacDonnell—To ask the Honourable the Prime Minister, in the absence of the Honourable Minister of Finance and Customs

(a) Whether Mr. Maurice Hayes, of Petries, Bay of Islands, is now in the service of the Customs Department of Newfoundland, or if he has been in the said service during the past year.

(b) If he has been so employed, what is his salary, and what is the nature of his duties?

McMurdo's Store News.

FRIDAY, April 15.

Cantharadine Hair Tonic is a Newfoundland product, the product of native skill and native labor, and it compares well with any similar preparation coming from abroad, as it stimulates the growth of hair, keeps the scalp in a really healthy condition, and preserves, and restores, the natural color. If your hair be thin, or inclined to turn gray, or the scalp full of dandruff, you will find Cantharadine of great value. Try a bottle. Price 35 and 60c. a bottle.

As a general spring tonic Gault's Cod Liver Oil Compound ranks high. It will make you wish for meal time to come round. Large 16oz. bottle, price $1.

To the Women of Newfoundland.

Last Spring, as you know when the Woman's Franchise Bill was brought in, the members of the Opposition voted solidly for, and the members of the Government solidly against it. The latter's reasons for so doing were that the women of Newfoundland were not ready for the vote, but that if in six months' time the women still wanted it, there were members there who volunteered to bring in the bill and support it. They all admitted the justice of the women's demand.

Now it is nearly a year since our bill was first presented and the Women's Franchise Bill is coming up again. The women of Newfoundland have shown their determination to obtain this measure, and are far from letting it drop. The number and strength of its supporters have increased beyond all expectations.

Since 1914 **one hundred and forty-five million women** have been given the franchise! Does any one imagine that the women of this country are still going to be baulked of their rights Newfoundland is now the only civilized country in the world where the women have not the vote and in what way are the women of this country inferior to those of other countries?

The members of the Opposition have proven themselves friends to the Woman's Bill by voting for it last spring.

The members of the Government can, of course, go back on their promises and turn down our bill and so go down in History as reactionaries but will it make them any more popular?

The Woman's Suffrage Movement is here to stay. The Government that gives the women the Franchise will have many staunch workers and supporters. The Government that continues to ignore the women's just claim, and remaining blind to present day conditions, tries to keep its women classed with criminals and lunatics, will make thousands of powerful enemies.

SUFFRAGE.

Changing Customs in China.

Ignorance, which breeds superstition and bolsters wrong, is not confined to China, but it has found Christian education in that nation its worst enemy. Many of the gods of yesterday have been tumbled into the ash-heap to make way for the school-boy with his books, and what was religion to many yesterday is useless superstition to-day.

Customs that were respected hitherto are now despised. For centuries little children have been bound at the altar of a painful old age. Preaching and protest went unheeded until the Christian girls' schools demonstrated that big-footed woman were the queens of the land, not its slaves. Students now in government schools are announcing that they will not marry girls who have not natural feet, and girls with bound feet parade the streets with their little feet in big boots.

The reason is evident. Big feet and brains have come to be synonymous. Government schools are refusing admission to bound-footed girls, and the better class are in the big-foot crusade. Women in useful service have come with the new order.

Harbor Grace Notes.

Mr. G. Stewart's motor boat "E. L. Stewart" arrived in port on Saturday from Bell Island with passengers and returned again Sunday afternoon, several taking passage by her back to the Island again.

W. S. Goodwin, D.D.S., spent some time during last week at Carbonear attending to business in his line. He returned to town again Saturday.

S. S. Sagona arrived here from the icefields at 2.30 Monday afternoon. We learn her catch is said to amount to 7,000 seals.

Mr. R. F. W. Strong arrived from the city by Friday night's train on a short visit to his home.

The brethren of the Masonic Lodge intend holding a social evening in their hall to-night, Tuesday. An enjoyable time is anticipated by all who hope to be present.

Miss Sadie B. Hayes, accountant at Messrs. Archibald, Ltd., left by Monday afternoon's train for the city en route to Boston on a holiday trip. Her many friends extend to her their best wishes for a very enjoyable time.

The schr. Minnie Maud, owned by Mr. E. Simmons, went on dock Monday afternoon to have some painting, etc., attended to, preparatory to taking up the spring's work in the coastal trade.

The appearance of the second sealing steamer, viz: S. S. Seal, making her way in the harbor at 6 p.m. yesterday did indeed look cheering to even some of our chronic pessimists, and some of us felt like blossoming into poetry with "Jimmy" Murphy and shouting, "Pork and cabbage won't be in it when the flippers strike the town." Our minds went back to the good old days when everything was humming in the old town of Harbor Grace and in season the sealing ships would arrive with their bumper trips; but we must not strike a disparaging note for ye olden times are coming again. The Seal is reported to have a full load of 15,000.

The Ladies' Branch of the Industrial Society intend holding a sale of work in the Town Hall on Thursday afternoon next. Quite a lot of useful articles of clothing, etc., have been made up from time to time, and as all the goods will be sold at cost price, all thrifty housewives will do well to call in and have a look around. We trust the ladies will meet with much success in the sale of their goods.

About two years ago, in June 1919, the old Church of England School on the South Side, which had done duty for many years, was closed and it was decided to build a new one. This has been done, and the new school, after much labor on the part of some of the men, has now come to a finish. The work was completed on Saturday afternoon at 5 o'clock and at 8 the first public meeting was held, when a goodly number were present to hear Rev. Dr. N. S. Facey make an eloquent appeal, with the aid of some very interesting lantern slides, on behalf of Queen's College, St. John's. Dr. Facey in his opening remarks paid high tribute to those who by money and labor had completed such a fine building for the education of the C. of E. children of the South Side. We may say the work of building of this school has been under the superintendence of the Rev. W. E. R. Cracknell, Incumbent of St. Peter's Church, South Side, who was the chief promoter and who has a keen interest in educational matters, and we congratulate the rev. gentleman, together with his noble band of workers, on the success of their efforts for such a worthy cause.

Rev. Dr. N. S. Facey, Principal of Queen's College, St. John's, occupied the pulpit of St. Peter's Church, South Side, on Sunday morning, and in the evening at St. Paul's. Rev. H. V. Whitehouse, of Carbonear, occupied the pulpit of St. Paul's Church in the morning and at Christ Church in the evening. Both speakers addressed the St. Paul's Bible Class on Sunday afternoon.

A number of young ladies intend holding a dance in the Orange Hall and are looking forward to a good time tripping the light fantastic.

Can we allow ourselves to believe that the storms of winter are over? To-day is such a beautiful one, with all the brightness of spring, that we are almost inclined to forget the bad treatment of the weather man and think he's not such a bad old fellow after all.

Rev. Fr. Walker of St. Brendan's is in town to-day.

CORRESPONDENT.

April 12th, 1921.

SPECIALS IN MEN'S SUITS.

Our prices are at rock bottom, from $10.50, $12.50, $15.00, $20.00 to $75.00. Also nice assortment of Men's Caps from 75c. to $2.50.

THE WEST END BAZAAR,

Minard's Liniment for sale everywhere.

TO-DAY'S MESSAGES.

WILL DENY REPORT.

BERNE, April 15.

The Swiss Government, it is declared, will issue at an early date, official denial of a report that it has offered to act as intermediary between Germany and the Allies on the reparations issue.

MUST PAY OWN CITIZENS.

PARIS, April 15.

Proceeds of the sale of German property in Alsace Lorraine, which is expected to exceed two million francs, will be turned over to the French treasury. German losers will be reimbursed by the German Government, as provided for in the Versailles Treaty.

MINERS WILL HELP.

LONDON, April 15.

Frank Hodges, Secretary of the Miners' Union, in a letter to the London Times, says the miners are prepared to make substantial contributions to industry in the direction of wiping out the present deficit, by agreeing to a uniform reduction of wages throughout the country. The letter is largely devoted to emphasizing the need for a national pool, and in supporting miners' opposition to district settlement. It charges that the Government is responsible for the crisis and there is a lockout of members of the Federation.

CONDITIONAL.

LONDON, April 15.

British mine owners and representatives of the National Federation of Miners have accepted an invitation extended by Lloyd George, to renew negotiations for a settlement of the miner's strike. The acceptance of the miners, however, was subject to the sanction of other Unions making up the triple alliance.

FORCED OUT.

LONDON, April 15.

Persistent rumors that Frank Hodges, Secretary of the Miners' Union, has resigned, were current here shortly after noon, and it was said he relinquished office because of opposition tot his statement before members of the Commons last night, in which he favored a temporary adjustment of wages.

Drowned While Bird Hunting.

The following message has been sent to the Minister of Justice by Justice of the Peace F. Whiteway, Musgrave Harbor: "George Pardy of Musgrave Harbor was drowned this morning while bird shooting on one of the Wadham Islands. The body has not been recovered. The unfortunate man leaves a wife and five children, for whom sincere sympathy is felt."

Neptune in Port.

S.S. Neptune, Capt. Geo. Barbour, arrived in port at 7 a.m. to-day hailing for 9,500 seals. The report from the Neptune is practically the same as that brought in by the other ships. All the crew are in good health. The catch so far estimated is over 100,000 made up as follows:

Diana (landed)	7282
Eagle (landed)	7270
Sagona (landed)	7793
Seal (in port)	14000
Thetis (in port)	19000
Viking	17000
Terra Nova	10200
Neptune (in port)	9500
Ranger	8000
	100,045

Sagona's Turnout.

The turnout of s.s. Sagona, which ship discharged at Harbor Grase is as follows: 7,601 young harps, 143 bedlamers, 49 old harps, making a total of 7,793 with a gross value of $14,368.58 Less $40.00 for damaged skins and one full share of $105.36, the net value for distribution was 14,223.22, the crew's share being $4,741.07. The crew of 136 men shared each $34.86 cents. The average weight of young harps was 48 lbs.

BLEEDING GUMS.

Do your gums bleed? Do you suffer from Pyorrhea? Have you abscesses on your teeth? Listen! Pus pockets form at the roots of these teeth and poison the whole system by the discharge of virulent germs. Many headaches are due to this gradual poisoning; joint troubles, such as rheumatism, have been traced to this source; heart affections, often serious, follow this so-called "rheumatism". Good teeth are priceless, but a tooth with a pus pocket at its root is almost as vicious as a cancer. Pyorrhea is not painful usually, and one is apt to let it go unnoticed. Watch for these bleeding gums, they are your warning. apr5,tu,th,s,tf
