CHALLENGE TO MR. DINNEN.

To the Sporting Editor of The Advertiser:

Seeing that Mr. N. Dinnen claims the city championship in single sculls, I would like to row him a race for the same, a medal, cup or anything he wishes, in Best and Best lap streaks now on the river. If he wishes to defend the claim, I will meet him at Milne's boathouse on Tuesday evening, Sept. 15, to arrange a race. Yours truly,

E. E. MORRIS.

POOL.

HORGAN A WINNER.

Horgan, of New York, was the winner in the 300-point pool game with Haight, of Port Huron, which was finished last night at the Grigg House parlors. Haight lost by 16 points. Both men did clever work, but Horgan played a safer game than Haight, who took the most difficult shots. In addition to the purse of $50, the winner takes half of the admission fees, making the total amount $80. The score at the close of the 21st rack Thursday night was Horgan 153, and Haight 144. Last night's score by racks was:

Rack.	Horgan.	Haight.
No. 22	2	13
No. 23	3	12
No. 24	9	6
No. 25	0	15
No. 26	10	5
No. 27	13	2

No. 37	6	9
No. 38	15	0
No. 39	6	9
No. 40	13	2
No. 41	2	12
Totals	151	148

Deducting scratches, Horgan 4, Haight 8, this makes the total for the two night's play: Horgan 300, Haight 284.

At the conclusion Mr. Haight challenged his opponent to a return match, to be played at the challenger's establishment in Port Huron, offering to put up $25 forfeit to play for $100 or $500. Horgan refused on the ground that Haight would be in better form on his own tables. Haight says he was at a disadvantage here, as Horgan had been practicing for a week at the Grigg House.

SPOKES.

In the big meet at Springfield, Tom Butler, on a Stearns "Yellow Fellow," defeated the best cycle racers in the world. Asa Windle, for many years trainer of the Pope Manufacturing Company, says: "Butler is the fastest man in the world today." Butler himself admits that he owes his victories in a large measure to the easy running qualities of his wheel.

It has been decided to wind up the Hamilton Bicycle Track Company, and to divide the money on hand—a little over $2,000 — among the stockholders. The capital stock of the company was $6,000, but only about $5,000 was paid. The stockholders will realize about 40 cents on the dollar, the secretary-treasurer says.

Messrs. E. C. Stearns & Co., manufacturers of the popular "Yellow Fellows," who have a large factory in Toronto, and who recently erected a factory near Paris, France, have now established themselves in Germany, and will soon be established in every country in Europe. Already Stearns bicycles have found a ready market abroad, and large shipments have recently been made to England, France, Germany, Holland, Sweden, Spain and other countries. This firm employs a large number of Canadian workmen, and every Canadian will rejoice at their success.

The First Congregational Church, Hamilton, Ont., has accepted the resignation of the pastor, Rev. John Morton. A resolution of regret that he was compelled to resign owing to afflictions in his family, passed.

At the Press Cycling Club meet at Boston, te trophy, valued at $500, given by the Boston Journal to the manufacturer who scored the most points in the races, was won by Messrs. E. C. Stearns & Co. with 21 points. A fitting tribute to the popularity of E. C. Stearns & Co.'s bicycles.

Addison Graham, aged 22, who works for his father in Tweed, Hastings county, on Thursday, at the Toronto Union station, was thrown under a train and his leg cut off.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. *You want the best.* It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market 50 years. Your grandfather used Ayer's. It is a reputable medicine. ***There are many Sarsaparillas—but only one Ayer's.*** It cures.

DEATH OF ENGINEER NORRIS.

A Well Known Grand Trunk Man Dies in Windsor—Formerly Lived Here.

Mr. John Norris, of Wingham, the well-known G. T. R. engineer, died at the home of his father-in-law at Windsor yesterday after an illness of several months, caused by a cancerous growth in the neck. He formerly resided in London, and was past president of the London division of the Brotherhood of Locomotive Engineers. He was also a prominent member of the Masonic fraternity, being a Companion of St. John's Royal Arch Chapter, No. 3, and a Past Preceptor of Richard Coeur de Lion Preceptory, No. 4, Knights Templar, both of this city. In 1894 he was grand sword bearer of the Great Priory of Canada. Mr. Norris formerly ran on the Western Division of the G. T. R., but latterly on the London, Huron, and Bruce. He leaves a widow.

At the regular meeting of the London Knights Templar last night, feeling references were made to the great loss the order had sustained in the death of Sir Knight Norris. It was decided to send a floral wreath; and R. E. Sir Knights D. B. Burch and Arthur Carrothers, V. E. Sir Knight Joseph Dambra, and E. Sir Knight W. J. Carson were deputed to attend the funeral on Sunday afternoon, as representatives of Richard Coeur de Lion Preceptory, No. 4. It is understood that many of the Brotherhood of Locomotive Engineers of London Division, No. 68, will also attend.

THE TORONTO FAIR.

Wind Up of the Toronto Industrial—A Great Success.

Toronto, Sept. 12.—Yesterday was review day at the Fair, and all departments were open until 10 p.m. The weather was fine and warm. The attendance was large. All the prize horses and cattle were paraded in front of the grand stand, and the usual performances given both afternoon and evening. The evening entertainment was concluded by a magnificent display of fireworks. The exhibition has been a decided success, the receipts being greatly in excess of last year. Prominent among the exhibits was:

TYPEWRITER SPEED CONTEST.

The well known firm of Creelman Bros.' Typewriter Company made the finest display of up-to-date writing machines ever made at Toronto's great Industrial Exhibition. Fifteen machines were shown, among which was the "Duplex," the fastest typewriter in the world; the "Jewett," the favorite universal double keyboard, and the wonderful little "Bickensderfer," with visible writing and visible price of $45.

Miss Hunter, of Buffalo, and Mr. J. J. Seitz, manager of the firm, at the request of Mr. Creelman, entertained the immense crowd of intensely interested spectators with a speed contest, Miss Hunter operating on the "Duplex," and Mr. Seitz on the "Jewett," with the extraordinary result and speed of 212 words a minute for Miss Hunter, and 129 for Mr. Seitz, thereby not only confirming, but exceeding the wonderful speed of 200 words a minute claimed for the "Duplex."

The "Duplex" is certainly the writing machine par excellence, fully entitled to the claim of being the fastest in the world.

The extraordinary speed of 250 words a minute has been attained by Mr. H. Baldwin, of Philadelphia, and other experts, which places the "Duplex" not only up to date, but half a century in advance of the old-timers.

In connection with this exhibit was a fine display of power and hand knitting machines, made by Creelman Bros., of Georgetown, Ont.

Cheese cannot be properly digested under three hours and a half.

Rev. James de Buchanne, Ph.D., M.D., will be buried in the Gulf of Mexico, according to his request. He declared that the happiest hours of his life had been spent at sea, and that he wished to be buried there. He died in Galveston, Texas. A tug boat has been engaged for the funeral.

Britain's Changed Policy.

The Queen Credited With Stirring Up Lord Salisbury.

Letter from Lord Rosebery on the Turkish Question.

London, Sept. 12.—The orders issued to the British squadron under Admiral Seymour to rendezvous at Salonica in October are distinctly connected with the change in British policy towards the Porte, which marked the arrival of Sir Philip Currie, the British ambassador, in Constantinople. Sir Philip, without ostentatiously declaring a more active and isolate English policy, has conveyed the impression to other European diplomats at Constantinople that henceforth the European concert will be adhered to by England only so far as it agrees with a purely English policy. There must be no more massacres of Christians nor Moslem mob rioting, nor inciting to general murder, without practical intervention by England with or without the approval of the other powers. The game which Russian diplomacy has played under Prince Lobanoff's artful hand of paralyzing all interference in the Sultan's misdoings until the time became ripe for the utter ruin of Turkey to the aggrandizement of Russia, seems about to end.

The question is asked here why Lord Salisbury so long followed a merely tentative policy, and what caused the change to a more pronounced and independent tone. There is no doubt that the Queen's indignation over the Constantinople massacres had much to do with it. Her Majesty rarely interferes, but when she does the interference is effective.

Lord Rosebery, the Liberal leader and former Premier, has written a letter condemning in strong terms the recent massacres at Constantinople. In this communication he says: "It is far above a party question, but one of common Christianity, humanity and civilization. I do not doubt that her Majesty's present advisers share with the rest of us in detestation of the Government under which such things are possible, and I think more can be accomplished by diplomacy than by public meetings. I found hopes in the natural sentiment of the young Emperor soon to be among us, who has such power and such responsibility for well-doing."

THE W. C. T. A. CONVENTION.

Reception to Lady Aberdeen — The Election of Officers.

Hamilton, Sept. 12.—The reception tendered the delegates to the Y. W. C. A. convention in Central Church school room was a most enjoyable affair. The election of officers resulted as follows: President, Mrs. John Macdonald, Montreal; Provincial vice-presidents, Mrs. Hoodless, for Ontario; Mrs. Asher Carnes-Wilson, Montreal, for Quebec; Mrs. Gordon Grant, for British Columbia; recording secretary, Miss W. Attention, Investors!

To those who intend becoming shareholders in the Colorado Gold Mining and Development Company notice is given that the shares will be advanced to 15 cents Sept. 15 and a further advance of 20 cents will be made Oct. 1, and under no circumstances will shares be allotted at less than the advertised price. All orders by mail at the original price must show a postmark not later than the 15th inst.

The Colorado Gold Mining and Development Company has taken up as a business the handling and working of such properties as have been developed and have disclosed to view positive profits on our original investment. As we work collectively an unlimited number of these claims it gives us much greater chances for success than though we confined our attention to developing one, or even a half dozen "prospects." It is a well known fact that a great many mines have been worked and large quantities of ore brought to sight, but continued development was impossible owing to a lack of necessary funds.

These properties can be bought at prices much below their commercial value, so that profit on the investment is assured at the outset, and as your product is money as soon as produced, gold mining, if properly managed, may be looked upon as bringing in the surest and quickest returns of any business which is engaged in, and it is this class of properties only we handle.

Our plan is purely mutual, as all stand on an equal basis, and every stockholder is entitled to his share of the profits from all properties now belonging to the Company or that we may acquire, and his proportion will be in just such ratio as the amount invested, as no stock is set aside for an officer or director, except as it is paid for the same as by any other shareholder, and all are equal participants in the profits as their interests may appear.

This is worthy of your serious consideration, for never before did the small shareholder have an equal chance with the promoters of the company.

We should be pleased to have you carefully consider our plan and to receive your subscription for as many or "as few" shares of the above company as may be agreeable to you. Price 10 cents per share until date advertised. Par value of shares $1, full paid and non-assessable and subject to no further call.

Subscription books are now open at the office of Lownsborough & Co., 22 King street east, Toronto, Ont., where J. Grant Lyman, Managing Director, will be pleased to receive your subscription. Send for prospectus. 9c
