THE TORONTO WORLD

TUESDAY MORNING, MARCH, 13 1883.

OUR CITY FATHERS.

Petitions Regarding the Esplanade—A Health Inspector Appointed—The Resignation of Ald. G. Evans.

The new city council met for their first evening session last night, Mayor Boswell presiding. Present: Aldermen Crocker, Adamson, Baker, Sheppard, Millichamp, Hastings, Downey, Geo. Evans, Maughan, Carlyle, Love, Stinson, Clarke, Walker, Moore, Leslie, Trees, Hall, Saunders, Allan, Geo. M. Evans.

Communications were read: from D. W. Clendennan stating that since the Grand Trunk are about to erect large shops in Ontario; and the Canada Southern large car shops in St. Thomas; that since the Credit Valley and the Ontario and Quebec railway are to run under the same management; it is possible that Toronto may get a share of these works of the Grand Trunk, and he suggested that some of the matters in dispute between the city and the company be settled so that their more important works and offices might be erected here.

Andrew Smith, V.S., reported on the value of the horses in the fire and scavenger department in St. Paul's ward.

From Wells & Gordon, solicitors for the Credit Valley, referring to the obstructions placed by the Grand Trunk on John street, which prevent them getting access to their freight sheds, calling attention to the fact that the course of the Grand Trunk prevents this company getting any benefit from the capital expended in the erection of their freight sheds; that the way in which the Grand Trunk was monopolizing the Esplanade led them to think that the city either could not or would not prevent them through fear.

A writ was served on the city by James Craig, claiming $5000 damages on account of dismissal from the office of secretary to the board of works of the city, and for $283 for costs incurred by the plaintiff during the investigation instigated by the defendants, which investigation resulted in the plaintiff's favor, and which the defendants promised to pay.

From T. McGaw, commodore of the Toronto yacht club, applying for a lease of island lots, 15 to 25, inclusive, for the purpose of establishing club premises thereon.

Petitions were read from Gryor Unser, praying for exemption in respect of a carpet manufactory to be established in St. Paul's ward; from James Dobson, praying that the changing of the names of the streets in St. Paul's ward be deferred until the property holders can be consulted.

In committee of the whole Ald. Evans wanted to refer back the clause of the executive report which recommended the payment of $125 to Captain Maule, the deputy sheriff as compensation for injury from a fall on a defective sidewalk in Queen's park. After much discussion the clause was carried.

A motion of Ald. Morris was carried to refer back the clause of the waterworks committee, recommending the change of names of certain streets in St. Paul's ward.

The committee on markets and health recommended the appointment of Dr. Canniff to the position of health officer. This clause caused much discussion and the names of many of the principal men of the medical profession were pitted against Dr. Caniff, but the clause was finally carried.

Petitions signed by over five thousand citizens were put in, requesting the council to take certain steps towards the improvement of the Esplanade.

Ald. Clarke, seconded by Ald. Maughan, moved that the petitions of these ratepayers receive the prompt attention of the council, and that the mayor, Ald. Baxter, Downey, Hall, Love, Walker, Maughan, Saunders, Bell and the mover be appointed a special committee to act upon the petition, to whom the same is referred with instruction to prepare, with the aid of the city solicitor, a bill to be passed at the present session of the dominion parliament; that the said committee are hereby authorized to take all steps that they may deem advisable for the speedy passage of the bill. Carried.

A by-law was introduced by Ald. Clarke to exempt the factory, plant and machinery of the Toronto Silver Plate company from taxation for the term of ten years. Mr. Millichamp asked if the same grant would be given to the other two new companies which were going to start a similar enterprise very soon in the city.

Ald. Clark answered "no," on the ground that they would not be new enterprises.

After a hot discussion the by-law was passed without amendment.

Ald. Love introduced a by-law to the effect that no license fee shall be chargeable to pedlars of fish, farm and garden produce, fruit and coal oil, or any of them, notwithstanding anything contained in any by-law heretofore passed by this council. This by-law was carried unanimously.

Ald. Ryan then made a motion to the effect that the previous resolution of council regarding the resignation of Ald. Geo. Evans be rescinded, and that his resignation be accepted. Expressions of regret were freely passed all round the board that Ald. Evans had determined on retiring.

Ald. Davies moved a resolution that the special committee appointed to look after the reformation of the Esplanade be also instructed to suggest to the Grank Trunk the advisability of constructing a line of switches along the banks of the Don and somewhat lessen the traffic on the Esplanade. Carried.

Ald. Clarke moved a resolution that the name of the markets and health committee be changed to the health and cleanliness committee, whose duty it will be to consider and report on all matters referring to the cleaning of sewers, drains, sereets, lanes, alleys and public thoroughfares; to report and recommend to the council such regulations for the inspection of wells, defective drainage and plumbing as may be deemed necessary on sanitary grounds; and generally to have charge of the health and cleanliness of the city. Carried.

Modjeska.

Helena Modjeska, the most finished of all modern actresses, will appear at the opera house, on Tuesday and Wednesday March 20 and 21. It is nearly four years since this celebrated actress appeared here, and her present engagement will be one of the dramatic events of the season. Modjeska has a popularity equal to any actress in the world, and her appearance here will certainly draw crowded houses. Modjeska will present for the first time in Toronto her charming performance of Rosalind, in As You Like it, in which character she has created immense enthusiasm this season. The repertoire will be, Tuesday, As You Like it, Wednesday matinee, Camille, Wednesday evening, Twelfth Night.

The Lawyers and Wiggins.

The regular weekly meeting of the Osgoode society was held on Saturday night, Mr. G. Baker in the chair. As the attendance was small the parliamentary proceedings were dispensed with, and a hot debate substituted, in which Messrs. Forgie, O'Meara, Jarvis, Ogden, Allen, Wallace, Duggan, Taylor, Symons, Swartout, Cairns and McDonnell took part. Wiggins' storm was discussed, and it was unanimously determined that the prediction is ultra vires, especially that portion of it which relates to the Bay of Bengal. A committee was appointed to make arrangements for the holding of the annual dinner, and to report at next meeting.

Lottery Lovers in Court.

The police court was thronged yesterday morning to hear the lottery cases. John Fraser was the first prisoner called to answer the charge of being implicated in the Detroit lottery. After hearing the evidence the magistrate dismissed him. James Rennie was charged with being implicated in the same lottery by publishing the advertisement. Fraser said he had seen the lottery advertisement produced, and that the defendant had given him a number of advertising bills to distribute.

The magistrate thought that this looked more like a lottery than anything he had seen.

The defendant argued that it had not been shown that the Detroit affair was a lottery.

The case was allowed to stand for a week to receive the evidence of a man named Burk.

James Rennie was charged with having disposed of lottery tickets to John Fraser, who stated that the defendant gave him three tickets to sell. The defendant told him that all ticket-holders would get a copy of the Detroit Commercial Advertiser and probably a prize. This case was also adjourned for a week.

Through Northern Spain.

Prof. Ragan will take his audience at Shaftesbury hall to-night on a tour through northern Spain. A bull fight will be fully illustrated in a series of magfincent views from life. The historic ruins of the past and the interesting life of the present will all be described and pictured. The program of last night was devoted to Rome, and the art treasures of the Eternal city were shown in thorough reality. If you cannot afford a trip to Europe you can at least spend two hours profitably and instructively by going to Prof. Ragan and passing over one of its countries in his entertaining company.

Osgoode Hall Happenings.

The case of Wm. McMahon of Northumberland county, charged with seduction, is one of the strangest that has ever appeared in our courts. The plaintiff is the father of the girl seduced, and the villain who accomplished the seduction is her uncle. The case is to be tried in April.

Mrs. Frank Shanly has brought an action against the Equitable life insurance company to recover $25,000, the amount of a life insurance policy. The Equitable states that the defunct Consolidated bank claims the money under an assignment of the policy to them for the remittance of an old debt. At the April assizes judgment will be given.

Patience is a Virtue.

Patience is a virtue, but there is such a thing as an overdose. This is certainly the case with the Messrs. Petley; and we are convinced that nothing short of the prospect of having the handsomest stores in Canada, will repay those gentlemen for the very great inconvenience they have been put to during the past two months.

Customs Superannuations.

For some time past rumors have been current around the custom house that certain aged officers connected with this port would be superannuated at an early day. The knowing ones claim that changes in the lockers, guagers and landing waiters departments are imminent. The wire-pullers are actively pushing the claims of their friends, and lively times are anticipated.

Who Robbed the Mails?

A number of Toronto people sent to New Orleans for tickets in the Louisiana state lottery, and yesterday it was rumored that the letters, though registered, have been tampered with en route. No tickets have yet arrived, although the letters ordering them were mailed towards the end of February.

THE CHINESE QUESTION.

To the Editor of the World.

SIR: I believe one of the stipulations of the Anglo-Chinese treaty of Tientsin provided that British subjects should be allowed to travel for pleasure or business to all parts of the interior, and that under the most favored nation clause, the same privilege should be given to Chinese who might be desirous of migrating to British territory. As a matter of fact, then, any legislation of the federal parliament tending to prevent the landing of Chinese in British Columbia may be disallowed by the British government as inconsistent with imperial treaty engagements. You say that similar legislation to that proposed by Mr. Shakespeare, was passed in New South Wales in 1881, and allowed by the home government. If so, that government must have counted on Chinese forbearance and on the strength of that old prejudice it had done its best to destroy when its destruction appeared necessary in the interests of British commercial supremacy. Shut out the Chinese from British Columbia by taxation or otherwise and instantly China has the right to call Great Britain to account, whether the right be exercised or not. Suppose it exercised—suppose the Pekin government took into its head to threaten the closure of the five free ports and the consequent stoppage of trade relations, would England enter upon a fresh war for our profit or exercise her imperial veto on the colonial legislation which provoked Chinese reprisals? I do not think there can be much doubt about the answers. It will be surprising indeed to find either Sir John Macdonald or Mr. Blake adopting a policy inconsistent with that of the empire, unless they have good reasons for believing either that the latter, secure in its strength, will override solemn obligations entered into in good faith with a weaker power, or that the Chinese government is not averse to having a stop put to an immigration which, unchecked, may ultimately lead to a celestial revolution. It is not likely they have any reason for believing either; it is therefore quite likely that they will concur in opposing Mr. Shakespeare's bill, which has no more reason on its side than would a similar bill drafted in the interests of washerwomen for the expulsion or taxation of Sing Lee, Wokee or the other industrious Chinamen who are earning an honest living as laundry men in Toronto. The Sad Lot of the Shop Girl.

From the Cincinnati Enquirer.

Hard is the lot of the work-girl. Not the stout, hearty serving girl, not too proud to be a servant, not afraid, nor unable to work. Good, competent servants are always in demand, getting good wages, good homes, are well fed, and able to dress much beyond their station. But well born, delicate girls, chock full of pride and airs, who prefer to stand in shops to stewing over a stove, and sooner than be caught wrestling a window and doing house, kitchen or chamber work for $3 a week, lodged and boarded, will work in shoe shops and factories for $2 or $3 a week, or sew and make pants at starvation wages, or stand eighteen hours behind a counter for the munificent pay of $5 a week and board themselves. The result is that the servant girls prosper and do well. Their ranks are made up almost entirely of foreigners, so great is the prejudice to working out among American-born girls.

A clerk in an eminently respectable house was instructed to prepare an advertisement and have it inserted in the newspapers. He prepared one which read: "The poet scooped! We hold four aces to the bobtail flush of any other house in town on fine table-cloths."

First young man—"Well, did you make the acquaintance of that strange girl you were raving over?" Second ditto—"Yes, followed her home." First young man—"How did she strike you?" Second ditto—"She didn't at all; she got her big brother to do it."

"SPECIALISTS."

A. F. Albright, Deeseville, Ont., says:

DR. M. SOUVEILLE,

Dear Sir—I am glad you have put within the reach of everyone, rich or poor, a remedy for catarrh, so effectual in its operations. I believe it will relieve the worst cases, and cure the majority of cases of either Catarrh, Asthma, Bronchitis or Lung Disease.

THE INTERNATIONAL THROAT AND LUNG Institute is the only one in Canada where diseases of the air passages *alone* are treated. We have twelve eminent specialists employed in our practice in Canada alone. With the aid of Dr. M. Souvelle's invention, the Spirometer, and the new treatments we adopt, we are making wonderful cures of Catarrh, Catarrhal Deafness, Bronchitis, Asthma, Consumption, and all diseases of the head, throat and lungs. Consultations and a trial of Spirometer free. Those unable to come to the Institute, or see our surgeons, who visit all the principal towns and cities of Canada, can be successfully treated by writing, enclosing stamp for a copy of our *International News*, published monthly, which will give you full particulars and references, which are genuine.

Address 173 Church Street, Toronto, or 12 Phillips Square, Montreal.
