ELEGANCE IN TRIMMED HATS!

Here it is one of the largest and finest display of trim med millinery this city has ever seen. The choicest of-fects from comestic and foreign milliners, as well as many charming creations from our own workrooms. OPDERS RECEIVE OUR PERSONAL ATTENTION.

Miss S. C. Kelly, Fashionable - - - Milliner.

TO THE ELECTORS Charlotte County.

GENTLEMEN,—I have been selected as the Candidate of the Liberal Party at a large and representative conven-tion, held at St. Stephen on October the. It is with confidence I appeal to you for your support in the coming contest.

othe. It is with confidence I appeal to you for your support in the coming contest.

I am in hearty sympathy with the Liberal Policy, that has produced such widespread prosperity in our country, and has made Canada the admiration of the British Empire.

It is as axiom that in prosperous simes a government is always sustained. I am firmly convinced that the prosperity of Canada will result in the return of the present Liberal Government to power, and therefore it is to the interests of every voter in the county, that the representative from Charlotte should be in accord with the Government.

I ask your support on the record of the Liberal Government during the past eight years. I ask it for the good of Canada. I ask it for the benefit of New Brunswick, and particularly for the benefit of our own county.

I hope to be able to see you personally before election day.

Paithfully yours.

DAN GILLMOR.

St. George, Oct. 10, 1904.

FATAL FIRE.

Loss of Life in a Blaze at a New York Tenement-Incendiarism Charges.

Tenement—Incendiarism Charged.

New York. Oct. 17—Four persons were suffocated and fifteen were horribly burned by a fire which gutted a five story brick double tenement house at 15 Moore St., Williamsburg, early today. Two of the injured, a boy and a girl, probably will die. Incendiarism is supposed. The fire originated in the basement and ran up a dumb waiter shaft, causing a crowded flat to fill with smoke. The flames spread through the flat on the fourth and fifth floors and escape for the persons alseep there was cut off. The firemen and police did heroic work and soon resound more than a score, 15 of whom were almost suffocated. These were removed to St. Catharine's hospital. Two were in bad condition. One fireman making a daring rescue was overcome by smoke and had to be carried out by his fellow firemen. The loss was only about \$3,000.

Several small fires occurred in the neighborhood, all of suspicious origin. They appeared to have been started by the same hand, as all were discovered in the basements of tenement houses. Only the one noted, however, was accompanied by loss of life.

neighborhood, all of suspicious origin. They appeared to have been started by the same hand, as all were discovered in the basements of tenement houses. Only the one noted, however, was accompanied by loss of life.

Some way it causes a smile when a married woman announces that she is taking music lessons.

MACTNAQUAC, Oct. 15—Quite a number of the people from this place attended the fair at Keswick on Wednesday.

Mr. Dudley Currie has returned from a business trip to Shefield.

Mr. George Love, Superintendent of our Sunday School, who being unable to fill his place on Sunday last, was succeeded by Mr. J. C. Howard.

DEMAND COOL CURED CHEESE.

Cheese Factories Deriving Profi from Using Process.

The System Adopted by the Government.

Higher Prices Obtained Than for the Ordinary Cured Cheese.

Judging from the greater demand for cool cured cheese which exists this season, the Old Country merchants are beginning to realize more fully the advantage there is in handling cheese which have not been exposed during the process of curing a temperature higher than sixty degrees. Cheese factories that are able to offer strictly cool cured cheese are deriving so much benefit that it must be only a question of time, a short time in fact, until all factories are equipped with proper cool curing rooms.

The experience gained at the Government cool curing rooms has demontrated that, while the first requisite is to control the temperature, it is also necessary to provide for some circulation of the air to carry off the moisture which escapes from the cheese, and which comes from the increased relative humidity due to the reduction of temperature. If the relative humidity is too high the cheese will have soft skins and develop a tendency to mould badly.

The system adopted at the Govern-

is too high the cheese will have soft skins and develop a tendency to mould badly.

The system adopted at the Government curing rooms has worked admirably, and it can be employed without difficulty and at a modern cost in connection with any cheese factory. Indeed, a large number of factory curing rooms have already been remodeled on this system. The necessary alterations and additions involve the putting in of a cement concrete floor, some extra insulation, and the erection of an ice chamber. Mr. J. A. Ruddick, Chiet of the Dairy Division, Ottawa, who has this work in hand, points out that many of the existing curing rooms are large enough to allow of an ice chamber being constructed in one and, and still leave sufficient room for cheese. This applies more particularly to the older factories in Western Ontario.

Where improvements are proposed for next season, the work should be undertaken this fall, in order to have the lee chamber ready for filling during the winter. Mr. Ruddick has prepared plans showing his system of cooling for all classes of cheese factory and creamery buildings, and he invites those who contemplate improving old buildings or erecting new ones to communicate with him, if they desire to have the benefit of his experience in these matters.

have the benefit of his experience in these matters.

This question of the cool curing of cheese is one in which the patrons of cheese factories should take the keenest interest, because they will gain more through its adoption than any other section of the trade. They should be willing to bear a share at least of the expense of refitting the factory. The present scale of charges for-manufacturing cheese is based on the old plan, and it is too low to secure a good service.

Some of the factories with cool cured

ne of the factories with cool cured Some of the factories with cool cured cheese have during the present season been getting one fourth of a cent above the highest price paid for the ordinary cured article, and there is not the slightest doubt but the difference will be greater as cool cured cheese become known. In addition to the increased price there is a saving in shrinkage of about one and a half per cent.

Orugging Won't Cure Catarrh.
All the medicine in the world taken into the stomach won't cure catarrh, and it's useless to squander money on tablets, bitters and liquid remedies. Catarrh is a disease of the nassl passages, throat and bronchial tubes. Stomach medicines can't reach these parts. It's only fragrant healing Catarrhozone which is breathed all through the air passages that is sure to reach the seat of Catarrh. No failure ever known if Catarrhozone was used. It heals and doesn't irritate; it soothes, kills the germs and therefore cures. Use only Catarrhozone, the one certain cure. Two months treatment \$1.00; trial size 25c.

BURTT'S CORNER.

BURTT'S CORNER.

BURTT'S CORNER, Oct. 13.—The new bridge constructed by W. R. Fawcett over the Forks River, near the Cardigan Station is near completion. Mr. Fawcett has proved himself a workman that needeth not to fear from inspection, for the bridge, in workman that needeth not to fear from inspection, for the bridge, in workmanship and strength, is pronounced the best in this part of the country.

The district exhibition at the Mouth of the Keswick on the afternoon of the 12th was quite a success. A large assortment of the products of the farm were exhibited. Quite a large number of fine horses were presented, Mr. Elwood Allen and Mr. Beverly Lawrence taking first prize on coles.

Mrs. W. H. Allen and daughter, Beulah, and Mr. Geo. Boone, jr., who were visiting friends at Lewiston, Mc. returned home on the 4th.

Mr. J. E. Algar, representing the firm of Scovil Bros., St. John, registered at the Burtt's Corner Hotel on the 12th.

News has reached here of the total loss by fire of Mr. Lewis Brewer's Mills, Upper Keswick.

The great political contest is drawing near, Already it is creating quite an excitement—but a little time and the tale will be told.

Jones & Burtt are pushing business at their mill and expect, if the season permits, to clear out the entire last season's cut. They have done a remarkable stroke of business in the lumber line since early spring.

Mr. Harry Allen will occupy his new hotel next week, and will be in readiness for more extensive business.

KING OF PAIN."

RECEIVED THIS MEDAL

This medal was awarded to Min. ad's Liniment in London in 1886. The only liniment to receive a medal

It was awarded because of strength, purity, healing powers and superiority of the finiment over all others from throughout the world.

Miss Melva Love, who has been going to school at Keswick Ridge, has been at home this week on account of

been at home this week on account of sickness.

Miss Alice Saunders of Marysvife has been visiting at her brother's for the past week.

Some of our young men are preparing for the lumber woods.

A number of the young people attended the surprise party which was held at Mr. Ira Ingraham's, Bear Island, in honor of his daughter.

Are All Women Pretty?

Are All Women Pretty?

Quite an unnecessary question, because so many women have such poor complexions. We want to tell all women with pale sallow cheeks about Ferrozone, which quickly imparts fine color and gives the skin a clear, rich appearance. It's pure blood that makes fine complexions, so by producing lots of vitalizing blood, building up the debilitated system, increasing the circulation Ferrozone quickly brings the glow of health to faded cheeks. It's no trouble at all to beautify your looks—simply use Ferrozone. Try it. Price 50c. at druggists.

THE DANES EXCITED.

The Japs May Attack the Baltic Fleet in Danish Waters.

Danish Waters.

London, Oct. 16—The correspondent of The Times in Copenhagen says that great excitement is caused there by the expected passage of the Russian Baltic fleet through Danish waters tomorrow. The biggest ships can only go through the Great Belt between Zeland and Funen Islands. A number of Danish pilots left a few days ago for Reval and Libau, their services being requested on behalf of the Russian navy. There are rumors that Japanese spies have chartered neutral ships, and are cruising in Danish waters in order to secure respect for Denmark's neutrality the Danish cruiser Heimdal and some torpedo boats have been ordered to put to sea. It is thought likely that the Russian fleet will coal on the high seas near the Skaw.

GENERAL PROSPERITY

Has Been the Keynote for Canada While Other Countries Have Been Depressed.

(Toronto Globe.)

The cables tell of masses of unemployed workment in British cities. There is doubt end uncertainty in the great centres of the United States and many wage reductions have recently been made. Germany recovers very slowly from the terrible collapse of three years ago. The condition of South Africa is very serious. Canada stands alone, prosperous and busy amid world-wide depression.

Why is this? The businessman with his capital at stake, the workingman with his labor to sell, are both supremely interested in the question as to how the Dominion is warding off the depression that has been expected and that by all the signs abroad upon which one can rely should have been felt some months ago.

We have no hesitation in declaring that the prudent financial policy and the broad statesmanship of the Laurier Government have been the chief means of warding off hard times. In eight (Toronto Globe.)

CURE SICK HEADACHE.

years not a dollar has been added to the national debt. Now the project is launched of a second transcontinental railway at the very time when its construction will be of the greatest advantage in giving strength to the industrial situation. Two hundred million dollars will be spent in the next six or seven years for 1 bor in the form of railway grading, rails, bridges, locomotives, cars and the hundred other things required for railway operation. Look at what the coming railway development means already. The Amerian Locomotive Co. is completing a huge plant at Montreal, with a capacity of one locomotive a day. Work for years is assured. A pressed steel car company will operate an immense factory to turn out on the Canadian side thousands of medern steel cars. The Dorninion Bridge Co., Canada Foundry Co. and other bridge builders will be able to enlarge their forces to thousands where hundreds are now employed. The steel plants at the Soo and Sydney will be operated day and night railmaking. To every department of industry new energy will be given.

Do the workingmen and businessmen of Canada want to do anything that will unsettle this condition of affairs? Borden might some day in the remote future arrange for a second transcontinental. Laurier pledges himself that it will be built now.

If you can keep your digestive system in proper condition the body will be well nourished and you need have little fear of disease. By regulating the kidneys, liver and bowels Dr. Kidney-Liver Pills ensure a healthful condition of the organs of digestion and for this reason are indispensable as a family medicine.

TRIED TO KILL HIM.

Halifax, N. S., Oct. 16—Dick God-frey, a colored man at Bear River, tried to kill James Mullen by striking him with an axe because Mullin refused to allow Godfrey—to take away wood from the mill. The colored man was arrested.

Why Burn Your Flesh With acid corn salves when 25c buys a bottle of Putnam's Painless Corn Extractor. It's purely vegetable never causes sores, and acts entirely without pain. Use only Putnam's—the best.

Baptism at Kingsley

At the Methodist church at Kingsley Sunday afternoon there was a large attendance. The Rev. James Crisp conducted service and preached from the words, "There is joy in the presence of the angels of God over one sinner that repenteth." After the sermon two adults were baptized and four persons were received into the church by the right hand of fellowship. At the close the sacrament of the Lord's supper was administered.
