THE BIG LEAGUE GAMES — SPORTS — THE TURF, YACHTING, FOOTBALL

Uhlan Defeats Hamburg Belle In Great Race at Readville

Readville, Mass., Sept. 3.—Over a track fully a couple of seconds slower than when Lou Dillon startled the world with a mile in two minutes thereon, the trotting gelding Uhlan, locally owned and bred, today defeated Hamburg Belle in straight heats at the Readville [illegible] the second meeting of the [illegible] to decide the trotting championship of the world.

Hamburg Belle was the favorite before the start at odds of 5 to 3, which was through her having won in the initial meeting last week of the cracks at Cleveland, when she earned the world's record of 2.01 1-4 for trotters in a race.

In drawing for position today Billy Andrews held to his usual run of good luck in securing the pole.

On the second score Walker sent them away to a fine start. Immediately Andrews opened a gap of a length, maintaining this advantage clear to the three quarter pole when it was seen Proctor was driving for the first time in earnest in attempting to catch the leader with the black son of Bingen.

Rapidly he closed on the mare until at the head of the home stretch he had her lapped, his head being at her saddle. Andrews apparently had confidence in the finishing ability of Hamburg Belle and never made a move until he saw Uhlan had got to her neck. Then, 30 yards from the wire he tapped the trotting queen a couple of times. She failed to respond and Uhlan quickly went into the lead, winning easily by two lengths.

The fractional part of the mile was 31 3-4, 1.02 3-4, 1.33 1-4 and 2.04 3-4 for the mile.

After a couple of warming-up scores for the second heat, the contestants turned for the word and got it the first time down, with the pole, the backers and admirers of the Boston representative had concluded it a big help, but just before reaching the quarter pole Andrews sprang a big surprise by fairly jumping Hamburg Belle so fast into the lead that it appeared from the grand stand as if Uhlan had met with an accident and been forced to stop. It was a wonderful burst of speed considering, too, that the quarter was reached in thirty-one seconds. From this point Uhlan was laid in about the same position back of the leader as the previous heat and Proctor, too, made his drive in the lower turn at exactly the same place as before.

Andrews, knowing the result of waiting possibly too long in the former mile was not to be caught so easily this time and began when entering the stretch to tease his mare for increased speed. However, Uhlan was certainly crawling to even terms and collared his anttagonist when inside the distance.

Here Andrews was successful for a number of yards in holding his own, but soon after it was perceptible to the spectators that Hamburg Belle was weakening under the strain. Cheering began all along the quarter stretch for the conquering equine which then came away and was a good length in front at the wire.

The fractional parts of the heat illustrated the method Andrews used in trying to escape defeat. The quarter was passed in 0.31; the half in 1.01¼; three-quarters in 1.32, and the mile in 2.03½. The final quarter was slower by a half second than the others, which was due to Hamburg Belle having been raced into submission.

In deciding the relative merits of the two fastest racing trotters the world ever saw, the score stands one each, with a third meeting necessary to estaulish the champion.

Soprano, owned by H. M. Combs of New York, and driven by Johnny Dickerson, in the American Horse Breeders' Futurity for trotting foals of 1906, equalled the record of Fantasy, 2.08¾, that has stood on the turf books for so many years as unapproachable. Soprano at the same time lowered the time of the stake a half second, previously held by Gen. Watts.

Two handicaps were on the card, the Blue Hill for trotters, and the Neponset for pacers. In the first Beter Balta, on the 2.15 mark, had no bother after having disposed of Olga W in the home stretch drive.

Prince Lavalard, 2.11¾, when making a good race for the lead at the quarter pole, three-quarters of the distance the event [illegible] tripped and fell and broke his [illegible] leg above the ankle. A policeman soon put him out of his suffering with a merciful bullet. The horse was owned by S. Birch, of Orange, Mass.

The Neponset Handicap went to Annabelle Lee, one of the Geers string, Aileen Wilson the scratch horse, came a good second, starting 315 feet back of the winner. Except for a short break when a mile of the race had been covered, it appeared as if Aileen would have won.

Ella Ambulator, the New Jersey mare, owned by W. C. Hendrickson, with Tommy Murphy up, took four heats in landing the 2.08 pace, many of the finishes being of the head and head order between the heat winners.

After having lost the first heat of the 2.11 trot, the Attleboro, Mass. stallion, Baron May, had little bother in getting the honors and a new record of 2.08¾. Maggie Winder had simply to jog the track a couple of times to annex the pacing futurity.

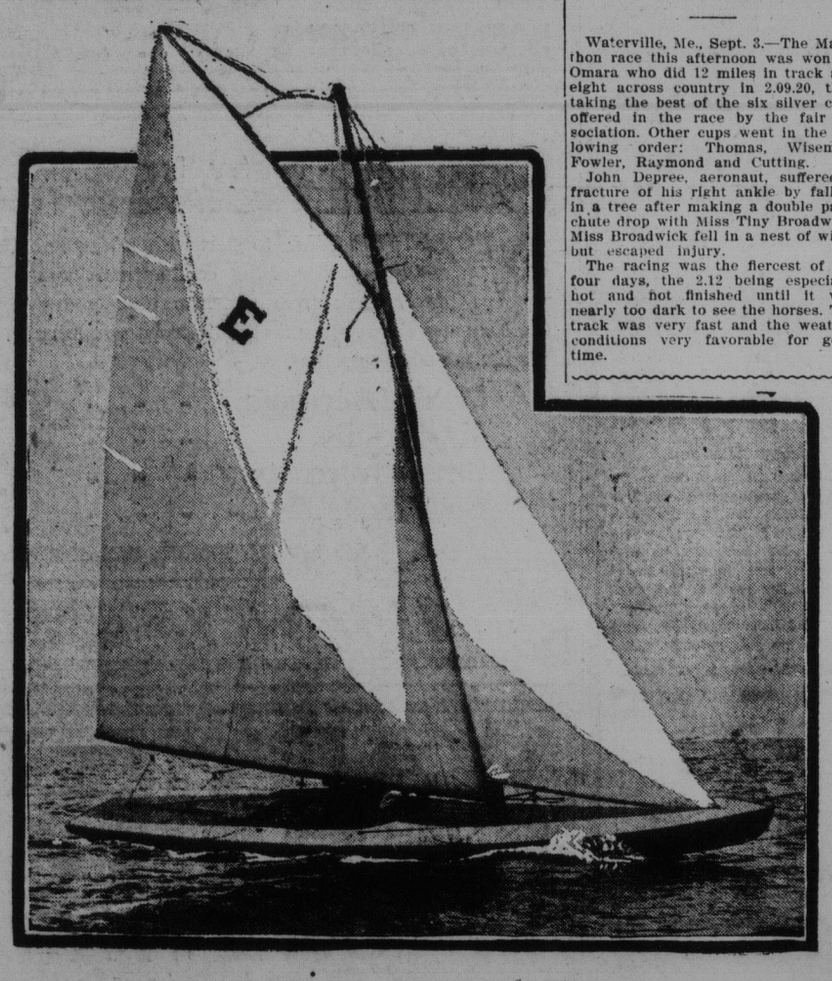
JOYETTE TAKES FOURTH RACE OF SERIES FOR THE TAFT CUP



The Ellen, type of American Sonder Class Yacht.

Marblehead, Mass., Sept. 3.—Today's international sonderklasse race, the fourth of the series for the President Taft and Governor Draper cups, was won by the Joyette, owned by Commodore W. H. Childs of the Bensonhurst Yacht Club of Brooklyn, in the presence of the President of the United States, Secretary of the Navy Meyer and a host of other interested on-lookers. The President witnessed the contest from the bridge of the United States steam yacht Sylph, and several members of his family were with him. He received the Presidential salute of twenty-one guns from the revenue cutter Androscoggin, one of the patrol boats, as the Sylph steamed down the course toward the finish line and the throngs of the pleasure boats were all anxious to have a look at the chief magistrate.

The Joyette was extremely fortunate to win the race, as the Hevella, the German challenger, led the fleet of six yachts at the end of the first trip over the windward and leeward course, while Joyette was an even three minutes behind her, in fourth place.

Going out to windward for the second time, the Joyette split tacks with the fleet and took a long hitch to the southeast, while the other racers stood in shore on the port tack. Hevella footed very fast, but Joyette, sailing over by herself, ran into the fresh breeze that her skipper, W. W. Swan, had scented before completing the first round, and in a very few minutes it was plain to the on-lookers that the Brooklyn boat had worked into the lead.

Had one of the German boats followed the request of the committee to give chase to any American boat that split tack, the result might have been different.

Capt. Protzen of the Hevella devoted himself to the Ellen for too long a time. He finally saw from afar what a stiff breeze the Joyette was getting and so made in her direction, but it was too late. Joyette crossed her bow with minutes to spare and was far ahead of all the boats at the turn. It only required a simple spinnaker run to the finish for Joyette to receive the winner's whistle and an ovation.

FOOTBALL IS TO BE THE SLOGAN NOW

Season Opens Tuesday, When the Algonquins Will Have Their First Practice.

With the air already taking on that keen edge which denotes the approach of fall, comes the renewal of interest in football. The senior season will open Tuesday with a practice of the Algonquin team on the Shamrock grounds. It is expected that a majority of the old players on this team will turn out to the first practice and the prospects look good for a snappy team this year. In the forward line, McIntyre, Clark, Macmichael, Smith, the two Seelys, MacKinnon and Finley will all be on hand and will form practically the same team which first took the field in 1907. The half line will be replenished with some good men. It looks at present as if the Indians would be called upon to represent St. John in senior fotball, among Provincial teams this fall. There is no sign of awakening in the Marathons or St. Peters teams.

OMARA WON MARATHON AT WATERVILLE

Waterville, Me., Sept. 3.—The Marathon race this afternoon was won by Omara who did 12 miles in track and eight across country in 2.09.20, thus taking the best of the six silver cups offered in the race by the fair association. Other cups went in the following order: Thomas, Wiseman, Fowler, Raymond and Cutting.

John Depree, aeronaut, suffered a fracture of his right ankle by falling in a tree after making a double parachute drop with Miss Tiny Broadwick. Miss Broadwick fell in a nest of wires but escaped injury.

The racing was the fiercest of the four days, the 2.12 being especially hot and not finished until it was nearly too dark to see the horses. The track was very fast and the weather conditions very favorable for good time.

ST. PETERS TO HAVE A NEW LINE UP TOO

St. Peters have followed the lead of the Marathons in shaking up the position of players on the team for today's game. Rogers, the catcher, will be given a rest in right field and J. McGowan, the reliable first baseman will go behind the bat. Jack Dever will pitch for St. Peters, with Callahan on first base. The Marathons last night had not definitely decided between Gilmour and Nesbit as twirler and they announce other changes on the team from those published yesterday. The teams will be:

Marathons	St. Peters
Catcher.	
J. McLeod	J. McGowan
Pitcher.	
Gilmour or Nesbit	J. Dever
First baseman.	
Bradbury	Callahan
Second baseman.	
Clawsen	J. McCormick
Third baseman.	
Titus	F. Dever
Shortstop.	
Rootes	E. Mahoney.
Left field.	
D. Malcolm	C. McCormick
Centre field.	
J. Malcolm	F. Mahoney
Right field.	
Murphy	Rogers

In connection with the suspension of two players on the Marathon team, Manager Donald, last evening made the following statement: "After careful investigation I suspended Copeland for the present and dismissed Ramsay from the team altogether. The investigation shows that every other member of the Marathon team were entirely free of any knowledge of or participation in the disgraceful affair of last Saturday. I do not care to make any further statement at present as to the revelation opened up by the inquiry instituted."

ENTRIES FOR LA TOUR MEET LABOR DAY

A special meeting of the La Tour Section T. of H., was held Thursday evening at which plans for the coming season were considered. It was decided to organize a football team for the coming season and Stanley Humphrey was elected captain. It was also decided to take steps in the near future to organize a hockey team. During the winter a glee club will be formed and every other meeting night of the section will be devoted to entertainment. Plans for next summer's sports were also considered and it was decided to obtain proper grounds for next season. This move will be greatly appreciated by the athletes of Carleton and should result in greater interest being taken in various branches of sport on the West Side.

The following entries have been received for the sports to be held on the Market Square Labor Day commencing at two o'clock.

Sporting Notes.

The following left for Woodstock yesterday to take part in the golf match to be played there today: James Jack, Andrew Jack, J. M. Miller, Dr. Kenney, Rev. E. B. Hooper, Peter Clinch, Paul Longley, J. W. Thomas, A. C. Currie, J. G. Harrison, J. L. McAvity, F. A. Peters, F. W. Fraser, W. D. Baskin, A. W. Porter, F. M. Keator, A. C. C. McIntyre and Dr. J. M. Magee.

The special race of the Westfield Outing Association for salmon boats and the sail off for second place in class A series, Woodman's Point plate race, will be re-sailed this afternoon.

Members of last year's Commercial Bowling League are talking of forming an association called the St. John Bowling Association. It is their intention to make this a social affair, to have handicap matches and to be under the rules and by-laws of the National Duck and Candle Pin Association of Boston. A meeting of all interested will be held Tuesday night at 8 o'clock in Black's bowling alleys, when plans will be made and officers elected.

Entries for the Labor Day athletic meet, which closed Thursday, include a number of local athletes. In the hundred yards dash, Dynan and Garnett, of St. John are down to start, and are also entered in the 220 dash with Brooks, of St. John. George Stubbs Stirling and A. D. Smith, of St. John, are entered for the longer distances including the half mile, one mile and five mile runs.

Sandy Ferguson may have asked his seconds to throw up the sponge after the seventh round of his battle with Joe Jeanette Friday night, but it was not due to cowardice. Jeannette's terrific body punches had Ferguson in such pain that he could neither breathe nor put up his hands. He was simply a punching bag for Jeannette, who hammered him all over the ring in the last round without receiving a blow in return. Jeannette's attack was well planned, for he evidently knew that Ferguson, because of his method of living in years gone by, had a weak stomach. If Jeannette thinks he is entitled to a battle with Johnson it is apparent to a majority of ring followers that he can attain such an end by first whipping Langford decisively.

LOCAL BOWLING LEAGUES REORGANIZED

That the interest in bowling will be as great as ever during the coming winter is shown by the fact that the local leagues are already being organized. Mr. H. F. Black is installing two fine new alleys. This will make four alleys which Mr. Black has, and he expects to have them completed and ready for the season in about a week's time. The foundations, which are to be solid, are now ready and Mr. Black is waiting for the alleys to come from the Brunswick-Balke-Collender Company, who will lay them.

St. Peters Y. M. C. A. are also installing two new alleys. The old one which was put in two years ago, is being torn up, and the new ones will be of much better material and will be a great source of recreation for the boys during the coming winter.

On the Victoria alleys workmen are busy putting the alleys into shape and everything is in readiness for a busy season.

ENGLISHMEN PRACTICE.

Philadelphia, Sept. 3.—A large number of followers of lawn tennis turned out at Germantown today to watch the English tennis players take their first practice for the Davis cup preliminary matches, which are to be held on the courts of the Germantown cricket club Sept. 10, 11, 13, and 14, to decide whether an American or British team shall go to Australia to try for the trophy.

The English team is made up for J. C. Parke, N. C. Crawley and C. P. Dixon. They did not exert themselves today because of their lack of condition after their voyage from England. Local tennis experts will meet the visitors and give them practice for the big matches.

The American team which includes W. A. Larned, W. J. Clothier, H. H. Hackett and R. D. Little, will arrive in a few days to begin practice.

SPOON HATCH ON TODAY.

St. John Rifle Club will hold their weekly spoon match this afternoon on the local rifle range, starting at 1.30 o'clock sharp. On Monday the club will hold two matches in the morning at 9 o'clock, a spoon match, and the afternoon match will be the fourth and last match for the Government prize and the P. R. A. silver medal will be awarded to the highest score in this match. Much interest is being take in this match, as there are some four or five members running very close for the Government prize, and at this match it will be decided who is the winner. At the close of the match there will be a meeting of the club, when all matters regarding the Moncton citizens' challenge shield match will be decided. Members unable to be present at the shoot are asked to try and be present at the meeting.
