THE ACADIAN.

WOLFVILLE, N. S., AUG. 19, 1904.

The Government Sanitorium.

Having a little spare time while in Kentville recently we took advantage of the opportunity to pay a visit to the Sanitorium recently established in that town by the Government of Nova Scotia. This institution is situated on a sightly bluff overlooking the Cornwallis River and the town of Kentville, and while perhaps for obvious reasons too near the work-shops of the D. A. R., on the whole is favorably located. It enjoys the distinction of being the first sanitorium built in Canada that is entirely owned and equipped by a provincial government. The only one other government controlled sanitorium at present in operation on the whole continent, we understand, is the sanitorium at Rutland, owned and controlled entirely by the state of Massachusetts.

The writer was courteously received and shown through the building by Miss Elliott, the superintendent, and found the sanitorium apparently well adapted to the purpose for which it was established, the care and treatment of patients in the first stages of consumption. The building is provided with pleasant airy rooms, wide piazzas, sun-rooms, etc., and has accommodation for twenty patients. Each patient has a private room, simply but attractively furnished, hospital bedstead with spring and mattress, table, chair, washstand, with toilet set, chiffonier or dressing case, and clothes press. Wide doors permit the bedsteads being rolled out on the verandahs, so that the patients may sleep in the open air in suitable weather.

The patients who go the the sanitorium are in the care of trained nurses and the daily temperature and weekly gain in weight is carefully charted. They are instructed how to take the most scrupulous care of the expectorations and are aided in every way to place themselves in the best possible hygenic conditions.

The whole method of treatment, as at other institutions of like character, emphasises that there is no specific for consumption but fresh air—twenty-four hours out of the twenty-four in the fresh air being the ideal aim at according to the superintendent. Plenty of good nourishment for mind and body, coupled with fresh air and sunshine—eating, playing, working, sleeping all the year round in the open or else in well ventilated rooms, is what the treatments means.

The price, we were informed, is a uniform one of $8.00 per week, which covers everything. While this cannot be regarded as an excessive charge by any means, we question if a government supported institution, with [illegible] such an important object as the combatting of the dreaded "Great White Plague," could not very profitably be carried on so as to include all patients requiring treatment regardless of their being able to pay the prescribed charge. It must be understood that a large amount of educative work is required to be done before the public generally can be expected to assist in the great work of exterminating the dreadful malady.

A Danger to Baby.

Doctors have preached against the so-called soothing medicines for years but they are still used altogether to much. The fact that they put children to sleep is no sign that they are helpful. Ask your doctor and he will tell you that you have merely drugged your little one into insensibility—that soothing medicines are dangerous. If your little one needs a medicine give it Baby's Own Tablets, and you give it a medicine guaranteed to contain no opiate or harmful drug. You can give these Tablets just as safely to a new born infant as to the well grown child, and they will cure all the minor ills of childhood. Mrs. J. M Gilpin, Belihaven, Ont., says: "Since I gave my little one Baby's Own Tablets there has been a marvellous change in her appearance, and she is growing splendidly. You may count me always a friend to the Tablets. Ask your druggist for this medicine or send 25 cents to The Dr. Williams' Medicine Co., Brockville, Ont., and get a box by mail post paid.

'The Silver Slipper.'

The greatest reigning musical production of New York's past season was undoubtedly John C. Fisher's stupendous production of the English musical comedy 'The Silver Slipper,' by the authors of 'Florodora,' which for six consecutive months filled the famous Broadway Theatre, (probably the largest in seating capacity of any of the New York theatres) and whose long engagement was brought to an end on account of future bookings. 'The Silver Slipper' is by all odds one of the present season's greatest novelties, and will receive its first presentation in Halifax, on Tuesday evening August, 23rd, at Academy of Music.

Advance in Flour.

The advance in Ontario and Manitoba Flours of 20c, a barrel last week has been followed by another advance in Chicago which will probably send Canadian prices still higher. At the present price of Manitoba as compared with Ontario flours, a consumer can save about thirty-five cents a barrel by purchasing the 'Royal Household.' This flour is made under a process known only to its manufacturers and gives about sixty to seventy-five cents worth more bread than ordinary flour to the barrel.

World Wide.

The British parliament was prorogued Aug. 15th, after seven fruitless attempts had been made by the opposition to turn out the government.

America's Monte Carlo is the town of El Pasco in Texas. It has ninety-four open gambling dens from whence $29,000,000 pass annually.

A dressmakers' trust is the latest business combine in Paris. It has been formed to protect the best Paris models from being sold at reduced rates and to second class houses in Europe and America, as has been customary in the past.

James J. Corbett, the pugilist, sparred two exhibition bouts in Halifax last Friday.

The minister of marine is inspecting the harbors of British Columbia for a location of the terminus of the Grand Trunk Pacific. Port Simpson, it is thought, will not be chosen on account of its proximity to the United States islands.

Considerable sympathy has been expressed for Russia in the case of her torpedo boat destroyer, Ryeshitelni, which was captured by the Japanese while lying disarmed in the neutral harbor of Cheefoo. The Russian sailors pummelled the attacking party with their fists. Japan claims that the Russians took the offensive.

Halifax gave a magnificent welcome to Mr R. L. Borden, the popular liberal-conservative leader, on his return from Ottawa Monday night. A grand procession in which were four bands of music, the mayor, J. C. O'Mullin, representatives of the conservative wards, members of the Borden North End Club, and many others formed at the railway station amid much discharging of fire-works, explosion of bombs and burning of colored lights, and for two hours enthusiastically conducted Mr and Mrs Borden's carriage around the city. At his home Mr Borden made a few appreciative remarks in response to the call for a speech.

Farm Laborers' Excursion 1904.

Latest reports show that the Wheat Crop of Manitoba and the Northwest is as good, if not better than past seasons, and many thousand laborers will be required to assist in harvesting same.

The Farm Laborers' excursion from the Maritime Provinces will be run on August 31st. from points in Cape Breton and Nova Scotia east of New Glasgow; from all other stations in Nova Scotia, Prince Edward Island and New Brunswick on Thursday, September 1st.

Second class tickets to Winnipeg will be sold from each coupon ticket station, and the [illegible] rate from points in New Brunswick on Canadian Pacific lines will be $12.00 going, $18.00 returning; from points on the Intercolonial lines in New Brunswick and Nova Scotia, also from D. A. R. stations in Nova Scotia, rate will be $13.00 going and $19.00 returning, and from coupon ticket stations in Prince Edward Island rates will be $13.50 going and $19.50 returning.

These tickets will be sold to female as well as to male laborers, but half tickets will not be issued to children, and the purchaser of each ticket will be given farm laborer's verification certificate, and extension coupon. On arrival at Winnipeg special trains will be met by farmers and Manitoba Government representatives, and when extension coupon has been signed by the farmer showing that the holder thereof is engaged to work with him in the harvest field's, this coupon will be taken by the ticket agent, and free ticket given to the Canadian Pacific station nearest to the point where the laborer has engaged to work, and on arrival at that station the laborer must deposit the verification certificate with the Canadian Pacific ticket agent. When he has worked for thirty days, and has certificate signed by the farmer such certificate will be honored for return ticket to starting point at any time prior to Nov. 30th, 1904, on payment of the return rates above quoted.

It is expected special passenger trains will be run on the main lines for the accomodation of laborers, and tickets will not be good on regular passenger trains.

150 lbs. baggage wearing apparel only, will be allowed on each free ticket to Winnipeg, and every piece of baggage checked should bear the owner's name and permanent address. If however, any has made prior arrangement to work with the same farmer they were employed with in previous years, they may check their baggage through to that point, but not beyond Moosejaw, Yorkton or Estevan, as no price tickets will be furnished to points beyond those stations.

Owing to the great difficulty in handling fifteen or twenty thousand laborers to one station at Winnipeg, baggage delivery may be slow, and as much as possible should be carried in hand grips in the cars with the passengers instead of checking.

Anyone requiring any further information should write to Mr C. B. Foster, District Passenger Agent of the Canadian Pacific Railway at St John, N. B., and those who intend joining excursion should notify ticket agent at once.

BIRTHS.

FREEMAN.—At Wolfville, Aug. 13th, to Mr and Mrs Samuel Freeman, a son.

DEATHS.

GOULD.—Mr George Gould, of Lockhartville, passed away to his rest Aug. 12th, at the age of 73. Mr Gould was a great sufferer during the last few months of his life.

Electrical Storm.

Wolfville was visited on Monday by another violent electrical storm, which, indeed, passed over the whole valley and did more or less damage in many sections. In Wolfville the doings of the storm king were particularly in evidence, the lightning striking in a number of places and doing damage of greater or less extent. The telephone system was badly demoralized while the electric light and fire alarm were affected to some extent.

The principal damage, however, was done to St Anbrew's church, which sustained considerable injury. The bolt struck the weather-vane and passing down entered the belfry, ripping off clap-boards and finish. The fluid passed down both sides of the roof, breaking out the wall in a number of places. Some damage was also done in the motor room. The fire company was promptly on hand, but their services were not required. The damage to the building has been placed at $210, and is covered by insurance. The work of making repairs will be begun at once, and in the mean time the services will be held as usual.

A number of cases are reported of persons being affected by the fluid, but fortunately no one was hurt. The storm was not of long duration, but was of a very violent nature while it lasted, and rain fell in torrents.

The residence of John E. Coldwell, Newtonville, was struck by lightning during the storm of Monday, Aug 15.

It happened just after dinner. Mrs Coldwell was in the kitchen when the crash came. She knew the house had been struck for she saw some of the shingles fall to the ground just in front of the window before which she was standing. She escaped unharmed.

Mr Coldwell was lying on the lounge in the sitting room and received quite a severe shock in his left side, burning it considerably, scorching his sock to a brown crisp and damaging his boot.

After attending to her husband Mrs Coldwell ran up stairs to discover the extent of the damage. She entered the room directly above the sitting-room and found the lace curtain torn from the window and burning in a heap on the floor.

A picture which had been suspended by a wire was thrown down, the glass was broken to atoms and the wire completely burned off. The plaster was broken in many places.

A lamp was broken and holes resembling auger holes bored through the walls. The other inmates of the house, Mr Coldwell's mother and his two small children were unhurt but very badly frightened.

As the house is a good one and almost new the damage must be considerable.

Newtonville Notes.

Quite a number of our people attended the Farmers' picnic at Evangeline Beach, Sat. the 13th. We understand that a very enjoyable day was passed.

Mrs. E. P. Alfred and children, of Attleboro, Mass., who have been visiting the former's brother, Mr. F. H. Coldwell, have returned home.

Mr. Watson Bishop, of Bishopville, spent a part of Saturday and Sunday with friends here.

Mr. and Mrs. James H. Coldwell attended the funeral of Mr. George Gould, at Lockhartville, on Sun. 14th. Mrs. Coldwell is a sister of the late Mr. Gould.

We are sorry to hear that Miss Hattie Nowlin is suffering from a severe attack of quinsy.

Mrs. H. R. Campbell, Mrs. C. Bacon and Miss Clara Blois, of Malden, Mass., are visiting their aunt, Mrs. H. W. Brown.

Farmer's Picnic.

The farmers' picnic at Evangeline Beach last Saturday was one of the largest affairs of the kind ever held in this county. In point of attendance it was a grand success, and if in arrangement of details the management was rather weak this defect will doubtless be remedied in like gatherings in the years to come. There is no doubt but that the idea is a good one and the meeting together of so many representatives of this important industry must be of mutual advantage and profit to the county at large.

The day was one of the most delightful of the season, and at an early hour teams large and small thronged the streets leading to the beach. It is estimated that three thousand persons attended the picnic and that in the neighborhood of a thousand teams were required for there transportation. The best of order prevailed and nothing occurred to in any way mar the pleasure of the day. Boating, bathing, and the other amusements which the beach affords were duly participated in and the day's outing was voted by all as a most enjoyable one. Although a number of the speakers expected to be present failed to put in an appearance a number of addresses were given, the speakers being Mr C. C. H. Eaton, of Canard, president of the Farmers' Association; Capt. C. O. Allen, president of the King's County Board of Trade; Mr M. G. DeWolf, of Kentville; Dr. Wilfred E Harris, formerly of Aylesford, president of the Massachusetts College of Osterpathy Warden Balcom, of Aylesford; Dr. Henry Chipman, of Grand Pre; Councillor Schurman, of West Hants; and Mr John Donaldson, of Church Street.

Real Estate For Sale.

Within the town of Wolfville and neighborhood:

1. Shop and premises on Main street nearly opposite 'Central Hotel' now in occupation of J. W. Selfridge.

2. Parcel of land containing about one and a half acres directly opposite "Thornleigh," the beautiful residence of Hon. Justice Townshend. The charming location and beautiful environment of this property, with its 130 feet frontage, renders it most eligible for building purposes.

3. About 9 acres of land on west side of Highland avenue, containing about 300 apple trees just coming into bearing. This property would make fine building lots.

4. On the Wickwire dyke, five and a half acres of land near the division dyke.

5. In Grand Pre, buildings and premises lately occupied by John Robinson. This farm contains 30 acres of land, of which 10 acres are in orchard There are 600 apple trees, the greater number just coming into bearing, besides pear, plum and peach trees.
