Steel Company Leases Iron Mines of N. B.

EXPERTS HAVE PRONOUNCED THE ORE FINEST DEPOSIT OF ITS KIND IN CANADA.

ST. JOHN, February 10—Negotiations have just been concluded which will bring the mineral wealth of New Brunswick into great prominence, and will it is thought, eventually lead to extensive developments. An eighty year lease of the large iron properties at Le Preaux, owned by the New Brunswick Iron company, has been given to the Dominion Iron and Steel company, on the basis that the lessees pay a royalty of 25 cents a ton for all ore lifted, whether for shipment or smelting at the mines.

An agreement to this effect was signed in Sydney, C. B., on Wednesday by F. P. Jones, general manager, and F. S. Cameron, secretary for the Iron and Steel company, and C. V. Wetmore, acting for the New Brunswick Iron company. The signature of Peter Clinch, of St. John, the secretary of the local company, who is now out of the city, will be added as soon as he returns to St. John.

MANY SLEEPLESS NIGHTS, OWING TO A PERSISTENT COUGH. RELIEF FOUND AT LAST.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of the Burley, Colo., Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was indeed marvelous. After three doses the cough entirely disappeared and has not manifested itself since." This remedy is for sale by

PRESIDENT ROOSEVELT.

President Roosevelt, with characteristic courage, has sent a message to Congress in which he defends his own course and the course of his administration in regard to trusts. He takes back nothing. He adheres to his frequently expressed declarations in reference to what he considers illegal combinations of corporations and men and he favors more legislation to meet any deficiencies in existing laws—laws which have not stood the final test of the courts. His proposition to increase the power of the interstate commerce commission will be received with alarm by the railway managers who have objected that there is already too much interference with their business. The proposition that the country should assume a certain amount of control over the "physical operation of railways in handling of interstate commerce" will surely encounter much opposition. The President also directs attention to the evils of gambling in stocks, and to the desirability of suppressing bucket shops. As usual, Mr. Roosevelt gives the legislators a plentiful supply of ideas to and subjects for discussion.

FOR THAT TERRIBLE ITCHING.

Eczema, tetter and salt rheum keep their victims in perpetual torment. The application of Chamberlain's salve will instantly allay this itching, and many cases have been cured by its use. For sale by

Anxiety in Great Britain as to India

London, January 31,—It is by roundabout means that Englishmen usually learn of grave crises within the Empire. Such a warning comes now in the shape of orders from the war office to the officers of the auxiliary forces throughout Great Britian. The recipients are instructed to be prepared to join the forces on the receipt of telegraphic orders. They must keep their adjutants informed of their movements and must not go beyond the reach of telegrams. The ground for this extraordinary action is the fact that the government is seriously alarmed by the growing unrest in India. The war office has completed a scheme for throwing a large force into the country, amounting, if necessary, to the entire regular army. The auxiliary forces will then be used for garrison duty in all parts of the Empire from which regulars may be drawn.

The danger of an uprising in India, which has been promoted by the Transvaal's treatment of its Indian residents, has been fully covered in the despatches. It has been growing with alarming rapidity, as was inevitable, and the government is now compelled to prepare for any ineventuality. A sinister turn has been given to the situation by certain home comments. It has been hinted during the past few days that the action of the Boer majority in the Transvaal has been actuated by a desire to embroil the home government in India—with what ultimate object is not suggested. This interpretation of the Boer motives in return for British magnanimity in giving home government to the Transvaal is not widely accepted even by the government critics.

A Prized Cough Cure

"I have not been without a bottle of Coltsfoote Expectorant in the house for over nine years. At that time I procured it for a bad cold I had. It worked such wonders then that it has been a household remedy ever since, and we will have no other for coughs and colds—it is so pleasant to take, and all of my children look for it as soon as they get a cold at all. Nearly all of them have been subject to croup, and that's when I find Coltsfoote Expectorant useful. You are welcome to use this testimonial as you wish."
MRS. LEWIS NIGH.

Free Sample of Coltsfoote Expectorant will be sent to any person sending their name and address and naming this paper. It has established a wonderful record as a successful cure for coughs, colds, sore throat, croup, whooping cough, bronchitis and all irritated conditions of the throat and chest. It is the prescription of a great specialist in medicine. At all good druggists, 25c. Dr. T. A. Slocum, Limited, Toronto.

A Clean Watch
Means good time for years to come. True economy in a time-piece lies in cleanness. The delicate parts doing indescribable work will soon wear themselves to ruin, destroying their high finish and perfect fit, when running in accumulated dirt and rancid oil. An ordinary machine is oiled daily. Your Watch should be cleaned and oiled once a year. We have a complete set of tools and can manufacture any part of a Watch movement. My experience is as follows:—Graduate Allen's Watchmakers, School and member of the American Watchmakers' Society, Chicago. Five years with the American Waltham Watch Factory and ten years at repair work,
