## Grand Moose-hunting Season on Miramichi

Robert Armstrong, of New castle, in Town, tells of Success Sportsmen Have Had.

"If a man comes out of the woods without a moose or so to his credit, it's because he can't shoot," said Robt. Armstrong, of Newcastle, Sunday evening, in respect to moose-hunting along the Miramichi.

"The present season has been a particularly good one for Sportsmen. They have come from various parts of the States and among the 60 or so who have entered the woods from Newcastle, I believe scarce any have returned without a head, and some with more, so that will give you a fair idea of the number of moose killed in the Newcastle section, at wway."

Have you been hunting recently, Mr. Armstrong?

"Yes, I've had a trip lately with Mr. Crawford, of New York. We saw moose very frequently—38 in all. Mr. Crawford got a very good sized one, but compared to the bag he made last year—a moose with antlers spreading 62 inches—this bull seems in the ordinary class."

"Edwin B. Holmes, of Boston, shot one lately with 38 1-2 inches. He also got a caribou and deer."

Why is it there's such unusual numbers of moose this year?

"Because the game laws are enforced in winter. I tell you its nonsense—this talk of our game becoming depleted through the presence of too many sportsmen—men who come in the legitimate season and shoot in accordance with the game laws. I've been 20 years around the Miramichi and can say I believe our moose will never become extinct while this class of sportsmen continue visiting us."

"There's another kind of hunter though—poacher, we call him—who will enter the woods in the winter, irrespective of season or anything else. He will come to a moose-yard or feeding ground, and in the deep snow the game is practically helpless, so the poacher proceeds with his slaughter. This is the kind of thing which will make the finest game we have in New Brunswick, extinct."

What about the stories told of infuriated bulls—of them "treeing" the hunters?

"I've never had any such experience—in fact the chief difficulty seems to have them come near you. The hunting is nearly all done by the 'call'—you build a rough 'blind' get behind, and any hour from day-break till nine, or from three until sundown, you can reasonably expect pour moose. He'll come up as a rule, rather shy, and will rarely come nearer than 100 yards, but then is your chance, and let him have it just as quickly as possible back of the forward shoulder."

## Caribou Lock Antlers and Die.

Fredericton has Trophy of Battle to the Death.

R. Chestnut & Sons are showing in their store window one of the greatest curiosities that has been seen in Fredericton for some time—two pairs of caribou antlers, which with the bodies of the animals, were found firmly locked together on Graham's Plains, Miramichi, by Henry Braithwaite, the guide.

One of the sets of antlers has 42 points, which is the record for New Brunswick, as the largest caribou head known in this province was secured by Charles Rordan, of Boston, on the Northwest Miramichi, and had 20 points. From the appearance of the brush around where these two bodies were found, Mr. Braithwaite was convinced that they had been engaged in a prolonged and desperate struggle which proved death to both animals. Mr. Braithwaite is also of the opinion that one or more head also were in the combat, for he saw signs that brain was there and has a good feast even before the animals were dead.

In talking with Mr. Chestnut he mentioned that this is not the first case of this kind that came under his notice, as Mr. Pringle found two very large sets of caribou horns in the Northwest Miramichi country locked together, but he, not knowing that they were of any value in that state sawed them apart. They were afterwards bought by a Halifax gentleman.

At another time, while hunting on the Northwest Miramichi, Mr. Townsend, of Buffalo, came across a very caribou lying down apparently asleep. As soon as the animal smelled the hunters, he sprang to get away, but was shot before he got out of range of Mr. Townsend's rifle. On examining the body it was discovered that the right eye was completely destroyed, it having been put out in battle, by the long fine brow antler of another caribou.

A big deer head in R. Chestnut & Son's office was shot in Maine by E. Church, a well-remembered guide. He was nick-named 'Fighting Bob,' as when he was shot he had 22 holes punched in his sides by fighting with other animals, and was streaming with blood.—Fredericton Gleaner.

## THE BUTTERMAKER.

Must Use It To Be Successful.

In the autumn and winter seasons the best and most successful buttermakers in Canada use Wells, Richardson & Co's Improved Butter Color in order to give the butter that lovely and delicate June tint that is so much admired by lovers of fine table butter.

Wells, Richardson & Co's Improved Butter Color is to day, almost the only kind that is used in the Creameries and Dairies of Canada. There are other colors sold and sometimes substituted for Improved Butter Color, but wise and experienced buttermakers avoid them knowing they are not reliable.

When you are buying butter color, insist upon getting the best, the strongest and the most economical. Your neighbors and friends will tell you that Wells, Richardson & Co's Improved Butter Color is the best. All druggists and dealers.

## RICH BLOOD Strong Nerves

When the blood gets thin and watery, as it usually does at this time of year, the nerves are first to suffer; they are starved and exhausted. Headache, dizzy spells, indigestion, weak action of the heart, languid, depressing feelings, weakness and functional derangements of the bodily organs are the result.

You can feel Dr. Chase's Nerve Food doing you good day by day, as it strikes at the root of trouble and creates new, rich blood. You can prove that it builds up new tissues and adds flesh if you weigh yourself each week while using it.

Mr. J. McPaul, carpenter, 315 Manning Avenue, Toronto, states:—"I have used Dr. Chase's Nerve Food for acute indigestion, nervousness and inability to sleep, and now, after a thorough test, I am pleased to say that my nervous system has been built up, and I rest and sleep well. I can speak very highly of this preparation, knowing it to possess curative properties which I have failed to find in other remedies." 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.
