Downpour without clouds.

Woolworth Building in New York has standpipes tested.

A rainbow spanned the sky above Broadway and Park Row, New York, between eight and ten o'clock Sunday morning while a downpour drenched unhappy persons afoot. While the sun shone brightly and there was not a cloud in the sky the water began suddenly to fall. Automobilists hurrying from the ferries up the cross streets to Broadway and from Brooklyn Bridge along Park Row and Park Place ran from bright sunshine into the worst downpour that the section has seen this season.

The Fire Underwriters and Fire Departmen had selected Sunday morning as the time to make a test of the standpipes and protective apparatus of the Woolworth Building at Broadway and Park Place. Mr. Ownes, chief engineer of the building, having his engines in good working order three floors below the surface of the street, turned them loose at the pumps at 8 o'clock. The building is 780 feet high, and from the observation galleries on the 57th floor, streams of water were directed to the four points of the compass.

There was a stiff breeze from the northwest and in a moment the great building took on the appearance of some magnificent ornamental fountain, the water shooting away from the tower, and caught by the wind, breaking into heavy rain that silled down, reaching the ground in that form or as a thick mist. In a twinkling the streets took on the appearance they have on a very rainy day, while across the high buildings hung a magnificent rainbow, made by the sun shining through the falling water.

On the 57th floor a 20 pound stream of water was shot from a seven-eighths inch nozzle. Afterward 12 and 15 pound streams were shot from similar nozzles down to the 30th floor. It was said that the world's record for the height to which water has been elevated by a single pump, 767 feet, was broken.

"Trial divorce" to last six months.

After that period husband and wife will meet and decide whether the separation shall be permanent.

LOS ANGELES, Cal., June 10.—Declining to seek freedom by a decree of court, for she is not quite sure she wishes to be divorced, Mrs. John Van Alstyne, wife of a wealthy man, of St. Joseph, Mo., is sojourning in Venice and undergoing a "trial divorce" of six months. At the expiration of that period she will meet her husband at Colorado Springs, where they passed their honeymoon two years ago, and they will then decide whether their union shall be resumed or a divorce action be filed.

Under the terms of the "trial divorce" both husband and wife are permitted to go where they please and when they please.

It is stipulated that should it be decided after December 2, of this year, the end of the "trial divorce" period, to file a divorce action, no person concerned between June and December shall be named as co-respondents. No letters or communications of any sort will pass between Mr. and Mrs. Van Alstyne during the probationary period. Mr. Van Alstyne will send a cheque monthly to his wife, but the cheque must not be accompanied by a message. Should either one meet a mutual friend, no inquiry shall be made concerning the other.

Mr. and Mrs. Van Alstyne will meet at Colorado Springs in the Antler Hotel at 10 o'clock on the morning of December 2. At the expiration of twenty-four hours, if one fails to appear, the other shall consider that a divorce decree is sought.

Mrs. Van Alstyne is twenty-two years of age and her husband, who is in Europe, is twenty-eight.

Boat at the Titanic's grave.

Steamship sights barnacle-covered life craft at spot where ill-fated vessel sank.

BALTIMORE, June 10.—Almost at the exact spot where the steamship Titanic sank a little more than a year ago, the lookout of the steamship Bisenach, of the North German Lloyd line, which arrived here yesterday with 1,309 immigrants on board, sighted a barnacle covered lifeboat.

The derelict was sighted on the morning of June 4, floating keel upward, and the officers of the Eisenach said that from its appearance it must have been at the mercy of the waves for at least twelve months.

BOSTON WENT ASHORE.

The P. & B. steamer Boston went ashore a couple of days ago at Salt River, near Kingston, Jamaica. She was bound from Halifax and had landed her Cuba and Kingston cargoes, and was bound for the outer ports. No word as to the extent of the damage has been received.

The Rappahannock arrived this morning from St. John, N. B.

MINARD'S LINIMENT CO., LIMITED.
Yarmouth, N. S.

GENTLEMEN, — In January last, Francis Leclare, one of the men employed by me, working in the lumber woods, had a tree fall on him, crushing him fearfully. He was, when found, placed on a sled and taken home, where grave fears were entertained for his recovery, his hips being badly bruised and his body turned black from his ribs to his feet. We used MINARD'S LINIMENT on him freely to deaden the pain and with the use of three bottles he was completely cured and able to return to his work.

Genuine Cut Glass.

It is the guaranteed quality of BROWN'S Cut Glass that makes it preferable. Not alone is it guaranteed genuine, but superior. Note the difference in color, cutting and brilliancy to other glass you have seen. BROWN'S, Jewellers, have four new and beautiful patterns, "Dorcas," "Madeline," "Dahlia" and "Daisy," which help to make their Cut Glass display the finest they have ever shown. See big window display.

At the Empire.

The New York Musical Comedy Co. opened a new bill yesterday afternoon at the Empire, "The Tomboy Girl," a bright and snappy musical comedy. Miss Mabel Day, the prima donna, gave the audience another treat with her beautiful voice. In her numbers "Teasing Moon" and "Sympathy," she shows the wonderful quality of her voice. Mr. Carrier, with his splendid baritone voice, received much applause. Miss Colbert again danced well in her numbers. Messrs. Ward and Flynn showed that they can handle any kind of a park. Miss Etherton is very funny leading the orchestra in the sextette burlesque. The costumes are all new and there are very fine electrical effects. This bill will be repeated every afternoon and twice a night this week. Two new bills will be given next week.

GRAND LODGE OFFICERS.

The Grand Lodge of A. F. and A. M., of Nova Scotia finished their work at Amherst last night.

The election of officers was taken up this morning and resulted as follows:

M W G M—W M Christie, Windsor.
D G M—J H Winfield, Halifax.
S G W—D A Morrison, Amherst.
J G W—E R Putnam, Liverpool.
Grand Treasurer—John McAloney, Halifax.
Grand Secretary—Colonel Thomas Mowbray, Halifax.
Grand Senior Deacon—A J Crease, Amherst.
Grand Junior Deacon—H L Lohnes, Lunenburg.
Grand Chaplain—Rev A Griffin, Digby.
Grand Lecturer—J G Mitchell, Halifax.
Grand Sword Bearer—John McCaskill, Glace Bay.
Grand Organist—G H Dixon, Inverness.
Grand Pursuivant—A J Davies, Halifax.
Stewards—W G Cummings, Pictou; Rufus Ford, Milton; G A Burridge, Halifax; J McF Fraser, Halifax, and G H Sterns, Amherst.
Grand Tyler—J E Webster.

Yesterday afternoon a special train was chartered by the Amherst Masons, and a number of the craftsmen left for the afternoon on a visit to the Experimental Farm at Nappan. A large number also automobiled down.

The Waegwoltic Member's Bulletin

Friday, 13th, 8.30 p. m. Club Hop.

Honored by staff.

W. J. Marquand, manager of the Sun Life Assurance Company, who has been promoted to the management in Western Pennsylvania, left this morning for Quebec to take the steamer Canada for Liverpool on a holiday trip to his old home in Jersey, G. B. Last evening the members of the Sun Life office and special staff presented him with a magnificent gold locket emblazoned with three diamonds in the form of a fleur de lis. They also asked him to accept for Mrs. Marquand a beautiful sterling silver card case of the latest design. William C. Somers, agent of the Sun Life, made the presentation speeches in neat terms, asking Mr. Marquand to accept the gifts as a memento of their appreciation, and assuring him of their regrets at his departure. Mr. Marquand feelingly replied, thanking them for their good words as well as their magnificent gifts.

ST. MARY'S COLLEGE

Campaign to raise $40,000 will be organized at once.

There was a large and representative meeting held last evening at the residence of His Grace the Archbishop, of Catholic laymen interested in the campaign to raise $40,000 for St. Mary's College. Archbishop McCarthy presided, and in opening stated the object of the meeting, which was to organize a campaign to raise the necessary amount.

Speaking to the subject His Grace said that he had had a new contract with the Irish Christian Brothers, by the terms of which they were to take over St. Mary's College in September. It was the custom of the Brothers to live under the same roof as their pupils, and it was therefore necessary to raise this money at once in order that a suitable building could be erected.

His Grace read the contract and explained its provisions to provide classical, scientific and commercial courses, and it was approved by the meeting. His Grace suggested that organization be proceeded with, and that the whole matter of the campaign be taken up and carried on by laity.

It was decided then to elect a permanent chairman and secretary, and to appoint a nominating committee to select an executive. Hon. R. G. Beazley was elected permanent chairman, and A. J. Finlay permanent secretary. The nominating committee, with the permanent chairman and secretary, will select the executive, and the latter will outline the details of the campaign and report the programme up at the next meeting, which will be held at the call of the chairman.

Last night's meeting was large and enthusiastic, indicating that the campaign will be a pronounced success.

"THE OCTOROON" AT ORPHEUS.

"The White Slave," an interesting Vitagraph two-part drama, will be the feature of the bill at the Orpheus to-day and to-morrow. The story deals with the revelation to a white girl that she has black blood in her veins, and that she is a slave of the estate on which she lives. It is a stirring tale of love, hatred and revenge, and possesses valuable educational features, dealing as it does with the time of slavery in the ante-bellum days. The manner in which human lives were bartered and the evils of the laws dealing with the slave question are strikingly illustrated. The play may be pointed out as contrasting the trying problems of the past with the quieter conditions of the present. The beautiful character of the girl and her utter helplessness to overcome an accident of birth creates a powerful effect on one's sympathies and emotions.

AMUSEMENTS FOR TO-MORROW

By permission of Colonel A. P. Fages and Officers the Band of the R. C. R., will play the following programme of music on the Parade, commencing at eleven o'clock:

FIRE PROTECTION.

Interesting address by Franklin Wentworth last evening.

Franklin H. Wentworth, Secretary of the National Fire Protection Association of Boston, last night, before members of the Canadian Manufacturers' Association, the Nova Scotia Board of Fire Underwriters and the Halifax Board of Trade, delivered an instructive address on fire prevention.

President Gourlay, of the Canadian Manufacturers' Association, was in the city from Toronto, and had been asked to act as chairman of the meeting, and introduced Mr. Wentworth.

Mr. Wentworth in a convincing manner put before his audience facts of conditions in relation to the tremendous waste of conflagrations, and the individual responsibility that rests upon the citizens of any community to le sen it.

He then stated that there should be fewer fires in Nova Scotia and in Canada, and there can be a gigantic reduction in losses if proper means are taken to prevent conflagrations, such as prevail in European countries, where fires are almost unknown.

The speaker stated that the fire loss in America last year was $225,000,000. The greater part of this loss should be avoided. Mr. Wentworth pointed out that the insurance premiums paid for fire protection are a tremendous tax which the people put on themselves. That $225,000,000 comes out of the pockets of the people. It is they who pay the losses in the long run, not the companies.

Mr. Wentworth said in Germany such a thing as a fire is almost unknown, and when it does occur it is a matter of great interest. In America a big blaze costing thousands is so commonplace that it only gets a paragraph in the newspapers. No fire takes place in Germany where the owner and occupier of the house is not called on for an explanation, and further, if it is due to carelessness and extends beyond his own building, he must pay the damage, and besides is fined for endangering the well-being of the community. There is no such thing as the promiscuous use of matches in European countries. There is one place for matches, and the person who wants them must go there and nowhere else. The danger of the "striking anywhere match" was dwelt upon.

A proposal was advocated that firemen should spend a portion of their time in inspecting the city, and thus preventing fires, as well as becoming acquainted with the city. The firemen would like the enlarged work, infinitely preferable to sitting round the engine houses. The great wooden districts in Halifax make this city dangerous. Halifax is lucky to have so long escaped. Nothing could be worse than our shingle roofs. Metallic window sashes and wired glass are essential, and without them the danger is ever present. In New York this type of window is now being put in at a rate of 1,000 a day.

President Gourlay suggested that some definite action be taken.

Controller Harris said he would bring the matter up before the Board of Control.

A vote of thanks, moved by W. S. Davidson and W. E. Thompson, was tendered the speaker.

MARITIME ASSOCIATION

For the Blind have a most enthusiastic meeting.

The fifth annual meeting of the Maritime Association for the Blind, which was held at the School for the Blind on Monday, was far the largest and most interesting gathering the association has yet held. The president, D. M. Reid, was in the chair. The secretary-treasurer's report showed that the funds of the Association had been raised from $3,500 to nearly $10,000. The ways and means committee, which was appointed last year to look into the work being done by the blind, with a view to making it more remunerative, if possible, also to see if any new fields of employment could be found, had fulfilled their task.

Three new fields of labors were mentioned. The only one which had been really entered was that of candy wrapping in which work two of the graduates of the school successfully engaged during the winter, and so well did they acomplish their task that they were able to earn more money than some of their sighted co-laborers, and the committee expressed the hope that in the fall a larger number of girls would be employed. As the other two fields have not yet been explored they could not be made public. After the adoption of the report of the committee, which included a tribute of high praise to Mr. Carroll, foreman of the room in which the young ladies had worked, for his kindness and consideration, it was passed unanimously that a vote of thanks be tendered to the Mayor and Mr. Carroll for opening so large a field of labor to the unemployed girls of Maritime Association for the Blind. The executive committee for the ensuing year was elected as follows:

President—D. M. Reid.
Vice-Pres.—S. R. Hussey.
Sec.-Treas.—H. H. Campbell.
Fourth Officer—C. J. McInnis.
Fifth Officer—O. P. Cormier.

The next item of interest was a splendid address by Mr. Edw. E. Allen, supt. Perkin's Institute, Watertown, Mass. Mr. Allen told of the splendid work being done by the Massachusetts Commission for the Blind who have an annual grant of $55,000 from the government which is spent in assisting the blind of that State. He also told of equally good work which is being done by the friends of the blind in the State of Pennsylvania with a comparatively small annual grant of money.

"Mattress making" said Mr. Allen, "we find to be the most remunerative trade for the blind." He emphasized strongly the necessity of having a man who would keep "pounding" away at every door which ought to open to the graduates of our school. When asked if we had such a man, the cry immediately arose of "Theakston, Theakston." There is a strong feeling among the members of the Association that it would be in every way advantageous to secure as members of the executive committee some of the best business men of the city, and an effort will be made next year in this direction.

— English Almond Paste, in one pound tins, at T. F. COURTNEY'S & Co's.

ALL OF ONE MIND TO-DAY.

The Board of Control passed an amended resolution to welcome Premier Borden.

Is Halifax system the best in the country? The business transacted.

Not a cuss word was said,
Nor a discordant note,
As the reception resolution was passed.
But the noble band took a partizan stand
And scarcely a question was asked.

At the meeting of the Board of Control at noon to-day the full Board was present. Towards the end of the session Controller O'Connor moved, and Controller Hoben seconded, the following resolution:

"Resolved, that on the occasion of the first visit to his constituents since the initial vote for the construction of the Halifax Ocean Terminals was carried through Parliament, the City of Halifax, through the Mayor and Controllers, extends a cordial welcome to THE MEMBER FOR HALIFAX CITY AND COUNTY, The Prime Minister of Canada, and the Honorable the Minister of Railways, and invites the citizens to attend at the City Hall between 8.45 and 9.45 Saturday night, the 14th inst., to greet the Prime Minister, and Minister of Railways and their party."

In moving the resolution, Controller O'Connor stated, in effect, that the Board should be empowered to prepare for the reception.

Controller Scanlan suggested that the reception be advertised in-to-night's papers.

The Mayor announced that the entrance would be at the parade gate and exit on Argyle street.

Alderman Murphy, who was present, suggested that the Board might couple the names of both the members from Halifax City and County.

Mayor Bligh remarked that Mr. O'Connor was moving the resolution and he would leave it to him. He suggested that it was the Prime Minister that was being welcomed, and not as a member from Halifax, in view of the initiating of the terminals.

At the suggestion then of Controller O'Connor, the words underlined in the resolution: "the member of Halifax City and County" were eliminated.

The mayor again intimated that it was simply in recognition of the prime minister.

Controller O'Connor admitted that there might be a difference of opinion on the question of terminals.

Ald. Murphy—Simply as to details.

Mayor Bligh stated that he did not think Mr. Maclean (A. K. Maclean, the Liberal member for Halifax) would wish to attend the welcome.

Controller O'Connor suggested that being present might commit Mr. Maclean to the terminals as advocated.

The members of the Halifax City Council and the Dartmouth Mayor and Council will be invited to the reception.

The Mayor instructed the Engineer to have an illuminated electrical sign placed at the parade entrance to the the City Hall and also to see the building was illuminated throughout.

Controller O'Connor did not think the citizens should have to bear any expense in connection with the welcome.

The political complexion of the members of the Board of Control is as below:

Mayor Bligh—Tory.
Controller Harris—Tory.
Controller O'Connor—Tory.
Controller Scanlan—Tory.
Controller Hoben—With strong leanings.

[The RECORDER to-day heard a statement that arrangements had been made or would be made for "an illuminated torchlight procession" from North Street Railway Station and that at least one band would attend. Some of the "leaders" will meet Mr. Borden up the line.]

The following is a communication read by the City Clerk and it caused a smile to appear even on the faces of the Board:

3533 MANCE, MONTREAL, P. Q.
June 9, 1913.

The City Clerk, Halifax.

Dear Sir,—I am informed that you have one of the best Board of Control systems in the country and I hope that you can furnish me with copies of your City Charter containing the provision, setting up and defining the powers of that Board. I would also be pleased if you would give me some information as to how the Board of Control is working out for you.

Yours truly,
W. H. STEWART.

It was suggested that the City Clerk answer the letter. The Mayor suggested, however, that the clerk write Mr. Stewart that the Board had been so short a time in operation that an answer could not be made at the present time, but that they hoped for good results.

Miss Mary Gowan was appointed assistant stenographer in the City Clerk's office.

Controller Harris suggested that the Dominion Government should make a grant to Halifax owing to there being so many public buildings here that do not pay taxes.

The question whether the Government or the Eastern Trust Co. would be responsible for taxes was also discussed.

The whole matter will be placed before the Premier at an interview Saturday night.

Here, There and Everywhere.

James Duggan and Sons, Real Estate Auctioneers, sold at auction yesterday the residence of late John White, Myrtle St., Dartmouth, to W. D. Cranston, for $4,850. Also, a lot of land opposite for $800, to Alfred Carter.

For that picnic at the Dingle you should take along a Dennison crepe paper lunch set. Each set contains table cover, napkins, doilies and paper plates for six persons. Connolly, the Stationer, sells these sets complete at fifty cents.

The Board of Health held a meeting today, when considerable routine business was transacted. The Local Government's appointees were announced yesterday afternoon as being Dr. MacAulay and G. A. Wooten, the members for the past three years.

Cameras, Films and Kodak supplies. Films developed, pictures printed and enlarged, by L. Clyde Davidson & Co. Phone 321, Davidson Building. The best plates made are the Imperial.

At to-day's meeting of the Board of Control, officer Wren was re-appointed to the police force. The other appointees were Messrs. Locke and Murphy.

Rufus O. Bayer (of Macdonald & Co.) has purchased the residence of Geo. E. Boak, Rockingham.

Just the medicine you need.

Your color is bad, tongue is furred, eyes are dull, appetite is poor, your stomach needs tone, your liver needs awakening. Try Dr. Hamilton's Pills. In just one night you'll notice a difference, for Dr. Hamilton's Pills search out every trace of trouble. You'll eat, sleep, digest and feel a whole lot better. You will gain in strength, have a clear complexion, experience the joy of robust health. To tone, purify and enliven system there is nothing like Dr. Hamilton's Pills. 25c. at all dealers.
