BOSTON NOTION.

THE LARGEST AND CHEAPEST NEWSPAPER IN THE WORLD,

☞ The spirit of the age is utilitarian. Improvement is stamped upon the face of everything. All the useful ages are progressing with unparalleled rapidity, and the art of printing is coming in for its full share of the common improvement. Determined not to be outdone in any thing that pertains to his profession, where there is a fair chance or exertion and enterprize, the undersigned has determined upon issuing a sheet TWICE the size of the Boston Weekly Times, (and to take the place of that paper) and will contain eight columns more matter than the Brother Jonathan. This sheet will be called the *BOSTON NOTION*,—and it is determined that it shall fully sustain a cognomen so full of meaning, and so interwoven with the established character of our Yankee City. It will be the *LARGEST NEWSPAPER IN THE WORLD*—without exception—and will be printed on a sheet thirty-seven by fifty-two inches. It will be entirely filled with reading matter and will contain three thousand eight hundred and eighty eight square inches, or twenty seven square feet of print in fine type! and a single number will contain more reading than an ordinary book of three hundred pages. These great dimensions will enable the publisher to draw large extracts from the popular periodicals and magazines of the day both American and Foreign, and as the selections will be made with great care, it is believed this paper will be a welcome *NOTION* to every family. Besides a full synopsis of the current news of the day (as published in the Boston Daily Times) it will contain Poetry, Popular Tales, Theatrical Criticisms, Police and other Court Reports, Humourous articles, &c. &c.

The whole world of literature will be ransacked to fill it. From the study of the philosopher, down to the Police Court, through all the regions of reason, poetry, romance, wit, and the ample record of folly, we shall glean from the past and present and from all nations to present as pleasing and useful a combination of recorded thought and current history, as the world can produce. This is our "BOSTON NOTION."

This great amount of wisdom and fun—of wit and philosophy—of novelties and antiquities—we are enabled to offer weekly, for SIX CENTS per copy—only six cents!—and we can do it, because of the facilities of our press and office, and the connection of daily and weekly publications. For *THREE DOLLARS* we can send a years volume, equal in quantity of matter, with every variety also to FIFTY-TWO volumes of Novels such as are issue from the press at this day. Fifty two large volumes for *THREE DOLLARS*! Effected all by improved machinery and by a determination that we will not be outdone in enterprise and usefulness.

TERMS—THREE DOLLARS a year. ALWAYS IN *ADVANCE*. No orders, no matter from what quarter, will be attended to unless accompanied by the CASH—single copies, six cents each.

Postmasters or others remitting TWENTY DOLLARS shall have Fifteen copies sent to such person as they may designate.

Subscribers will have their papers delivered in the Post Office in this city every Saturday evening.

GEORGE ROBERTS,
Publisher

POSTCRIPT. The *NOTION* will be published on a DOUBLE SHEET twice three months instead of gratuitly to all subscribers who have paid for one year,

COAL.—Persons who have resided in coal districts of the Old Country, frequently remarked in our hearing that sandstone abounding in St. Andrews, is rarely certain indication of the presence of bituminous coal in our immediate vicinity. We have also, the authority of Dr. Gesner for the opinion. Who knows, but that at some not very distant period, this useful mineral may be obtained here and shipped from the Port of St. Andrews. Our local advantages as a shipping port are before either St. John or Pictou. Would it not be worth while to award a geological description of the land in our neighbourhood, to some one of the numerous scientific societies in Britain, with a view to exciting information upon this highly important subject? There is no necessity for any expenditure, in search of an *ignis fatuus*, the salutary lesson taught us by the fate of Sir Arthur Wardour in the Antiquary vividly before our imagination. But knowing now a days is so easily and cheaply procured, the true meaning of geological indications it is worth while to obtain it, even in possession of it, be not quite as great as we had reason to anticipate.

CANADA.

The following is the Governor's message to the House of Assembly, in reply to them for passing the Union Resolutions.

GENTLEMEN,

It affords me the most sincere satisfaction to find that, after a careful deliberation on the position, suggested by me for the Province of this Province with Lower Canada, the positions have received your consent. I take the earliest opportunity of transmitting your resolutions to Her Majesty's Government with a view to their being laid before the Imperial Parliament.

The generous confidence which you have reposed in Her Majesty's Government and Parliament, respecting the civil list, and details of the measure of re-union, will be appreciated; and it will be the anxious endeavour of her Majesty's advisers, in all their proceedings upon this important subject, to justify that confidence, and promote the welfare of the people of Upper Canada.

For myself, personally, I beg you to accept my thanks for the diligence and attention you have devoted to the communication. It has been my duty to make to you what I feel confident, the union should be productive of the advantages to this province which I anticipate from it, it will hereafter be a source of pride to have co-operated with you in the measure.

UNEMPLOYED MECHANICS.—We regret that there is, at this time, an immense number of journeymen mechanics out of employment and that the great number of applicants for their families, at the almshouse, for relief and aid, has induced the corporation to commence the breaking of stone for macadamising the new avenues to the spring. By this means employment has been afforded to a number of mechanics unable to obtain their regular avocations.
