The inmates of the boys' home attended the park yesterday in honor of the vice-regal party. Three banners were displayed by the little fellows and they all got a good soaking.

The Princess Louise used the same easy chair and footstool yesterday as the Prince of Wales used during his visit to Hamilton. The articles were made especially for the prince.

A blind man was run over by a wagon on Queen street yesterday. He was taken into Jamieson's store, very little the worse for his accident, when he gave his name as Edwards.

A young wife at the east, whose husband had just died, telegraphed to her father in Chicago this message. "Dear John died this morning at ten. Loss fully covered by insurance."

Mr. James Norris while returning home last week, fell through an open trap-door near the entrance to his house and received severe injuries. He was out for an hour or two yesterday.

The Buffalo Express says that though Toronto is not as large a city as Buffalo, yet it is having an industrial exhibition that will beat anything Buffalo ever had in that line, and a great many of our leading men would do well to run over and see how the thing is done.

The exhibition is a pronounced success, is eleven times better than the first held here, and is a benefit pecuniarily to the city and an honor to the province. To advise the people to patronize such an enterprise is simply to mock the judgment of our citizens.

Prof. Degalles says that the New York Dancing Teachers' association embraces mostly all the teachers in America, so that persons learning the art in any city on the continent can dance in harmony with the people of the other.

Yesterday morning the general sessions and county court were opened, the names of the jurymen were called over and the court was adjourned till 10 o'clock to-day. The Hallett nuisance bill was brought before the grand jury, but as the court was not in session no report was made.

Judgment will be delivered at Osgoode hall in the East Northumberland election trial to-day, after which the South Renfrew case will be continued. The case of Langtry against Dumoulin is to be resumed to-morrow. Work has been commenced on the new addition to the west wing of the hall.

His excellency the governor-general paid a flying visit to the Zoo yesterday afternoon. He was much pleased with the improvement since his last visit and considered the sea lion to be one of the finest that he had ever seen. The low rate offered to the children to-morrow at the Zoo will surely fill the place.

Yesterday morning a bill of indictment was served on the mayor at the instance of the county crown attorney, who charges as a public nuisance the police office and station on Court street. This will be a difficult case to defend as the building is recognized by all who know anything of it to be a disgrace to the city.

The statement that the bailiff was in possession of the business of T. S. Fisher, manufacturers' agent, was not correct, and was given to the public and the press by the mercantile agencies. It was through the neglect of Mr. Fisher's solicitors in a disputed account of only $40 that the judgment referred to was secured. A new trial has been granted.

A team of horses attached to a wagon were frightened yesterday afternoon by a band of music. The wagon collided with the side of St. Lawrence market. James Fanning who was standing near by was standing near by was struck by one of the wheels and seriously injured. His injuries were treated at Dr. Phillip's surgery.

Last Saturday Jas. Wendall, a tailor in the employ of Messrs N. & E. J. Wilkins at Galt, left Toronto for home. On the train he made the acquaintance of two very friendly characters. Happening to feel for his watch to see the time, he missed it, and of course was too considerate to say anything of it to his friends. He informed the conductor, who at once accused these gentlemen; they gave over the valuable to the owner without further parley.

About the 18th of August last James Bergen, subscription book publisher of Toronto, swore out a warrant in London for the arrest of a young man named Thos. Cooney, charged with the embezzlement of $10 and other sums on or before May 12 last. Chief Williams arrested him at Oshawa and brought him to London, where he was remanded for examination. "The Positive Cure."

Devlin's Aperient Anti-bilious mixture for billiousness, sick headache, constipation etc.

"Nasal Respiration."

We should always breathe through the nostrils and not by the mouth, as the latter tends to weaken the lungs and produce inflamation of the throat and bronchial tubes. If you have already contracted any disease of the respiratory tract such as laryngitis, bronchitis, catarrh, asthma, consumption or catarrhal deafness which is produced by catarrh, you should at once consult the surgeons of the International Throat and Lung Institute who make a speciality of these diseases and who use the spirometer invented by Dr. M. Souvielle of Paris, ex-aide surgeon of the French army, the only instrument by which medicated air can be conveyed to the lungs through the nasal passages and without the aid of heat. Hundreds suffering from diseases of the lungs and throat are being cured monthly by these surgeons, who without the aid of this new and wonderful instrument the spirometer would certainly die.

This great institution which is daily increasing its magnitude now has 28 physicians and surgeons connected therewith and offices in London, Eng., Montreal, P. Q., Toronto, Ont., Detroit, Mich., and Winnipeg, Man.

Physicians and sufferers are invited to try the instruments at the office free of charge.

Persons unable to visit the institute can be successfully treated by letter addressed to the International Throat and Lung Institute, 13 Philips' square, Montreal, or 173 Church street, Toronto, where French and English specialists are in charge.

The Crowd Yesterday.

During all day yesterday the show rooms of W. & D. Dineen, corner of King and Yonge streets, was crowded with strangers viewing their new fur mantles. Many of them are already marked sold. They show elegant designs in all classes of ladies and gents furs.

—A Query—Why is it that at the upholstering establishment of T. F. Cummings & Co., 349 Yonge street, you can effect a saving of 10 to 15 per cent. on parlor or drawingroom suites? Simply because Mr. Cummings thoroughly understands the business and gives to the people of Toronto and vicinity the benefit of his experience, first class work and material in every respect, his motto being quick sales and small profits.

Visitors at the exhibition should not fail to witness the fine exhibit made by the Combination Gas Machine company of Windsor and Detroit, at the Dominion Organ company's building at the exhibition grounds. This building will be illuminated by this company every evening during the exhibition. Their display of chandeliers etc., are certainly the finest that have ever been shown in the dominion. The agent of the company, Mr. F. H. Date, will be in attendance to give any information that may be required in reference to lighting buildings of any description.

—Parties visiting the exhibition will do well to call and inspect the upholstering warerooms of T. F. Cummings & Co., 349 Yonge street, where you can select a handsome drawingroom suite, double-stuffed in hair and finished in the latest style for $75. We are positive you cannot do better elsewhere. They make a specialty of upholstering and engage none but first class workmen.

THE DOMINION
Paper-making & Staining Co.
(LIMITED.)
Incorporated by Letters Patent of the Dominion of Canada.
HEAD OFFICE, TORONTO, CAPITAL $300,000.
DIRECTORS:
JOHN J. WITHROW, Esq., President Toronto Industrial Exhibition.
JOHN R. BARBER, Esq., Paper Maker, Pres. Toronto Paper Manf. Co.
JOHN F. TAYLOR, Esq., of Taylor Bros., Paper Manufacturers, Toronto.
EGMUND GUNTHER, Esq., Merchant, Toronto
ALBERT A. STAUNTON, Esq., of M. Staunton & Co., Toronto.
THOMAS HOYLES McCAUL, Esq., of Toronto, Builder and Valuator.
BANKERS—The Canadian Bank of Commerce.
SOLICITORS—Messrs. Leith, Kingstone & Armour. Toronto.
FINANCIAL AGENTS—Messrs. Scarth, Cochran & Co., Toronto.
It is proposed to form a Joint Stock Company under the name of The Dominion Paper Making and Staining Company (limited).
To acquire the premises, stock in trade, machinery, patterns, plant and good will of the manufacturing and wholesale business of M. Staunton & Co., known as the Dominion Paper Staining Factory, and to carry on throughout the various Provinces of Canada and elsewhere, the business of the manufacture, purchase and sale of all kinds of paper, paper hangings, wall decorations and kindred materials, and to acquire, purchase and contract, lease, own, mortgage and dispose of all lands, buildings, machinery, patent rights, trade marks, patterns and such other property as may be or become necessary or desirable in connection with the carrying on of such business, and to act as agents for other companies and firms, manufacturing or dealing in paper, paper hangings, wall decorations and kindred materials.
The business of M. Staunton & Co. has been carried on for over 27 years, having been established in 1855, and has steadily prospered from its commencement, notwithstanding the fact that up to the year 1878 there was only a very small and varying duty on wall paper. There is now a protective duty of 30 per cent, under which it is believed much greater progress will be made.
In consequence of the increasing demand for wall paper, and especially the finer grades, the profit on the manufacture of which is greater than that on the manufacture of cheaper goods and of the great advantages resulting from the employment of the larger capital of the Company, it may reasonably be expected that the Company will be able to do a much larger and more profitable business than has been done hitherto.
The real estate agreed to be purchased by the Company consists of land in the City of Toronto, having a frontage on Yonge street of 160 feet and a like frontage on McMurrich street, with a depth extending from street to street of 350 feet, upon which is erected the substantially-built brick factory at present used by M. Staunton & Co., which factory is 40 feet wide by 300 long. The building was specially designed for the business now carried on in it, and was constructed under architectural supervision, so as to admit of being easily enlarged whenever required, and is heated with steam and furnished with gas and city water.
It may be added, that the real estate being very near the proposed station of the Ontario and Quebec Railway, is likely to increase greatly in value.
The valuation of the Real Estate made by Henry Langley and J. W. G. Whitney, and of the Machinery by William Hamilton, Manager St. Lawrence Foundry Company, and James Findlay, Machinist, can be seen at the office of Messrs. Scarth, Cochran & Co.
The Stock Book is open at the office of Messrs. Scarth, Cochran & Co., the Company's brokers, from whom prospectuses and forms of applications for shares can be obtained. Where no allotment is made the deposit made on application for shares will be repaid in full.
