Bank of England Rate Has Advanced to Six Per Cent.—Unsettled Stock Market in London — Latest Financial News.

Thursday Evening, Nov. 30.

Business on the Toronto Stock Exchange was below the average to-day. C.P.R. was easier, with sales at 94⅞, closing with that figure bid. The general market seemed to be heavy, with some stocks quite steady. Mining issues were very dull and bank shares were inactive.

* * *

There was depression in the stock market at Montreal to-day. Royal Electric lost ground, and sold in the morning at 177, but strengthened to 179½, and closed at 179¾ bid. Montreal-London broke to 37, but showed recovery to 38½, and closed with sellers at that figure, with buyers at 38. Twin City went back to 67¾, but sold after at 68, and closed at 68⅜ bid. Other stocks were fairly steady, but dull. In the mining issues a lot of Payne changed hands the closing bid being 111. Republic sold down to 115 and closed at 114 bid. Dominion Cotton sold down from 106 to 114¾. Toronto Railway sold in the afternoon at 110¼ and C.P.R. at 94¾.

* * *

The stock market in London was somewhat unsettled in London to-day in consequence of the rise in the discount rate of the Bank of England from 5 to 6 per cent. But there are none disposed to cavil much at this advance, as it is recognized as being essential that the reserve should be augmented and that 5 per cent. is ineffective in attracting gold. Apart from the demands for money arising from the activity of trade, the Government will have, sooner or later, to raise additional war funds. The reserve at present is so low that it might at any moment be reduced to a figure necessitating something worse than 6 per cent. The rate of discount in the open market also advanced ¼ to ⅜ per cent. to day, being quoted at 5¾ to 5⅞ per cent., and money rates went up 1 per cent., and are now quoted at 4½ to 5 per cent.

* * *

Cables from London to-day quoted Grand Trunk first preference stock at 85¼, second pref. at 56½, and third pref. at 22¼. Hudson's Bay 22½. Anaconda 9¼.

* * *

Consols opened 3-16 lower for money at 102 3-16, and ⅛ lower for account at 102¼, and closed at 102⅜ and 102 5-16, respectively.

A Fitting Rubber.

Slater Shoe Rubbers are made to fit Slater Shoes, just as Slater Shoes are made to fit feet.

The Slater Shoe makers have put them on the market not so much for the profit in them, but to give wearers a rubber that will retain the shoe's appearance while being absolutely comfortable.

These rubbers are modelled exactly on the different shapes and widths of "Slater Shoes," and must therefore fit the shoe exactly in every detail.

They are made from selected Para rubber, and as gold is in the money market so is Para in the rubber market, acknowledged to be the standard by which other rubber values are gauged.

Slater Shoe Rubbers are absolutely and unquestionably guaranteed. Everyone has the name and price on the sole, and this is not put on until the rubber has been thoroughly examined by an expert and pronounced perfect.

The superior fit, finish, style and wearing qualities of "The Slater Shoe" have been clearly demonstrated in the past, and need no comment here. It is sufficient to say that "Slater Shoe Rubbers" are guaranteed to give equal satisfaction, and any that do not prove to be all we claim for them will be replaced or money refunded.

For sale at only two stores in this city.

C.P.R. TELEGRAPH CHANGES.

Mr. James Kent Succeeds Mr. Hosmer as Manager—Mr. A. W. Barber Goes Up Higher.

Montreal, Nov. 30.—The C.P.R. has issued a circular announcing officially the appointment of Mr. James Kent as manager of telegraphs, succeeding Charles R. Hosmer, elected to the Board of Directors of the company.

The new manager announces the following changes in his department: W. J. Camp, superintendent of eastern division, with headquarters at Montreal; A. W. Barber, superintendent Ontario division, with headquarters at Toronto; B. S. Jenkins, general superintendent of telegraph lines west of Fort William, with headquarters at Winnipeg.

Worked His Way Up.

The new manager entered the service of the Montreal Telegraph Company as messenger in 1868, and rapidly rose to be wire chief, which position he held till 1886, when he resigned to be chief operator of the C. P. R. Telegraph Company. Four years later he was made superintendent of the eastern division.

The appointment is justly popular. Mr. Kent has been the recipient of many congratulatory telegrams from old friends all over the Dominion and the United States. Commenting on Mr. Kent's appointment, The Witness says: "The appointment of Mr. James Kent, superintendent of the eastern division of the Canadian Pacific Railway Company's telegraphs, with headquarters in this city, to the position of manager of telegraphs for the same company, vice Mr. Hosmer, elected to the Board of Directors, is another instance of the policy pursued by the executive of that great company in recognizing the ability of and promoting its own officials and employes without seeking outsiders."

The Ontario Superintendent.

Mr. Homer Pingle having resigned his position as superintendent of the Canadian Pacific Railway Company's telegraphs, Mr. A. W. Barber, who has for many years ably filled the position of manager of the service in Toronto, has been appointed to succeed him. This is only fair recognition by the company of Mr. Barber's services, as the new superintendent made a name for himself while manager, by the manner in which he looked after the telegraph interests of the C.P.R. company in Toronto.

A Distinguished Canadian.

The leading candidate for the position of Coadjutor Bishop to assist Bishop McLaren of Chicago is the Rev. Charles Palmerston Anderson, rector of Grace Episcopal Church of Oak Park, a suburb of Chicago. The Rev. Mr. Anderson is a Canadian by birth, and was prepared for the ministry at Trinity University, Toronto, after completing a course at Trinity College School, Port Hope. He was ordained 11 years ago, and at once accepted a mission in the lumber districts of Upper Ottawa, where he remained three years. He has been at Oak Park since 1891, and in this time his church has nearly doubled its membership.

Fish Ladders in Muskoka.

A petition has been sent to Premier Ross signed by many of the residents and ratepayers of Muskoka, asking that fishways or fish ladders be constructed along the Musquash and Moon Rivers and at the falls on the Indian River at Port Carling, so that the fish would be able to return to the Muskoka lakes. If these ladders were constructed fish would be able to run from the Georgian Bay to Lakes Muskoka, Rosseau and Joseph and this would be to the material benefit of the settlers and the thousands of tourists who annually visit the Muskoka Lakes. The idea is a good one and ought to be carried out by the Government.

Of Interest to Manufacturers.

A well-attended meeting of the Canadian Manufacturers' Association was held last night at the offices of the association, in the McKinnon Building, the president, Mr. J. F. Ellis, in the chair. The question of the advisability of Canada becoming a signatory to the International Convention for the Protection of Industrial Property was discussed. Mr. C. H. Riches and Mr. John G. Ridout addressed the meeting, fully explaining the advantages and disadvantages which Canadian manufacturers would derive under the terms of the convention. After considerable discussion by members of the association, the meeting was adjourned for two weeks.

The Demon Dyspepsia—In olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for
