WHY WE GROW.

You may have arrived at a conclusion on this subject, but we have decided fully in our own minds that it is because

We give reliable values in footwear.

It is certainly true that if we give you this, that we are entitled to your trade.

Is this not a safe proposition?

Self interest, under the circumstances, would impel you to purchase your shoes of us.

We have been and today are working along these lines of safe merchandising, and our trade on shoes is growing daily.

Part of our time is closely applied to the question of price.

The giving of something durable, stylish, well fitting, at a price safe for the masses to pay.

Suppose you figure with us on your next pair of shoes.

J. P. COOK,
178 Dundas Street.

Cyclometers are in use on public carriages in Berlin, Leipsic and Dresden. They record the exact amount of miles traveled and the legal fare of the occupants.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

The flying frog of Bornea has long toes, which are webbed to the tips. Its feet thus act as little parachutes and enable the frog to leap from lofty trees and descend gradually.

Where Specialists Failed Dr. Chase Cured Catarrh.

James Spence, Clachan, Ont., writes: "I had been a sufferer from Catarrh for fifteen years. It became chronic, and I had given up hopes of ever being cured when advised by a friend to try Dr. Chase's Catarrh Cure. I at once started, and am pleased to state three boxes effected a complete cure, and I heartily recommend it to anyone suffering from Catarrh."

A Big Victory For the Cubans.

One of the Most Decisive Battles Yet Gained by the Patriots.

A Column of 1,300 Spanish Troops Defeated.

The Dons Surprised and Compelled to Surrender

Besides Losing Heavily in Killed and Wounded.

Admiral Cervera's Dispatch From Santiago—Admits Heavy Losses—Another Account of the Bombardment—Report That the Spanish Torpedo Boat Destroyer "Terror" Was Sunk Is Reaffirmed.

IMPORTANT VICTORY FOR THE CUBANS.

New York, June 8.—News has just reached the Cuban Junta in this city of a victory achieved by the Cuban forces over a division of the Spanish army at Jiguani, province of Santiago, on May 22. It was one of the most decisive battles which the patriots have gained in many months, and the most important one since the war was declared by the United States against Spain.

A column of Spanish soldiers, 1,300 strong, acting under orders from Havana to abandon the interior towns and advance towards the coast, evacuated the town of La Piedra, after having destroyed their forts and fortifications to prevent them from falling into the hands of insurgents encamped at Jiquani, where they expect to remain awaiting further orders.

THE SPANIARDS WERE SURPRISED

on the morning of May 22 by being attacked by a division of the first corps belonging to Gen. Calixto Garcia's command, under the leadership of Col. Jose Rabi. The Cubans altogether numbered a little more than 1,000 men, while the Spaniards had fully twice that number. The Cubans advanced in good order, being well equipped with arms and ammunition, and took the enemy completely by surprise. At the start the Spaniards scattered, but afterward made an effort to rally their forces. They only succeeded in being able to retreat in regular order to the village of Palma.

After six hours' hard fighting at Palma the Spaniards raised a flag of truce and expressed themselves as being

WILLING TO SURRENDER.

Terms were speedily arranged, and the Cubans took as prisoners one Spanish colonel, seven captains, several other officers, besides 103 soldiers. The Spanish loss amounted to 76 dead, besides a large number who were wounded. Included in the Spanish losses were thirteen officers.

The Cubans sustained a heavy loss, but it was considerably smaller than that of the Spaniards. It is reported that there were 45 killed, including five officers of lesser rank, and about 60 wounded.

After the battle, the Cubans returned to Jiguani. There they recovered a large quantity of arms and ammunition from the deserted Spanish camp, together with provisions and supply wagons, which the enemy had been compelled to leave behind. These were much needed, and were sent to the headquarters of Gen. Garcia's camp at Bayamo.

THE BOMBARDMENT AT SANTIAGO.

On board the Associated Press dispatch boat Dandy, off Santiago de Cuba, via Kingston, Jamaica, Tuesday, June 7—Noon.—The American fleet this morning engaged the Spanish batteries defending the entrance of the harbor of Santiago de Cuba, and after a three hours' bombardment, silenced nearly all the forts, destroyed several earthworks, and rendered the Estrella and Cayo batteries, the two principal fortifications, useless.

The fleet formed in double column six miles of Morro Castle at 6 o'clock in the morning, and steamed slowly 3,000 yards off shore, the Brooklyn leading, followed by the Marblehead, Texas and Massachusetts, and turned westward. The second line, the New York leading, with the New Orleans, Yankee, Iowa and Oregon, turned eastward. The Vixen and Suawanee were far out in the left flank, watching the riflemen on shore. The Dolphin and Porter did similar duty on the right flank. The line, headed by the New York, attacked the new earthworks near Morro Castle. The Brooklyn column took up a station opposite the Estrella and Catalina batteries and the new earthworks along the shore.

FIGHTING IN A FOG.

The Spanish batteries remained silent. It is doubtful whether the Spaniards were able to determine the character of the movement, owing to the dense fog and heavy rain which were the weather features this morning. Suddenly the Iowa fired a 12-inch shell, which struck the base of the Estrella battery, and tore up the works.

TORRENT OF SHELLS.

Instantly firing began from both Rear Admiral Sampson's and Commodore Schley's columns, and a torrent of shells from the ships fell upon the Spanish works. The Spaniards replied promptly, but their artillery work was of a very poor quality, and most of their marks were wide. Smoke settled around the ships in dense clouds, rendering accurate aiming difficult. There was no maneuvering, the ships remaining at their original stations, and firing steadily. The squadrons were so close in shore that it was difficult for the American gunners to reach the batteries on the hill tops, but their firing was excellent.

MORRO CASTLE DAMAGED.

Previous to the bombardment orders were issued to prevent firing on Morro Castle, as the American admiral had been informed that Lieut. Hobson and the other prisoners of the Merrimac were confined there. In spite of this, however, several stray shots damaged Morro Castle somewhat. Commodore Schley's line ran closer in shore, firing at closer range. The Brooklyn and Texas caused wild havoc among the Spanish shore batteries, quickly silencing them.

While the larger ships were engaging the heavy batteries the Suawanee and the Vixen closed with the small inshore batteries opposite them, raining rapid fire shots upon it, and quickly placing the battery out of the fight. The Brooklyn closed to 800 yards, and then the destruction caused by her guns and those of the Marblehead and the Texas was really awful. In a few minutes the woodwork of the Estrella fort was burning, and the battery was silenced, firing no more during the engagement.

SPANISH GUNNERS RETIRE.

Eastward, the New York and New Orleans silenced the Cayo battery in quick order, and then shelled the earthworks located higher up. Later on the practice was not so accurate, owing to the elevation of the guns. Many of the shells, however, landed, and the Spanish gunners retired. Shortly after 9 o'clock the firing ceased, the warships turning in order to permit the use of their port batteries. The firing then became a long reverberating crash of thunder, and the shells raked the Spanish batteries with terrible effect. Fire broke out in the Catalina fort and silenced the Spanish guns there. The firing of the fleet continued until 10 o'clock, when the Spanish fire ceased entirely, and Rear Admiral Sampson hoisted the "cease firing" signal.

Generally the fire of the fleet was very destructive. Many of the earthworks were knocked to pieces and the Estrella and Catalina fortifications were so damaged that it is questionable whether they will ever be able to renew any effective work during the war.

NO AMERICAN SHIP HIT.

Throughout the engagement no American ship was hit and no American was injured.

CERVERA'S DISPATCH.

Madrid, June 8.—The following official dispatch has been received from Admiral Cervera:

Six American vessels have bombarded the fortifications at Santiago and along the adjacent coast. Six were killed and seventeen were wounded on board the Reina Mercedes; three officers were killed and an officer and seventeen men were wounded among the troops.

The Americans fired 1,500 shells of different caliber. The damage inflicted upon the batteries of La Socapa and Morro Castle were unimportant. The barracks at Morro Castle suffered damage. The enemy had noticeable losses.

CLEARED THE WAY.

London, June 8.—A dispatch to the Daily Mail from Cape Haytien says: The American victory at Santiago has cleared the way for the entrance of Admiral Sampson and the destruction of the Spanish fleet. As Santiago's defenses are reported weak, it is likely the city will yield to a vigorous attack. It is reported that the commander of the Reina Mercedes, second in command in the Spanish fleet under Cervera, was killed during the engagement. The combined American and insurgent forces are entrenched near Daiquiri, with guns mounted in preparation for any movement. A report says a body of Americans landed at Aguaderoes, but whether it is true, or what the result was, is not known here.

PROBABLE JUNCTION WITH THE INSURGENTS.

Cape Haytien, Hayti, June 8.—According to the latest direct advices from Santiago de Cuba, the Americans effected a junction with the insurgents near Daiquiri, some distance east of Aguaderoes, and near the railway line to Santiago.

LONDON TIMES COMMENT.

London, June 8.—The Times, commenting editorially upon the fact that the Cuban authorities at Havana permitted its correspondent, Mr. Knight, to discharge his function in forwarding the dispatch as to Monday's engagement at Santiago says: His dispatch says that the American fire was damaging. As he doubtless is subject to rigid censorship this admission is significent; and his statement that the Americans were repulsed at Aguadores is probably correct.

The editorial, in summing up the situation, says: Spanish obstinacy may prolong the war for many months. The American Government is acting wisely and prudently in refusing to send to Cuba an army of untrained volunteers. Little attention need be given to peace rumors.

The other morning papers are inclined to doubt the account of the destruction and silencing of the forts at Santiago, but they believe the bombardment was intended to draw the Spaniards' attention from a landing somewhere, and that the coming week or two will see exciting events in Cuba.

The Terror.

REPORT OF HER DESTRUCTION REITERATED.

Port Antonio, via Kingston, Jamaica, June 8.—Under terrific fire by the whole American fleet a Spanish torpedo boat destroyer, supposed to be the Terror, was shattered and sunk as she was trying to sneak into the Santiago harbor. Her destruction was accomplished in a few minutes. The torpedo boat destroyer was discovered by the lookout on the battleship Texas.

Manila.

CLAMOR FOR RELIEF.

London, June 8.—The Madrid correspondent of the Standard says: "El Liberal calls upon the government to take steps promptly to satisfy public opinion which is clamoring for the immediate dispatch of a relief expedition to assist Captain-General Augusti in forcing the Americans to leave Manila. This alone, the papers argue, would put a stop to the spread of agitation and disaffection among the natives of the Island of Luzon. "The nation," says El Liberal, has remained patient only because it has believed the government would really arrange such an expedition." El Imparcial advocates a similar course, advising that the fate of Spanish rule in the Philippines could in this way be easily decided at Manial. El Heraldo is even more energetic in its calls upon the cabinet to "act before it is too late."

The press campaign is evidently intended to exercise pressure upon the government before the reserve fleet at Cadiz receives final instructions which are hourly expected by Admiral Camara.

Reports from the Philippines state that the Spaniards have succeeded in checking the propaganda of Gen. Aguinaldo. The Americans have been preparing defenses at the mouth of the bay ever since the Spanish authorities set the rumor afloat among the natives that a relief expedition was on the way.

AN INSURGENT VICTORY AT MANILA.

London, June 8.—A dispatch to the Daily Telegraph from Manila, dated June 3, says: "The Spaniards in the church in Old Cavite are still holding out, but the adjacent town of Imus has been captured by the insurgents. This is an important point at the back of Cavite proper, and its possession by the rebels is a serious matter for the Spaniards, because it is the outlet to the surrounding country, and through it supplies are brought to the city of Manila. It will also afford an admirable base of operations for a further advance toward the city. It has been found impossible to conceal from the inhabitants of Manila the fact that the insurgent successes have cast a deep gloom upon foreign residents, who are more anxious than ever to get away. For the most part the men remain, but the women and children have been sent to Cavite, where they are safe under the Stars and Stripes.

The most friendly relations exist between Admiral Dewey and the consular representatives of the powers, and the commanders of the European warships in the bay. The Spanish soldiers who have been captured are a sorry-looking lot. If they are a fair sample, they will be no match for the American troops."

SPANISH CONGRATULATIONS.

Madrid, June 8.—In the chamber of deputies last night Capt. Aunon, minister of marine, read Admiral Cervera's dispatch and a dispatch from Gen. Blanco to the effect that Gen. Linares had repulsed an American attempt to effect a landing of troops at Aguadores. The senate, after hearing Admiral Cervera's dispatch, unanimously resolved to congratulate the army and navy.

ANOTHER CABLE PROBABLY CUT.

Cape Haytien, Hayti, June 8.—From all indications the cable between Hayti and Cuba has not worked since Monday at midnight. It is probably cut.

THORN TO BE ELECTROCUTED.

New York, June 7.—Martin Thorn, who was convicted early in December of last year, and sentenced to die in the electric chair at Sing Sing for the murder of William Guldensuppe, the bath rubber, will have to suffer the full penalty. The case has been before the court of appeal, and today, among other decisions handed down, the sentence was affirmed in the case of Martin Thorn. Thorn is now in the prison at Sing Sing, and Mrs. Augusta Nack, who also connived and helped at the killing of the bath rubber, is serving a sentence of fifteen years' imprisonment in the female convict prison at Auburn.

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

The Fly is made of the right stuff.

VANILLA.

CONCENTRATED EXTRACT OF VANILLA for flavoring Jellies, Ice Cream, Custards, Blanc-Manges, Pastry, etc., etc.

Many of the extracts offered for sale give very unsatisfactory results. Our extract imparts the delicious aromatic flavor and odor of true Vanilla Bean.

In 10c and 25c Bottles.
