RISE IN CAN. GEN. ELECTRIC

Twin City Continued Strong and in Good Demand.

Advance in Montreal Street Railway Issues—Big Advance in C. F. I.—Pennsylvania, Missouri Pacific and Traction Issues Higher—Money Rates and Foreign Exchange — Notes and Gossip.

World Office.
Wednesday Evening, June 12.

Canadian General Electric furnished the sensation on the Toronto Stock Exchange to-day, advancing nearly five points and closing at 241 bid, compared with 226¾ yesterday afternoon. Tips have been out on this stock for some time and there is talk of a new issue of stock, with special consideration of shareholders. Another feature to-day was Montreal Street Railway, which sold up to 292½, a rise of nearly 3 points for the day. The new stock sold up to 250 C.P.R. It was off half a point, and Cable a full point. Richelieu advanced a point. Cariboo (McK.) is easier, and Crow's Nest Coal up a point.

Twin City to-day continued strong and in good demand, touching 89 at Toronto, Montreal and New York and closing at about previous final figures. The New York Press says to-day: "There is a strong undertone in the local traction stocks. The conviction is growing that it properly cannot be 'confiscated' under the franchise tax law. If it should be justified by results, a big advance would take place in these issues. All city railway stocks are bound to be mints in time, and outside of New York it is safe to buy into Twin City Rapid Transit. Some of these days some big capitalists will want that property, and they will have to pay a round price to get it."

Dow-Jones' news service of New York sent out the following despatch to-day, crediting it to Toronto sources: "Mr. H. Pellatt of Pellatt & Pellatt, one of the largest shareholders in the Crow's Nest Coal Company, left for New York to confer with President Hill of the Great Northern. It is rumored without official authority object may be to negotiate a sale of the company's properties. Will lends color to the report of Great Northern's seeking to acquire coal fields in the west is the recent filing incorporation papers at Great Falls, Montana, of Montana and Great Western Railway, capital ten million dollars, by Great Northern officers." Major Pellatt denied the story. He has not gone to New York.

On Wall Street.

J. J. Dixon has the following this evening from New York:

The tone of the market was steady today and the business was confined largely to a few stocks, some of which scored good advances. The sensational feature of the day was the sharp rise in C.F.I. for which no explanation was given and it was probably due in a large measure to covering of shorts. There were rumors of a combination of the companies. Vera Cruz & Tampico and Republic Iron and Steel. The last two named stocks were also strong. Penn., Mo. P. and the traction stocks were all strong. Mississippi scored a quick advance in the afternoon. United States Steel issues were quiet and rather heavy. Sugar and Tobacco neglected. Coppers were higher in the aggregate but did not hold the advance. London bought about 15,000 shares on balance. Money was easy. Demand sterling, 4.88¾ to 4.88½.

A meeting of the directors of Mo. Pacific has been called for noon on Monday next.

Rock Island declared the regular dividend of 1¾ per cent.

Outlook on Wall Street.

Monday's New York Commercial-Adviser said: It is quite fitting at this season, when the grain harvests are still in a sensitive position, for the stock market to take some account of unfavorable possibilities. Past years have witnessed just such a quieting down of the speculation as we are now seeing on no other ground than the doubt as to how much to believe of the sensational damage reports, and the recognition that crop cultivation has reached the stage where bad weather and insect pests will do more injury than at any other time. The current season has been singularly free until lately of the usual scares and of the pessimistic predictions which are made purposely to influence the speculation. The stories of destruction, moreover, which have now begun to issue from the wheat belt, are by no means as serious in their forecasts as those of a year ago. Yet, with all that was heard in June last year about the devastation of wheat in the Northwest, the final yield for the entire country was fully up to the average production of recent years. It is well to bear this experience in mind when considering the importance of the reports about crop injury, which have been coming in during the last few weeks. The tendency always is to exaggerate the effects of poor weather or to enlarge upon the damage reported from various sections. Even the estimates of the State Boards of Agriculture, like that of Kansas, showing a 17-point decline in the wheat condition during May, are not wholly above suspicion. The truest measure of the situation is found in the recent movement of the wheat market. The July option in Chicago, which rose to 78 cents per bushel a week ago, fell to 72½ cents to-day and at this figure it was more than 10 cents per bushel below the high price of the summer of 1900.

WHEAT OPTIONS YESTERDAY

Fractional Advance in Liverpool Cables Again.

In Chicago July Wheat Declined and September Wheat Advanced Yesterday—Local Grain and Produce Markets—Notes and Gossip.

World Office,
Wednesday Evening, June 12.

In Liverpool to-day wheat futures advanced ½d to ¾d per cental and maize options declined fractionally.

In Chicago to-day July wheat declined ⅝c per bushel, and Sept. wheat rose ⅜c per bushel. July corn lost ½c per bushel.

The G.N.W. has discontinued its ticker service to the Toronto Board of Trade and there is talk of a corn exchange being formed in this city to secure proper market reports.

Nebraska State crop bulletin, issued today, shows general rains and improved winter wheat. Corn growing slowly, but in fair condition. Oats less than nominal.

Bradstreet reports a decrease of 3,100,000 bushels in the world's visible supply of wheat for the week. East of Rockies decreased 1,099,000, and in Europe and afloat the decrease was 2,100,000 bushels. A decrease of 1,500,000 bushels took place the corresponding week of last year. Corn increased 661,000 bushels, and oats increased 90,000 bushels.

The stocks of wheat at Port Arthur and Fort William on June 8 were 1,365,067 bushels, as against 1,505,206 bushels on June 1, and 2,120,807 bushels a year ago.

Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat—Opened firm on stronger cables than expected and some buying for foreign account, mainly in Sept. option. Local traders sold off some and July was especially weak, but later under good buying values recovered. All foreign markets are relatively stronger than ours and as it will likely be the middle of September before supplies begin to be burdensome there is basis for a good reaction if foreign markets continue firm and the strong undertone noticeable to-day.

Corn—Has not changed much in price; up a trifle early on some local covering, but not holding the advance. Cash corn has been the best seller of July, Edwards the best buyer. There has been a very poor shipping demand, with, however, some small lots closed. Receipts were 378 cars, with 226 for to-morrow. Clearances 293,000 bushels.

Oats—There has been rather free liquidation of long oats, and the demand has been from shorts. The July sold at 27½c and the September 26c. Receipts 103 cars, with 110 for to-morrow. Cash demand slow. Weather favorable.

Provisions—Opened active and higher on 6000 less hogs than expected and ruled steady all day. Longs sold moderately. Cash demand is fair. Market closed easy. 20,000 hogs estimated to-morrow.

THE CATTLE MARKETS.

No Change in Cables—Best Stock Higher in New York.
