who may not be residing in the community an opportunity of aiding this benevolent object, Subscription Lists be left at each Bank in the city and at the St. John Hotel.

And further resolved That the foregoing proceedings be published in the different City Papers and that the thanks of the Meeting are due to his Worship the Mayor, for his attention to the business of the meeting.

I. WOODWARD, *Secretary.*

About £150 were subscribed by those gentlemen attending the public meeting, and we learn that application will be made to the different Ministers in this City to make collections in their respective places of Public worship, in aid of the fund.

A Public meeting has been held at Halifax for a similar purpose as the above, and committees appointed to collect subscriptions. £220 were subscribed at the meeting, by about 20 individuals.

Fires in the Woods.—From different parts of the Province we learn that the fires from burning the woods have been unusually destructive, destroying in most cases the houses, barns, &c. of poor settlers, on whom the loss will be very heavy. A saw mill and barns belonging to Mr. John Hooper, at Musquash, were burnt last week, and the crop much injured.

The following Address of the Rector, Churchwardens and Vestry of St. Luke's Church, Portland, was presented to the Right Rev. the Lord Bishop of Fredericton, on Monday the 9th instant:—

TO THE RIGHT REVEREND THE LORD BISHOP OF FREDERICTON.

My Lord,—

We, the Rector, Church Wardens, and Vestry of Saint Luke's Church, Portland, New-Brunswick, hail with sincere gratification the arrival of your Lordship in this Province; and we hasten to express the great respect we entertain for the high and holy office to which you have been called by the Great Head of the Church, and also our best wishes for your happiness and success in the important work in which you have engaged.

The Parish, which we have the honour to represent, has been struggling for some years past with many difficulties, and yet our hands have been greatly strengthened by the liberality of friends, who have cheerfully administered to our wants; and we still hope by God's assistance and grace, to see our beloved Zion enlarging her borders more and more, so that when we shall be called to sleep with our Fathers, we have the delightful assurance that her services shall descend to our children's children, pure and unaltered.

We are bound to the Church of England, my Lord, by the most endearing ties, and we heartily rejoice in the prospect which is now presented to us by the arrival of your Lordship on our shores—of having the benefit of that Church carried into every part of the Province, in all her fullness and beauty;—a blessing which we have hitherto but partially enjoyed, in consequence of the extensive charge over which our late highly esteemed Diocesan was called to preside.

Wishing your Lordship and your family every necessary blessing, we have the honour to remain with sentiments of great respect,

Your Lordship's Obedient Servants,

Signed, W. HARRISON, *Rector.*
JACOB ALLAN, } *Ch. Wardens.*

J. G. TOBIN,
FRANCIS RUDDOCK, *Vestrymen.*

S. L. TILLEY, *Vestry Clerk.*

ADDRESS OF THE CHURCH CORPORATION OF CHRIST'S CHURCH, FREDERICTON.

"May it please Your Lordship.

"We, the Rector, Church Wardens, and Vestry of Christ's Church, in the city of Fredericton, take the earliest opportunity of welcoming Your Lordship to your new Diocese, and place of residence, in which we trust that a long course of happiness and usefulness may be, by Divine Providence, reserved for you.

"It is our earnest hope and prayer that every part of the Diocese may henceforth exhibit the happy spectacle of a body of Church people united among themselves, and with him who is set over them in the Lord, following with glad mind and with his godly admonitions.

"As Christ's Church is now the Cathedral, we the present members of the Corporation will readily do whatever may be in our power to accommodate the building to that honourable use, and we trust that the same feeling will prevail among our successors in office, until one more suitable shall have been provided.

"With feelings of fervent gratitude to the Divine goodness for the hope of great improvement now presented to the Church in this Province, and deeply sensible of the unexampled benevolence on the part of their fellow churchmen in England, to which under Providence they stand indebted for the completion, as well as for the first formation, of their ecclesiastical constitution, they again bid your Lordship most cordially welcome and God speed."

(Signed) G. COSTER, *Rector.*
G. ROBERTS, *Vestry Clerk.*
On behalf of the Corporation.

Supreme Court, Trinity Term.—Richard Sands Armstrong, gent., having produced the necessary Certificates, and having been examined as to his fitness and capacity, is admitted, sworn and enrolled an Attorney of this Court.—*Royal Gazette.*

Quick Voyage.—The brigt C. W. Wallace, which arrived here on Monday last from St. Kitts, performed the voyage hence and back in 42 days—passage out, 12½ days; back, 12 days.—*Halifax Journal.*

The steamship Great Western arrived at New York on the 1st inst. in 14½ days.

Four men were killed at the Navy Yard Washington, by the bursting of a bomb-shell

Capt. Judkins. of the steamship Cambria, who has been very ill at Boston since his arrival there, we are happy to learn by the last accounts, was on the recovery.

The Charleston *Chamber of Commerce* gave WILLIAM OGILBY, Esq., the British Consul at that port, a complimentary dinner on the 27th ult., as he intends to retire from that post.

New York Harbour.—It is said to be a fact that there is not water enough at all times on the bar at the entrance of New York harbor to admit even a *third rate* ship of war to cross it. The American ships Columbus and Vincennes are detained there for want of water.

MONTREAL, June 10.—It is our painful duty to have to record the decease of His Excellency Sir Richard Downes Jackson, K. C. H., Lieut. General Commanding Her Majesty's forces in British North America. His Excellency was in good health on Sunday morning, and attended divine service, but feeling indisposed after his return from church, retired to his room, to lie down, where he was found a short time afterwards in an insensible state, from which, we believe, he never recovered, and breathed his last at about five o'clock yesterday morning. It is understood to have been an apoplectic attack. What renders this event even more melancholy, is the circumstance that Sir Richard was on the point of leaving this country for England, and indeed, was to have sailed by the next packet, his successor in the command, Lord Cathcart, being expected to arrive in a few days. His Excellency has been in this Province for several years, and though simple and unostentatious in his habits was very much liked by society in general. We do not know, and we can record a better tribute to his memory, than to say of him, that he was a good and brave soldier and a good man, who "Feared God and Honored the King."

Sir Richard Jackson entered the Army as Ensign the 9th July, 1794. Lieut. and Capt. 24th May, '98; Capt. and Lieut. Col. 4th August, 1808, Col. 4th June, '14; Major General, 27th May, '25; Lt General, 28th June, '38, and was appointed Colonel of the 85th (Royal Sussex) Regiment of Foot, 15th June, '40, having been 51 years in the service.

Sir Richard Jackson served in Ireland during the rebellion in 1798; on the expedition to the North of Germany, in 1805; and in the expedition to and siege of Copenhagen in 1807. He embarked with a detachment of the Coldstream Guards for Cadiz, in March 1810, and was present at the defence of Cadiz and battle of Barossa. He served also in the campaigns of 1811, '12, '13, and '14, as an Assistant Quarter-Master-General, including the battle of Fuentes d'Onor, the siege of Ciudad Rodrigo, battle of Salamanca, passage of the Bidassoa, battle of Nivelle, passage of the Nive, and battle between the Nive and the Adour, 11th of Dec.; action of St. Palais, battle of Orthez, action of Aire, and battle of Toulouse. He was a Knight Commander of the Bath, and entitled to a cross and two clasps for the battles of Barrosa, Fuentes d'Onor, Salamanca, Nivelle, Nive and Orthez. He embarked for Canada with Lord Sydenham in the year 1839. Sir Richard was administrator of the Government in 1842, from the decease of Lord Sydenham, until the arrival of Sir Charles Bagot.—*Courier.*

Major General Sir James Hope is now the senior military officer in Canada. Sir Richard Armstrong is a Major General of the same year, but below sir James Hope on the list.—*Ib.*

The *Times* of yesterday, says that a requisition numerously signed, has been addressed to the Hon. D. B. Viger by the electors of Three Rivers, inviting him to stand for the representation of that borough in place of the late lamented member, Mr. Grieves.

It is rumoured in town that col. Gugy and Mr. Turcotte intend also to try their fortunes in standing for this Borough.—*Ib.*

THE ARMY.—We understand that the 43d Light Infantry are under orders to proceed to Halifax in the Apollo, now daily expected. She will most probably bring to Canada the 16th Regiment, supposed to be intended for Lapraire. In military circles it is believed that either the 14th Regiment, or 93d Highlanders will replace the 43d at Quebec.—*Quebec Mercury.*

The Milwaukee (W. T.) *Courier* not content with the great Pacific Railroad, to which it devotes a great portion of its columns, contains the following "MAGNIFICENT SUGGESTION:"

The Philadelphia Ledger calls attention to the importance of a ship canal to the lakes from the ocean, that will enable us at any moment to place upon them whatever ships we can' spare from the seaports; and suggests that the federal government should immediately take measures to enlarge the Illinois canal for this purpose. If this were a ship canal, ships of war could go from the Navy Yard at Pensacola, up the Mississippi, directly to Lake Michigan.

CONCERT.—It will be seen by an advertisement in this day's paper that the talented *Artistes* Mrs UNDERWOOD and Mr. STEVEN, with assistance of the Philharmonic Society and several other Gentlemen, intend giving a Concert on Friday evening next. We have no doubt their exertions will be well rewarded.

A Special Commission for holding a Court of Oyer and Terminer has been granted for this City and County, to commence on the 24th inst. for the purpose of trying the large number of Criminal cases at present on the Sheriff's docket.

POSTSCRIPT

Arrival of the Caledonia, with the June Mail.—The *Herald* arrived from Windsor at 12 o'clock this day. By the kindness of Mr. Cobb we are put in *possession* of Liverpool papers to the 4th instant, from which we hastily glean a few items. The Caledonia had 13 days' passage, and brought 63 passengers.

The steamer *Hibernia* was 13 days on her last passage home from Halifax.

DEMONSTRATIONS IN IRELAND.—Mr. O'Connell held a grand Levee in Dublin on the 30th of May, in celebration of the incarceration of 'The Martyrs.' The Orange Associations, indignant at this assumption of regal ceremony, had reorganized, and were about holding meetings and arranging a procession for the approaching 12th of July.

The Lord Mayor of Dublin has presented an address, praying her Majesty to visit Ireland this summer. A formal answer was returned. It appears to be generally understood that the royal visit will not take place this year.

The repeal meeting at Tara, respecting which considerable preparations had been made for some time previous, took place on the 23d ultimo. The accounts differ materially as to the numbers in attendance. Both parties agree in this, that the attendance and the enthusiasm were far in arrear of the great meeting on the same spot in 1843.

At the Repeal Association, £100 from Halifax, N. S., was announced among the receipts, and £20 from Sydney.

On the 27th ultimo, the whiting Shoal, in the Thames was forced by a galvanic battery, and forty feet of it displaced.

The House of Lords has passed the Heavyside divorce bill. The lady in this case is the *cher amie* of Dr. Lardner.

It is rumoured that the parliamentary session will close about the middle of July, and that her Majesty desires that such should be the case.

Colonel Maxwell, 36th Foot, aged 59, died on the 21st ult., at Newcastle on Tyne.

Launch of a War Steamer.—On saturday, 24th ult a first class steamer, named the Inflexible, 1100 tons burthen, was launched at the royal dock yard, Pembroke. The dimensions are—Length between perpendiculars, 186 feet; extreme breadth, 36 feet; and depth in hold 20 feet. The armament is to consist of six large guns, four twenty-four pounders, and two eighty-four pounders.

THE MAYNOOTH GRANT.

The third reading of the Maynooth Bill engaged the attention of the House of Commons on the nights of the 19th, 20th and 21st of May. In this debate, says the *European Times*, the old threadbare arguments were furbished up again, but having lost the charm of novelty, the infliction was necessarily soporific. The division on the final passage of the Bill through the Commons was nearly similar to that on its second reading. It was disposed of by a clear majority of 133 for it:

For the Bill,	319
Against it,	186
Majority,	133

Immediately after its passage in the Commons the Bill was introduced with the Lords by no less a personage than his Grace the Duke of Wellington, who on this occasion superseded Lord Stanley as representative of the Government.

The second reading of the Bill was pressed rather hastily by the noble Duke, on the night of Monday, 2d inst., and he was met in the teeth by an amendment moved by Lord Roden, who, together with the Bishop of London, strenuously opposed the Grant, and the debate was adjourned without coming to a division.

There stands the Maynooth Bill for the present.

EDUCATION IN IRELAND.

Sir James Graham's "Godless Scheme of Education," (so styled by Sir Robert Inglis,) has been vetoed by the Roman Catholic Prelacy of Ireland, on the ground that the faith of their Church is not duly protected. The Scheme received considerable support from "Young Ireland," as a party of young enthusiasts is called, but their voice "sings small" beside that of O'Connell and the whole body of the Catholic Clergy. The Bill has passed a second reading in the Commons by a majority of 265—an amendment by Lord John Manners meeting with only 46 supporters.

THE WEATHER AND THE CROPS.

The season in England has been marked by extraordinary backwardness—the spring weather having been unusually cold. The accounts of the crops from country districts are dismal; Corn has advanced 2s. or 3s. per cwt. in consequence.

An enterprising individual of Hamburgh has arranged for a cheap trip round the world. The route has been so arranged as to secure a continual summer to the voyagers.

Amongst the Railway projects talked of is one to connect Bristol with South Wales by means of a tunnel under the Severn.

The slave factories on the banks of the river Congo are said to have frightfully increased of late. They are principally spanish and Portuguese.

The founder of a true and new religion has advertised in the Paris papers, for a supply of priests, bards, &c.

A fossil turtle, eighteen feet long, and seven feet high, has been discovered in the Annalaya hills.

The Catholic Bishops are up in arms against the measure now before Parliament for establishing colleges in the north, the south, and the west of Ireland. At their meeting in Dublin, some few days ago, they agreed to memorialise Government to modify some of the provisions of the bill, in order that the students should have the benefit of religious instruction, by Catholic Clergymen, within the walls of the colleges—that the Catholic Bishops should have a veto upon the appointment of the professors—and that due measures might be taken against the religious opinions of the young men being tampered with. In the House of Commons, on Friday night, Sir James Graham declared that some of these propositions could not be entertained; but he expressed, at the same time, a sincere desire to make the provisions of the bill as agreeable as he consistently could with the wishes of the Roman Catholics. But it is quite clear that the scheme will be unpopular in Ireland. Mr. O'Connell is violently opposed to it; the hierarchy will now be compelled to denounce it; and its exclusive support will rest upon the shoulders of "Young" Ireland—a somewhat fragile body, as recent events have demonstrated. The second reading of the Bill was carried on Monday by a majority of 265. An amendment proposed by Lord John Manners, only met with 46 supporters.

AMERICAN PINE TIMBER.—The arrivals this month consist of three vessels, 3177 tons. From St. John, of which one cargo was yarded by the importer, one of 22 inches average was sold at 21½d. and one of 20 inches at 20½d per foot. A cargo in the yard, of large average, of last year's import, was sold at nearly 21d.—buyer paying all expenses from the time of landing. The demand for all kinds continues good, and the stocks are reducing rapidly.

BIRCH.—*St. John*, with cargo, has been sold at 20½d per foot; its value apart is higher.

New Brunswick and Nova Scotia Fir Planks and Boards.—The only sales from the quay have been, with cargo, in which manner St. John Spruce were sold at 24d per foot of 2 inches. The stocks are reducing, and holders are firmer in prices.

LATHWOOD.—*St. John*, with cargo, has been sold at 40s per fathom.

Germany appears to be in a state of high excitement in consequence of the schism which M. Ronge, the new Luther, who demands marriage for the Catholic priesthood, and the celebration of the mass in the native, instead of the Latin language, has been made between the New and the Old Lights. In this controversy some of the ablest pens, and several of the crowned heads are already engaged. The Emperor of Austria has taken the most prompt measures to prevent the introduction of the schism into his dominions, while it is viewed with a feeling of satisfaction by the King of Prussia. M. Ronge and his coadjutors appear to be gaining ground; and if notoriety is to be envied, the ex-priest of Rome is at present one of the most notorious of individuals.

TRIAL OF THE MONSTER GUN.—A trial of the monster gun, which has been manufactured in this town for the American steam-frigate Princeton, of which we have given some details in a former number, was made on Saturday week, on the sands, North Shore, between Crosby and Formby. The firing commenced about eleven in the morning, and continued till sunset, with intermission until three in the afternoon. During that time upwards of three tons of shot were discharged,—each shot weighed upwards of two hundred weight. The report was distinctly heard in the neighbourhood of the docks, and in the north end of the town, although the scene of the firing was some eight or nine miles distant. The experiments proved highly satisfactory. The appearance of the ship, after each discharge, skimming along the water, had a novel and pleasing effect. The range extended some miles. The day mild and fine, and notwithstanding the fact of the gun having been carried out as early as three in the morning to the scene of the experiments, to avoid notoriety, great numbers were attracted to the spot when the firing commenced.

ARRIVALS FROM ST. JOHN.

May 19th, Pearl, Dublin; 20, Venerable, Deal; 25, Charlotte, Belfast; Speed, Liverpool. June 1, Lady F. Hastings, do.

Vessels Sailed for St. John.—May 13, Jane Anderson, Gibralter; 14, Jobling, Rochelle; 16, Ianthe, Cork; 20, Harriet, Londonderry; 21, Thomas Liverpool; Severn, do.; Sarah, Cork; 24, St Andrew, Liverpool; Jane, Cork; 27, Woodstock, the Clyde; 29, Hebe, Liverpool; James, Waterford; Hippocampi, do.; Joseph Porter, Liverpool; June 2d, Mischief, Deal; May 21, Ellen and Margaret, Dublin.
