THE ATHENÆUM MEET.

Great Success of the Races at Rosedale—A Good Crowd.

The Athenæum Bicycle meet can be chalked down as a success. The attendance was good, but not up to that at the Wanderers' meet last month. The racing was keen and pulsating in the closeness of the finishes, that is as far as the finals were concerned. Johnson's mile against time, Davidson's quarter-mile record and the tandem race were easily the features of the day. The American riders with one exception, Goehler of Buffalo, were not in the same class as Wells, Davidson and four or five other local men. The mile novice was the first event on the program. The result was a surprise to a great many, as Crow, who rode second in the novice at Montreal, was looked upon as a sure winner. He did not finish among the first three. F. R. Crowley won all the way, closely pushed by Percy Brown.

The quarter-mile mile open, first heat, was a close and fast dash. Harbottle got up speed first and up the back stretch he put a couple of lengths between him and Davidson, the second man, while the rest tailed off. Around the turn the Royal Canadian spurted, and drawing up to Harbottle he passed him and beat him over the line, all out, by two lengths. This was a record ride. In his heat Wells got off badly, but outfooted his field easily when the crucial time came. Davidson won the final easily from Wells, but as several of the starters beat the pistol the race was ordered run over again. In the run off, which was put on immediately, Harbottle won, with Davidson second and McLeod, the Sarnia man, third. Wells finished in the ruck. In the half-mile races for Class B racers Cleveland of Buffalo took Callahan and Johnson to the first quarter and then dropped out. Callahan then took up the pace till the bell lap and then the great J. S. spurted and won easily.

The tandem race, an innovation which took immensely, was won by Doane and Roberts by over 20 yards. The mile open, class B, was a repetition of the half-mile race, and, although Johnson got within the Canadian record by over 7 seconds, it is hardly correct to say that he has made a new mark for the mile competition.

The mile open was a gift to Wells. Johnson's mile against time would have resulted in a lower mark if the pacing had been a little better. All the results:

Bicycle Briefs.

Steuber of Detroit was not allowed to compete, as he had not the necessary permit.

It was pretty hard on Davidson to be deprived of the quarter-mile race after breaking the record in his heat and then winning the final.

The last quarter in the tandem race was ridden by the winners in 28 seconds.

The tandem race held at the meet was not the first ever held in Canada. Old-timers remember a similar race at Woodstock six years ago.

Billy Carman had to give way to a speedier man in the two-mile lap race. Goehler of Buffalo led in every lap except the first.

The final result of the novice race, in which the Wanderers were 1, 2, 3, evidenced the fact that Trainer Chris Clune has developed some worthy youngsters to win laurels for this popular club.

Sam Young, the latest addition of the North End boys of that name to the bicycle track, made a good impression in the novice race Saturday. He is much the same build as the well-known Fred. Alf is well started now in the speedy ranks, and his fast time, 2.24 1-5, in the fourth heat of the 2.50 class, shows what he is capable of.

The Athenæum club house looked its best all lit up Saturday night and with every room thrown open to the building full of members and visitors, who applauded the different successful riders as they received their handsome prizes.

IT SEEMS TOO SMALL to do any good, when you look at one of Dr. Pierce's Pleasant Pellets. But just try it, when you're bilious or constipated, or have a sour stomach, or a fit of indigestion—and you'll own up that they're the best things in the world.

That's because they cure *permanently*, and do it *pleasantly*. They're tiny, sugar-coated, and easy to take. There's no disturbance to the system, diet, or occupation. Satisfaction *guaranteed*, or money refunded.

Houston, Minn.

DR. R. V. PIERCE: *Dear Sir*—I could tell of a number of cases where Dr. Pierce's Family Medicines have cured. A friend of mine, Mr. Williams, was about used up with liver troubles; now he says that "Pleasant Pellets" have helped him more than any or all the medicines that he has ever taken.

"THE TRIUMPH OF LOVE

IS HAPPY FRUITFUL MARRIAGE.

Every Man Who Would Know the Grand Truths: the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you had dulped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N.Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

AN ALLEGED SHOPLIFTER.

The Police Claim to Have Made an Important Arrest Saturday.

Mary Churchill, tailoress, 240 Crawford-street, was arrested Saturday afternoon on a charge of shoplifting, and the officers claim the arrest to be an important one.

Many complaints have been made to the police of late of thefts from the market and drygoods stores. Detective Harrison has for some days been on the watch for the culprit, and during Saturday afternoon his attention was attracted to a young woman who was walking about. He watched her, during which time she made several attempts to steal goods from the stands. He did not arrest her then, but followed her along King, up Yonge-street and into Eaton's store. She went upstairs, the detective at her heels. She was observed to steal and secrete a small woolen garment, after which she went down to the ground floor, where she possessed herself of a pack of cards. Then the detective put her under arrest.

It may be only a trifling cold, but neglect it and it will fasten its fangs in your lungs, and you will soon be carried to an untimely grave. In this country there have sudden changes and must expect to have coughs and colds. We cannot avoid them, but we can effect a cure by using Bickle's Anti-Consumptive Syrup, the medicine that has never been known to fail in curing coughs, colds, bronchitis and all affections of the throat, lungs and chest.

An illustrated description of Gibraltar is given in The Toronto Sunday World of July 15.

After Bathing

the first time with Pearline, you feel as if you never had been clean before. Possibly you haven't. Only baths like the Turkish or the Russian can make you as clean as Pearline does. There's the same feeling of lightness and luxury after it, too.

Bathing with Pearline costs almost nothing. It's like everything else—you would long for it, if it were expensive, but you're apt to overlook it when it's cheap. Directions on every package.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled. If your grocer sends you an imitation, be honest—*send it back.* 334 JAMES PYLE, New York.

Bradstreet says: Trade at Toronto is quiet. Farmers throughout Ontario are busy harvesting. Fall orders for dry goods at Montreal have improved somewhat, but other staple lines are dull. Crop prospects in Quebec are reported good.

The world's stock of wheat, says Bradstreet, has declined during the past 14 weeks about 6,000,000 bushels more than the like portion of last year, which is important in view of the insistence in the trade that invisible domestic supplies are almost exhausted. Exports of wheat, flour included, both coasts, this week equal 2,377,000 bushels, compared with 4,134,000 bushels in the second week of July last year.

Tips From Wall-Street.

The market closed stronger to-day, with Lackawanna in the lead.

Higher prices for the grangers are talked of.

Henry A. King & Co.'s special wire from Hubbard, Price & Co., New York:

The market was strong, but not particularly active. The trend of prices, however, was upward. There has been excellent buying of Chicago Gas, Sugar, General Electric, Cordage, and the purchasing of Whisky to-day was somewhat improved. President Greenhut denied to us positively that either he or his friends had been responsible for the sharp attack made upon Whisky a few hours ago. Gas acts well and we understand will sell at fully 20 points higher than these prices before the end of the year.

The Atchison earnings, showing a loss of $447,000, for the first week of July, were about what was expected. There cannot be very much money lost in bulling Atchison at these prices, especially as the plan of reorganization set out by the Reinhart people is likely to be considerably modified. Louisville and Nashville was on its mettle, scoring a net advance of 1½ per cent. It looks as if Louisville will sell considerably above 50. The condition of the Southern roads is improving and earnings are picking up appreciably.

Henry A. King & Co.'s special wire from F. G. Logan & Co.: Wheat opened steady, held so for a little while and then gradually eased off on fair offerings. Liverpool was ¼ to ½ lower, Berlin ½ mark higher, Antwerp unchanged and Paris market closed. Receipts at the primary winter wheat points, while smaller than yesterday, were fairly good and indicate that the new crop is moving. The week's clearances were good, 2,377,000 bushels, being 500,000 bushels larger than last week. Lake freights are again lower and some chartering on wheat being done, but too early to report amount taken. Weather cooler and more favorable. Some rains reported in the West. Corn easier, in sympathy with wheat and reported rains in corn belt. Rather free selling at opening on commission orders, with buyers principally local and among scalpers. Estimated cars Monday 125. Oats were slow and lower. Receipts are coming forward. Feed men still slow to buy. Estimated cars Monday 87. Provisions dull and lifeless; no disposition to trade by packers or scalpers. Liberal receipts hogs anticipated for remainder of the month. Local operators rather bullish, but waiting for a break to buy on.

Schwartz, Dupee & Co., Chicago, wired Dixon: Wheat easier, declining half cent and closing without much reaction from the bottom. Cables easier, winter wheat markets weak. Trade dull. The smallness of the speculation as much as anything else occasioned the decline. It is the expectation that winter wheat receipts every where next week will be increased. There exists a good demand for spring grades and for hard wheat of other varieties. For some reason or other the demand for winter wheat just now is nil. It looks as if the new crop movement might compel further decline.

Corn easier on private reports of rains throughout Nebraska. Damage from drought is not claimed yet from any section. Rains, however, would be a safeguard. No general rains are indicated by the Washington forecast. Receipts are slowly increasing. A car of new oats for the end of next week would not be an impossibility.
