PROVINCIAL NEWS TOLD IN FEW WORDS

A new social club, to be known as The Pilgrims, has been organized in Ladner.

The Moyie Rochdale Co-Operative Association has been obliged to suspend as an unprofitable venture.

The body taken out of the water near Hasting's mill yesterday has been identified as that of a brother of J. W. Hackett, of Robertson & Hackett.

George F. Bennett, Grand Scribe E. of the Free Masons of Canada, was banquetted in Revelstoke on Thursday last, by the local members of the craft.

In a fight between Chinese gamblers at N. 9 Pender street, Vancouver, Fong Yuen nearly severed one of the hands of another Chinaman with an 18-inch butcher knife.

Herbert Welhelm, who committed suicide in Vancouver Monday night, as told in The Post of yesterday, was an old-time resident of Cariboo. Ill-health had induced despondency.

During a recent visit to the Okanagan country, John E. Hooper discovered a thirty-foot seam of lignite coal, thoroughly suitable for domestic purposes. It is close to transportation and easily mined. Mr. Hooper is forming a company to develop the property.

Nanaimo is entertaining Hon. Mr. Pugsley today, his inspection of the Coal City being arranged by a joint committee of the City Council, the Citizens' League and the executive of the local Liberal Association. A non-political banquet will be tendered this evening.

Mayor Keary, of New Westminster, is in attendance at the convention of the Union of Canadian Municipalities, now being held at Medicine Hat, acting as joint delegate of Victoria, Vancouver, Nanaimo and New Westminster, the Coast cities with representation in the union.

T. Dale, who lost his arm some time ago while working on the Dominion dredge at Nakusp, has entered action in the Exchequer court to recover $5,000 damages. He was offered $200 and the position of watchman on the dredge in compensation for his injuries, but refused to take it.

The Rossland School Board has appointed James O. Clothier, M.A., of Kingston, Ont., principal of the High School, and Allan F. Matthews, B.A., Halifax, principal of the public schools; R. J. Clegg, of Toronto; Miss Alma Baker and Miss Laura F. Jewell are new appointees to the teacher's staff.

Little Miss Bernnice Post, a pupil of the Cook avenue school at Rossland, has established a record for punctuality and regularity that it will be hard to surpass. During the past four successive years she has not missed a single day or half day and has never been late. Her scholastic record is also an exceptionally good one.

Robert Reid, foreman for the Stanley Park Stables, who was held in jail at Vancouver, pending developments in the condition of Joe Reynolds whom he is accused of murderously assaulting Thursday morning, was released on $6,000 bonds, himself in $3,000 and two securities in $3,000, last night on account of his alleged victim's condition showing a marked improvement.

A discovery of very great importance in connection with the up-building of the city of Prince Rupert has been made in the location by J. A. Johnson, an Ontario man, of an immense body of clay cement only a few miles from Prince Rupert, where it and sand can be landed at a merely nominal cost. There is enough clay cement in the deposit, it is stated, to provide that class of building material for a city of 1,000,000 population. Close to the clay cement deposit are unlimited quantities of fresh water sand, having a depth of about ten feet and covering thirty or forty acres.

Loud complaint is made at Prince Rupert of the excessive rates charged by the government for telegraphic service, the cost of a ten-word message to Vancouver being $1.75. Arrangements have been made to have Mr. Bowling stationed in the new city as district superintendent and Mr. H. B. Rochester as night operator, but there is little advantage in placing good men in the field if the rates prohibit the development of business. During Mr. Templeman's forthcoming visit the business men of Prince Rupert will have some very practical things to say to him upon the subject of reasonable reductions.

The residents of the Delta are greatly annoyed as a result of Hon. Mr. Pugsley having deemed it unnecessary to make a call at Ladner, notwithstanding the fact that he passed the river and by the town a few days ago. His Department has time and again been appealed to by the residents of Ladner and Westham Island in regard to the protection of their dykes from drainage through the ever-changing channel of the river. The opportunity of presenting their case to him personally was eagerly anticipated and the residents feel much hurt that it should have been lost through the minister's neglect to make Ladner one of his calling points.

A strike is reported on the Prince George mine, Six-Mile Mountain, near Nelson, upon which some remarkably good showings have previously been made. The claim was located several years ago on the strength of a rich stringer, assays from which ran as high as 229.5 ounces silver and $2.32 gold; $17.60 silver and $45.65 gold; and $6.80 silver and $31.86 gold. The property, which includes the adjoining claim, the Prince Arthur, is owned by J. G. Johnston and George Leece. Up to a few months ago there had been little development, but as the result of work done recently Mr. Johnston in making an upraise from the stringer struck the main lead, which is ten feet wide and a true fissure. The ore runs from $25.00 to $35.00 per ton. The claims are about one mile from the wagon road. During the early summer freshets the bridge on this road was washed out, and Mr. Johnston greatly appreciates the rapidity with which the new bridge was constructed by the government, thus keeping open communication with the property.

R. E. Gosnell has been elected secretary of the Greenwood Board of Trade.

Mr. Harry Jones, M.P.P., is making an ante-election tour of the Cariboo district.

A new post office has been opened at Marron Lake, with William Smythe Parker as postmaster.

The Kamloops Motor Boat Club held its first regatta at Chase, Little Shuswap Lake, yesterday week.

Ground is being cleared at Princeton for the necessary buildings for Great Northern divisional point purposes.

The Methodists of Armstrong have decided to double the accommodation of their church, at an expenditure of $1,200.

The rumor is current that Charles Chapman, a former well known resident of Cranbrook, has been drowned in the Skeena.

Fine whitefish, some of them weighing up to three pounds, are being taken in Okanagan Lake, which was stocked with fry about twelve years ago.

Lieutenant-Governor Bulyea gave a large reception at his summer home in Peachland last week, the chief feature of entertainment provided being a display of fireworks.

The wedding of Miss Marion Hodges and Mr. Arthur Austin was celebrated on Thursday last at the home of the bride's parents, Mr. and Mrs. A. B. W. Hodges, of Grand Forks.

The two long missing trappers Bob Creswell and Ben Lewner, have turned up at Fort George and there met the search party which had set out to find news of them.

The wash-out on the C. P. R. between Rosebery and Sandon, was not yet repaired at last mail reports, and Silver City remained isolated, trains being unable to proceed beyond Three Forks.

Mr. Richard W. Heard and Miss Louise Fletcher were married on Saturday at Saint James Church, Armstrong, the home of the bride. They will take up their residence in Revelstoke.

The Tyee salmon season is on and large fish are being killed at Campbell River.

The death occurred at the Grand Forks Hospital on Sunday last of Finley Matheson, who had his spine dislocated by an accident at the smelter on June 11 last.

A close season for bear has been established in this province extending from July 15 to September 1. It is also provided that bear may not be trapped south of the C. P. R. main line.

An unusual and painful accident has occurred to Frank Fletcher, P.L.S., of Nelson. Meeting an old friend, the latter shook hands with him so heartily that his arm was broken above the elbow.

Through trains are again running between Nelson and Slocan City, for the first time since the wash-outs of July 2 on the Slocan branch. Almost a mile of new trackage has been necessitated.

The directors of the Vernon Agricultural Exhibition are working hard to make their autumnal show one of exceptional merit. The entries will far excel those of any previous year in both number and quality.

Fernie citizens will meet at a Board of Trade banquet on Monday next to commemorate the destruction of the town by fire last year. The mayors and representative citizens of a number of neighboring towns will attend.

Dominion Day at Barkerville passed without celebration, but the 4th, the day dear to American hearts was observed as though in a town of the United States, even to the reading of the Declaration of Independence.

Charles Wagner is in Vernon hospital suffering from numerous wounds inflicted by an infuriated she-bear whose cub he had killed. The old bear turned on him before he could use his gun, and he was badly mauled.

The home of Lester Dignan, near Moyie, was burned last week with all its contents. Mr. and Mrs. Dignan, Mrs. Webb and the Misses McKinnon escaped in their night garments, narrowly missing being burned to death.

Penticton has organized a volunteer fire department, which will have a permanent captain and twelve call men. The insurance companies will contribute toward the cost of maintenance and a chemical engine will be purchased.

The Cranbrook Electric Light Co. has decided to put in a large steam plant at a cost of from $30,000 to $50,000, and thus obtain ample power to meet an increased demand for light, as well as to give electric power for the entire twenty-four hours.

The Okanagan Conservative Association has passed a resolution requesting the Government Road Superintendent to investigate the Lake Shore route between Trout Creek and Penticton before beginning the improvement of the Penticton-Summerland road.

Mayor Fripp of Grand Forks has shown his strong interest in the cause of education by presenting a gold medal to Miss Ida Hartinger, who passed the McGill Matriculation Examination with the highest marks obtained by any Grand Forks candidate.

The marriage took place at Los Angeles recently of Andrew Hall, a well known ex-resident of Kelowna. After waiting eight years for her sweetheart to make his fortune, and after travelling six thousand miles to join him, Miss Kate Cremen of County Kerry, Ireland, claimed him as her husband.

Indians are reported to be slaughtering does and fawns, wholesale in the neighborhood of Merritt. As a result eight good men have been recommended as deputy game wardens and approved by Mr. Williams, so that their appointments will be gazetted very shortly.

Residents of the upper country are agitating that the increased bounty on horned owls should be extended to all owls, as the birds are the friends of all enemies of the grouse, prarie chicken, etc. A bounty will doubtless be placed on all owls, and also on the blue hawk, at the next session of the legislature.

A colony of land-seekers from Battle Creek, Michigan, have taken up land and will make their homes in the vicinity of Naramata. Included among the new arrivals are: Mr. and Mrs. H. J. Wells, Mr. and Mrs. John Bowman, Mr. and Mrs. Eli Link, Mr. and Mrs. L. D. Johnston, H. B. Wilder, H. F. Powell, George Cook and Mrs. P. A. Thurston and Miss Thurston.

The Delta hay crop will be only about 65 or 75 per cent. of last season's.

Rafaelo Pisacrati, employed by the Yale Columbia Lumber Co., has met death by drowning.

Repeated efforts to raise the sunken G. N. S. locomotive from the river have resulted in failure.

The body of William Jones, a Welsh miner who jumped into the Elk river a few weeks ago, has been found at Fernie.

The body of Alexander Muir, drowned at the Patrick Lumber Company dam on Slocan river last week, has been recovered at Bridgeport, Washington, on the Columbia river, having been washed down some 200 miles since the accident.

To cling for eight hours to their upturned boat in the Gulf, five miles out from Point Grey, and to be rescued by a tug just as their strength was fast failing, was the experience on Saturday of two fishermen employed by the Albion Cannery.

To Affect Settlement

William Powell, president of District 18, United Mine Workers of America, accompanied by International Organizer James, is visiting Nicola, where they will endeavor to settle the dispute that has existed there for some weeks between the mine owners and their employees. They have been most successful in their efforts to establish industrial peace since assuming office, and it is hoped that they will now find a way out of the difficulty at Nicola and restore harmony at that point.

Building to the Coast

The Spokane & B. C. Railway Company began building last week from Rock Creek, west of Midway, on their extension to the Coast. Forty men are engaged, and work began where the Midway & Vernon company quit grading twelve miles out of Midway three or four years ago. The Spokane & B. C. Company have secured the Midway & Vernon charter, which runs from Midway to Vancouver. They are already working on the road from Spokane to Grand Forks, and this charter gives them power to build to Vancouver. It is said that an adjustment of the different charters will be obtained at the next sitting of Parliament, and work pushed through to the Coast at once. The linking up of Spokane with Vancouver, through Grand Forks, is a most important matter for that town, and is a forecast of progress in the near future. Whether the present company will operate independently or will be part of one of the great systems is mere conjecture, but does not affect the interests of Grand Forks.

Okanagan River Improvement

The work of deepening the outlet of Okanagan Lake into Dog Lake will be resumed, and Mr. Pugsley, Dominion Minister of Public Works, has issued instructions that operations be gin at once for the completion of the work, which was discontinued some time ago because of protests lodged with the department claiming that the work would have the effect of lowering the surface of Okanagan Lake and probably impair the value of some of the property with lake frontage. It did not take long, from personal observation, for the minister to conclude that if any damage was done it would be very slight in comparison with the benefit which would be conferred on the very large territory served by the extension of navigation to the foot of Dog Lake. While there Hon. Mr. Pugsley decided to make an official change in the name of Dog Lake and hereafter it will be known as Lower Okanagan Lake. The change will give the country in the vicinity of Dog Lake the advantage of the name Okanagan which is a very large asset indeed. The dredging and clearing of the river will extend navigation about 12 or 13 miles and serve a fine fruit-growing section, one of the richest in the valley, with cheap transportation.

SWADESHI THE CRY

London, July 28.—Big British business interests are in a panic today over the threatened boycott of English goods in India, even more than they are over the anti-British demonstration planned throughout the country for August 7. If the boycott could be made permanently effective England might still be able to hold India, but it is doubtful if it would be worth holding. The country has wonderful resources of its own, and enterprising German, French and Chinese firms are keen to break the English monopoly of trade there. Native professors of the leading Indian colleges are publicly advocating the anti-British movement and are urging the people to join the boycott. Ajit Singh, deported at the same time as the famous disturber Lala Lajpat Rai, and subsequently allowed to return, and Arabinde Chezo, another widely known anti-English agitator, are going through the country preaching passive but stubborn resistance to British authority. Sedition continues to spread. While the India office in London was at first disinclined to take the situation seriously, the veiled threat by Sir Norman Baker, who recently told the Bengal council that if the Indians did not co-operate with the Government, there would still be a solution, but neither a peaceful nor a painless one, has shown the Government officials that Englishmen on the ground do not regard it lightly.

VITEBSK HELPLESS IN CHOLERA'S CLUTCHES

St. Petersburg, July 28.—Dispatches received here today from Polotskin, the Government of Vitebsk, the only city in Russia aside from St. Petersburg, in which the cholera has made much headway, say that the city is in panic owing to the inefficiency of the sanitary administration and the shortage of physicians. Forty cases of the disease are reported daily and to cope with this situation, there are only five doctors, who are so overwhelmed with work that they are obliged to refuse their services at night. Heart-breaking scenes are witnessed at the physician's offices, where relatives of the stricken, fairly fight to secure attention. Many stores have been closed and all well-to-do persons are fleeing from the city.

WANAMAKER WEDS

Elaborate Precautions for Secrecy at Second Marriage of Philadelphia Millionaire

London, July 28.—Rodman Wanamaker, son of John Wanamaker, of Philadelphia, and Violet, daughter of Eugene Guido Gruger, of New York, were married this afternoon at St. Margaret's church, Westminster, by special license. Extraordinary efforts were made to keep the affair secret.

Those who had been admitted to the confidence of the bridal couple were pledged to secrecy and Mr. Wanamaker tried to throw off inquirers at his hotel yesterday by leaving word that he had gone to Scotland. The church was closed to everyone save a few invited guests, and the officials informed would be sight-seers, that the building was closed for cleaning purposes until tomorrow. Accompanied by Barclay Warburton, his brother-in-law, Mr. Wanamaker drove up to the vestry entrance in a motor car shortly before half past twelve o'clock; even then the identity of Mr. Wanamaker was denied. Five minutes later the bride, accompanied by her mother arrived at the same entrance in an electric broughham, but the machine was directed to the main entrance to the palace yard, and immediately she and her mother entered the doors, which were locked behind them. Shortly afterwards Whitelaw Reid, the United States Ambassador, arrived and gave the password which admitted the church. The bride was attired in white lace over chiffon and a white picture hat with a large ostrich plume. Her mother wore a gown of cream colored silk.

Rodman Wanamaker is well known on two continents, being a prominent member of the American colony in Paris. He is an officer of the French Legion of Honor which honor was bestowed upon him for his liberalty to art students in Paric. Mr. Wanamaker's first wife, who was the daughter of Charles Ferdinand Henry, of Philadelphia, died nine years ago. Mr. Wanamaker has lived in semi-retirement for some years, although he gave several large entertainments three years ago on the occasion of the formal presentation to society of his daughter.

Mr. Wanamaker subsequently explained that the secrecy with which the marriage was conducted was due to his strong personal dislike for notoriety, and he wished the wedding to be conducted with as little outside display as possible.

Besides the bridal couple only three persons were present at the ceremony. Ambassador Reid, Barclay Warburton and the bride's mother, all of whom signed the register.

After breakfast here, the couple started on an automobile trip through England. They will reside in Paris.

DYNAMITERS NOT IDENTIFIED

Perpetrators of Latest Glace Bay Outrage Still at Liberty—Monster Parade Saturday

Glace Bay, C. B., July 28.—No arrests have yet been made in connection with the dynamiting of Underground Manager Simpson's residence at Reserve during Monday night. The house is a two story building, with a verandah across the front and the eastern side. Windows were demolished and the floor and frame of the verandah were destroyed. A quantity of dynamite or other high explosive had been placed on the floor of the verandah opposite the front entrance and exploded with a fuse. The front wall of the house is shaken and shattered, inside parts of the wall protrude inwards and the frame work is so twisted that the door cannot be opened. One of the corner posts on the verandah was blown into an adjoining yard a distance of over 30 feet.

The quantity of dynamite used must have been large, as this was an unclosed explosion. What the results would have been had the dynamite been placed in the wall or under the house may easily be imagined. None of the inmates could have escaped with their lives.

Mr. Simpson and his family were asleep in their beds at the moment of the explosion, which was at 1:30 this morning. It seems peculiar that Mr. Simpson should have been singled out as the object of this outrage, as he is a very quiet man and has been on good terms with the men.

The strike leaders have arranged for a monster parade of strikers on Saturday afternoon from Glace Bay to Dominion No. 1, where a picnic will be held. Prominent strike leaders will speak, and it is expected that the five thousand strikers will be joined in their demonstration by a great number of sympathizers.

GRAIN TRAFFIC ON G.T.P.

Elaborate Preparations in the Making for Receiving and Carrying the Wheat Crop

Winnipeg, July 28.—Plans upon an elaborate scale are being consummated by the Grand Trunk Pacific for the handling of the grain trade over its line between Edmonton and Winnipeg this fall. Preparations in this regard have kept pace with the construction of the track, with the result that even at the present time the facilities are very nearly adequate for the transportation of the splendid yield promised. By the time the binders begin their music there will be a line of 102 elevators through to Edmonton, with an average capacity of 30,000 bushels, or a total aggregate of almost 3,500,000 bushels. In addition there will be loading platforms all along the line. Four elevator companies are now operating west on the Grand Trunk Pacific.

There will be somewhere in the neighborhood of 5,000 freight cars available to take out the grain, and upwards of 175 locomotives. The present power along the line is being augmented by two new engines every two weeks.

There is at present under construction at Fort William a terminal storage and transfer elevator for the company, which will have ultimately a unit capacity of 10,000,000 bushels. At the present time one section with a capacity for 3,800,000 bushels is nearing completion. This elevator will not likely be used this fall, for it is not expected that the Transcontinental railway will be ready for the transportation of wheat to the head of the lakes. Shipments which are accepted along the line will be transferred to the C. P. R. and C. N. R. at Winnipeg.

FIREWORKS FATALITIES

Sandusky, Ohio, the Scene of Uncommon Accident

Sandusky, Ohio, July 28.—One man was killed and two were injured when a mortar exploded during the fireworks display in connection with the convention of the National Hay Dealers' Association at Cedar Point last night. A part of the mortar struck Henry Jordan, of Sandusky, in the head, killing him instantly. Another piece of metal struck Thomas Larkin, of Sandusky, in the mouth, and flying sand probably destroyed the eyesight of Andrew Dietrich, of Reading, Ohio.

EXTENDED TO OCTOBER

Gertrude Hoffman Will Call Many Witnesses Who Think Her Dance and Draping About Right

New York, July 28.—Miss Gertrude Hoffman, the dancer, will have until next fall to answer the charges of appearing on the stage in too scanty attire. When the hearing in her case was called yesterday the court granted a postponement until October 4 next on the plea of her attorney for time to prepare for trial. Thirty or forty witnesses will be called, the attorney said, to prove that Miss Hoffman's dance, which caused her arrest on Police Commissioner Baker's orders last Friday night, was neither immoral nor indecent. Magistrate Steinhart said that Miss Hoffman's agreement to don tights of suitable length was sufficient assurance to the court that the case did not demand adjudication.

KIDNAPPED KIDDIES

Henry Rowles Seeks to Recover His Two Little Girls

Henry Rowles, of Okotoks, Alberta, offers $50 for information leading to the recovering of his two little girls, who were taken from his home on July 5. He wishes to take legal proceedings against the parties who have taken the girls.

Description of children—(1) Name Eva May, age 8, complexion light, eyes blue, hair light, scar on chin. (2) Name Martha, age 4, complexion fair, eyes blue, hair light.

Description of parties responsible to abduction—Harry Parson, age 29, English, dark complexion, Roman nose, brown eyes, height 5 ft. 5 in. Minnie Rowles, age 30, complexion fair, light brown hair, eyes blue, good looking, pimple on rather long nose, height 5 ft. 4 in.

Hold parties for abduction and threatening life. Communicate with police and Henry Rowles, Okotoks, Alberta, Canada.

IN DARKEST ARKANSAS

Suit for Possession of a Child Prelude to Courtroom Tragedy

Little Rock, Ark., July 28.—Suit for possession of a child reached a tragic climax during a conference of the principals in the suit in the circuit court today, when W. Y. Ellis, shot and killed Nathaniel Parker Willis of Indianapolis, Ind., a prominent business man, father of the child and former husband of Mrs. Ellis. The suit at law was terminated yesterday. Judge Folk instructing that the child be surrendered by Mrs. Ellis to the custody of Mr. Willis. Today's conference was to arrange the details. Those participating were Willis and Ellis, the latter's wife, divorced from Willis some years ago, U. S. Senator Jeff Davis who appeared as attorney for Ellis, and Judge Folk. Arrangements were being concluded when Ellis fired over the shoulder of Senator Davis at Willis. Court attaches struck his arm, however, and the bullet went wild. Willis ran from the court room with Ellis in pursuit. Ellis fired again when he reached a doorway, inflicting a wound from the effects of which Willis died within ten minutes. Ellis surrendered and was imprisoned. Later, however, he was taken from the city by officers in an automobile for an unknown destination.

"RUNNING A NEWSPAPER" IN THE ARGENTINE

A gentleman who has lately visited the Argentine supplies the Glasgow News with a description of the chief newspaper office in Buenos Ayres. Offices of the kind elsewhere are simply not "in it" when compared with this South American building. He says it is a palatial establishment, where straw-hatted reporters of descent from authentic Spanish hidalgoes sat in sumptuous armchairs smoking long cigars and refreshing themselves with rectified sodas while "copy" was in process of manufacture. The editor's room was like something from the Ritz, the Carlton, or the Yildiz Kiosk before the revolution, and each and all of his leading men had almost equally impressive apartments. The office included a large ballroom and a public library, while there was in residence a physician whom readers of the paper might consult free at any hour of the day or night without any danger of his prescriptions being confined to the specifics advertised in the columns of the journal. An outside feature of the place was a colossal steam siren, which was blown periodically when any important news came to hand late at night. The piercing nocturnal blasts prepared the town for sensations with the morning roll, and that each blast was an offence punishable by fine was a matter of supreme indifference to the management. They paid up and saw to it that steam was ready for the next blow.

TRACTABLE TO TAFT

Peking, July 27.—The Prince Regent has placed a most serious interpretation on President Taft's message and has instructed the Waipupu (the Chinese Foreign Board) to use every means in its power to arrange the loan in accordance with Mr. Taft's wishes. It is now learned that on July 7 after the failure of the conference in London with the American representatives, the British, French and German bankers signed an agreement embracing an equality alliance with reference to Chinese loans. The foreign bankers here are eagerly awaiting details of this agreement. The above disclosure followed threatening the British critish here relative to the political infirmities of the British alliance with the German banks and it is believed to have been partly inspired by British apprehension at being involved in threatening scandals over the construction of the German section of the Tiensin-Hankow Railroad which the German and British capitalists are building.

LAND ACT

DISTRICT OF MAYNE ISLAND, B.C.

TAKE NOTICE that I, George Locke Paddon, of Mayne Island, B.C., occupation General Merchant, intend to apply for permission to lease the following described land:

Commencing at a post planted on the north side of the Mayne Island wharf just where it touches the land; thence west along the wharf ½ chain; thence north 1 chain; thence east ½ chain; thence south to commencing post 1 chain; containing one twentieth (1-20) acre, more or less.

GEORGE LOCKE PADDON.
21st June, 1909. 130

CERTIFICATE OF THE REGISTRAR OF AN EXTRA-PROVINCIAL COMPANY.

"Companies Act, 1897."

I HEREBY CERTIFY that the "Fort Steele Mining & Smelting Company," an Extra-Provincial Company, has this day been registered as a Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at Spokane, Spokane County, Washington.

The amount of the capital of the Company is one million dollars, divided into one million shares of one dollar each.

The head office of the Company in this Province is situate at Victoria, and James Hill Lawson, Jr., Solicitor, whose address is Victoria aforesaid, is the attorney for the Company. Not empowered to issue and transfer stock.

The time of the existence of the Company is Fifty years from June 3rd, 1909.

The company is limited.

GIVEN under my hand and Seal of Office at Victoria, Province of British Columbia, this Twenty-first day of July, one thousand nine hundred and nine.

(L.S.) S. Y. WOOTTON,
Registrar of Joint Stock Companies.

For the purpose of mining gold, silver, copper, lead, iron, and other ores of metals and minerals; and of reducing, refining, milling or smelting all or any of such ores or minerals;

For the purpose of dealing in any or all of such ores or minerals and of manufacturing and dealing in any and all products to be obtained therefrom, and of articles manufactured from such products;

For the purpose also, of purchasing, holding, developing, improving, leasing, selling, conveying or otherwise disposing of water powers and water rights and the sites thereof, and lands necessary or useful therefor, or for industries and habitations arising or growing up, or to arise or grow up in connection with the same. For the purpose also of digging ditches, sluice-ways and flumes for the purpose of conveying water to the mines of the company, and to land to be used by it for mining, milling or smelting and also for the purpose of irrigating lands convenient or adjacent thereto;

For the purpose also, of owning, operating, and maintaining a sawmill at or near its said mines, and for the purpose of manufacturing lumber and other articles thereof, for the purpose also of building, acquiring and operating concentrators, smelters, crusher mills, and all other machinery and appliances of any kind or nature whatsoever, which may be necessary or convenient in the business of the company;

For the purpose also of conducting, operating and engaging in a general merchandise business at or near the mine or mines or mill or mills of said company, and of purchasing and dealing in general merchandise and articles of any nature and description whatsoever;

For the purpose also of borrowing money necessary in the business of the company, of acquiring lands or real estate necessary or convenient in carrying on the business of the company; of acquiring, subscribing to, voting, holding and owning stock in other corporations;

For the purpose also of acquiring, owning and holding patent rights and patent processes, either in relation to mining and smelting, or to any other matter or form of invention, and in this connection of charging royalties on said patents, and otherwise dealing with the same in all respects as fully as would an individual person, and in general of doing any and all things necessary convenient or incident to the powers and purposes above specifically expressed, or any or all of them.

The mines or other property acquired by the company may be situate at any place in the world.

LIQUOR LICENSE ACT.

NOTICE is hereby given that we intend to make application to the Superintendent of Provincial Police at Victoria, B.C., for a transfer from the late Henry Price to Richard Price of the license to sell intoxicating liquors, etc., on the premises known as "Parsons Bridge Hotel," Parsons Bridge, B.C.

Dated this 21st day of July, 1909.

DRAKE, JACKSON & HELMCKEN,
Solicitors for the Beneficiaries.

NOTICE.

TAKE NOTICE that I intend to apply to the Honorable Chief Commissioner of Lands for a license to prospect for coal and petroleum on the following described lands, situated in Cassiar District, B.C.:

Commencing at a post planted southwest corner, running 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to point of starting, situated on Tooya River, about 30 miles from Telegraph Creek, B. C.

M. GIVIN.
A. G. McClarty, Agent.
June 29, 1909.

NOTICE.
