ANOTHER HAMILTON MIRACLE

TERRIBLE SUFFERINGS OF ISAAC W. CHURCH FROM PARALYSIS.

Crushed by a Fall of Forty Feet—He Spends Months in a Hospital And Is Discharged Only to Suffer Great Agony—Months Without Sleep and a Victim of Nervous Prostration—An Account of His Miraculous Cure as Investigated by a "Times" Reporter.

[Hamilton Times, June 20, 1892.]

"In the spring of 1887, while working on a building in Liverpool," said Mr. Church, "a scaffold on which I was standing collapsed and I fell to the pavement, a distance of 40 feet. Bruised and bleeding I was picked up and conveyed to the Northern Hospital, and not one of the doctors who attended me held out any hope of my ultimate recovery. The base of my spine seemed to be smashed into a pulp, and the efforts of the medical men were directed altogether towards relieving the terrible agony I suffered rather than towards curing my injuries. I had the constitution of an ox though," and the speaker threw out his chest and squared a pair of shoulders that would have done credit to a prince among athletes, "and as I seemed to have a tremendous grip on life the doctors took heart and after remaining in that hospital forty weeks I was discharged as being as far recovered as I would ever be. For twenty-six weeks I had to lie in one position, and any attempt to place me on my back made me scream with pain. Through eighteen months after my discharge I was unable to do a stroke of work, and could with difficulty make my way about the house, and then only with the aid of crutches. Twice during that time I underwent operations at the hands of eminent surgeons, who were amazed at the fact of my being alive at all after they had been informed of the extent of my injuries. On the last occasion my back was cut open and it was discovered that the bones which had been shattered by my fall had, by process of time, completely overlapped each other, forming a knuckle that you see here," and Mr. Church showed the reporter a curious lump near the base of his spine. "All efforts to straighten those bones continued unavailing, and finally the doctors told me that in the course of a few months paralysis would set in and my troubles would be increased tenfold. Their predictions proved only too true and before long I was in almost as bad a condition as ever. No tongue can tell the pain I suffered as the disease progressed, and eventually I decided to come to America. So in 1890 I closed up my affairs in England and on arriving in Halifax, so done up was I with the journey across the ocean, that I had to take to my bed and was kept a close prisoner for several weeks. Having a brother living at Moorfield, near Guelph, I with difficulty accomplished the journey there and tried to do some work. My utmost exertions could accomplish but little, however, and as the result of my trouble nervous prostration in its worst form assailed me. I remember once being overtaken by a thunderstorm while about a mile away from the house, and while I was making my way there I fell no less than eight times, completely prostrated by particularly vivid flashes of lightning or heavy jars of thunder. About a year and a half ago I came to this city and secured work at the Hamilton Forge Works, but before long had to quit because I could not attend to my duties. I used to think that if I could only get a little sleep once in a while I would feel better, but even that boon was denied me. Night after night I tossed from side to side, and every time my back pressed the bed the pain that shot through every limb was almost unbearable. The doctors prescribed chloral and bromide of potash, and for weeks I never thought of going to bed at night without having first taken powerful doses of either of these drugs. Towards the last these doses failed to have the desired effect and I increased the size of them until I was finally taking 30 grains of potash and 10 grains of chloral every night, enough to kill a horse. I became so weak that I could hardly get around, and my lower limbs shook like those of a palsied old man. When everything seemingly had failed me and I was about to give up what seemed a vain battle for life and health my wife here read an account in one of the newspapers of John Marshall's wonderful cure by means of Dr. Williams' Pink Pills, and although I had lost all faith in any medicine I resolved to try once more, and accordingly procured a box of those little Pink Pills from Mr. Harrison, the druggist, and commenced to use them according to the directions. This was in October of last year. I had not taken them a week till I began to feel an improvement in my general health. In a month I slept every night like a baby. The pains left my back entirely, and by the beginning of the new year I could lie on my back for hours and never feel the slightest pain therefrom. Prior to taking the pills I suffered terribly with fits, many of them so severe that three or four men were required to hold me. The pills knocked those all out, though, and all the time I used them I did not have even the suspicion of a fit, and as for my weight, well, you will hardly believe it, but honestly in that time I gained forty pounds. Well, to make a long story short, I went to work again a few months ago, this time in the Hamilton Nail works, where I went as shipper, and I have worked there steadily since the first day I went in. Last fall I was too weak to walk a mile, now I work from 7 a.m. until 6 p.m., and my work is no child's play either, I can assure you. I handle about 500 kegs of nails every day and each keg weighs 100 pounds and has to be lifted a distance of from five to six feet. All my renewed strength I ascribe to the use of Dr. Williams' Pink Pills, which I consider have worked wonders in my own case. For anyone troubled with nervousness, sleeplessness or loss of strength in any way, in my opinion there is nothing in existence like those pills for restoring people who are thus afflicted. Yielding to the advice of friends, who claimed that my renewed health was not due to the Pink Pills, I quit using them for about a month, but the recurrence of those terrible fits warned me of my folly and I commenced using the pills again, and I will certainly never be without them in the house."

"Not if I know it anyhow," remarked Mrs. Church. "I know only too well the good they have done you, and you would not have been anything like the man you are to-day if it had not been for those pills, and no one on earth knows better than I how greatly you have been helped, and not only you, but others in the family who were thought to be going into a decline before they were restored by taking those pills."

Some of the particulars of the marvelous rescue of Mr. Church from a life of suffering having reached the public a reporter of The Times thought it worth his while to investigate the matter for the benefit of other sufferers, and it was in response to his inquiries that the above remarkable story was narrated by Mr. Church. Taken in connection with the reports of other equally remarkable cures—the particulars of which have been published from time to time—it offers unquestioned proof that Dr. Williams' Pink Pills for Pale People stand at the head of modern medical discoveries.

The neighbors generally were very outspoken in their astonishment at Mr. Church's miraculous cure, all who knew anything of his case having given him up months ago as rapidly approaching the portals of the great unknown. He looks far from that now though. His eye is as clear, his cheek as ruddy, and his step as elastic as a youth in his teens. He was for seven years a member of the Life Guards, and for some time conducted a gymnasium in Liverpool. He expects to get back to his beloved athletic exercises this season, and is much elated at the success of his treatment.

The reporter then called upon Messrs. Harrison Bros., James-street north, from whom Mr. Church had purchased the remedy, who further verified his statements. In reply to the enquiry by the reporter, "Do you sell many of Dr. Williams' Pink Pills?" Mr. James Harrison of the firm replied:

"Well, yes, rather. A thousand boxes don't last long. You see our business is largely with men, women and girls employed in the big factories and mills in this locality, and the recommendations we hear from these people day after day, month after month, would indeed make the manufacturer of those wonderful little pellets think he was a benefactor of humanity. Several cases have come under my own notice of women, poor, tired-out, over-worked creatures, being made "like unto new" by the use of these pills, and I see them passing to and from work daily and looking as though life was worth living and well worth it, too. In all my experience in the drug business I never saw anything like these pills," and Mr. Harrison related a number of cures that had come under his observation in addition to that of Mr. Church.

Dr. Williams' Pink Pills for Pale People contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and the tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for $2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold to make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

MAN THE LIFEBOAT.

S. O. E. Naval Brigade Take Up a Practical Matter.

The project for forming a life-saving crew and procuring a lifeboat has for some time been agitating the Naval Brigade of the Sons of England, and at last it has taken form and substance. At a recent meeting of the brigade, at which Richard Caddick, high admiral, presided, it was resolved to form the life-saving crew and to procure a boat. Tenders have been invited for its construction and several bids have already been received. The plan has received the endorsation of the Executive of the S.O.E. The boat will be fashioned after the model of the English lifeboats and the crews will be dressed like "man-o'-warsmen. They will be regularly and properly drilled, and every evening during the boating season the boat will patrol the bay. There are 80 well-drilled stalwart young fellows, some of whom have been in the navy already, in the brigade, and the number will now rapidly increase. A crew for each night will be drafted from this number. Yesterday a committee composed of Richard Caddick, chairman; George Tyler, commander-in-chief; Richard Irons, P.G.P., and Bro. Mellon, D.D., waited on the Lieutenant-Governor and solicited his patronage of the matter. His Honor responded heartily to the invitation, promised that when the boat was ready Mrs. Kirkpatrick would launch it, and insisted on adding his name to the subscription list. He showed an intimate acquaintance with the needs for such a service, and altogether encouraged the committee very much in their work. The enterprise will now go on with renewed zest.

A TRIO OF ELECTION PETITIONS.

School Trustees Who Are Getting Back at a Justice of the Peace.

Messrs. Dewart & Irving, acting on behalf of John Alexander and George W. McRae, have issued a writ against William A. Childs and Charles O. Jolley, claiming $3000 damages for slander and for wrongful dismissal from the Toronto Bolt Works.

Mr. Justice Falconbridge made an order enlarging for six months the time within which to fix the date of the trial of the Lennox Dominion election petition.

Saturday, July 9, was fixed as the date of the Peel election petition, but it is understood there will be no trial, as the petition is to be withdrawn.

Monday next was fixed as the date to hear a motion for the withdrawal of the Prince Edward petition.

J. G. Watson, a justice of the peace at Ayr, fined School Trustees Henderson, Rennie and Gerbig for refusing to act as trustees. The trustees moved to quash the convictions before the full court and judgment was reserved. The trustees are now attacking the justice on the ground that he had no authority so to act and are suing for penalties fixed by statute for so acting. A motion is being made for security for costs of the action.

Anglican Sisterhoods and the Rev. A. H. Baldwin.

Editor World: I ask the liberty, through your widely-read columns, of recording my protest and expression of my indignation against the coarse imputations reported as the language used by the Rev. Mr. Baldwin at a meeting recently held to found a Deaconess' Home, at Wycliffe College, and to express my opinion that such unguarded and disgusting assertions even call for repudiation from the section of the church with whom the reverend gentleman identifies himself. I will not go to our classical literature and ancient history to establish the purity of idolatrous sisterhoods, but will emphatically deny the truth of the speaker's assertions as regards those of our Anglican Church. We have had several years' observation of the admirable work of the Sisterhood of St. John, and the labor of these excellent women has received from all quarters the highest commendation, and no single act of their community life or of their private ministrations has ever called for hostile criticism. The Sisters of the Church have not been so long amongst us, and their work is not altogether in the same direction, but they have received unqualified praise; sympathy and support in their self-denying labors. I believe these noble women are performing a work more in harmony with the divine Master's mind and teaching than that of their Rev. Criticiser who has cast so vile a slur upon them.

A LAYMAN AND A CHURCHMAN.

Not Grenadier Ice.

Editor World: My attention was drawn to a statement made in your issue of this date that the ice of Grenadier Pond and Small's Pond was unfit for use, etc., etc. I had a personal interview with Dr. Allen this afternoon and he informed me no such statement was made at the meeting. He was requested to make a bacterial analysis of the ice from Lake Simcoe, Grenadier and Small's Pond, the same as had been made of the bay ice, and which he will report at a later meeting. Kindly correct your misstatement and oblige. GEORGE A. CHAPMAN.

For Europe.

A. F. Webster, general steamship agent, 64 Yonge-street, booked the following passengers to sail this week for Europe: Mr. Reginald Northcote, wife and boy; Mr. John Northway, Mrs. Northway, Mrs. Saunders, Miss Maud Campbell, G. H. Whitham, George Berry, Mrs. Bruckshaw, Miss Emma Bruckshaw, Mrs. Lowe, G. W. Lowe, Charlie Lowe, Mrs. John Giles, Mrs. Baxter and infant, Miss Dalgeust, Miss Scott, W. Hothersill, Emily Foster, R. Pinchin, J. Moore, C. E. McConnell, Wilson Irwin, Mrs. Irwin, Miss Annie Irwin, Violent Irwin, F. Boland, Mrs. Skelcher and her two children, Arthur Knight.

Parmelee's Vegetable Pills contain Mandrake and Dandelion; they cure Liver and Kidney Complaints with unerring certainty. They also contain Roots and Herbs which have specific virtues truly wonderful in their action on the stomach and bowels. Mr. E. A. Cairncross, Shakespeare, writes: "I consider Parmelee's Pills an excellent remedy for Biliousness and Derangement of the Liver, having used them myself for some time."

The Giant Conqueror.

A wealthy official of Lowell, Mass., spent thousands, but availed not to arrest the ravages of internal disease. Weary, worn and sleepless he remarked, "How I do wish strength as you possess!" Said the valet, "Try this most remarkable life-supporting drink, St. Leon Water." He did, became so strong pronounces St. Leon the giant conqueror. Palace now open at springs. M. A. Thomas, manager. 36

$1200 IN CASH

And 500 Other Valuable Presents GIVEN AWAY to Those Who Guess the Following Rebus.

The above rebus is an old and wise saying and is known by everyone. CAN YOU ANSWER IT CORRECTLY? We will give to the first person from whom we receive a correct answer before July 10th, 1892, $100 in cash. To the next two $50 in cash. To the next four $25 in cash. To the middle correct answer received $100 in cash. To the next three on either side of the middle award $50 in cash, and to the next four $25 in cash; to the last correct answer received we will give $100 in cash. To the next two $50 in cash, and to the next four $25 in cash. In addition to the above we will make a present (the smallest of which will be worth the amount of your purchase) to every tenth correct answer received during the competition. All answers must be sent by mail and received by us not later than July 15th. With your answer (if outside Toronto) send 25 cents for one trial bottle "Saponique." City answers enclose 20 cents and personal deliveries will be made.

"SAPONIQUE"

A Treasure to the Housewife. Will Clean Anything in the Home.

"Saponique" is a French preparation of 50 years' standing and is being now introduced into Canada. It is the finest article of its kind in the world. It will remove paint, oil, grease, varnish, ink, berry, tobacco or any other known stain. It will restore the lustre of the cloth or carpets. It will clean your jewelery, silverware, glassware, tinware, metalware of any kind, polish your pianos, furniture, etc. It is a toilet article and can be used with very beneficial effects upon the skin. One or two applications will remove dandruff and leave the hair perfectly soft and natural. It can be used in the wash tub and saves the labor and drudgery consequent upon this unhappy portion of the housewife's duty. It will clean anything in your house from the cellar to attic.

Remember the presents are absolutely given away to advertise and introduce the celebrated French preparation "Saponique." You will find it the finest article ever introduced into your home. After this competition closes you can, and will, purchase it again through your druggist or dealer. Get up a club of ten in your vicinity, writing your own name and address last on the list, and you will be a sure prize-winner. Immediately after July 15th a printed list, giving the names and addresses of the successful contestants, will be mailed to each person who sent in an answer. We pay all delivery charges upon prizes and do not make any conditions whatever as to your further purchases of "Saponique." We know the article will sell itself when once tried. If you are a successful contestant your prize will be sent you absolutely free.

Mention World.

"Saponique" is put up in two sizes, 25 and 50 cents.

Address THE "SAPONIQUE" COMPANY, 36 221 Queen-street west, Toronto, Ont.

TENDERS.

Notice to Contractors

Tenders will be received by registered post, addressed to the City Engineer, Toronto, up to 11 o'clock a.m., on Tuesday, June 28th, 1892, for the supply of 265 feet of 20 inch

STEEL PLATE RIVETED PIPE

and the laying of the same from the end of the sewer at Brock-street into the Bay.

A deposit in the form of a marked check, payable to the order of the City Treasurer, for the sum of 5 per cent. on the value of the work tendered for under $1000 and 2½ per cent. for the value of the work tendered for over that amount, must accompany each and every tender, otherwise it will not be entertained. All tenders must bear the bona fide signatures of the contractor and his sureties (see specifications) or they will be ruled out as informal.

The committee do not find themselves to accept the lowest or any tender.

OF INTEREST TO LADIES

The Benefits to Be Derived are Marvelous.

No disagreeable examination is necessary.
No dangerous or harmful medicine to take.
You can treat yourself at home.
You are sure to recover of whatever ailments.
The expense is trifling.
The results are most gratifying.

We need not here name diseases. Every lady knows whether she is troubled with ANY of the various complaints peculiar to her sex, and if she is it will cost her nothing to consult privately and thus learn personally of the remedy that will cure her. Every irregularity and unnaturalness, all inflammations, ulcerations and weaknesses are completely cured and the system fully restored to a normal condition. It is worth your while to enquire into this statement either in person or by letter.

As a toilet water for the complexion it has no superior. It is most healthful and invigorating to the skin, removes pimples, blackheads, etc., and gives a fresh and youthful appearance to the complexion, with no possible injury.

A Word to Mothers who have growing daughters just blossoming into mature womanhood. How often does Nature require some little aid to perfect this wonderful change! How often is a young life blighted or subjected to unnecessary sickness and inconvenience because of some obstruction—something unnatural yet unknown—which could easily be removed or regulated if given proper and timely attention! Through feelings of delicacy the patient victim suffers in silence and allows the evil to continue without attention rather than mention it to even her mother. She thinks because not real sick that it will wear off, or Nature will soon restore strength and resume healthy functions. Mothers should be more watchful and not keep daughters in ignorance of Nature's ways and Nature's needs. THE MICROBE KILLER has power to render just the assistance needed at such times. A single gallon will cause a healthy change and remove every obstruction and irregularity. We make this matter prominent because it is of great importance. Thousands of ladies suffer without knowing the cause and dread to place themselves under a physician's professional care. We know whereof we affirm when we say that the

MICROBE KILLER RELIEVES ALL SUCH TROUBLES.

A Simple Home Remedy—Inexpensive, Pleasant and Effective—Positively so in all Female Complaints.

It should be kept in the house at all times. Pour from the jug into quart bottles, cork tightly and keep for use. Time does not injure it. If anything ails the children—a bad cold, croup, worms, diarrhœa, a fever, or any indisposition—a few doses of the MICROBE KILLER promptly administered restores health. If the child is injured, burnt, bruised or cut tie up the wound and saturate well with MICROBE KILLER. It is the greatest family medicine known and should be in every household.

It can be safely given in small doses to the baby. It aids digestion, helps teething, cures summer complaints, and where a child is weakly and puny it soon gives strength and vigor and the child becomes robust and healthy.

But there is another period in a woman's life when the MICROBE KILLER is of inestimable service, namely, that commonly called "Change of Life." Some are unable to survive this change. Many barely escape after much sickness and all suffer more or less. The tendency of MICROBE KILLER being to assist Nature and produce healthy, normal action it has proved to be invaluable at this period. It should be used moderately but continuously from its commencement. The change will scarcely be noticed. We desire to impress this fact upon the minds of our lady readers, and feel warranted in forcing it upon their attention, namely: You have no better friend than the MICROBE KILLER. Nothing yet discovered so completely meets your needs in the many ailments which annoy and afflict, but which so seldom receive medical treatment. It is strictly a home remedy and can be used by yourselves. Drinking it tones up and strengthens the system. Used as injections or a compress it positively cures any case of inflammation, ulceration, congestion or leucorrhea.
