To the PUBLIC.

THE *great* and *increasing Sale* of this UNIVERSALLY APPROVED WORK, (in consequence of its being more *Complete* than any other Work of the Kind whatever, and the *continued Recommendations* of the *Subscribers* to their *Friends* and *Acquaintance*) having occasioned a fresh Impression of the beginning Numbers on new Types, &c. the Public are hereby respectfully informed, that Persons may *now* begin *with Number* 1. and be supplied with *One* or *more Numbers at a Time*, price only Sixpence each, including the elegant *Copper-Plates*, *Maps*, *Charts*, *Plans*, &c. Those Persons who are inclined to purchase MILLAR's NEW, COMPLETE, and UNIVERSAL SYSTEM of GEOGRAPHY, complete at once, may be supplied with it, handsomely bound in Calf, and Lettered, in One Large Handsome Volume, Price only 2l. 8s, or in Two Volumes, Price 2l. 12s.

N. B. THIS WORK *having exceeded the Quantity proposed*, our numerous *Subscribers will* observe, that we have (agreeable to our *Promise* in our *Proposals*) delivered the *Overplus*, (Eight Sheets,) GRATIS, although it has occasioned an Expence to the Proprietor of upwards of One Hundred and Fifty Guineas; in order that we might be sufficiently full in our Account of America, in which we have totally rejected all those vain conjectures, ridiculous suppositions, fabulous stories, and palpable falsities, which have so long been imposed on the Public in former Works of this kind; contenting ourselves with giving our Subscribers such interesting information respecting that Part of the Globe, which is stiled the New World, as we have deduced from the most authentic and undeniable Evidences of Truth. Indeed the late Revolution in the Northern District has rather impeded our researches, and rendered the Historical Part less circumstantial than we wished; but still our History and Description are unquestionably the most complete and authentic now extant; and certain it is, that many years must elapse (owing to the unsettled situation of Affairs in that Quarter) before a more full account of North America can be collected from documents supported by authenticity.
