A Few Year's Experience

We believe, has taught us how to buy the right goods at the right prices for the smoker. Our stock now is larger and more varied than ever. A few of our pipes, apparently expensive, are cheap when good quality is considered. Our cigars, holders and cases are all A1 goods and prices to suit everyone.

Board of Trade

A meeting of the Board of Trade took place on Thursday night in the council chamber, H. Tweed in the chair. Eight o'clock was the scheduled time, but it was not until 8.30 that the seven members necessary to form a quorum had arrived.

The secretary brought up the matter for arranging for a course of evening papers on matters of general interest. He suggested the appointment of a committee to deal with this question. Only 4 or 5 papers would be necessary and these should not be difficult to arrange for.

Mr. Hall went on to say that he hoped to get away by the end of January on an extended tour in the east. While there he wished to speak before the Manufacturers' Association in connection with publicity work, and before three or four Canadian clubs. The C. P. R., whom he had asked for transportation and stop-over privileges on this trip, since they also stood to gain very largely through his campaign, had refused any special privileges, as the vice-president said the company did not wish to create a precedent. The annual meeting of the board for election of officers, etc., the speaker said, would be held before he left the city, and he hoped the members would show their interest in the body and its doings by turning out in large numbers.

The secretary further said that the president and himself had 125 to 130 men in mind whom they thought should be members of the board, and they purposed sending letters to these gentlemen urging them to join. The membership at the present time numbered 90.

There was a large amount of correspondence to go through, and the more important of the letters were read by Mr. Hall. These varied widely in character, some of them containing much unconscious humor, which was turned to good account by the meeting.

A Toronto man was willing to locate here and bring a factory along with him—on condition that the city would loan him $10,000!

Ald. Tweed: We'll give it him.

In reply to another correspondent Mr. Hall's letter stated that Medicine Hat enjoyed the advantages of unlimited sunshine and unlimited gas—the last commodity at a nominal charge to manufacturers, and moreover the proposition was being considered of supplying this to industrial works gratis along with the sunshine.

There was a request from an Ontario man for information re the prospects for a rosery in this city. The enquirer wished to work for a year here if there was any such business already established.

A communication from the council stated that that body could not see their way to supply free gas to the Board of Trade rooms.

The recommendation of the council that 1000 copies of the special edition of The News at 5 cents a copy should be purchased for publicity purposes was brought up by the secretary.

Mr. Hall then brought forward an idea for adding to the executive three additional officers, an honorary pres., and two more vice-presidents. The former office was created to enable Mr. Finlay, for instance, to become a member of the board, thus putting him in a position to speak more authoritively in its interests than at present. The vice-presidencies were intended as a means of interesting more citizens in the work. The secretary proposed to send out before the next meeting to each member an alpabetical list of members, accompanied by a nomination slip. The system of proportional representation would be adopted.

To enlarge the executive of the board an amendment to the constitution was necessary. Accordingly, Mr. White gave notice of a motion on the matter to be brought up at the next meeting of the board.

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced by Scientists as Extremely Dangerous—How the Danger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Nalpasse, of the Medical Faculty of Paris. They charge the kiss with spreading grippe, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post them on verandahs, in cozy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience in the following brief statement:

Dr. Slocum Co.

I am sending you photo and testimonial herewith for your great remedy PSYCHINE. Your remedies did wonders for me. I was about 20 or 30 years of age when I took PSYCHINE. The doctors had given me up as an incurable consumptive. My lungs and every organ of the body were terribly diseased and wasted. Friends and neighbors thought I'd never get better. But PSYCHINE saved me. My lungs have never bothered me since, and Psychine is a permanent cure.

MRS. LIZZIE GARRIDO,
519 Bathurst St., London, Ont.

Psychine, pronounced Si-keen, is admitted to be the most wonderful of all disease and germ-destroying agencies. For building up the run-down system and curing all forms of stomach troubles and diseases of the chest, throat and lungs or head, it is simply unapproachable. It is a reliable home treatment. For sale at all druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, 179 King Street West, Toronto.

Please

The Times requests the users of its Want columns to inform the paper as soon as the advertisement brings the required answer. This is especially necessary in the case of rooms to let. When the room is let call up The Times and let it know. Otherwise we will continue to send room seekers as long as your advertisement is paid for.

A man came in the other day after getting a list of rooms advertised in The Times, and said that the first three he had called on were full. It meant a tedious tramp, when it could all have been saved if the advertisers had called up The Times when the rooms were let.

Advertisers will confer a favor on us by doing this and will save themselves much trouble.

DOES YOUR HEAD

Feel As Though It Was Being Hammered?
As Though It Would Crack Open?
As Though a Million Sparks Were Flying Out of Your Eyes?
Horrible Sickness of Your Stomach?
Then You Have Sick Headache!

BURDOCK BLOOD BITTERS

will afford relief from headaches no matter whether sick, nervous, spasmodic, periodical or bilious—It cures by removing the cause.

Mr. Samuel J. Hibbard, Belleville, Ont., writes: "Last spring I was very poorly, my appetite failed me, I felt weak and nervous, had sick headaches, was tired all the time and not able to work. I saw Burdock Blood Bitters recommended for just such a case as mine and I got two bottles of it, and found it to be an excellent blood medicine. You may use my name as I think that others should know of the wonderful merits of Burdock Blood Bitters."
