LOCAL MARKET.

Thursday, Nov. 7.

Although the weather was anything but pleasant, as there was a nasty cold wind blowing and altogether it was a disagreeable morning for the farmers to attend the market, despite the weather there was a large crowd present. Sales were fairly brisk, excepting for dressed hogs, as there was more offered than at any one day in two or three years.

Grain—Oats sold quickly at $1 62 to $1 65 per cwt. Wheat sold at 95c per bushel.

Hay and Straw—Hay was again in good demand, and prices firm at $17.50 to $19 per ton. There was only one load selling at the higher figure. There will be a good demand for hay at tomorrow's market. No straw offered today.

The supply of butter was none too large for the demand, hence sales were brisk at 28c for choice crocks and 29c for pound rolls. Eggs sold at 27c for crates and basket lots.

Vegetables and Roots—Potatoes were not offered in as large supply as on Tuesday; sales were made at 80c to 90c per bag; onions, 90c per bu; cabbages, 40c to 65c per dozen; cauliflowers, 50c to $1 40 per dozen.

Fruits—Apples are dull, at 50c to 80c per bag, or $1 50 to $2 25 per barrel; pears are scarce, at 75c to $1 40 per bu; grapes dull, at 20c to 30c per basket; chestnuts, $6 per bu, a drop of 50c per bu since Tuesday.

Poultry was in good demand and prices were about the same as on Tuesday.

Dressed Hogs—It was estimated by the buyers that there were fully 300 dressed hogs offered; the opinion was expressed that prices were too high, because of the great difference in prices between live and dressed hogs, but the farmers grumbled about the drop in prices to $7 50 to $8 per cwt; nearly all sold at $7 75 per cwt at Tuesday's market $8 to $8 50 per cwt was paid.

Advertiser Correspondence

The Rational Sunday League Rebuke.

To the Editor of The Advertiser:

In your issue of Nov. 6 you print the following as an extract from the literature being circulated throughout Canada by the Rational Sunday League in their present agitation against the Lord's Day act and older Sabbath laws:

"Rev. Robert W. Patterson, at a meeting of Presbyterian clergymen said: 'If I had my way about it I would have an executioner called in to deal with all heretics and blasphemers. Burning at the stake would be too good for those who revile religion and take the Lord's name in vain. The growth of heresy is such today that nothing but measures such as this can stop it.'

"Canadians, this is what we have to fight. Are our laws and liberties to be dominated by a class under the influence of such sentiments publicly advocated?"

This is not only very cheap heroics, but something very much worse. There is no Rev. Robert W. Patterson among the ministers of the Presbyterian Church in Canada. It will take a great deal of such literature to persuade the citizens of Canada that the Rational Sunday League is rational, or that the ministers of the Presbyterian Church stand for the sentiments here imputed to them. On some questions I would scarcely presume to speak for the Presbyterian Church, but on the question here raised I have no hesitation in assuring the members of the Rational Sunday League that they are in no danger of being burned at the stake. But escaping the stake does not mean that a man can escape the consequences which naturally follow mendacity. Don't be ridiculous, gentlemen!

Faithfully yours,

JAMES ROLLINS.

JUDGMENT FOR $1,000.

Fight for "Soo" Co. Control Some Would Oust Warren

Board of Big $40,000,000 Corporation At War of Stock.

New York, Nov. 7.—The fight for the control of the Lake Superior corporation, a $40,000,000 concern, which succeeded the old Consolidated Lake Superior Company, assumed a new phase yesterday, when an injunction was obtained restraining J. Tattnal Lea, president of the First National Bank of Philadelphia, from voting 50,000 shares of stock which had been deposited as collateral for loans.

This action was taken in order to prevent the Philadelphia contingent from carrying a board meeting which had been called yesterday in Jersey City.

The fight for control of the management of the Lake Superior is between the New York and Philadelphia directors. The New York directors object to the management of the company's affairs of Charles D. Warren, of Toronto, president of the company. They are seeking to reorganize the board, it is stated, with the idea of ousting Mr. Warren.

Because of the injunction the meeting called for yesterday was adjourned until Jan. 11.

DISASTROUS EARTHQUAKE IN SPAIN

Madrid, Nov. 7.—A violent earthquake has occurred at Torre La Rebera in the Province of Huesoa. The earth opened leaving great fissures, the disturbance being accompanied by subterranean rumblings which caused a panic among the population. Many houses were shaken down, but the number of lives lost is not known.

St. Petersburg, Nov. 7.—A dispatch received here today from Samarkand, by the official telegraph agency, says that a special representative of the local paper who was sent to Karatagh, in the Hissard district of Bokhara, which was destroyed by a landslide following the earthquake of Oct. 31, reports that 3,400 persons were killed there as a result of the disaster and that only 70 escaped.

ANOTHER FOR PRODUCER GAS

Continued From Page One.

manufacturing concerns there. They are both using producer-gas engines for power, and the managers stated that the engines had been installed for more than two years, and in that time had been running continually and had given the greatest satisfaction. The engineer in charge showed me his records, and these proved that it took exactly one pound of coal per horsepower. He was using what is known as anthracite pea coal to produce the gas, and at the price of $6 a ton, the cost of a horsepower per year figured out to just about $9.

A Matter of Price.

"Personally, I am in favor of Niagara power if it can be delivered here at a price within the manufactures' reach, but the system of measuring by the peak load seems to me to be most unreasonable. Suppose, for instance, we had an exceptionally busy day or two during the month, when a larger number of machines than usual were in operation. For the rest of the month we might not be using anything like the number of machines or power, but we would be charged for the full time at the same rate as if we had been using the maximum amount all the time. It seems to me that an electrical meter would be more satisfactory in every way, as the consumer then would only have to pay for exactly what he used.

A Suggestion.

"I am satisfied that the city would reap a large revenue and reduce the tax rate materially if it were to establish an electrical plant of its own and run it by producer gas. If it were to supply power and light to everyone, it could make a handsome profit on its investment, and give the people electricity far cheaper than they are getting it now.

"As things are now, the electrical companies have a little gold mine. When we started in business our power used to cost us $85 a month. Now, with only a very slight increase in consumption, they are charging us $245. It has gone up gradually every year or two. However, we are going to go the electrical companies one better, as we are satisfied that we can generate our own power with our new producer-gas engine for $60 a month at the outside, and very likely less.

In Chatham.

"You can readily see what a profit the electrical companies are making on the power they are selling to the consumers in the city. Chatham Council has practically decided to put in a producer-gas plant to run an electric lighting plant for the city and for those citizens who wish to get lights from the city. There is no doubt that it will pay, not only the city, but the consumers, who will get their lights at a greatly-reduced rate.

To Build a Factory.

"A prominent manufacturer of steam engines in this Province told me recently that he had been investigating producer-gas engines thoroughly, and that as a result he would commence building a factory shortly to manufacture, as he was convinced that producer-gas engines are the coming thing, and will largely displace steam appliance. A well-known Galt firm which has a national reputation as the builder of steam engines is adding a producer-gas engine works to its factory.

BRONCHITIC ASTHMA A HEAVY BURDEN.

Asthma is bad enough, but when bronchial symptoms are added the poor sufferer has almost an intolerable existence. An absolute specific is found in fragrant healing Catarrhozone which cures chronic cases that other remedies won't even relieve. "For years," writes Capt. McDonald, of Montreal, "I battled with the agonies of bronchial asthma. Often I couldn't sleep for nights at a time. I spent thousands on doctors and medicines without relief, but one dollar's worth of Catarrhozone cured me." Catarrhozone can't fail; it's guaranteed. Two months treatment $1; trial 25c.

BRITISH RAILWAYMEN WILL NOT STRIKE

Lloyd-George Patches Up Peace Between Companies and Men.

London, Nov. 6.—The anticipated railroad strike throughout Great Britain has been averted by an agreement drafted by David Lloyd-George, president of the board of trade, and signed late this evening by the chairman of the principal railroad companies and representatives of the Amalgamated Society of Railway Servants.

The agreement provides for the consideration of further matters in dispute primarily by a sectional board of conciliation representing the various grades of employes and the individual railroads; in case of disagreement settlement will be reached by the board of conciliation and an equal number of men representing the full membership of the society. If the board and these representatives fail to reach a decision the matter then must be settled by arbitration.

SAVED FROM GALLOWS

Murderer Capelli's Sentence Commuted to Life Imprisonment.

Parry Sound, Nov. 6.—A telegram was received at 6 o'clock this evening directed to Sheriff Armstrong from P. Pelletier, acting under-secretary of state, stating that the Governor-General had commuted the sentence of death upon Frank Capelli, the Italian, to that of imprisonment for life.

All preparations had been made for the execution tomorrow morning. This case has been sensational on account of the various phases which it has assumed since the trial last spring. Once before the order to stay the proceedings was received on the day before that appointed for the execution.

Capelli, who up to this time has borne the strain of the situation apparently in a stolid and indifferent manner, gave way completely this evening when the sheriff announced to him the order of commutation of sentence. The unfortunate man dropped on his knees and kissed the floor of his cell.

WILL NOT MEET THIS YEAR

Proclamation Will Further Prorogue British Parliament.

London, Nov. 6.—Although a Royal proclamation was made yesterday announcing that Parliament was further prorogued from Nov. 16 to Dec. 26, there will be another proclamation issued before the latter date. Parliament is not expected to reassemble until Jan. 28.

ANARCHISTS PUNISHED

Men Who Attacked Merry Del Val Go to Prison.

Rome, Nov. 6.—Six of the anarchists who attacked Cardinal Merry del Val, Papal Secretary of State, at Marino, in August, have been sentenced to terms of imprisonment varying from four to two months, and to pay a fine of $10 each. One of the accused was acquitted.

TWO COAL BARGES SUNK

Onondaga and Black Diamond Founder on Lake Ontario.

Watertown, N. Y., Nov. 7.—Two coal barges, the Onondaga and Black Diamond, both heavily laden with coal were sunk off Stony Point light, in Lake Ontario yesterday. The boats sprung leaks in the heavy sea. They are owned by Montreal parties and are bound from Oswego to that port. The crews were rescued.

BAIL ESTREATED.

Hamilton, Nov. 6.—Eddie Smith, whose wife was yesterday found guilty on a charge of keeping a disorderly house, failed to appear before the magistrate this morning to answer to a charge of vagrancy, and his bail, amounting to $100, was estreated.

SANDBAGGED.

Hamilton, Nov. 6.—Samuel Martin, a letter carrier, reported to the police that while he was on his way home last night he was sandbagged by two highwaymen and relieved of his purse containing about $10. He lay on the street all night, it being after 5 o'clock this morning before he came to his senses. He is confined to his bed today.

GREAT CREDIT SALE

Of 30 Standard and Registered Trotters and Pacers at

Western Fair Barns, London, Nov. 14

1907, AT ONE O'CLOCK SHARP.

Owing to the increasing demands upon our time by other business interests we have finally decided to withdraw from the racing and breeding of trotters and pacers, and so offer our entire racing and breeding establishment for sale. Everything offered for sale is our own property and nothing will be reserved. Our brood mares were collected regardless of expense: Individuality, speed and breed were our guides. We believe that no such band of young brood mares, high-class youngsters and fast and game race horses were ever offered at public auction in this country. The young stock is sired by Henry Winters and Oro Wilkes and is all in good condition and able to show its quality in the ring. Catalogues on application to

GOOD MARKET FOR BEEF

Trade Agent in Japan Advises Canadians to Export.

Ottawa, Nov. 6.—Mr. A. MacLean, Canada's trade comissioner in Japan, reports to the department the arival of sixty head of fine registered pedigree cows from Canada. The cattle were imported by a leading importing firm. This firm says that a business could not be done in live cattle because of the tariff, but there ought to be a good trade in slaughtering and shipping in cold storage. Australia was doing a good business in that line.

APPLE CROP SHORTAGE

The United States Have a Scant Twenty-Four Million Barrels.

New York, Nov. 6.—The apple crop of the United States for 1907, as estimated by the American Agriculturist, in its report to appear on Nov. 19, is scant, 24,000,000 barrels, materially short of last year, or a failure more marked when compared with 1906 and 1905. Large importations from Canada will be necessary to make up the deficit.

What is of greatest importance is the shortage in such commercial orchard sections as Western New York, nearly all of Michigan, and the entire southwest. There is what may be set down as an absolute failure in Kansas, Missouri, and Nebraska.

New York State has a good many apples, but they will be needed, and, for that matter, the total is only about one-fourth to one-third of a full yield. Pennsylvania has fairly abundant totals, New England has rather more apples than last year, due solely to the fact that Maine surprised its best friends by finally bringing to maturity a good crop.

STRIKE IS PETERING OUT

Telegraph Operators May Vote to Discontinue the Fight.

Chicago, Nov. 7.—The national executive board of the Commercial Telegraphers' Union of America yesterday prepared a circular letter to all locals and unions, asking them to vote upon granting authority to the board to call off the strike, which has been on for the past three months. The letter will be sent out today, and the official order, ending the strike, will be issued as soon as two-thirds of the locals have signified their willingness to end the fight.

Portland, Oregon, Nov. 7. — The union telegraphers here last night decided to call off their strike, which has lasted 80 days.

Had Palpitation of The Heart

EVER SINCE SHE WAS NINE YEARS OLD,

MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE.

If you find your health failing, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or throbbings on the slightest excitement or exertion, pain in the region of the heart, face pale, dizzy and faint spells, these all point to heart weakness, to nerve derangement, to a state of health consequent upon these, which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopeless invalidism.

From the depths many have been raised by this remarkable remedy, as its power is beyond all question most marvellous; but, why wait until you have gone so far? Taking these pills now will turn you from the perilous path of sickness and put you on the highway to health.

Miss Mary Wilson, Toronto, Ont., writes: "It is with the greatest of pleasure that I recommend Millburn's Heart and Nerve Pills. Ever since I was nine years of age I have been afflicted with palpitation of the heart, pain in my side and nervousness. As I grew older it kept increasing. After having tried numerous doctors medicines, but to no avail, I was induced to try your pills, and after using several boxes I began to improve, so kept on taking them for some time until now I can truthfully say I am in perfect health."

Milburn's Heart and Nerve Pills are 50 cts. per box or three for $1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.
