FRUIT MARKET.

There was a fair supply of fruit and vegetables at the local market yesterday, considering the grocers' half holiday in the afternoon. Market reports were generally to the effect that trade was none too good during the morning, but there was little easing in quotations.

Peaches, domestic and imported, were present in great variety and readily sold from 60c to 75c per basket for the Canadians, while the imported fruit sold around $1.25 and $1.50. Potatoes were also on the market in large quantities and the price eased off a little in consequence. The following prices were current:

Chicago Gossip.

J. P. Bickell & Co. say at the close: Wheat—Higher; firm cables and too much moisture in same localities of spring wheat belt caused some apprehension among smaller shorts, but market remained dull and was governed entirely by local professionals. Weather next ten days will be principal factor, but nothing more than a trading affair can be expected. Cash situation improving, but only advise purchases on sharp declines and then for moderate profits.

Erickson Perkins & Co. (Beaty & Glassco) wired:

Wheat—The unexpected strength in cables and continuance of wet weather in parts of the northwest gave us an erratic and strong opening. The short interest covered freely, while the selling was on resting orders by commission houses and by a few local bears, who covered wheat on the decline yesterday. The market sold back almost as readily as it advanced, but met good buying again on the decline. We look for a scalping market without any material change in values, unless weather in the northwest should become a factor.

Corn—Market opened stronger and higher, and has ruled so all day, weather being still hot and dry in many parts of the corn belt.

Oats—Prices for oats, like corn, have ruled very steady all day, and above last night's close.

R. B. Lyman & Co. wired R. B. Holden at the close of the market:

Wheat—Market opened wild on higher cables, showing advances of ½c to 1⅜c from last night's final figures. There was a general rush to sell and the advance was soon lost. The professional bears increased their short lines heavily, claiming that all rallies will be short-lived. It looks to us a little dangerous to short this market. The decline has been too severe; there also is far too much company on the bear side. Good many of them talking 90c wheat. The bears oversold themselves again and when they tried to cover found offerings so light had to bid market up.

Corn—Opened ¼c to ⅜c higher. It must be remembered that there are many chances for corn to get badly hurt before maturity. The deferred futures are near a point now where a decline of any consequence need not be looked for.

Oats—Opened ¼c higher, held very steady. The strength in corn caused some covering by local shorts.

Provisions—Opened shade lower. Packers extended support and prices firmed.

Upward Movement Continues But Price Changes Are Small

Little Nipissing, Beaver City, Rochester and Chambers-Ferland Advance—Other Issues Are Strong.

World Office,
Wednesday Evening, Aug. 11.

Trading continued on the active side at the local Cobalt market to-day, but dulness was the only characteristic, transactions with few exceptions being made at prices unchanged from yesterday.

Little Nipissing was the most active stock in the market to-day, and sold up to 26 1-2 cents, an advance of nearly three points from yesterday's best figures. There was no news in connection with the mine which might be taken as an incentive for the movement, brokers in general intimating that the only reason for the advance is that the public have seized on the shares as possessing real merit at the prevailing low quotations. The bid price at the close was 26.

Beaver was somewhat firmer on today's market, advancing nearly two points to 35 1-2, and closing only fractionally lower. City of Cobalt continued on its steady advance, gaining five points and closing strong at 60 1-4. Rochester was more active than of late and sold up a point, but the advance was only temporary, the shares weakening when profit-taking came into the market. Chambers-Ferland was firm and with an upward tendency; the other listed issues were steady around yesterday's prices.

Messrs. H. O'Hara & Co., in a circular letter discussing the Cobalt market, say: Many are of the opinion that a broader market in Cobalts will be in evidence soon. There appear to be some mines that are being managed and run on conservative and sound lines, and these are certain to come to the fore in the long run. It is, of course, impossible to have faith in all the properties in the district, but there are, no doubt, some excellent chances for a number of them. Care should, however, be taken in selecting stocks, and the mere proposition is best left alone.

Activity in South Lorrain.

A force of men has been put on at South Lorrain to complete the government wharf and make things more convenient for the landing of the steamboats. A large amount of ore that has been shipped out of that camp so far has been done under strenuous circumstances, but with the completion of the wharf the camp will be advanced another step.

The Ox Bow Lake section is now showing a lot of activity and practically all the claims bordering on the lake are being worked. The Mitchell property, which showed native silver last week for the first time, continues to look well, as do the Haileybury Silver and others. Ox Bow bids fair to become the centre of the district.

With the addition of the new boat put on by the Haileybury Navigation Co., the service to the camp has been augmented in a way that puts it in the first rank of mining camps so far as transportation facilities are concerned.

Offer For Cobalt Merger.

A meeting of the directors of Cobalt Merger was held a few days ago to consider an offer for a portion of its properties. The matter was held over for further consideration. The offer is said to have been made by Ottawa parties, and the sum involved as about a quarter of a million.
