HAD A VERY ROUGH TIME

Schooner Kitchener in Port After Tempestuous Trip From West Indies.

The Lunenburg, N S., schooner H. H. Kitchener, Captain Haughn, arrived in port this morning from Barbadoes, with the first cargo of molasses of the season for L. G. Crosby. The Kitchener had a very boisterous trip up to this port, with high winds and heavy seas, Captain Haughn also states that he rescued the crew of the United States schooner Lizzie Chadwick (before reported) on the 3rd of March and landed them at Gloucester, Mass. The rescue was made under great difficulty, and that night, the captain states, was a terrible one, a great storm was on the Atlantic and he had rescued the crew just in time. In a short time after the rescue the great storm burst and all sail had to be taken in on board the Kitchener.

Captain Haughn stated he was very happy to have saved the crew of the Chadwick, for in a little while they would have succumbed.

THAT NEW TIME PUNCH

ST. JOHN, N. B., March 12, 1906.

Editor of The Times:—

"Observer," in your issue of the 9th inst., did not possess the courage of his convictions when he attacked me anonymously, not caring to give his name to the public. "That New Punch" at the I. C. R. sheds was not in commission when "Observer" waxed so furious at the very sight of it.

He will be in a better position to judge as to its merits on and after this date.

Question—Has "Observer" been careful always to give full time to his employers?

If any man has been in the habit of giving short delivery of time to his employers, that Dey Time Register will not ignore the fact. That "New Punch Clock" was never intended for the scrap pile, it has come to stay.

This, Mr. Editor, will end the controversy on my part, as that "New Punch" is now in operation and can plead its own case.

R. W. COWAN.

C. P. R. CHEAP RATES

On April 7th the low rate tickets now offered by the Canadian Pacific Railway to North Pacific coast points, and California, will go off sale, after which date the rates will be very much higher.

The rates now available are exceptionally low, for instance, St. John to Vancouver, Victoria, Seattle, Tacoma and Portland, also San Francisco and Los Angeles, $56.40, second class, with corresponding reductions from and to other points.

It would be to the advantage of persons contemplating this trip to bear in mind that these low rate tickets can be secured any time up till April 7th.

All information and particulars, together with descriptive pamphlets, may be had by addressing F. R. Perry, D. P. A., C. P. R., St. John, N. B.

PERSONAL INTELLIGENCE

STAR COURSE TONIGHT

Subscribers to the Star Course can still secure good seats at the box office of the York Theatre tonight. This is the last entertainment in the course.

There was quite an interested crowd of spectators in the Union depot at noon today to bid farewell to Captain Clinch and his bride (nee Miss Thomson), who left on the train for Halifax, where they will leave by steamer Tunisian for England.

A meeting of the New Brunswick Temperance Federation will be held this evening, at eight o'clock, in the Temperance Hall, Market Building, for the purpose of organizing a local branch. Delegates will be present from various parts of the province. The matter of securing legislation providing that express companies shall not carry liquor to Scott Act towns will probably come up for discussion.

The Truro hockey team will arrive in the city on the early train this evening and will play the Mohawks in the Queen's rink this evening. The Truro team has played great hockey this season and a great game is looked for. Hilton Belyea and "Happy" Evans will skate two races, the first, a half-mile, to take place before the game, and the second, a mile, to be skated during half-time.

EDUCATION THE REMEDY

To the Editor of the Times:

Sir,—Regarded literally, the Pharisee of old could not have been such a bad fellow, after all. His self-righteousness absolutely pales into insignificance before the irrational ravings of some of the "temperate" people whose sayings it has been your misfortune to reproduce during the past few weeks. Two or three Sundays ago a reverend gentleman dilated, here in St. John, upon not only the obvious evils of intemperance—this in itself was much too insipid a theme—but upon the unpardonable sin of royalty accepting the hospitality of a brewer. Now, we have a whole city turning up the whites of its eyes and thanking heaven it is not St. John, "of the unrestrained drinking habit."

Of course the "habit" is not unrestrained in St. John, but when one looks around one is forced to ask the question: Would results not be more satisfactory if no restriction were imposed? St. John and St. John west are now practically, as well as actually, one city, and the two systems of regulating the drink traffic give fair opportunity for comparison. Take the respective populations and ask yourself where one sees the greater number of drunken people in the streets in proportion to the number of adult residents. Any observant person will at once admit that the West Side is well ahead with the doubtful distinction. But this is no new theory. The various parts of the British Isles show the same thing—wherever there is Sunday closing of liquor saloons there may be seen the greater Sunday drinking. If a man really wants a drink he will get it, one way or another, and all the restrictive legislation which temperance reformers can invent will not prevent him.

Yet there never was an evil without a remedy, and I would respectfully commend to the consideration of your readers the proposition that the solution lies in the spread of education. That the province of New Brunswick is behind in this matter cannot be gainsaid. I read the other day that Inspector Carter, observing that the educational laws of the province were forty years old, asked to be shown the men under forty years of age who could not read or write. I could take the inspector to a village in Restigouche county where not ten per cent. of the men under forty can either read or write—men, too, of exceptional natural intelligence. What have these men to live for? When their work is done they have nothing to occupy their minds. The book and the journal are an unknown world to them. They take a partisan interest in politics, but of the principles which are supposed to govern those parties they are entirely ignorant. The minds are stunted because those who should be their teachers have not recognized their duty. And so they drink, for the sake of companionship at first, because the bar-room is the only place they hear any conversation at all. The habit grows as all evil habits grow, and possibly they become fathers of children, born with the taint of alcohol in their very systems, rendering them easier victims to the insinuating influence of liquor.

Drunkenness, I would advance, is another form of gluttony; and seldom, if ever, do we hear of an intellectual man who goes to excess either in eating or drinking. Education means refinement, and refinement means a wholesome loathing of all that is not good.

Therefore, sir, let us hear less vituperation against the drink and those who traffic in it, least of all from men whose sacred office it is to raise rather than abuse their fellowman. Some of these, apparently, should be the first objects of our solicitude.

Yours truly,

D.

BAPTIST MINISTERS

The United Baptist Ministers' Conference met this morning in weekly session. The president, Dr. Manning, took the chair. Devotional services were conducted by Rev. D. Long. Usual reports were heard from the churches.

Rev. D. Long reported having received sixteen into the church during the past month.

In the absence of Rev. P. J. Stackhouse, Bro. Prosser reported four baptisms at Tabernacle church.

Rev. D. Long reported the meetings of No. 6 district, held at Millstream, Kings county. Rev. F. W. Ferguson reported special services at Charlotte street church, west end.

"The Attitude of the Christian Endeavor Society Towards the Church" was the subject of animated discussion.

The Rev. A. A. Chipman closed the meeting with prayer.

THE WORLD IN MOTION

Tonight, at the Opera House, Stock's Wonderful Moving Picture and Concert Company make their first appearance. The company is one of the best and comes direct from Chicago and the west. Mr. Stock is a master in his art and will, during his stay in St. John, show some of the latest and best scenes from all parts of the world. As well as moving pictures there will be a programme of high class vaudeville, in which Miss Grace Gilmore Hamilton, dramatic reader, and Miss Amy Allynn, soprano soloist, will take part Seats can be had at the Opera House.

ANOTHER POSITION

The St. John branch of The Toronto Gas and Gasoline Engine Co., Ltd., was supplied with a stenographer from the Employment Bureau of the Curric Business University, Ltd. A stenographer from this new department commands a higher salary than the ordinary student, owing to the experience obtained through handling all classes of work for the public.

C. M. Leger, M. P. P., passed through from Fredericton Saturday en route to College Bridge.

LIFE INSURANCE COMMISSION

(Journal of Commerce)

The scope of the commissioners appointed to investigate the methods and conditions of the life insurance companies doing business in Canada will cover chiefly their investments and relations with other enterprises, the expenses of management and allied features This inquiry is to be extended also, as fas as deemed necessary, to companies not chartered in Canada. Authority is given to employ expert assistance, to summon before them witnesses and require them to give evidence, on oath, orally or in writing, or on solemn affirmation, if they are persons entitled to affirm in civil matters, and to produce such documents and things as such commissioners deem requisite to the full investigation of matters hereinbefore referred to, and generally to exercise all the powers conferred.

It is not believed that the commissioners, while proceeding with less desire to be hypercritical, will altogether ignore the lessons obtained from New York, to which Canada is chiefly indebted for the present movement.

It is to be hoped that due consideration will be had for some matters which do not concern the public, but which every company wishes to keep to itself. Insurance managers and directors will probably al be frank enough. They all have long since learned the wisdom of the lines in Burns' "Advice to a young friend"—

"Aye free, aff-hand, your story tell
When with a bosom crony,
But still keep something to yourself
Ye scarcely tell to onie."

There should be some inquiry into the official practice of writing editorial reviews of companies' annual statements for certain publications. This editing of newspapers is doubtless well-meant, but it is apt to lead to abuses. Such editorials are not the independent opinions of the editor, but of the company itself, and everyone knows what that may be.
