MARKET REVIEW AND FORECAST

Toronto, Monday, June 30.—A spring very favorable to seeding and since then very unfavorable to growth, has now been succeeded by general rains and warm, growing weather. Crop conditions have decidedly improved, although hay is bound to be short and below the average. Reports from Western Canada are conflicting, but a bumper crop of wheat is generally expected. Reports such as these are good for business, and wholesale trade has been "looking up" this past week.

Markets have been rather dull and there is little to report in the line of price changes for the week. In live stock all changes are declines.

WHEAT

Foreign buyers are very slow in their demands for wheat at present prices. They are looking for bumper crops of wheat in various parts of the world, and are now buying only for present needs. Weather reports also have been most favorable, and prices have declined a trifle. There is a good local demand for Ontario wheat. No. 1 Northern, $1.02½; No. 2, $1.00½; No. 3, 97c; feed wheat, 65c; Ontario wheat, 97c to 98c and down to 90c for poorer grades.

COARSE GRAINS

Oats are the best sellers now-a-days. Ontario grains are very tight. Corn is up with little selling. Quotations are as follows: Oats, C.W. No. 2, 39c to 40c; No. 3, 37c to 38c; Ontario No. 2, 35c to 36c outside; 37c to 38c on track; corn, 65½c to 65½c; peas, 90c to 95c; buckwheat, 52c to 53c; barley, malting, 52c to 55c; rye, 60c to 62c. Montreal quotations are: Oats, C.W. No. 2, 41½c to 42c; No. 3, 40c to 40½c; barley, malting, 62c to 65c; feed, 50c to 51c; buckwheat, 58c to 60c.

MILL FEEDS

Mill feeds here are firm. At Montreal decidedly stronger. Bran, $18 to $19; shorts, $20; middlings, $21 to $23. At Montreal bran is $18; shorts, $19 and middlings, $22.

HAY AND STRAW

Demand for hay is keener, but so far prices have not increased. Loads of hay delivered on the market is up a couple of dollars. Quotations are: No. 1 baled hay, $18 to $19; No. 2, $16 to $17; No. 3, $7 to $8; baled straw, $8 to $8.50. Receipts at Montreal are fairly heavy: No. 2, $12.50 to $13; No. 2, $11.50 to $12; No. 3, $9 to $9.50.

FRUIT AND VEGETABLES

Wholesale houses are quoting as follows: Strawberries, 15c to 16c; cherries, 11-qt. basket, $1.25 to $1.50; six-qt. basket, 50c to 75c; gooseberries, 11-qt. basket, $1.50; peas, 11-qt. basket, $1; asparagus, dozen, $1.

HIDES AND WOOL

Wholesale dealers are quoting as follows: Hides, cured, 15c; green, 12c; horse hides, No. 1, $3.75 to $4; horse hair, 35c; calf skins, 16c; sheep skins, $1.50 to $1.65; lamb skins, 35c to 50c.

Coarse unwashed wool is quoted at 16c; fine, 18c; coarse washed, 24c; fine, 26c.

POTATOES AND BEANS

Ontario potatoes are more plentiful. Seeding is completed and the surplus is coming to market. Consequently, prices are on the decline. Ontario potatoes bring 75c to 85c; New Brunswick's, $1.10 to $1.20; new potatoes from Virginia, $3.25 a barrel. Prime beans here sell at $1.75 to $2; hand picked, $2.35 to $2.40.

HONEY

Quotations are as follows: Strained clover honey, 12½c to 13c lb. in 60-lb. tins; 12½c in 10-lb. tins; 13c in five-pound tins; buckwheat, 9c in tins, 8c in bbls.; comb honey, $2.40 to $2.60.

EGGS AND POULTRY

The egg market is quiet. What surplus there is is going into storage, but the surplus is not great. Wholesalers quote new laid eggs at 21c to 22c. The retail price is 25c to 28c. Montreal dealers are paying 23c with rots off.

Wholesale quotations on poultry are: Fresh killed chickens, 19c to 21c; fowl, 16c to 18c; live chickens, 15c to 16c; fowl, 14c to 15c; turkeys, 20c to 23c; spring chickens, 35c.

DAIRY PRODUCE

So seriously has the demand for milk and cream for city consumption cut into factory supplies that a great demand has not been accompanied by increased production. Consequently quotations are holding firm. Wholesalers quote as follows: Creamery prints, 26c to 28c; solids, 25c to 27c; dairy prints, 23c to 24c and inferior 18c to 19c. Montreal prices are quoted at 14c to 14½c, and large new at 13½c to 14c; old twins, 15c to 15½c; large, 15c.

HORSES

At the Union Horse Exchange demand is only fair. Medium priced and heavy horses go best. Heavy draft, $200 to $260; waggon horses, $150 to $220; general purpose, $155 to $225; drivers, $140 to $200; serviceably sound, $40 to $75.

LIVE STOCK

Canadians are not heavy meat eaters in warm weather. Add to this large receipts in the early part of the week and we have an explanation of why prices are not as high now as they were then. Light receipts in the latter days of the week helped to clean up the market, but no advances in price were recorded. Choice heavy export cattle were down about 20c from $6.25 to $7; choice butchers' cattle suffered a similar drop to $6.50 to $6.90; common to good, $5.25 to $6.50. Cows are quoted as follows: Choice, $5.50 to $6; good, $5 to $5.50; common to medium, $3 to $4. Bulls, $3 to $6; feeders, $3.50 to $6.35; stockers, $3.50 to $6.10; canners and cutters, $2.25 to $3.

Choice milch cows are steady at $50 to $66; common to medium, $35 to $55; springers, $50 to $65. Calves are $5 to $9.50.

Mutton too has suffered a decline with warm weather and liberal receipts. Spring lambs are now $9.50 each; yearlings, $7.50 to $8.50 a cwt.; ewes, $4 to $5.75; culls, $3 to $4.

Hogs too are down. The $10 mark was too good to stand. Packers are now quoting $9.15 to $9.25 fob. country points; heavy, $8.65 and sows, $7.90.

MONTREAL HOG MARKET

Montreal, Saturday, June 28.—In sympathy with the weaker feeling in the Toronto market this week, there was a decline in prices here for live hogs, selected lots, weighed off cars, selling at 10c to 25c a cwt. lower than at the beginning of the week. A further decline is expected next week. At the above reduction there was a good demand from packers and sales of selected lots were made at $10.25 to $10.50 a cwt., weighed off cars. There was no actual change in the prices for dressed hogs, owing to the fact that packers did not follow the advance in line a week ago. The demand for small lots of abattoir fresh-killed is fair at $14.25 to $14.50.

EXPORT CHEESE TRADE

Montreal, Saturday, June 28.—The market for cheese this week has remained steady, with prices firmly maintained at the level reached last week. The bulk of the cheese this week sold at around 12½c, and by the last week, all colored cheese selling at a premium, as high as 13c a pound having been paid for this class of goods. Everything offered at Picton sold at this price. This premium on colored was generally expected. During the past few weeks, the factories have been making white to a large extent, and it is now realized that colored cheese are scarce and buyers generally are making special efforts to get possession of them. The receipts continue to show a falling off as compared with last year, running about 10,000 boxes a week just now. Whether or not this will be maintained remains to be seen; but, if the shortage is kept up throughout the remainder of the season, even higher prices may prevail than those current to-day. The course of prices depends entirely upon the size of the make.

The market for butter is slowly and steadily advancing under increased demand, and finest Eastern Townships are quoted at 29½c to 30½c, with other sections at 28½c. There is a larger mass of butter this year as compared with last, and the increased receipts have had a damping influence on the market, traders fearing to buy the Junes for cold storage purposes; but, during the last day or two there have been more speculative trading and the advance in prices has been the result.

CHEESE MARKETS

Listowel, June 27.—Cheese offered, 1,830 colored and 1,063 white. Bidding on the board went up to 12½c, and the rest remained unsold.

Ottawa, June 27.—76 white and 573 colored cheese boarded and sold at 12 13-16c.

Cornwall, June 27.—580 white and 1,643 colored. One lot of 70 white and 80 colored sold at 12c. The balance of white sold at 12½c, and the colored at 12¾c.

Montreal, June 27.—The Cooperative Society of Cheese Makers sold 1,439 boxes No. 1 white cheese, 12½c; 1,052 No. 2, 12½c; 308 No. 3, 12½c; 174 boxes No. 1 colored, 12¾c; 367 No. 2, 12¾c; 237 No. 3, 12 5-16c. Butter, 442 boxes No. 1, 29c; 409 No. 2, 28½c; 170 pasteurized, 26½c.

SULLIVAN'S PERCHERON IMPORTATION

Editor, Farm and Dairy,—I have just returned from a trip among the Percheron breeders of Illinois and Iowa in quest of some good Percheron mares. I have succeeded in landing a carload of good ones; all those mares are sound and are regular breeders and good workers; in fact I bought most of them in the harness. There are none better bred to be found in any country than some I have in this lot.

Ruth King is a black mare, with star and white feet, will weigh close to a ton in condition; she is a direct decendant of that great horse King of Perche that was imported and owned by Ellwoods many years ago. One of her colts, Castalar King, I sold at Bracebridge this spring for a long price. Another, Castille, is black, eight years old, weighs a ton now, by Castalar. She is the dam of Mar-
