"The Secrets of the German War Office"

By Dr. Armgaard Karl Graves, (Secret Agent)

Note: The author was for twelve years a successful spy in the Kaiser's service. With characteristic ruthlessness he exposes the details of secret missions that have had a startling influence upon the present war. He also reveals for the first time the intricate and sensational operations of the great German spy system.

"IT IS ALL IN THE WAY YOU BREATHE"

Buffalo Doctor Tells Militia Department This in His Offer to Teach Flying.

Letters strange and fantastic are received every day in the Militia Department, which it seems is being bombarded by all the cranks in creation. Undoubtedly the gem of these efforts is a missive from one "Samuel Genner, M.D." of Buffalo, who proposes to come to the aid of the British by supernatural means.

He promises to take about five or ten thousand men and "by means of levitation and cohesion" make them "pass through the air" as "birds". The secret formula by which this transformation takes place is securely locked in his bosom but will be revealed for a consideration. The modest gait of 50 miles a minute for "birds" carrying fifty pounds of luggage is assured. "This should make the German army pause and wonder" is the naive comment of the doctor in this phase.

Through his "affiliation with the White Brotherhood of India," the doctor guarantees five or ten thousand men with the necessary qualifications as "birds." "It is all in the way you breathe," he confesses.

If the Militia Department considers his proposition seriously, "Doctor Genner" says he will come to Ottawa and train men for the overseas service. The spectacle of four or five thousand men twittering about from tree to tree, and building nests in the branches where they may hide their ammunition may then be afforded.

What type of bird the soldiers will be made into is not stated. Whether they will be sparrows, robins, cranes or buzzards rests with the doctor.

Once transformed into birds the Canadian army can perform prodigies of valor with their invisible means of offence, for Dr. Genner claims to be able to make them invisible, too, and would no doubt, as the doctor states, create consternation and wonderment among the enemy and others.

GIRLS! MOISTEN A CLOTH AND DRAW IT THROUGH HAIR

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhiliarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best 25 cents you ever spent.

Edward Green, of Atlantic City, accused of desertion, says his wife's kin crowded him out of a place to sleep.

Women's Institute

MOYLE-TRANQUILITY.

An exceptionally pleasant and profitable afternoon was spent at the home of Mrs. J.P. Gregory, St.George Road on October 13th, when the members of the Women's Institute met for their regular monthly meeting. The meeting opened by singing "the Maple Leaf" and repeating motto. Mrs. E. D. Clump, secretary-treasurer, read a letter from the Red Cross in Toronto acknowledging the barrel of jam and jellies.

The program was then proceeded with. Dr. Lovett, of Paris, gave a very instructive address on "Medical Inspection of Rural Schools." Rev. Mr. Adamson, also of Paris, spoke in the interests of Red Cross and urged all to do their utmost to help on this noble work. He pointed out very clearly that the great need at the present time was money for the purchasing of hospital supplies in drugs, etc.

At the close of this stirring appeal the Institute voted one hundred dollars to be paid into the British Red Cross fund. Seventy-five dollars of this taken from money in the treasury and twenty-five of a voluntary offering of the members present.

The music furnished was of a very high order. Miss Dora Arnold gave a beautifully rendered piano solo and Miss Heath, a vocal solo, which was much appreciated by all.

Two delightful numbers on the program were given by little Misses Alberta and Grace Williams of Echo Place. Dressed in quaint Irish costumes they sang an Irish song and gave a very pretty and skilful exhibition of an Irish dance, accompanied by Miss Whitney on the piano. These two young artists also gave an instrumental duet and were heartily applauded.

Miss Carr, of Paris, gave a very amusing reading on Woman's Rights.

After the singing of "God Save the King," dainty refreshments were served by the hostess.

Mrs. G. T. Wood was appointed delegate to the convention in Toronto in November.

The November meeting will be held at the home of Mrs. N.W.Clump, Brookside.

A Dead Soldier's Noble Message

One of the most pathetic, yet significant letters yet published from the Dardanelles was that of Sergt. Richard Spence, of the 8th Manchesters, which was found on his dead body after a battle on the Gallipoli peninsula:

"The Trenches, Sedel Bahr –I sit here in the reserve trenches; we landed on Turkish soil yesterday. All around is beautiful country, flowers of all colors smiling in the rays of the sun. The birds sing gaily, and yet to my front are men, men of whose community I belong, fighting like demons, hacking, hewing and blowing each other to eternity. Yet the flowers and the birds live on, heedless of the death strugles than exists between the nations. Such is the ambitions of the human race, the stronger chokes the weaker; and such it will be until the end of the world.

To-day may be my last, but what matter to that: I am sacrificing my all for my country.

"If I fall, well, it will be my fate. Grieve not for me, for what is better than the ever-peaceful sleep. Away from all battles my soul shall rest in the blue heavens above. There I shall see my beloved sisters and brothers, who I know wait for me with outstretched arms. Rather praise the Lord for His mercy in accepting me in his arms. I am ready to face the foe free from fear or conscience. My one wish is that you do not grieve, otherwise you will disturb my spirit, and I will await your coming in the heaven of rest, where nought can separate us."

Cutting off horses tails has again occurred at Darlaston, Staffordshire, following a postcard which "G. H. Darby" sent out saying that he would resume operations. These are the first cases of the kind in Staffordshire for over twelve months. For over twelve years the authorship of a long series of these maiming outrages in the Black Country has remained a mystery. "G. H. Darby, Captain of the Wyrley gang," is the unknown writer of many letters and postcards which generally accompany the outrages.

Industrial Canada

(Continued from Page 10.)

totally inefficient and are a danger to those they work in proximity with, and are not qualified under the regulations of the Provincial Mining Act. This is the only district in the British Empire where Asiatics are allowed to labor underground.

Engineers and firemen on the Grand Trunk Railway System, as a result of long-drawn-out negotiations extending over several months, have received an increase in wages for special work, as well as material concessions in regard to rules and working conditions.

Directors of the United Farmers of Alberta, which met in session at Calgary on October 1st, estimate the wheat yield throughout the province to have been not less than between 30 and 35 bushels to the acre, a record that they claim will not be equalled anywhere else on the continent.

It is reported that nearly every member of the 25th Elgin Regiment band of St Thomas has offered his services to the 70th Battalion for overseas service. This is a strictly union band, every member being affiliated with the local union of the American Federation of Musicians.

The Brotherhood of Bookbinders in Winnipeg report that things are looking up considerably, and that a large number of men and women are getting into line. Prospects for the future are declared to be encourag-

THE JOY OF BEING ALIVE AND WELL

Restored To Health By "Fruit-a-tives" The Famous Fruit Medicine

MDE. ROCHON

Rochon, P.Q. March 2nd, 1915.

"I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from *Rheumatism* and change of life, and I took every remedy obtainable, without any good results. I heard of 'Fruit-a-tives' and gave it a trial and it was the *only medicine that really did me good*. Now I am entirely well; the Rheumatism has disappeared and the terrible pains in my body are all gone. I am exceedingly *grateful to 'Fruit-a-tives'* for such relief, and I hope that others who suffer from such distressing diseases will try 'Fruit-a-tives' and get well".

MADAME ISAIE ROCHON.

The marvellous work that 'Fruit-a-tives' is doing, in overcoming disease and healing the sick, is winning the admiration of thousands and thousands.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Six were initiated at the last regular meeting.

The Flexible Metal Hose Company has been incorporated in Ottawa, capitalized at two hundred thousand dollars, the Excel Chemical Company at Montreal, one million dollars, and the Lambert Chemical Company in the same city, for a quarter million of dollars.

The machinists and machinists helpers, of Amherst, N.S., employed in the Canada Car and Foundry Company's plant, as a result of union agitation, secured an increase in wages of five cents per hour in August. The firm is working on a big order of steel box cars for the Intercolonial Railway.

It is probable that the Winnipeg Typographical Union will appoint a delegation to wait on the school board to endeavor to have text books produced in Manitoba in place of being brought in from the outside. A committee has been appointed to look into the matter. It is felt such a move would help to make things better in the city for the local typos.

Letters patent have been granted to the Electro-Zinc Co., Ltd., with headquarters at Sherbrooke, Que., and a capitalization of $24,000. The incorporators comprise Leland D. Adams of Oakland, California, mining engineer, and Charles H. Maxey of Rutherford, N.J., mining operator. The company will operate mines, smelters and refineries.

Organizer Robert Lyons of the Hotel and Restaurant Employes has been meeting with good success in his work in Edmanton, Alta. On August 13th, local union No. 55 initiated 16 new members, and two evenings later put through 17 more, and five on the 20th, with ten affiliations. During the same period four cafes were unionized and the use of the Union shop card granted them.

Manager Doolittle of the St Thomas Dehydration Company has announced that the firm has received a gigantic order for soups from the British War Office. The order is practically unlimited, to cover a period of eight months, and the company is now buying up all the soup ingredients, such as peas, celery, etc., that are suitable for use. New machinery will be installed to complete the order and a number of new hands will be employed upon the work.

Another large pulp and paper mill is to be built in Temiskaming. The location of the proposed mill is thirty miles west of Cochrane, and the company involved, it is said, controls the timber rights of 25 townships. Three miles of railways only are necessary to connect it with the Transcontinental line. It is estimated that two million dollars will be expended in the construction of the new mill, which will be one of the finest to be found in either Canada or the United States.

Mr. James Spelman, president of the John S. Metcalfe Company, Limited, of Montreal, has been visiting Buenos Aires in connection with the proposal of that company for the construction of an extensive system of grain elevators, according to the review of River Plate. It is understood that the project provides for three terminal elevators besides a large number of district elevators which will be built at points indicated by the Argentine Government. It is probable that armored cement will be used for the construction.
