SHIPPING OUTLOOK IMPROVES; PARLEYS REOPENED TUESDAY

Little Trouble Experienced in New York As Yet—Printers' Efforts For 44-Hour Week Brings Out 4,500 Men—Reports Show Minor Strikes Still Being Called.

WASHINGTON, D. C., May 3.—Reopening of negotiations between the United States Shipping Board and marine workers in an effort to settle the wage dispute, which threatens a tie-up of United States shipping, was indicated as probable today by Chairman Benson, who announced that a conference of all the parties to the controversy might be held here tomorrow.

Negotiations to draft an amendment covering wages and working conditions came to an abrupt end last Friday with the refusal of the men to accept a 15 per cent wage cut, later made effective by the board. The men carried their case to President Harding, who turned the matter over to Secretaries Davis and Hoover. The latter since have held conferences with union leaders in an attempt to bring about an agreement by conciliation.

Situation Hopeful.

Since yesterday, Chairman Benson said, the whole problem has been directly in the hands of Secretary Davis. He added that the situation looked very hopeful.

Reports to the shipping board today from all districts, officials said, indicated that as far as ship movement was concerned, the situation was generally satisfactory.

In New York, however, officials said, some difficulty was being experienced, as strikers were picketting the board's recruiting offices, and in Baltimore the situation seemed rather unsatisfactory.

WANT TO CANCEL AGREEMENT.

HAMILTON, May 3.—The clothing manufacturers of Hamilton have served thirty days' notice on employes that they desire to cancel the agreement entered into a few months ago when the wages of male employes were cut $4 a week and women laborers $3.50 a week. The employes believe the employers are seeking a further reduction. The union will meet next week to consider the matter.

PLUMBERS BACK AT WORK.

MONCTON, N. B., May 3.—The local union plumbers who quit work on Monday are at work again today, having reached a satisfactory agreement with the master plumbers. The journeymen plumbers, it is understood, will receive 85c an hour, which is the same as last year's schedule. The local union painters and decorators, also the union tinsmiths who quit work on Monday, are still on strike.

TWENTY PER CENT CUT.

NEW YORK, N. Y., May 3.—Wage rates of day laborers at the manufacturing plants of the United States Steel Corporation will be cut about 20 per cent May 16, Elbert H. Gary, head of the corporation, announced late today. Other rates, including salaries, will be adjusted equitably, added Mr. Gary's statement, issued after a two days' conference here with executive heads of various subsidiary companies.

4,500 PRINTERS OUT.

INDIANAPOLIS, Ind., May 3.—Optimism over the progress of strikes to enforce the demands for the forty-four hour week in job and book printing offices throughout the country was expressed by International Typographic Union officials here today, following their compilation of reports from subordinate unions.

"We have reports that 240 subordinate unions are signed, all on the forty-four hour working week basis," said J. W. Hays, secretary-treasurer. "Those signed include one-half of our members who work in the book and job printing branch of the printing industry."

Strike reports received from 125 local unions show that 4,500 men are out, Mr. Hays said. Many reports are yet to be received, he said. The whole number affected by the strike will be a few less than ten thousand, he predicted. He also estimated that the number of men idle was less than two-thirds of the number of men that union officials expected would be out on strike to enforce their demands for the shorter work week.

FIRST CONVENTION OF G. A. U. V. OPENED IN WINNIPEG TUESDAY

Delegates Represent 72,000 Veterans—Major W. J. Morrison Presiding Officer.

WINNIPEG, May 3.—Amalgamation of all soldiers' organizations with a view to complete re-establishment of all ex-service men and women and dependents of all who made the supreme sacrifice was recommended at the first annual convention of the Grand Army of United Veterans today, representing approximately 70,000 members in Canada and 20,000 in the United States. The convention appointed a committee to submit further details as to the best method to bring amalgamation about.

Major W. J. Morrison, Dominion president, in his report, declared that the lack of proper re-establishment for veterans was reflected in the unemployment among returned men that now exists. He charged that governments, both provincial and federal, had done little in the way of endeavoring to relieve the unemployment situation, and the result had been that soldiers' organizations had assumed the responsibility.

Must Be Political.

Referring to the necessity of unanimity among soldier organizations, he declared that the union must be a politcal one, for whoch organizations as were not in favor of political action must see by now how fruitless their efforts have been. Resolutions dealing with amendments to the pending regulations, appointment of a re-establishment committee in each military district to grant loans to ex-soldiers, interest free, for two years, to enable them to re-establish themselves and concerning forfeitures under the soldiers' settlement act were unanimously passed.

WINNIPEG, May 3.—(By Canadian Press).—Rerpresenting approximately 70,000 veterans in Canada and 2,000 in the United States, the first annual convention of the Grand Army of United Veterans opened here today for a three days' session.

In opening the convention Major W. J. Morrison, Dominion president and chairman of the convention, said a great deal of work was slated for consideration, and asked that expediency be the watchword. He referred to the fact that the association was one year and one week old today. It was still an infant, though a strong one, he said, and was making its weight felt in the ranks of returned soldiers in every part of Canada.

Most of the morning was taken up with registration of delegates, presentation of credentials and appointment of commissions.

BACKACHE OF WOMEN

The back is often called the mainspring of a woman's life. What can she do, where can she go, so long as that deadly backache saps every particle of her strength and ambition? She cannot walk, she cannot stand, her housework is a burden, or the long hours behind the counter, in the office or factory are crushing. She is miserable. The cause is many times some derangement of her system, and backache is a common symptom. Lydia E. Pinkham's Vegetable Compound is a reliable remedy for backache, as for more than forty years it has been relieving women of America from the ailments which often cause it.

DR. N. B. EMORY, of Hamilton,

Has come to London to join the staff of the Brown Optical Company. Dr. Emory has had many years experience in Toronto and Hamilton, and is a graduate of the Canadian Opthalmic College, Toronto, and the Northern Illinois College of Opthalmology and Otology, Chicago.

The Brown Optical Company are to be congratulated on securing the services of such an energetic specialist.

CHINESE FIGHT PHILIPPINE LAW

To Start Court Battle Over Act Compelling Them to Keep Books in Other Languages.

Manila, May 3.—Chinese merchants of the Philippine Islands have decided to test through the courts here the constitutionality of the law passed by the recent session of the Legislature, requiring all merchants to keep their books in English, Spanish or one of the dialects of the Philippine Islands. Failing in this course, it was announced through the Chinese consul-general, Kow Hsien Chow, that a protest would be made to the United States Congress.

Mr. Kow, in a statement, said he had received advices from Chinese merchants all over the islands, as well as Manila, telling of their probable departure from the Philippines unless some way can be found to prevent the enforcement of the law.

Treaty Violations Alleged.

Consul-General Kow pointed out that the bookkeeping law violates treaties between countries, including those between the United States and China. He said the constitution of the United States and the various treaties, including the treaty with China, accord to foreigners who desire to reside in the United States and do business there, exactly the same treatment as the citizens of the United States would themselves receive, and the only power that can pass a law that would interfere with the rights of aliens who desire to enter the United States and do business there would be the United States Congress.

In a letter to the governor-general, Francis Burton Harrison, before he signed the bill, Mr. Kow said:

"One objectionable feature of the proposed law, which has already aroused the local Chinese sentiment, is the fact that it attempts no distinction between the larger Chinese commercial concerns and the small shop-keepers, who are by far in the majority and would be the most generally affected. This latter class constitutes today the principal mercantile population of the Philippines and has so predominated for several centuries.

"There has never been a requirement in the Philippines up to this time which so deliberately strikes at their business and property, making it necessary for them to consider leaving the country for their homeland or neighboring Oriental countries, where no such restrictive regulation exists.

RESEARCH COUNCIL ACT GIVEN THIRD READING

Special Opportunities For Students With Aptitude For Research Work.

OTTAWA, May 3.—After about an hour's discussion, the bill to amend the research council act passed through committee stage in the House this afternoon and was given third reading. When last before the House consideration of the bill in committee occupied a whole afternoon, and the committee merely reported progress.

Sir George Foster explained some of the benefits that would accrue through the work of the institute. Standardization in matters of quality, process of manufacture and patterns were among the benefits cited.

F. Rinfret (St. James) understood that with the establishment of the research institute the work now being done in the provinces would be discontinued. He hoped that scientists who had shown themselves qualified would be given a chance on the research council.

Sir George Foster said that no grants were at present being made by the Government to the provinces. If in the course of his university work a student were found to show a special aptitude for research, the advisory council might recommend him for a studentship, thus enabling him to continue along his own work.

To an objection by P. R. McGibbon (Muskoka) that the Government, as laymen, would not be qualified to decide what research should be carried out, Sir George Foster said that the advisory council would give scientific advice, but naturally the Government must be the final head. The Government would use the best means at its disposal to make sure that the fifteen men constituting the council would be the best scientists obtainable.

RURAL YOUTHS FINED FOR THEIR ESCAPADES

Pay $4 Each and Costs for Pranks in Yarmouth Township.

ST. THOMAS, May 3. — The half dozen youths who had startled the quiet neighborhoods in the north part of Yarmouth during the past couple of weeks with some daring and dangerous escapades, were before the magistrate today, when four of them were fined $4 and costs, and the remainder were given in charge of Mrs. E. H. Caughill, secretary of the Children's Shelter. A prominent farmer called on the magistrate today and offered a settlement rather than have the offences go on record against the lads. A refusal was given the yeoman, and a warning given the youths that if any such pranks were played again on the highway it would mean a stay in the county bastile.

Wireless Station Reopened.

The wireless station and buildings near Port Burwell are again in commission, the Government having changed the location some months ago and made all modern improvements in the entire apparatus.

Mrs. Wilson Blue, wife of Wilson Blue, formerly of St. Thomas, and son of Archibald Blue, a former editor of the Journal, died in Winnipeg yesterday. Mr. Blue is connected with the Manitoba Free Press.

WOODSTOCK CHEESE MARKET.

WOODSTOCK, May 3.—At the opening meeting of the Woodstock Cheese Board held this afternon four factories boarded 298 boxes of colored cheese on the board, the bidding started at 20 cents, and on second call reached 21½ cents, with no sales on the board. Previous to the sale of cheese the board elected its officers for the 1921 season as follows: President, Peter Hughes; vice-president, George Cowan; secretary-treasurer, Percy Johnston; sales manager, Peter Hughes; auditor, J. B. Muir. It was decided to meet every two weeks during May. The buyers present today were Messrs. Muir, Ballantyne, Booth, Griffin and J. Johnston.

LOCAL CENSORSHIP OF MOVIES WANTED BY MOTHERS' CLUBS

Would Help Managers of Theatres To Select Their Films.

EXCLUDE OTHER PICTURES

Council Asked To Pass Bylaw Constituting Board With Power.

ST. THOMAS, May 3.—The Mothers' Club of the city and sister organizations appealed to the council tonight that a local board of censors be appointed, to consist of at least four women who will give their services without fees, to meet the managers of the local moving picture shows, or their assistants, when they select their films; that the films may not be shown without the approval of the board, and that the authority be given the board to stop films being shown without its permission.

The ladies say that it is not the aims of the censors to curtail anyone's amusement, or hurt any person's means of livelihood, but simply to make sure that the pictures are morally clean and free from criminality, in order that the children and young people who frequent the shows may not learn evil.

The petition is signed by the presiding officers of Central Chapter, 57, O. E. S.; St. John's Ladies' Aid; Sister of Unity Lodge, 509; Queen Alexandra Division, 362, B. of L. E.; Bethany Shrine; Grace Church Ladies' Aid; Y. M. C. A. Ladies' Auxiliary; Maple Leaf Chapter, No. 3, O. E. S.; Charity Helpmate Lodge, No. 37; Centre Street Baptist Church Ladies' Aid; Central Methodist Ladies' Aid; Ladies' Aid, First Methodist Church; Knox Church Ladies' Aid; Women's Christian Temperance Union.

No immediate action was taken by the council.

Refused Lower Price.

The farmers supplying milk to the condenser at Springfield have refused to accept the reduction in the price of their dairy product and are taking their cans to the cheese factory. The figure was lowered to forty cents.

General Superintendent J. L. McKee of the M. C. R., and his private secretary, Mr. De Forest, are in the city on business.

To Work the Elephant.

The white will be removed from the sacred elephant standing for some years at the corner of Amelia street, which the ratepayers claim as being a costly experiment in the ebb and flow of the municipal water supply. As the tank has failed to use itself, a line of wires will be stretched to the waterworks and the pump connected with the big reservoir.

Decide in a Day or So.

The police commissioners will give a decisions in the complaint recently heard and preferred by L. S. Ingram, London, against Constable Samuel McKeown, a member of the local staff.

The Horticultural Society has given Pinafore Park forty varieties of gladioli plants, and in a few days another fifty.

M. D.'s Taking a Day Off.

The local medical men are taking a half-day off on Wednesday afternoons during the months of May, June, July, August and September.

Dr. F. E. Bennett has been elected regional vice-president of the American Iris Society at a meeting at Madison Square Garden, New York.

Joe Montgomery Hurt.

Joe Montgomery, residing at the corner of Redan and Balaclava streets, was struck by an Overland car on Talbot street east tonight as Montgomery met the auto at the corner of Inkerman. Montgomery was knocked off and was badly bruised and shocked. He was removed to his home and a physician summoned.

COMMITTEE TO BE NAMED.

OTTAWA, May 3.—Second reading was given in the House this afternoon in the copyright bill with the understanding that the bill will be referred to a special committee to be named later.

What Would Have Happened If You Couldn't Have Secured a Nurse?

You know what it is after days of sickness in the home—everyone tired out—everything going wrong and the patient needing more attention, and expert attention at that, daily.

It is then that the nurse is needed.

Yet there are hundreds of cases each year where a nurse cannot be afforded, where mothers, children must suffer needlessly because of insufficient care. Many of these cases are not serious enough for a hospital, yet there is suffering there and help needed.

It is for such cases that the Victorian Order of Nurses offer their services. These trained women make pre-natal visits, attend beds of suffering, answer night calls for those who cannot afford to pay the high fees of the professional nurse.

The Victorian Order of Nurses is one of the fourteen organizations that will be kept up during 1921 by the United Welfare Fund.
