THE CAMPBELLTON GRAPHIC

ESTABLISHED: Events 1898, Graphic 1907. CAMPBELLTON, NEW BRUNSWICK, FRIDAY, JUNE 11TH, 1909 PRICE: Single Copy 1 Cents, One Dollar Per Year.

MORE DAMAGE IS REPORTED

Said That Messrs. Peter Nadeau & Sons Mill at Grand Cascapedia Has Been Destroyed.

FIRES MORE SERIOUS.

Just as we go to presswe hear that Messrs. Peter Nadeau & Sons' mill at Grand Cascapedia, P. Q., has been destroyed by fire, which will be a heavy loss to that firm.

We also learn that fires along the International Railway are still burning and word has been received that Messrs. Couillard & Goumond's mill is now on fire.

The woods around Campbellton seem to be on fire in all directions.

MR. W. S. CARTER NOW EDUCATION SUPERINTENDENT

Appointments Was Made at Meeting of Government on Tuesday.

Mr. W. S. Carter, M. A., of St. John, inspector of schools, has been appointed to succeed Dr. J. R. Inch, M. A., LL. D., as chief superintendent of education for the province. The government in session Tuesday evening accepted the resignation of Dr. Inch to take effect on the last day of June and then appointed Mr. Carter as his successor.

JOHN L. LEGERE SUES FOR DAMAGES

Before Judge Cassels, in the Exchequer Court, this morning, Dr. Ennis gave expert testimony in the case of Gleason vs. King. Argument of counsel followed, judgment was reserved.

The case of John S. Leger vs. the King was called next. Mr. J. P. Byrne of Bathurst, is counsel for the defence, and Mr. M. G. Teed, K. C., appeared for the plaintiff. Action is brought by Mr. Leger of Bathurst, against the I. C. R., in consequence of a fire which originated in the freight shed of the railway at Bathurst, May 25th, 1908, and which also destroyed the hotel and barn, with contents of some to the amount of $20,000, which is the amount sought. The plaintiff claims that the freight shed set on fire by the companies engines and thereby the I. C. R. is liable for damages.

Mr. Ellis, the station agent of Bathurst, was called. His testimony was to the effect that on April 5th, 1908, a fire was discovered on the roof of the freight shed, but was easily extinguished, the fact was reported to headquarters on April 17th, and on May 21st fire again broke out on the roof of the shed and was readily put out and reported. On May 24th a fire was discovered inside the freight shed, but was extinguished without difficulty and also reported. On each of these occasions locomotives belonging to the railway were working in the station yard. On May 25th a fire broke out in the shed, which caused the damage to the plaintiff's property.

Mr. Byrne argues that in order to recover damages the plaintiff will give to prove that the engines were not in good condition and also prove negligence on the part of the employees. Even were such proven the amount recovered could only be $5,000, that amount would have to be divided among those who had freight destroyed in the fire and Mr. Gautrie, who also lost a barn; besides this the plaintiff would have to prove that a spark from an engine belonging to the company caused the damage.

Mr. Ellis was the only witness this morning. The case is before the court again this afternoon.

BROTHER TOLD BROTHER

One Suffered for Fifteen Years, the Other for Thirteen.

The convincing powers of a testimonial were never more clearly shown than in the case of Mr. Hugh Brown. A few years ago Samuel Brown, of Avondale, N.B., read in the paper about Hon. John Costigan being cured by "Fruit-a-tives." Knowing the Senator would not endorse a medicine which had cured him, Mr. Samuel Brown tried "Fruit-a-tives." They cured him of Chronic Indigestion and Constipation, so he urged his brother to try them.

Harcland, N.B., Oct. 28th, 1907.

"Three doctors told me that I had Liver Disease and serious Stomach Trouble. My stomach was very weak. I took their medicines for thirteen years and grew worse. My brother who was cured of terrible Indigestion by "Fruit-a-tives" after suffering for 15 years, recommended me to try these wonderful tablets. I bought half a dozen boxes and have just finished the sixth. I eat all kinds of hearty foods without distress and am greatly improved in every way. "Fruit-a-tives" also cured the Chronic Constipation which was so distressing in my case."

(Signed) HUGH BROWN.

50c a box, 6 for $2.50; a trial box, 25c. At dealers or from Fruit-a-tives, Limited, Ottawa.

If You Simply Demand

Style in the new Suit your going to buy, and don t care about anything else-almost any store can please you. The same is true if you consider only fit, or a certain color, etc.

But if you are wisely particular and consider style and fit and wear and tailoring and linings and trimmings and all wool cloths and colors and patterns, and if you are at all interested in getting value for your money there are no two ways about it, you will have to buy at this store.

Prices range from $8.00 to $26.00.

ARBITRATORS' FEES ORDER PAID AT COUNCIL MEETING

Contractor Devencen Allowed $700 For Extras Done on Installation of New 16 Inch Water Main.

OTHER BUSINESS TRANSACTED.

A special meeting of the Town Council was held Wednesday evening, His Worship Mayor Murray in the chair.

The statements or accounts of the arbitrators were read and referred to the Finance Com. The accounts were as follows:

Jas. Friel, 7 days,	$350.00
" Expenses,	45.00
George Gilbert, 6 days,	$330.00
" Expenses,	17.70
E. McMillan, 6 days,	$30.00
" Expenses	6.00
Total,	$778.70

A communication was read from H. P. Robinson, Manager N. B. Telephone Co. in reference to wires on Prince William St.

Refferred to Electric Light Committee.

Clerk read letter from W. A. Mott, with bill from Louis Devensen for $1,000 alleged damages for delaying his work on 16-inch water main contract, and $700 extras. Referred to Water and Sewerage Committee.

Clerk also read letter from A. A. Andrew tendering resignation as auditor of school accounts and manufacturer of fuel.

Trucking license was granted to J. M. Floyd.

A number of accounts were passed.

H. G. V. Farrer, manager on the electric light system, was granted permission to attend the Electrical Engineers' convention at Quebec, on the 15th, 16th and 17th inst.

Moved by Coun. Andrews, seconded by Coun. McLean that Mr. Louis Devencen be paid $700 in full of all claims to date for extras. Motion carried.

M. A. Kelly was appointed auditor of school accounts.

On motion the Town Treasurer was requested to furnish a list of tax defaulters to date. There was some discussion as to the advisability of publishing the list but it was finally dropped.

Messrs. A. D. MacKendrick, A. G. Adams and W. L. McRae appeared before the Council on behalf of the Celebration Committee to solicit a grant to aid in expenses. After hearing the Council granted the sum of $300 to the committee, the same to be placed in the Bank of Nova Scotia to be chequed out by the Secretary-Treasurer of the Committee.

QUEBEC SUFFERS FROM FIRE FIEND

Lumber Mills and Caset Factory Destroyed By Fire Wednesday.

LOST ABOUT $100,000.

QUEBEC, June 10.—A fire which broke out at 11 o'clock yesterday morning before it was extinguished had done damage estimated at $100,000. The Buildings burned included the lumber mills of Boland and Gignac, the Parisian Corset Factory and about twenty-five houses, all located in the heart of St. Roch's Ward.

The fire started in the lumber mill and gained a great start through the employes endeavoring to get it under control without summoning the fire brigade.

Only the plentiful supply of water and assistance rendered by a detachment of men from the R. C. G. A. from the citadel enabled the firemen to control it when they did.

Bath, N. B., June 10.—A disastrous fire broke out here about eight o'clock last evening in the rear of the buildings owned by Tompkins Bros., whose barns, general store and dwelling were entirely destroyed.

DROP LETTER BOX.

An up-to-date letter receiver, intended specially for drop letters, has been attached to the wall of the Post Office, near the east door.

A FINE HORSE.

Mr. Fred Kerr has purchased from Sackville parties a very nice bay, four-year-old 'Will Be Sure' colt.

TWO ARRESTS HAVE BEEN MADE AT COOKSVILLE.

Sackville, N. B., June 10. — William Boyles and Mrs. Nesbitt are held at Cooksville and will be brought to Sackville today as a result of the inquest held yesterday on the body of the child found dead and buried in the cellar of an unoccupied house at Cooksville on Monday.

The inquest lasted until 11 o'clock last evening and the details are lacking, here owing to the difficulty of communication with Cooksville.

EVERY CITIZEN ASKED TO HELP

Should all Join in Making Campbellton Attractive for its Big Day

SOME SUGGESTIONS

A PERSONAL LETTER TO EVERY CITIZEN OF CAMPBELLTON.

Fellow Citizens:—In view of the coming holiday, and one that the town is preparing to fittingly celebrate, permit me to present a few thoughts in the way of an appeal for your hearty support and assistance on that occasion.

As it now generally known strong committees have been assigned to each department of the celebration and plans are being carefully laid to make the day a memorable one for the good old town whose interests we have at heart. But the work of the committees must be backed up by the citizens generally and it is hoped that there will be a hearty response to all requests of the committee for the carrying out of their work. We realize that much depends upon the committee but much more upon the individual citizen. Everyone should make it a point, and plan from this date, to have some one particular part in the work of that day.

There are many ways to assist, and one of great importance, in which all can participate, is to have our lawns, yards and general frontage properly cleaned and brightened up so as to present a neat and favorable appearance, leaving a lasting impression for good in the minds of all visitors that day. A few hours along that line will work wonders. Merchants and others must see that no waste paper or other unsightly material is thrown or carried by the winds on our streets.

The Street Department will make a special effort to put the streets in better condition and we ask the citizens to insist that every hollow and lump receive the proper attention of that body.

It is desirable that the town put on its holiday attire and to this end the citizens generally are requested to decorate and illuminate their stores and residences. Even a small display on every building would be far better than a large display on only a few.

The trades procession promises to be one of the best ever seen here, and about which the committee will likely wait upon or write to business men in the course of a few days.

Let everybody work! Talk about it with your friends and put the necessary enthusiasm into it, and no doubt the result of the celebration will be pleasing to you and a credit to the town.

If the citizens have any suggestions to offer they will be gladly received and considered by the Central Committee. A few suitable prizes for the field sports will be appreciated. The public are invited to the committee rooms in the Murray Hall, Water St.

Yours faithfully
A. D. MacKENDRICK
Chairman Central Com.

Campbellton, June 10, 1909.

STEAMER RAMS SOO CANAL LOCK GATE

Force of Water Carried Everything Before it and Much Damage Done.

LOCKS DESTROYED.

Sault Ste. Marie, Mich., June 10.—With all the weight of Lake Superior behind it an unmanned forest of timbers rushed past night through the four million dollar Canadian Canal built to carry vessels around the impassable rapids of the St. Mary's River. The entire 350 of approximately twenty feet is concentrated in the lock which was wrecked yesterday when the steamer Perry G. Walker of the Rockefeller fleet rammed her bow through the lower gate. The canal ceased within its walls this evening a tremendous spectacle, including two waterfalls and a big whirlpool.

The damage will be in the vicinity of $300,000.

JACQUET RIVER.

A pretty wedding was witnessed on Tuesday morning at St. Gabriel's church, when Rev. J. J. Fitzgerald united Mr. Sanford Murphy and Miss Rosie Ezeliger, one of Jacquet River's fairest daughters. The bride looked very pretty, gowned in cream silk and silk cotelne, with a white picture hat. The bride was attended by her sister, Miss Estella Ezeliger and the groom was supported by his brother Mr. Alex. Murphy. A breakfast was partaken of at the bride's home. Then a short drive to the groom's home where wine and cake were served. They left on the local carrying with them the good wishes of their many friends. The bride received some very pretty and useful presents, among which were a pretty silver berry set from Mrs. W. Arsenault of Bathurst, and many others. On their return they will reside at their own home in Jacquet River.

ARBITRATORS' AWARD OPENED BY COUNCIL THURSDAY NIGHT

A special meeting of the Town Council was held last evening, a full board being present. The only matter under consideration was the award of the arbitrators in the R. L. Duncan case. The award was opened and found to be $700, which amount will be paid to Mr. Duncan.

FOREST FIRES ALL BURNING

Not Much Damage Reported in This Vicinity-Town Shrouded in Smoke Sugar Loaf Ablaze

DALHOUSIE'S NARROW CALL

Public Works Dept. Dec 07

Although Campbellton is enveloped in smoke little damage has been reported from forest fires.

Last evening fire was seen sweeping up the northerly side of the Sugar Loaf, and a very spectacular fire was witnessed by those who were about at 10 o'clock.

The town authorities stated that the fire might destroy the Isolation Hospital but it is still safe.

Toward Athol there a number of small brush fires, but no great damage has been reported.

DALHOUSIE THREATENED.

A telephone message to the Graphic this morning from the place stated that the citizens had put in a strenuous night fighting house fires. About seven o'clock the fire entered the grove of evergreens which extends well into the Dalhousie section. The wind was strong and which fanned the flames towards the sidehces. The fire brigade was called out, and assisted by citizens fought heroically to save the town from destruction. The fire burning in Maine, which was reported yesterday morning, is still burning and is reported to be in the vicinity of Mr. Ward's farm.

IN OTHER SECTIONS.

Reports from New Brunswick towns and villages are to the effect that the city was enveloped in smoke with burned patches in the woods. Between Bathurst and Nigadoo fires did much damage to pulpwood and railway ties. Between Nigadoo and Jacquet River fires did much damage to pulpwood and railway ties. Between Jacquet River and Campbellton fires did much damage to pulpwood and railway ties.

U. S. PULP MILLS NEED PULP WOOD

Extent of the Pulp Wood Industry Across The Line Shown in An Official Report.

CANADIAN FORESTS.

Washington, June 10.—Pulpwood and other wood for manufacture into pulp, cut from United States forests last year, amounted to 1,000,000 cords, or about sixty per cent. of the total quantity used.

The rapid development of the pulp industry in Canada upon a basis of operations from United States forests is indicated by the fact that Canada imported nearly one million cords of pulpwood, or about seven per cent. of the total consumption, and the United States exported nearly one million cords, or about seven per cent. of the total consumption. Canada imported 1,000,000 cords of pulpwood, or about seven per cent. of the total consumption, and the United States exported nearly one million cords, or about seven per cent. of the total consumption.

Next to spruce, the most important pulp wood is hemlock, which if it were converted into pulp, last year would have yielded about 1,000,000 tons of mechanical pulp, or about 1,000,000 tons of chemical pulp, or about 1,000,000 tons of mechanical pulp and about 1,000,000 tons of chemical pulp. Hemlock is found in Canada, Maine, New Hampshire, Vermont, New York, Pennsylvania, Michigan, Wisconsin, Minnesota, Oregon and Washington
