OPEN BOND MARKET.

Continued Dullness in Bond Market—Tone is Quiet and Uncertain—Sugar Refinery Issue Soon.

N. B. Stark & Company report continued dullness in the open bond market during the past week. There was a slight demand for some of the Industrials, but the general tone has been one of quietude and uncertainty.

The Atlantic Sugar Refineries issue will be made within the next few days and advance subscriptions point to an immediate absorption of these securities.

Mr. H. A. Lovett, K.C. was in Toronto during the week.

Of 24 Canadian Stocks 12 Showed Advances and 8 Losses During October.

It is interesting and quite surprising to note the month's firmness of stocks listed on the Montreal Stock Exchange, in view of the tightness of money and the uneasiness caused by the conditions abroad. From the first of the month to the present day, price changes have proved comparatively small, and what changes there were have been towards a slightly higher level than the close on the last day of October. Prices of course have fluctuated a good deal during the course of the month, but the losses have mostly all been made up, and further, in most cases, a gain has been registered. Laurentide for instance, at one time was down ten points, and recovered seven points of that loss Canadian Pacific, although moving down seven points and up again the same number, is 3¾ points higher than at the beginning of the month.

The unlisted stocks, although selling lower than the best price during the month, show relatively good net gains. The following table shows the close on the last day of October, the high and low in November, and the price on November 28th.

	Oct. 31st Close	November High	November Low	Nov. 28	Net Change

GREAT WEST PERMANENT WEAK. OTHERS QUIET.

VANCOUVER, B.C.—Money continues tight and dullness prevails on the local Stock Exchange. The volume of transactions was again light with few changes in quotations. Great West Permanent which has been a consistent performer for a long time, and was weaker this week selling down to 134. Dominion Trust was neglected at 122 bid. Lucky Jim Zinc was stronger. Amalgamated Nev. continues very weak. Following the annual meeting and an unfavorable report from the Company's engineer, Red Cliff went off to 14.

At the Red Cliff meeting the old board of directors was re-elected. Mr. Parker's report stated that in order to make substantial profits from the ore a smelter should be put in, and there is no money available for the purpose.

MASSEY HARRIS CO. AT EDMONTON

Sir Melvin Jones, president of the Massey Harris Co., implement manufacturers, has announced the purchase of four lots on the Hudson's Bay Reserve in Edmonton for $84,000 on which it is intended to build a large six-story distributing warehouse next year.
