THE LAW ON FLIRTING

The Supreme Court of Arkansas has come to the defense of flirting. A schoolmaster who had been discharged because he had failed to carry out a school board's order to stop flirting among the boys and girls, is sustained and restored by the court. It may not be a part of the court decision, but it is a fact nevertheless, that the schoolmaster has never yet discovered who could stop flirting if he would. This one did not try to. He took the stand that flirting is a harmless amusement. Well, in Arkansas it may be harmless and lawful. In an English magazine says that over in England it is positively useful. This magazine tells of London jewelers, hotel keepers, commercial travellers and others who resort to it for profit with little success. One young jeweller in particular finds flirting to be his most effective method of advertising. Flirting is for some people an education—a school of experience. It may teach the knowledge necessary to the selection of a suitable life partner. A girl doesn't buy the first hat that is offered her. She puts on one after another and parades with it before the mirror, critically observing its effect, she carefully studies every curve and ribbon and flower and feather; she discards them, hat after hat, until only the most desirable one is left, and with that she goes home happy. But alas! while the young woman carefully selects her hat, she allows her husband to select himself. And so it is the husband that is the misfit. Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Take Hall's Family Pills for constipation. The British Empire is serving notice on the world that, while it does not make nor seek war when war is forced upon it it is the other fellow that will suffer most. If the Kaiser knew as much six months ago as he knows today there would have been no war. I was cured of terrible lumbago by MINARD'S LINIMENT. REV. WM. BROWN. I was cured of a bad case of earache by MINARD'S LINIMENT. MRS. S. KAULBACK. I was cured of sensitive lungs by MINARD'S LINIMENT. MRS. S. MASTERS.

FARM NEWS AND COMMENTS

Make the cattle comfortable. If ever agriculture needed skillful and capable met it is now. One touch of winter makes the woodpile shrink. Did you ever hear of a man being ready for winter when it came? The man who draws his stable manure to the field each day as made saves time. Keep the stock that is quickly matured. A rush for food materials is imminent. It is not too late to sweep down last summer's cob-webs and white-wash the stable. Milk cows feel the chill if left out nights and register its results in the pail the next lay. Cattle in low flesh now are hard keepers all winter. Do not delay feeding too late in the season. Do not cut the cattle's rations because concentrates are costly. Take their place with rougher feed and plenty of it. Fall is a good time to fence. Keep the hired man and let him fence after other fall work is done until it freezes up. Work left too late in the fall is generally done at much greater inconvenience than that accomplished earlier in the season. Where are the farm implements and machinery? The fence corner, the deciduous tree or the middle of a ten-acre field is a poor shelter. Weed out the non-day old hens, the non-productive ewes and the unprofitable dairy cows now before they eat a pile of high priced feed. There may be a slight slackening in pork prices, but the future of the bacon hog is assured. He is quickly matured, and will surely be called for in large numbers. Germany is endeavoring to conserve her meat supply by forbidding the slaughter of calves under 165 pounds in weight, and slaughter of cows under seven years of age. There is a difference in plowing, and a great difference in the crops which grow on good and bad plowing; which will your 1915 crop be on the straight, even well-turned furrow, or the zigzagged, half-turned, rough rooting. More and more it is being demonstrated that Canada has a big place to fill in feeding, the Empire, and yet large proportions of some crops waste for want of harrowers and a market. It's a queer old world. The fellow who takes no sugar in his tea has the laugh on his sweet-toothed neighbor now, but the latter may be aided by a big crop of Canadian grown sugar beets another year. The chances of this crop are worth investigating. Many housewives have had very satisfactory results in keeping eggs for winter use, simply by carefully and closely wrapping each one in paper and then storing in boxes kept in a cool temperature. Pieces of newspaper or other pliable wrapping paper will answer the purpose. Among the curious aspects of the war none is more noticeable than the revival of knitting among the women of the country. The call for wristbands and cholera belts has started the needles clicking in the cities and towns as well as on the farms. It seems like old times. There is a mistaken notion abroad that only persons of leisure and wealth can be artistic. Nonsense. The people of the farm are in closer touch with the beautiful in nature than the idle rich of the cities and towns. No pile of brick and stone compares in charm with the autumn-tinted wood. The seeing eye in the midst of these develops an artistic sense. "A Man who tries to run a business without Advertising might as well try to run a motor without gasoline. It may be a good business, but it wont go."

Why be content to remain in the same old rut, never making any effort to increase your business, and, worst of all, not offering any inducements to hold the few customers you have? When you come to look over the matter, do you ever figure out what assurance you have that you will always cater to your present trade? How do you know but what your customers are passing your store and patronizing the man next door, who advertises? In all probability this is just what is going on, and there is only one way to stop this and that is to advertise. This you want to do in the

Union Advocate ESTABLISHED 1867 one of the oldest papers in the Maritime Provinces. You say you never did advertise, and you do not believe it pays. Don't you think you are giving your own opinion rather a high rating when you put it against that of the great majority of those who do advertise? Surely majority is a better judge. Do not let your mind rest too strongly on the amount of money you would have to pay; rather think of the increased business which is sure to be yours. You say you do not want any increase, because you would have to increase your staff. Well, if ten new customers came to your store every week would you turn them away? And if that number increased until you had to enlarge your staff of clerks, would you not do so, or would you neglect them? You would certainly increase your staff, attend promptly to your new patrons, and keep your stock of goods on the move, so why not make up your mind to-day to take a space in this paper and keep your name constantly before the buying public. As an advertising medium, The Advocate is firmly taking its place at the head. If you, Mr. Merchant, are not among the number who are using its columns, why not talk the matter over with our representative and select a good space while you have a chance. We are at your service any time you wish to consult us, and would only be too glad to quote your rates. A telephone call will bring our representative to your store in ten minutes.

THE UNION ADVOCATE'S JOB PRINTING DEPT. Remember that this office is in better shape to handle your Printing than it has ever been before, due to the fact that only competent printers are employed and the most modern machinery used.

There is a difference between plain Job Printing and the kind of Printing that draws business. At one time any kind of a printed letter-head or envelope would do so long as the work was done by a printer. Good paper and high priced ink, the customer did not know enough about to be fussy. It is not so now. The customer to-day figures these items into his contract for printing the same as he does the quality of the goods he purchases to carry on his business. This is the class of customers who have their printing done at The Advocate Job Dept. Only the best lines of writing paper are kept in stock and the highest grade of inks used for all work. There is not a CHEAP line in our office, for experience has taught us to carry only the best and the most serviceable. People who leave their order for printing with this office, have that inward feeling of assurance that they are going to get just the kind of a job they want. They do not speculate—they know, and they are never disappointed. We spare no pains to give our customers just what they want, and that is one reason why this office has gained the reputation it has for turning out the highest class of Job Printing only. If you are not yet a customer, join our list and have your letter heads and envelopes, or whatever nature your work may be, printed in an artistic manner. It does not cost any more for good printing than it does for the cheaper kind, and a small order is given as good care as a large one. We are now in a position to handle all kinds of

CATALOGUE PRINTING and would be pleased to quote prices for this class of work at any time. We guarantee strict satisfaction in all cases. THE MIRAMICHI PUB. CO. LIMITED Phone 23 Newcastle, N. B. Box 359.
