Another Pitching Marvel.

Kansas City, May 28—Baseball scouts are watching the work of C. C. McKinney, a pitcher for William Jewell College, who thus far this season has pitcher thirty-three innings and has fanned seventy-three batsmen, an average of almost 2 1-3 strike-outs an inning.

AUTO

Chevrolet Wins.

Cincinnati, May 30—Louis Chevrolet, traveling at an average speed of slightly better than 102 miles an hour, captured the 250-mile international sweepstakes automobile race at the Sharonville speedway today, but he was only a few seconds in front of his brother, Gaston Chevrolet. Ira Vail was less than a sixteenth of a mile behind the second man, but the remainder of the field was well strung out. Barney Oldfield finished eighth in the race.

Chevrolet's time was 2 hours 26 mins. and 47 seconds.

WELSH'S RING CAREER

Won World's Title From Willie Ritchie in London Three Years Ago

Freddy Welsh was born in Pontypridd, Wales, on March 5, 1886, and has been boxing in the United States more than a dozen years. Welsh won the world's lightweight title when he defeated Willie Ritchie at the National Sporting Club in London on July 7, 1914. During the last few years Welsh has been one of the busiest boxers in the ring and has defended his title against scores of ambitious lightweights.

Ring experts regarded him as one of the most skillful defensive fighters that ever held the title. He was not a hard hitter and he gained his hold on the world's title by winning from Ritchie on points. After Welsh won the championship he made himself unpopular with boxing fans by his continual refusal to take the initiative in any of his bouts. He always played a defensive, waiting game, and played it with such care that most of his bouts were uninteresting to watch. Some second rate boxers have gained a popular verdict over the champion because of his stalling tactics.

Welsh probably fought more battles than any champion that ever lived. Way back in 1910 he fought a twenty-round draw with Packey McFarland. He defeated Matt Wells for the light weight championship of England in 1912. The first time that Welsh met Leonard was at Madison Square Garden, New York, on March 31, 1916. Leonard did all the fighting in this bout and outpointed the champion in almost every round. Welsh, however, defended himself so well that he received little damage from Leonard's blows. Smarting under this humiliation from Leonard, the champion met the little Harlem boxer again at Washington Park in Brooklyn on July 28. Welsh trained hard and faithfully for this bout, and he gave such a good exhibition of boxing that Leonard looked amateurish in comparison. It was decidedly the best battle Welsh fought since the time he won the title from Ritchie. Welsh defended his title in a twenty-round bout against Charley White of Chicago at Colorado Springs last summer and won.

SCHUPP MAKING BRILLIANT RECORD

Ferdie Schupp, brilliant left handed pitcher of the New York Giants, who won his fifth straight game by defeating the Chicago Cubs last week, is setting a pace which will soon put him in the class with Alexander the Great, Walter Johnson and Babe Ruth.

Since Sept. 7 of last year Schupp has pitched 119 innings and has allowed less than one earned run per nine inning game. His record in this period is eleven victories, one tied game and one defeat. He has pitched one one-hit game, two two-hit, four three-hit, and two four-hit games. Only fifty-five hits have been made off him since he began his remarkable run.

Following is Schupp's unparalleled record beginning with Sept. 7, 1916:

1916	R	ER.	H.	I.P.	S.O.	BB.
Sept. 7, Brklyn	1	1	2	9	4	1
Sept. 13, Cin	0	0	3	9	4	3
Sept. 18, Pitts	0	0	3	9	4	2
Sept. 20, Chi	2	1	6	9	5	1
Sept. 25, St. L.	0	0	2	9	3	2
Sept. 28, Bos.	0	0	1	9	4	1
*Oct. 2, Brklyn	1	0	3	7	5	1
1917.						
April 16, Brklyn	0	0	4	9	2	1
April 24, Bos.	2	2	6	9	5	2
xMay 2, Brklyn	2	1	10	14	8	4
May 11, Cin	2	1	4	9	6	2
May 17, St. L.	0	0	3	8	9	3
May 23, Chi	3	3	8	9	6	2
Totals	13	9	55	119	65	25

Games, 13; won 11; lost 1; tie 1.

*—Lost to Jack Coombs at Ebbets' Field by score of 2 to 0. Schupp pitched the first seven innings, the Robins scoring a run in the fourth on Fletcher's error. Anderson replaced him and the Robins scored the other run in the eighth.

x—Pitched a 14-inning tie game against Larry Cheney of the Robins at the Polo Grounds.

KILBANE MAY GET FIRST CHANCE AT LEONARD'S TITLE

So soon as Leonard had won from Welsh in New York the other night, Matt Hinkel, a boxing promoter of Cleveland, Ohio, who was at the ringside, offered a purse of $25,000 for a twelve or fifteen round bout between Leonard and Kilbane to take place at Canton, Ohio, on July 4. Gibson, on behalf of Leonard, said that if he could arrange for such a bout he would gladly do so.

To Sell Rothschild Stable.

It has been announced that Baron Rothschild, one of the largest breeders of thoroughbreds in France, has consigned twenty-seven yearlings to the United States to be sold at Saratoga during the race meet in August. The youngsters are the get of Sardnaple and Verdun. Sardnaple is a six-year old and won many a million francs in his racing career, which was cut short by the war. Tom Welsh, an American trainer, says that he is the best horse he ever saw.

U. S. FOOTBALLERS TO MEET CANADIANS

Decide To Arrange International Soccer Series; Proceeds to Red Cross

Boston, Mass., May 28—The annual general meeting of the United States Football Association terminated today at Young's Hotel after a two-day session There was some spirited voting for the election of officers. Peter J. Peel, of Chicago, was elected president; Douglas Stewart, Philadelphia, first vice-president; George Healy, Detroit, second vice-president; Harold Crook, Fall River, Mass., third vice-president; Thomas W. Cahill, New York city, secretary; Thomas Bagnall, Harrison, N. J., treasurer.

After the meeting the United States Challenge Cup was presented to the manager of the Fall River Rovers' club by ex-President Fernley. The many friends of ex-President Fernley presented him with a gold watch in recognition of his valuable services rendered during the past three seasons.

It was decided to arrange a series of international games with Canada, to be played in each country, and that the net receipts be handed over to the Red Cross. The meeting also decided that the National Challenge Cup committee had no power to suspend spectators, and that this must be taken care of by the State Association. The Scottish-American club was fined twenty-five dollars and each of its guilty players fined ten dollars each for refusing to play the Bay Ridge club in the National Cup competition when requested to.

KENTUCKY HANDICAP NEXT TURF CLASSIC

With the rich Toronto Cup race out of the way turf enthusiasts will now turn their attention to the Kentucky Handicap to be run at Douglas Park, Louisville, on next Saturday.

This race, which is for three-year-olds and upward, brings together the best in the East and West. Eastern stables which go to the Blue Grass state for the Kentucky Derby usually enter in this stake and they stick around until it is decided. Then they wend their way back to their old stamping ground.

This is quite an unusual race, for in it the three-year-old is asked to meet the best of the older horses. On only one occasion has a three-year-old been successful in pulling down the prize, and that was when Luke McLuke got home in front in 1914, and he was only carrying 100 pounds on his back.

The stake has been run four times and its winners have been Rudolfo, Luke McLuke, Barrow and Ed Crump. Rudolfe and Ed Crump were four-year-olds and Borrow was seven when they won the event.

A three-year-old has an excellent chance of winning it this year, for there are so many high-class colts of that age out. However, he will have to meet Roamer, Star Hawk, Old Rosebul, Col. Vennie, Pif Jr., and others in the older division. The Latonia Derby will be run on June 16, so that any three-year-olds which participate in the Kentucky Handicap will have just fourteen days in which to recover from the effects of that hard race.

SEE GERMAN HAND IN PARIS STRIKES

Paris, May 31.—Information has been unearthed through the police dragnet that German influence has been responsible for the disorders here. It is a far cry at this stage of the war from Wilhelmstrasse to the Grand Boulevards, but nevertheless so much of the recent disturbance seemed to have "syndicate" earmarks that at present such classes as waiters, interpreters, clerks, traveling commission merchants, mostly Spanish or Swiss, also some renegade Italians from the Trentino district, with a fair sprinkling of Dutch and Swedish propagandists, are all being carefully observed. In a recent haul of strike agitators one Turk was taken.

Considerable interest is also being taken in conditions just over the Spanish frontier. In Madrid and in Barcelona, it is believed, Teuton intelligence bureaus are schooling agents, who are evidently passed on to Pamplona, two hours from the French frontier, where they wait a favorable moment to make a dash for Irun, which is the frontier town, and escape into France.

Deserter to Stand Trial.

Daniel Baskin, of Mechanics Settlement, who was recently sentenced to two years in the penitentiary, but allowed to go on suspended sentence, providing he would join the Forestry Company, will be tried in July for attempting to shoot Chief of Police Asbell, of Sussex. Baskin joined the Forestry Company, but later deserted. It was while Asbell was attempting to re-arrest Baskin that he attempted to shoot him.

NEWS OF THE SOLDIERS

Eight recruits were secured in the city yesterday. They were as follows: Frank Comeau, Painsec Settlement, Forestry Company; John Walker, Scotland; Bertram Phillips, London, Canadian Engineers. S. A. Kingston, Wayertown, N. B., No. 9 Siege Battery. Ralph E. Windsor, Crapand, P. E. I.; Harold Johnson, Kensington, P. E. I.; Harold Rhynard, Bridgetown, N. S.; and E. Saban, Port Lorne, N. S., No. 8 Field Ambulance.

Finds Friend's Grave.

In a letter received from Private A. Clibe on Tuesday last by W. R. Spencer, of this city, Private Clibe tells of his finding the grave of a former companion, Private J. J. Howe, reported killed in action last month. Mr. Spencer had written to inform Private Clibe of his friend's death, as he had not heard of it before. He searched for two days and at last found Private Howe's grave. He built it up and planted flowers on it and ordered a cross to be placed at the head. While he is there he intends to keep the place fresh and green.

Capt. H. E. C. Sturdee.

Lieutenant-Colonel J. L. McAvity recently received a letter from Captain H. E. C. Sturdee, of the 60th Battalion. Captain Sturdee writes from the base hospital at Boulogne and his letter is dated May 15. He is being invalided to England and is suffering from trench fever. He has been for the last year with the 60th Battalion in France as captain.

Machine Gun Display.

The two machine guns being displayed by the machine gun draft in McAvity's window in King street, are attracting a great deal of attention. A very large number of people have never seen a machine gun and naturally are rather curious. A man is stationed there to answer any questions that may be asked.

FURTHER WORD OF REPORTED DISCOVERY OF EXPLOSIVE MORE POWERFUL THAN ALL

In reference to his announcement of discovery of a new and most powerful explosive, Dr. deWaltoff added to his first announcement:

"In experimenting about a year ago with my son, who is a chemist, we discovered an explosive force so tremendous that one-millionth of a grain blew into bits a heavy Wedgwood mortar. We are now at work on the problem of the safe handling of this explosive, and I hope that by the time our boys reach the other side we shall have solved this. Until we bring calamity home to the German people, I am afraid they will still bow down to Kaiserism."

Dr. De Waltoff refused to tell whether the explosive had been brought to the attention of the government. The discovery was entirely accidental, he said. He and his son were working to discover a cheap substitute for gasoline. They held to a theory that a substitute could be produced from chemical combinations as well as from crude oil, and their experiments carried them far afield in many directions.

It was while working on an unusual combination of chemicals that an almost infinitesimal particle dropped into the mortar, came into combination with a particle of another chemical, and the resultant explosion shook the laboratory and shattered the mortar. Although the doctor would not discuss what elements entered into the combination of destruction he did say that it was entirely a domestic product and that large quantities could be obtained in the east. He said that it could be carried in a gelatine capsule and would burn like a match.

THE LUMBER SITUATION.

Angus McLean, of Bathurst, one of the largest operators on the North Shore, speaking to The Telegraph last night, estimated the cut on the North Shore this year, from the Restigouche down, as between forty and fifty per cent below the normal cut of about 200,000,000 feet. All the logs were brought out of the woods successfully, but he doubted if one mill had disposed of any of the winter's cut. The mill owners were hopeful of seeing conditions brighten in the foreign markets, and that the British embargo might be lifted. The United States furnished a good market at present, but there are very limited transportation facilities.

Montrose-McAuley.

A quiet wedding took place last evening at the home of Mr. and Mrs. Fred McAuley, of West St. John, when their youngest daughter, Annie, was united in marriage to Sergt. H. Montrose of the Canadian Engineers, by the Rev. J. H. Jenner.
