DELAYED DISPATCHES.

Europe.

SEVILLE, Aug. 4.—Official advices contradict the statement that two Carlist prisoners were shot by order of a council of war. Several bands of Carlists, in different parts of the country, have scattered in the past few days.

LISBON, Aug. 4.—The Chambers have adopted resolutions authorizing the Government to grant concessions to companies desiring to lay cables to and from Portugal.

LIVERPOOL, Aug. 3,—Capt. Kendrick and the crew of the bark Ontario, from New York for Melbourne, abandoned at sea May 30th, have been saved and landed at Mauritius.

DRESDEN, Aug. 3—A dreadful accident occurred yesterday in a coal mine in the Northern District near this city. Over three hundred persons were killed outright. No particulars, but the accident is said to be attributable to stormy weather.

DRESDEN, Aug. 3.—The accounts of the explosion in the mines have not been exaggerated. Three hundred and twenty-one dead are counted. The scenes in the neighborhood of the mines are heart-rending.

MADRID, Aug. 3.—There have been several encounters between the Government troops and the Carlists. The insurgents in all the battles were beaten. A number of the insurgents were killed and wounded and many taken prisoners. The volunteers are behaving with great violence. The civil and judicial authorities are powerless to check them. The journalists of Madrid have held a meeting to protest against the acts of the volunteers.

MADRID, Aug. 4.—It is asserted that Government will shortly call out the reserves to repulse a formidable uprising of the Carlists, which has occurred in Tonesota.

BERLIN, Aug. 3.—The *Borsen Zeitung* discussing the possibility of an imposition by Congress of a tax on coupons of the U. S. bonds, expresses confidence that the Republicans will remain faithful to the programme, in which they pronounced energetically against repudiation. The *Zeitung* declares that the current rumors to the effect that such a tax is contemplated, are mere manœuvers of the Stock Exchange.

CONSTANTINOPLE, Aug. 3.—An aid-de camp of the Grand Vizer is about to leave Egypt, bearing a letter to the Viceroy, which, after recounting the grievances of the Sublime Porte, concludes with an intimation that in case no satisfactory explanations are given, the Porte will withdraw the privileges accorded by the firman of 1841.

PARIS, Aug. 3 —At the opening of the session of the Senate yesterday, Rouher made an address. He referred to the duty which devolved upon that body of advancing the proposed reforms He said they should inquire whether they were popular enough to go hand in hand with liberty and at the same time strong enough for resistance. He was confident the Senate would enter upon the discussion with a firm intent of forwarding the wishes of the country and that by the combined efforts of the Government and the Senate, more genuine harmony will be established between the powers of State, and that the institutions of Empire would acquire new strength, lustre and popularity. In conclusion, he expressed his profound regret at the death of the late President of the French Senate.

European papers give accounts of a new conspiracy in Poland with the view of another revolution.

A London letter says a meeting was held in London consisting of the eminent representatives of the Pacific colonies and presided over by one of the most eminent Colonial Governors, Wyatt. Deep and general dissatisfaction is expressed with the political demoralization of their important growing countries with the parent State. Influential colonists have sent a representative. In fact all the important interests are joined in expressing a determination to require some reconstruction of the British Colonial Empire, which should afford them a guarantee that the interests of the various colonies should receive prompt attention. In the event of this being found impracticable—and the sense of the meeting was decidedly that it would be so found—it was declared that they should use their influence with their respective constituents to leave British allegiance and seek, in some form, the protection of the United States, or at all events to become in some manner, as may be decided, members of that system of the great Republic. This meeting was not public, but its results are likely to be known at an early day.

There is some anxiety about the yacht Dauntless, which left Queenstown for Havre two weeks ago, and has not been heard from. Bennett left her at Queenstown.

LONDON, Aug. 3.—In the House of Commons to-day the Under Secretary of Foreign Affairs said agents of the British Government are making every effort to obtain access to the Englishmen now held captive in Paraguay. The last intelligence received in regard to them was furnished by two American navy officers. They were all well but are still restrained of liberty by command of Lopez.

Viscount Milton asked if the Government could inform the House what progress had been made in the San Juan Island boundary negotiations and what the expense of holding possession of that island had been. Otway replied that as differences still existed with the United States, it was a question the Government was unable to furnish any information upon or to lay any correspondence on the table. The General Government of 1860 had submitted to the House what information it thought fit. If Lord Milton was able to add anything to that the Government would be glad to hear from him. It was impossible, on such short notice, to say what the cost of occupation of the island amounted to.

LONDON, July 29—In the House of Commons to-night, Mr Otway Under-Secretary of Foreign Affairs, in reply to a question, said the present condition of relations between England and Mexico prevented her Majesty's Government from officially aiding the holders of Mexican bonds in the prosecution of their claims; but, owing to the importance of the subject, it would be glad to base of any satisfactory arrangement for their settlement.

The Harvard crew was out on the Thames twice in the morning, and rowed from Putney to Hammersmith and back. In the afternoon they rowed to Mortlake and returned. They have now settled down to steady practice. Kelly will not be retained as coxswain, but it is not decided yet who will succeed him.

The *Times* has an article on the Chinese question in the United States. It thinks the conflict of races in California cannot be solved by heavy duties on immigration or by street outrages. It is impossible to suppose that the Chinese can be kept out of America, inheriting though they do ancient civilization and perfect economic methods, but destitute of strength and toughness of moral fibre which support authority. The Chinese may be welcome as assistance in colonization, not feared as a race likely to dominate in the future.

PARIS, July 29—The *Patrie* has reason to believe the political reform which will soon be proposed to the Senate will be more liberal than the Emperor's message to the Corps Legislatif indicated. The *Patrie* intimates that the right of parliamentary initiative and presenting orders of the day will be granted to the Corps Legislatif, while alterations will be made in the Senate sittings, which will probably become public.

A large number of military furloughs have been granted or extended, which it is estimated will be equivalent to a reduction of the army by 18,000 men

La Liberte reports that the Spanish Minister has received information that the disturbances in Spain have only commenced, not ended, but Carlists in Paris deem their cause lost.

MADRID, July 29—The Carlist agitators are dispirited. A plot to assassinate the Captain-General of Catalonia has been discovered and frustrated. The Carlist forces in the Provinces of Ciudad were beat and fled to the valley of Acadi [?] with the Government troops in swift pursuit. Several Carlists were captured with arms in their hands, and have been condemned to death by a council of war, but efforts will be made to have the sentence commuted.

LIVERPOOL, July 30—A despatch from Crewe, thirty-four miles from this city, says an unknown man committed suicide by throwing himself under a railroad train. A number of sureties of various kinds, and parts of the proceeds of the robbery of the Ocean Bank of New York were found on his body.

ST PETERSBURG, July 30—The Jews have petitioned the Czar for an extension of their rights of religion and education.

LONDON, Aug. 2—Gladstone, whose health is much improved, attended the sitting of the House of Commons this evening. He was greeted with great cheers. Fortescue, Chief Secretary for Ireland, informed the House that during the recess the Government would consider the desirability of purchasing the Irish railways.

MADRID, Aug 2—A letter says State affairs in Spain had a disquieting prospect. Carlists are full of gloom and confusion. The Government has no fear of the success of the Carlists, but it does not think all is lost for the Prince Asturias.

MADRID, Aug. 2—The Captain General of Madrid addresses a letter to Regent Serrano and Gen. Prim, in which he says: "I took part in the revolution, hoping to see morality, law and justice succeed against former abuses. It is now months since the revolution was accomplished. My hopes have been deceived. Greater abuses and wide spread immortality, deplorable anarchy and disorder which it is absolutely necessary to put to an end prevail. The constitution having proclaimed monarchy, the immediate choice of a King is indispensable. If the Government does not shortly consider the question I shall abandon all hope as to consolidation of the revolution and retire to private life." The letter was read in the Council of Ministers, and created a profound impression.

LONDON, Aug. 2—A company is organizing to lay a cable from Scotland by way of the Orkneys and Faroe Islands to Quebec. When completed, the line will probably be purchased by the Post Office Department.

LONDON, Aug 3—The coming international boat race is still a matter of great interest. The London press generally comment unfavorably on the style of the Harvard crew. The latter were out again last evening on the Thames. They used a boat of London make, practiced much better than before and attained a higher rate of speed than with their own boat.

Mrs Vivian has gained her suit for divorce against the Marquis of Waterford, with costs.

ST. PETERSBURG, Aug 3—A letter states that the peasant who saved the life of the Czar did not commit suicide, but was murdered in his house. Several persons were arrested for complicity in this crime.

The town of Griffle was almost destroyed by fire July 18th. Seven hundred tenements were burned. Eight thousand persons are homeless. The loss is over two million dollars.

DUBLIN, Aug. 2—There was a great demonstration in Limerick yesterday in favor of the Fenian prisoners. Twenty thousand people marched in procession with bands and banners. The meeting was addressed by various speakers. Letters to Gladstone were adopted demanding the release of those now in prison. The proceedings were most enthusiastic. No disturbance of the peace occurred.

LONDON, Aug. 3—The *Daily Telegraph* says that France has now entered upon a career of national development unexampled at any previous stage of her existence. The Emperor assumes the character of constitutional sovereign, under circumstances which encourage us to hope for the success of an enterprise fraught with immense consequences, not for France only but for the world.

Hon. Samuel Shellabarger, American Minister to Portugal, arrived at Southampton to-day.

The *Times*, this morning, in its money article says there are strong rumors that the preliminaries of an agreement between Spain and the United States, with respect to Cuba, have been arranged.

Eastern States.

NEW YORK, August 5—Resolutions were passed at the Tammany Hall meeting last night, to hold the British rejection of the claims of Irish American citizens as a present international question between this country and Great Britain superior to those arising out of the conflict between the two countries on belligerent rights of the North and South; that the sympathy of the democratic party is with the Cubans, that so far as we can without rendering ourselves amenable to the neutrality laws, we will endeavor to succor and comfort the struggling people of Cuba; that if the administration on subjects involving the sovereignty of American citizenship would only exercise the alacrity which it has observed towards hunting Cuban refugees and detaining them at Fort Lafayette until they took the oath, our national honor would be better vindicated and a just demand for sympathy be widely gratified, that the recent outrages by the Spanise Government in Cuba, in the execution of American citizens without form of trial, should have received the most instant attention at the hands of Grant's administration, such as would have been given in behalf of outraged American people, had the Democrats been at the head of the government; that it is in vain for the Administration, and against the wishes of the Cubans, to attempt to acquire their island by purchase and so make them citizens of the United States; that it is the duty of every patriot to demand that the Government awake from its reticent imbecility, and endeavor at once to right the American nation upon these questions of outrage by British and Spanish officials on the sovereignty of American citizenship. Governor Hoffman sent a letter saying that our Government had been disgraced by its failure to protect American citizens from injustice, cruelty and oppression, whether in Great Britain or Cuba, and it is the mission of the Democratic party to wipe out that disgrace, and they will do it at the next Administration. Let us not have peace while the rights of American citizens are trampled upon.

One of the captured fillibusters who refused to sign an agreement not to violate the neutrality laws, was sent to Blackwell's Island as a vagrant.

PHILADELPHIA, August 4, 10 p m—Since 7 o'clock this evening, an immense fire has been raging in the U. S. bonded warehouse on Lombard street. The wharf building contains 80,000 barrels of whisky, which will be totally destroyed. The loss will reach $2,600,000. The fire was caused by the explosion of a boiler. It is thought the engineer and watchman have perished in the flames, which are spreading frightfully.

WASHINGTON, August 4—New developments are being made daily, concerning the spurious ten dollar greenbacks. Two specimens received to-day, bear witness that they are a new issue, for all the defects previously referred to have been removed. The general appearance of the notes exactly corresponds with the genuine so that these last defy detection by professional experts.

NEW YORK, Aug. 3—A telegram has been received at Washington that the proposition which General Sickles has laid before Marshal Serrano and his associates is as follows: Spain shall recognize the independence of Cuba, under the Government of Cespedes; Cuba shall pay Spain indemnity for the resignation of rights hitherto exercised by the mother country, the amount of this indemnity to be specified in a treaty. The indemnity, whether fixed at a hundred millions, or fifty millions, or twenty-five millions, is to be in bonds by the Cuban Government, payable, with interest, at the expiration of a convenient period. The bonds to be guaranteed by the United States; an armistice to be proclaimed between Patriots and Spanish troops in Cuba, immediately upon the execution of the treaty. The island shall be evacuated by the Spanish forces as soon as the treaty is ratified by the representatives of the Cuban people, and guarantee of the bonds approved by the Congress of the United States. If these terms are not at once accepted by the Spanish Government, the United States will, without delay, recognize the independence of Cuba.

Marshal Barlow, of New York, has seized eight gunboats, built by order of the Spanish Government, and lying at the iron works of Delameter & Co. Vessels of the same class have also been seized at Greenport, Long Island, and Mystic, Connecticut.

Clement Harwood, *alias* Charles Hope Palmer, was arrested yesterday, charged with having committed forgery in England. Fifty thousand dollars, in English and French notes, were found on his person.

Japan.

The coast war continues to rage with increasing violence. The latest advices from the North are to the effect that Hakodate had fallen, and that Enomalo and his desperate band were at Kamaeda, at bay, surrounded by the Imperial forces. Two Japanese war vessels, the Eagle and the Emperor, were destroyed by the Southerners, who poured shot and shell into Hakodate, the guns of the fleet being well served throughout the action. An eye witness of the fight says the troops on both sides marched up to attack and took up their position under a heavy fire with great coolness.

The Japan *Gazette* gives the following additional particulars of the attack on Hakodate on the 9th of June: The Imperialists commenced operations against the place and in the teeth of the most deadly fire from a strongly posted foe, they advanced with the steadiness of European troops and succeeded in reaching and taking a fort that was the advance post of the Tokugawa men. They entered the fort at about 2 o'clock p.m., having fought every inch of the way, a distance of nine miles as the crow flies, from the post they left at 5 o'clock in the morning. The fort was commanded by Captain Brunet and the Japanese Commande-in-Chief. The latter was killed. After the fort was taken Captain Brunet did all he could to encourage the defenders; but they would not stand any longer, and made good their retreat to the next fortified station. Both sides suffered frightfully. An eye witness describes it to us as a butchery; but it was genuine fighting, with all the appliances of science in the shape of big guns, Snider rifles, and the manner in which they maneuvered. The attacking party was materially aided by the fleet, which sent shells right into the midst of the enemy and did more than anything else to demoralize them.

The steamer Huyomoro was wrecked on a rock, some seventy miles from Yokohama, June 17th, and went down with all on board. She was steaming at a speed of about fourteen knots and when about 200 yard to the eastward of the Plymouth rocks she struck violently on a sunken rock. Among the lost was James E. Wainwright, formerly of San Francisco.

Canada.

HALIFAX, Aug 3.—The gunboat Eclipse has arrived at Rio Grande. She had eighteen deaths by yellow fever. The frigate Barnetta has also arrived with yellow fever aboard.

TORONTO, Aug. 4.—Four buildings were destroyed by fire this morning. During the fire a chimney fell, seriously injured four men.

The Royal Canadian Bank resumes on the 15th August.

The hack drivers are on a strike. Not a cab has been on the streets for two days. The new by-law regulating fare has caused the difficulty.

Nevada.

CARSON, August 4—About noon today, Mrs Lookie, her brother, Mr Spooney, and her child, while on their way from Spooney's Station to Carson, were stopped by a foot-pad about two miles east of Spooney's station, who presented a six shooter and made Spooney get out of the wagon, when the team started and ran away, upsetting the wagon and injuring both occupants. The child is not expected to live. The robber got nothing. Parties are in pursuit.

ROSEVILLE ACADEMY,
YATES STREET, ABOVE QUADRA
VICTORIA, V. I.

MRS M. F. JESSOP, HAVING BEEN solicited to reopen School, begs to announce to her former patrons and the public generally that on MONDAY, August 2d, she will receive a limited number of young ladies, who will obtain thorough instruction in the usual branches of an English education, including Mathematics, Astronomy, Book-keeping, &c, together with French, and Vocal and Instrumental Music.
