## SYRIA.

Under the auspices and by the labours of the Vicomte Ouffroy an establishment is about to be formed on Mount Lebanon; a hospitium, which will contain an asylum for the orphan children of the Maronites, an hospital for the sick, a resting place for travellers, and a school for the education and instruction of the native youth of that part of Syria. The establishment will enjoy the supervision of the Maronite patriarch in virtue of established custom and well-known treaties, and will be under the natural protection of the French Consul. When the edifice is erected there will be appointed a council of direction, holding of the Superior council established at Paris, and both will find auxiliaries in general councils to be founded in different states of Europe which will be represented in the superior council by the foreign members of that body. The names given as forming the nucleus of the superior council are a guarantee for the success of this most Catholic work.

SANDWICH ISLANDS.—M. Huguenin, of Bordeaux, has received a letter from Father Tignac, procurator of the congregation of Picpus, dated Valparaiso, 28th October, 1842, in which it is stated that Father Maigret had informed him that 8000 neophites had already been made in the Sandwich Islands, notwithstanding the persecutions raised by the Protestant missionaries. The speedy conversion of all the inhabitants to the Catholic faith is likely to follow, if the Catholic missionaries be allowed to pursue their holy functions without molestation.

FATHER MATHEW.—This whole-souled philantropist continues his indefatigable temperance labors in London. It is estimated that he has administrated the pledge to more than a million of people; and he proceeds in his good work with the sanction of many of the most distinguished persons in the empire. He has received an invitation to visit Germany—and it is stated that our fellow-citizen, Abbot Lawrence, who has attended his meetings, has promised him a warm and handsome reception, should he visit the United States.

## SHAVING SOAP.

A superior article which will produce a rich, heavy lather even in cold hard water: it is emollient and softening, being deprived of a large portion of its alkali which renders it less caustic than other soaps. These peculiar properties combined, present an article far superior to the soaps in common use, as it does not impart to the skin a rough appearance

## Dr. SPOHN'S SICK HEADACHE REMEDY.

Read the following from Judge Patterson, for thirty years the first Judge of the County, in which he lives.

Middletown, N. J., March 12, 1840.

Messrs. Comstock & Co.

Gentlemen—You are at liberty to make such use of the following certificate as you deem will best subserve the purpose for which it is intended.

*[Certificate of Judge Patterson.]*

I HEREBY CERTIFY that my daughter has been afflicted with sick headache for about 20 years—the attacks occuring once in about two weeks, frequently lasting 24 hours, during which time the paroxysms have been so severe, as apparently soon to deprive her of life. And after having tried almost all other remedies in vain, I have been induced as a last resort to try Spohn's Headache Remedy as sold by you: and to the great disappointment and joy of herself and all her friends, found very material relief from the first dose of the medicine. She has followed up the directions with the article, and in every case when an attack was threatened has found immediate relief, until she is near permanently cured. The attacks are now very seldom, & disappear almost immediately after taking the quantity directed. A hope that others may be benefited by the use of this truly invaluable medicine, has induced me to send you the above, and remain your obedient servant.

JEHU PATTERSON,
Judge of the Court of C P

## KOLMSTOCK'S VERMIFUGE.

THIS remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults.

THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for this sickness until too late to cure the real cause.

What an immense responsibility then rests upon the parent who does not know, and too doctor who does not understand the complaint which is destroying those precious flowers of life—children.

What should be done?

The answer is plain. Give this vermifuge, which will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. Mercury is the basis of most worm remedies; and the remedy is sometimes worse than the disease. So never use lozenges, but rely on this. Every person will be convinced on one trial, that it is the most perfect cure ever invented.

The immense sale that this vermifuge has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to all persons whom they think may be benefited by it.

Speak of it in all families, and you will do your duty to your fellow creatures, and feel assured of the approbation of all good men, and will receive your reward in heaven.

We call on all good citizens to make known the effects of this wonderful remedy.

Remember and ask for Kolmstock's Vermifuge.

## HEWE'S NERVE AND BONE LINIMENT.

This article is offered to the public as a never-failing cure for the Rheumatism, and it has for a number of years sustained its reputation, and accomplished cures which had defied the power of every other article. In acute and recent cases, the relief is invariable, after one or two applications of the Liniment, and in chronic Rheumatism, the cases of cure are numerous. It is truly a remedy that reaches the nerve and bone with the most happy effect.

☞ This medicine can be had at Bickle's Medical Hall; and at the Drug-gist shops of C H. Webster and J. Winer Hamilton.
