The Provincial Wesleyan.

Items

The trade of Iceland, which was originally confined to a single company and since restricted to the Danes, has lately been opened to the whole world on equal terms.

The Rev. Dr. Wightman, of Charleston, has retired from the editorial chair of the Southern Advocate, to take the Presidency of a college in South Carolina.

An Arkansas paper states that not less than one hundred horses have been killed in Union County, by the gnats, within the past week or three weeks!

Connecticut has secured a prohibitory law, to go into effect on the first of August next. It passed both Houses by very decided majorities

Herapath's Railroad Journal states that Railroad Stock has depreciated in Great Britain to the amount of £60,000,000 since the commencement of the War.

A traveller in a stage coach not famed for its celerity, inquiring the name of the coach. "I think, sir," said a fellow passenger, "it must be the Regulator; for I observe all the other coaches *go by* it."

His Excellency the Governor General has been pleased to appoint Lawrence Oliphant Esq., Civil Secretary and Superintendant General of Indian affairs for the Province of Canada.

The Belleville *Tribune* says that six men were drowned lately in the river Trent. It is stated that the men were driving timber down the river on the Sabbath, and, unfortunately, got entangled with it, and thus perished.

An old writer says that when cannons were used as negotiators, the cannons of the church were useless—that the world was governed first by *mitrum* and then by *nitrum*—first by St. Peter and then by Salt Petre.

A commercial circular dated Penang, April 4, states that the crop of Nutmegs will probably not exceed those of last year. A species of disease, which prevails more or less on all the plantations, is said to have attacked the tree.

The Established Church of England has within the last twenty years, without the assistance of the State, built two thousand Churches, at a cost of £5,500,000 or $27,000,000

A few miles from Trenton lives a woman of masculine frame and disposition, who is a very skillful mechanic. She has constructed a hand some carriage, makes and plays violins, and has manufactured a gun, besides many other articles She is entirely self-taught, and is only 25 years old.

Sponge fishing is said to have become a very profitable business in the neighbourhood of Key West. One hundred thousand pounds is reported to have been gathered during last year, and the sale amonted to twenty-five thousand dollars The article is mostly procured by natives of the Bahamas.

In 1822 there was not one convert among the natives of New Zealand. Now they can, without impropriety, be called a Christian people. Cannibalism is extinct, agricultural impliments take the place of weapons of war, and the people, instead of wasting their neighbours' land, are diligent cultivating their own.

A despatch from Washington to the New York evening papers states that despatches have been received at the State Department from England, which announce that the British government has come to the determination of taking possession of the port of Sitka and all the Russian ports in the Pacific.

On his plantation near Charleston, S. C., Mr. T. R. Waring raises Cashmere goats, which seem perfectly at home, and apparently like the climate. The weight of their fleeces is about equal to that of the best kinds of sheep, and ten times as valuable. The animals were introduced into South Carolina by Dr. James B. Davis, of Columbia.

Mr. C. J. Ardouin, Jeweller, St. John Street, had a case of jewelry, about £275 sterling in value, shipped per the steamship "Charity," from Liverpool, instead of which he, on Monday last, received a case that had apparently been opened, containing two English fire bricks!!

The Montreal *Gazette* learns from a reliable source, that the government of Canada was offered to Lord Panmore (late Fox Maule) but declined. It was then offered to the Marquis of Chandos, who has not yet accepted or declined the post.

A county sculptor was ordered to engrave on a tombstone the following words:

"A virtuous woman is a crown to her husband."

But the stone being small, he engraved it:

"A virtuous woman is 5s. to her husband."

A general convention of delegates from Young Men's Christian Associations of the United States, was held in Buffalo on the 7th inst. The object of the convention was to discuss topics affecting the efficiency of such associations, and to consider upon plans to extend their influence.—It was resolved to form a general confederation, and to hold periodical conventions.

When the celebrated Patrick Henry, of Virginia, was near the close of his life, he laid his hand on the Bible, and addressed a friend who was with him: "Here is a book worth more than all others printed; yet it is my mistortune never to have read it with proper attention till lately."

The Chinese are said to have laboured for centuries under great embarrassment, for not knowing how to make a barrel. They could do every part without any difficulty; they could make the staves, and set them up, and hoop them in, and, indeed, with the help of a man inside, they would put the second head in; but how to get the man out, after the barrel was headed up, was a problem which they could not solve.

In a recent speech at Toronto, Canada, Rev. Dr. Duff said, "It is something dreadful to think of congregations meeting together fifty-two Sabbaths in the year, and being regaled with the highest banquet of a spiritual kind, while perhaps in the next lane or two, as in London, thousands are actually famishing and starving, never getting a crumb of spiritual food from one year's end to the other."

Darius Davidson, a celebrated naval architect of Boston, purposes to construct an immense steamship, 700 feet in length. She is to be driven by 16 separate engines having a total of 5,000 horse power, at the average speed of 25 miles per hour, and, to have berths and state rooms for 3,000 passengers. These figures seem large ones, but we are fast travelling towards their realization.

We have noticed with much pleasure the strong protestations of a portion of the Western Canada papers against the encouragement given to that moral nuisance, the travelling Circus. Secular as well as religious papers have denounced it for the pernicious influence it exerts over the community. The lessons in folly, immodesty, and vulgarity given in such places, make an impression, especially, upon the mind of youth, of a most fearful character. The individuals connected with circuses are generally of the lowest character, and always draw around them the most reprobate characters in the community.—We hope parents on no account allow their children to visit such corrupting amusements.—*Montreal Witness.*

Acapulco was still blockaded by the war vessels of Santa Anna. The city was in possession of Alvarez.

A destructive fire had occurred at Marysville California, consuming the Post Office, Theatre, Orleans Hotel, Presbyterian Church, and other buildings. Loss $200,000.

Another fire had ocurred in San Fransisco, in Dupont-street. Loss $70,000.

Mining accounts were still flattering.

The growing wheat crops throughout the Union are represented to be unusually promising. Everywhere in the north and west there is an increased breadth of land under wheat—say twenty per cent—and the prospect is, that the yield in Ohio, Kentucky, Indiana, Illinois, and other western States, will be twenty to twenty five per cent. greater than that of last year, in spite of the fly, the rust and the hard winter.

Eight or ten tons of hog hair were shipped a day or two since on an Ohio river boat for the East. The hog is now, we believe, the only unavailable part of the Swine, and it will not be a great while before it is put to some use.

A person once sent a note to a waggish friend for the loan of his *noose* paper, and received in return his marriage certificate!

HURD'S GOLDEN GLOSS FOR THE HAIR.

Among the many preparations for the growth of the *Hair* this GOLDEN GLOSS takes the lead. Three reasons will be given why it is so universally used and preferred to all others. 1st. Because it has proved the most effectual in Baldness. 2nd. Because it imparts a beautiful dark gloss and delightful perfume to the hair. 3rd. Because the Ladies, with fine discrimination, which they all possess have adopted it. Many other reasons could be given why it is a great favourite, but those who want mor have only to give it a trial. Price 25 cts. in large bottles. For sale by Druggists and Storekeepers everywhere.

D. TAYLOR, Jr., Boston, General Agent. Sold in Halifax by John Naylor and the principal Druggists. 244—269.

March 16, 1854. W. & A. 6m.

A Valuable Family Medicine

☞ So celebrated has Dr. M'Lane's Vermifuge become, that it is regarded as the only specific cure for worms. Families should never be without a supply of it. At this season particularly, when worms are so troublesome and frequently fatal among children, parents should be watchful; and on the first appearance of those distressing symptoms which warn us of their presence, at once apply this powerful and efficacious remedy. We are confident that it only requires a trial, to convince all that it richly merits the praises that have been lavished upon it It is safe and infallible. Volumes of certificates can be produced, showing its great medical virtues.

☞ Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, and take none else. All other Vermifuges in comparison are worthless. Dr. M'Lane's Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States and Canada.

Agents in Halifax, WM. LANGLEY and JOHN NAYLOR. 44

Resolutions by the People.

RESOLVED UNANIMOUSLY, That for the last two years we have been in the constant habit of using the Mustang Liniment, for Rheumatism and for all Sores, Bruises, Sprains and Burns, and it has never failed to give immediate relief.

RESOLVED, That we have also used the Mustang Liniment for the Piles, Erysipelas, Salt Rheum and Chapped hands, and that it has always cured.

RESOLVED, BY THE LADIES, That we have used the Mustang Liniment for Sore Nipples, Sore Breasts, Chafes and sores on Children, and for Moth or Freckles on the face and neck; and it has always proved effectual—leaving the skin smooth, soft and white!

RESOLVED, BY ALL AGES AND SEXES, That we shall ever continue the use of the Mustang Liniment, because we have tried and proved its efficacy.

See advertisement in another column.

June 1. 6m. 255—280

The misery, the disappointment, the interminaible expense of ineffectual "physic-taking," are now happily superseded by the use of Messrs. DU BARRY'S REVALENTA ARABICA FOOD, which, by a pleasing and natural action on the system, removes chronic and exhausting disease, and replaces langour and pain by vigour and health. Those whom it has restored to the enjoyment of life include persons belonging to all social grades and professions, and it is a proof that the emotion of gratitude is more general than cynics imagine, when we find upwards of FIFTY THOUSAND of the individuals thus relieved publicly expressing their sense of the benefits they have derived. The peer and the clergyman, the lawyer and the physician, the naval and military officer, the merchant, tradesman, and even the poor mechanic, have joined in this unanimous and unparalleled testimonial. Their acknowledgments partake of the same spirit which characterizes the communication of Mr. Evans Pepperall, who commences his letter by saying:—"For many years I have been a martyr to indigestion, acidity, heartburn, constipation, and nervousness to such a degree, that I was unrble to stay alone in my room, or walk out alone, being constantly filled with unaccountable fears; and I have had several fits, remaining unconscious for about half an hour. I had the advice of three eminent physicians, and taken their prescriptions for a long time, but my ailments only increased under their influence. Your excellent Food produced, I am happy to state, an immediate change for the better, and I am now, after two weeks' use of it, a wholly different being, with excellent appetite, clear tongue, free from acidity and heartburn, regular in my functions, and getting stronger every day. My nerves are perfectly tranquil, and I sleep most refreshingly. With gratitude to you for so happy a change, I remain, &c., &c., EVANS PEPPERELL." Another gentleman, who, like most others, invites Messrs Du Barry to refer sufferers to him, thankfully declares:—"I have found your incomparable Food an infallible preventative of the gout." The ladies are equally emphatic in their acknowledgments. Thus, Miss M'Lelland expresses her thanks for the "removal of dyspepsia and constipation from which she had suffered for many years Miss M. considers Mr. Du Barry's Food a most invaluable article of diet for invalids, being highly nutritious, strengthening, and restorative, and she will feel great pleasure in recommending it to her friends." What invalids most require is a CERTAINTY that the article recommended to them is capable of affording relief; that they will not have again to undergo (as they have so often done) the bitter process of trial and disappointment. This certainty they now possess, and it is no extravagance to express our confidence that it will prove the harbinger of glad tidings to millions. For further particulars we refer our readers to Messrs. Du Barry's advertisement in our to-days' columns.

Holloway's Pills, a certain Remedy for Debilitated Constitutions, Loss of Appetite, and Lowness of Spirits.—Mr. Richard White, of No. 8, Albion-square, Manchester-road, Bradford, was afflicted for several months with bodily weakness, loss of appetite, and lowness of spirits, he was for a long time a patient at the dispensary, but derived no benefit whatever, the medical attendant stated that he was in a deep decline, and that medicine was of no further use to him. About this time he was recommended to try Holloway's Pills, and this invaluable medicine speedily effected a perfect cure, and he has ever since enjoyed the best of health.

Hot or cold, sunshine or rain, washing day will come, and to get rid of its weariness use the Boston Chemical Washing Powder.

Late from Europe.

HARD FIGHTING AT SILISTRIA—SUCCESS OF THE TURKS

The Steamship Atlantic arrived at New York on Sunday, with Liverpool dates to June 14th.

Desperate fighting continued at Silistria. On the 7th the Turks made a *sortie* and destroyed the Russian siege works A Russian report says that Mussa Pacha, commander of Silistria, was killed.

It was thought the Turks would not hold out until the arrival of the Anglo-French reinforcements.

Admiral Napier's fleet was off Sweaborg on the 7th. The Russian fleet remained under the protection of the shore batteries.

It is repoted that the Czar refuses the last Austrian note, and that he threatens to invade Transylvania.

Secret negotiations between Austria and Prussia still continue.

MARKETS.—At Liverpool, the market for Breadstuffs was dull, and no change in prices. Western Canal Flour 39s. 6d. to 40s. 6d. Corn 40s. to 40s. 6d. Provisions were active

STILL LATER.

The R. M. Steamship Europa, arrived at New York on Friday last, with Liverpool dates to the 17th June.

Consuls quoted at 91¼.

Silistria still continued to hold out, no other news of importance.

Corn in limited demand at a slight decline.

Provision Market dull, at previous prices.

Sugar dull, and lower rates had been accepted.

Coffee firm, with a slight advance.

Tea Market firm at advanced prices.

Another Despatch.

Merchants Exchange, Halifax, July 3, 1854.

PER STEAMSHIP EUROPA AT NEW YORK.

It is rumoured that Austria and Prussia have jointly forwarded a Reply overruling the objections of the smaller German States.

The Baltic Fleet was at Boresund—twenty miles from Helsingfors.

Nothing later from Asia, Greece, or Black Sea.

The Allies still proceeding to Varna.

A Bill giving to Canada the privilege of an elective Senate has passed a second reading in the House of Lords.

Very wet weather in France excites fears for the growing crops

Prince Paskiewitch has been severely wounded

☞ An impression being prevalent in certain quarters, that Mr. George G. Gray, and Mr. William M. Brown, of this city, were parties to the production of an anonymous letter, addressed a few months since to the Rev. Dr. RICHEY, we are authorised and requested by the Doctor to state, that he has received the most satisfactory evidence that there exists no foundation for such an opinion.

ERRATA.—In the resolution of the N. S. W. District on Rev. Henry Pope's retirement as supernumerary, inserted in last Wesleyan, for that his zeal may be *extended*, read exerted.

Letters & Monies Received.

(See that your remittances are duly acknowledged.)

JUST received ex Kingston a supply o Zante Currants, fresh Also—10 bbls Burning FLUID, for sale at the lowest market prices at the ITALIAN WAREHOUSE.

June 99 Hollis Street

Still Later from Europe.

The R. M. Steamer *America* arrived at this port yesterday morning at 10 o'clock. The following are the most important items of news:—

DEFEAT AND RETREAT OF THE RUSSIANS.—On the 15th ult the garrison of Silistria made a sortie, attacked the Russians on ad points, and drove them across the Danube.

Pursuing their advantage, the Turks crossed an arm of the river, seized the opposite island, where the enemy had constructed seige works, and from which Silistria had been bombarded.—The Russians fled to the Wallachian bank of the Danube, and were compelled to witness the destruction of their batteries.

The Turks brought out their guns and erected batteries on the Bulgarian bank of the river, before the north face of the fortress.

The Russian battalions east and west of Silistria immediately began to recross the river, destroying their bridges as they withdrew.

The Russian army is in a most wretched plight. The men are downcast, and utterly dispirited. All the chief commanders—Prince Paskiewitch, commander of the entire army of the Danube; Prince Gortschakoff, commander of the investing corps; and General Schilders, director of the siege works—are wounded and disabled. Five generals were either killed or wounded on the 13th, and on the same day the siege works on the right bank were destroyed by the Turks, with immense loss to the enemy.

BUCHAREST, JUNE 18.—The Russians have evacuated Moguerelli and Simnitza. Large bodies of troops are retiring from Wallachia to Moldavia.

Five thousand Turks have reoccupied Turtukai.

Communications between Silistria and Schumla are secured.

Advices from Widdin of the 18th of June state that it is rumoured that the Turks have taken Giurgevo, and that the Russians lost 400 men and nine guns.

Five Russian Generals are reported killed or wounded in the affair of the 13th before Silistria.

Marriages.

At Dartmouth, on Tuesday evening, 27th inst., by the Revd. Alexander Romans, A. M., Mr. Stephen REEVES, to LEMIRA, youngest daughter of Mr. Adam Laidlaw.

On the 27th inst., at Windsor, by the Revd. Edwin Gilpin, A. M, Fowden HALIBURTON, Esq., of Whitley, near Wigan, to AUGUSTA LOUISA NEVILLE, daughter of the Hon. Mr. Justice Haliburton, of Clifton, near Windsor.

On Wednesday morning, 28th inst., by the Ven Archdeacon Willis, Capt Henry D. SMART, 76th Regt and A. D. C. to Major General Hon. C. Gore, to LOUISA, daughter of John Wallace, Esq.

On Sunday, 2nd July, by the Rev John Miller, Mr. Charles A. HINCKS, to Mary A. BARNSTEAD, both of this city.

At St. James Church, Kentville, on the 30th of June, by the Revd John Storrs, Charles ALLISON, Esq., of this city, to ELIZABETH, daughter of C. H. Rand, Esq.

Deaths.

At Onslow, on the 6th June, Mr. James MCCURDY Senr., aged 88 years, "a man who feared God," and "commanded his Household after him."

At Walton, on the 26th inst., aged 83 years, John PARKER, Esq., a native of Yorkshire, England.

Drowned, on the 23rd inst., John HARRINGTON, a native of St. John's, Newfoundland, and seaman of the steamer Col. Fremont.

At Lunenburg, on the 15th inst., Mr George ACKER, aged 85 years, an old and respectable inhabitant of that place.

On Saturday evening, Mrs. Elizabeth THOMPSON, widow of the late James Thompson, of Wittingham, Scotland.

DENTISTRY!

DR. FOSS,
Surgeon Dentist, from Boston,
(Rooms at the MANSION HOUSE.)

HAVING had seven years practical experience in his Profession, still continues to devote his personal attention to all its various branches, and give general satisfaction.

Dr F. is now prepared to extract Teeth positively without pain as thousands can testify who have submitted to his operations, and had from fifteen to twenty extracted at one sitting without rising from the chair. Teeth excavated and filled with pure Gold and so make them permanent and useful for life. Teeth cleansed to a beautiful whiteness, and restored to a healthy condition—Part or whole sets inserted by Atmospheric Pressure, which, for beauty and durability, surpass even nature herself.

S. FOSS, A. M., M. D.

PERRY'S HUNGARIAN BALM.

For Restoring, Preserving and Beautifying the Hair.

MUCH might be said in favor of this invaluable compound, but it is deemed unnecessary, as the simple fact that our Hair will, on some time or other, become the victim of its rate and manifold virtues. Therefore

If you have lost your hair and wish to restore it,
If you are losing your hair and wish to prevent it,
If you are troubled with Dandruff and wish to remove it,
If you have any Humour of the skin, and also if you are troubled with Nervous Headache, and wish to cure it,
If you have Hair Enters at the roots of the hair, and wish to destroy them,
If you have harsh, dry, and wiry hair, and wish to have it come soft, pliable, and [illegible] and thoroughly the wish to have it come soft, pliable, and [illegible] to the latest period of life,

USE PERRY'S HUNGARIAN BALM.

Price 25 and 50 cents—in large bottles.

Prepared and sold, Wholesale and Retail, by HORE &
