THIS COMPANY, which has been established 20 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.

Very low Rates of Premiums on Young Lives.

The security of a large realised and invested Capital.

Large Bonuses on Policies effected on the high Scale.

Prompt settlement of Losses.

The full value given for Policies when discontinued.

On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.

Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.

The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.

ANALYSIS OF THE ST. LEON WATER.

I HAVE assisted to analyze the Water from the Spring of St. Leon, and feel it to be strongly saline. It contains chloride of sodium in large quantity, with magnesia and lime, partly as carbonates, combined with excess of carbonic acid, and partly as chlorides. The stone of the vicinity appears to be dolomite, it contains also a little iron, in solution in which, I have detected, in small quantities, salts of barytes and strontia, which had hitherto been met with only in the Waters of Bristol, and in those of Kissingen, which is stated to be the source of Cassius, Pharaoh, the Prince, and the Autocrat of Calcutta.

The contents of one pound of 7680 grains, are calculated from my analysis, as follows:—

Chloride of Sodium,	99,67800 grains.
Chloride of Potassium,	3,20000 do
Chloride of Lithium,	0,04000 do
Chloride of Strontium,	0,12700 do
Chloride of Calcium,	0,62000 do
Chloride of Magnesium,	8,42000 do
Iodide of Magnesium,	0,02000 do
Bromide of Magnesium,	0,04000 do
Sulphate of Magnesia,	0,02000 do
Carbonate of Lime,	2,44000 do
Carbonate of Magnesia,	1,44000 do
Carbonate of Iron,	0,04000 do
Alumina,	0,04000 do

Empowered by Special Act of Parliament, 4 Vict. Cap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

General Agent for the Provinces.

THE Advantages offered by this Institution are MANIFOLD, and the Rates of Premium as low as security to the Assured, and a safe business will admit of.

The following are some of the advantages offered by this Society:—

The peculiar Benefits secured to the Assured by the principle of the LOAN Department.

One half of the Premium for the first five years may be paid by the Assured's Note of Hand. Notes need not be paid, but may be left at interest, to be deducted from the Bonus payable to the Assured.

Insurers can at all times obtain from the Society a Loan to the extent of two-thirds of the Premium they have paid upon their Policy, and guaranteeing a Bonus equal to the Premium.

This important advantage may be secured without any embarrassment, to let the Policy lapse, or to pay it, and at a time such a provision may be most needed for their families.

No Charge for Stamp Duty, Fees of Medical Examination, &c.

The Bonuses divided Annually, in Cash, or Reduction of Premium, or in addition to the Sum Assured, whichever of these the Party Assured may *each year* desire, after the Policy has been held for Four Years, at which period the Bonus becomes payable for the Four Years—thus affording a Yearly Bonus.

THIRTY DAYS allowed after the Quarterly Day of Premium becomes due, without Forfeiture of Policy.

The General Agency for the British North American Colonies being established at Montreal, RISKS will be accepted by the Agent, Policies issued and Temporary Policies at once granted.

The Local Board meet regularly at the Agency Office, and by them the business of the Agency is conducted, thereby affording to the Assured the utmost facility.

LOANS will be Granted, and LOSSES paid, at the General Agency, without referring to the Parent Office in London.

Pamphlets, Blanks, and all required information, may be had on application to the AGENT, at the REAL OFFICE, or to the AGENT in any part of the Province, through whom proposals for Assurance will be transmitted.

CONNECTICUT MUTUAL LIFE INSURANCE COMPANY,
HARTFORD.

Incorporated by the Legislature of Connecticut, 1846.

Guaranty Fund and Accumulated Premiums $100,000.

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is based upon the *purely mutual system*, with a Table of Premiums as low as is justifiable with the permanence and security of an Institution of a Mutual character. Every person taking out a Policy is a member, and entitled to vote at the Annual Meetings. The Dividends are declared annually on the 31st January. All persons insuring previous to that day, participate in the profits of the year, which are passed to his credit upon the books of the Company; to be paid during the life of the insured, in the order of rotation, from the *excess of a capital of profits of $200,000.* The accumulated capital of profits having been obtained, the Directors will be authorized to pay the entire year's Dividends at the close of the present business year; afterwards, each year's Dividends in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Premiums before his Dividends will be redeemed. The instances in the conditions of this Company, over those usual, do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Premium, after a few of the first years have elapsed, or accumulate notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its required value. All Premiums amounting to fifty dollars or more,
