Kemp's Manure Spreader,

PULVERIZER AND CART COMBINED.

The Spreader is the invention of a practical farmer, and is the latter use of manure. It makes the rootbeet and mangel culture of the farm the easiest and expediest. Handles all kinds of manure from the farm, from the sheet, including lime-ashes, muck, etc. Covers swaths from 3 to 12 feet wide, in any condition, wet or dry, placing any amount desired per acre rapidly upwards, broadcast or in drills, in one-tenth the time and labor required by hand. Covers swaths uniform and evenly with finely pulverized manure, insuring a plant food equality of work cannot be approached by hand labor at ten times the cost. Many farmers write: "It saves its cost every year." Another writes, when ordering some at the repeater: "We have just finished cutting over 200 tons actual weight of hay, 30 tons of which we spread with the Spreader in consequence of easily spreading the manure used in top dressing."

The Spreader is indispensable has it become. It is a staunch and reliable implement, well made of best material, durable, not liable to breakage, with fair care, and can be readily used as a common cart. For illustrated catalogue, giving full particulars, send to the manufacturers, KEMP & BURPEE MANUFG CO., Syracuse, N. Y.

Jersey Bulls.

Oaklands Rex,

(No. 5830, A. J. C. C.)

This Albert-Paley Bull, whose ancestors are among the greatest butter makers of living cows, and who is admitted to be one of the richest Bulls living, and

Le Breve,

(No. 5694, A. J. C. C.)

chosen by Mr Willis O. Hazard, acknowledged to be the best judge of Jerseys on this continent, as his own opinion the best bull to be bought in America, regardless of price," will serve a limited number of pure Jersey Cows at $50 each. Keep, $2 a week.

The skin of both these Bulls is as yellow as gold, hair soft and hide most mellow. Le Breve is half brother to Welcome, 1st Gilmour Prize Bull over all "Jerseys," and half-brother to Noble, 1st prize Bull over all England.

The pure Jersey Bull

Sir George of St. Lamberts,

(No. 6637, A. J. C. C.)

whose get can now be seen at my farm and cannot be surpassed in quality and individual excellence, and whose half sister, Nancy, of St. Lamberts, made me 12 lbs 13 oz of butter in 7 days at 2 years old, will serve approved grade cows at $5 each. Keep, $2 a week. None but A.1 cows or heifers approved of.

NEW DISCOVERY.

TRADE MARK
LITTLE'S CHEMICAL FLUID
The New Sheep Dip
NON-POISONOUS

IS SUPERIOR to all OTHER DIPS AND SALVES.

It is certain in effect, for not a single Tick or Louse can be found on the sheep dipped.

It is Warm and Protecting to the Skin, water-proofing it against wet weather.

It increases Quantity, and improves the Quality of the Wool, for Wool clipped from sheep twice dipped has been declared worth 4s per tod more money.

It is easily mixed, as it mixes perfectly with cold water.

It is not only Non-Poisonous, but is Valuable as a Medicine, for given internally, it perfectly cures Lambs of Worms in the Throat, and also Horses troubled with Bots or Worms.

It is the most Effective Disinfectant, Deodorizer and Antiseptic known, and has completely stopped outbreaks of of Foot and Mouth, and other infectious diseases.

AWARDS GRANTED TO THE MANUFACTURERS OF THE CHEMICAL FLUID:

Medal for special merit by the Sanitary Institute of Great Britain.

Premium Diploma at the International Dairy Fair, New York.

First Order of Merit, Adelaide Exhibition, Australia.

SOLD IN LARGE TINS AT $1.
