Hugh M'Monagle and others, of King's county and Westmorland, praying Legislative aid on behalf of the said Hugh M'Monagle in consequence of the very heavy loss sustained by him in endeavouring to import three thorough bred Horses into the Province and which were lost in the ship Neptunus in October last: It appears to the committee that Mr. M'Monagle was induced by the grants made last Session for encouraging the importation of Horses, to proceed to England for the purpose of procuring one or more of the description required; that he purchased three, at a cost of £757 sterling, besides incidental expenses and the loss of his time; that the ship containing the Horses, on her passage out, struck on the North West Ledge of Briar Island in October last, in consequence of which she sunk in a few hours: The Petitioners do not ask that any part of the money already expended may be reimbursed to Mr. M'Monagle, but they pray that Premiums for the importation of one or more Horses of improved breeds may be secured to the said M'Monagle, under proper guards and conditions. The committee are unanimously of opinion, that Premiums should be secured to Mr. M'Monagle on two English Hunters, and one thorough bred; £200 each for the two former, and £150 for the latter: neither of the Horses to be over six years of age nor under three, nor less than sixteen hands high, to be imported from England during the present year; and before either of the Premiums be paid, it shall be certified to his Excellency by three competent judges, to be appointed by his Excellency for that purpose, that the Horses imported are in every respect worthy of the Premiums, and that sufficient security is given for the keeping of the said Horses within the Province for the period of five years for the purposes intended.

No. 11. Is the petition of Samuel Geddes, of Wellington, in the county of Kent, praying for a Grant to enable him to purchase two hundred acres of Land on the Road from the Bend to Richibucto River, on condition of his settling on the same: The committee recommend that a sum equal to the purchase of one hundred acres be granted on the conditions stated.

No. 12. Is the petition of William Green, praying for a grant of money to enable him to purchase an allotment of Land at the Big Magaguadavic Lake, upon his relinquishing the lot he now owns at the Harvey Settlement: The committee cannot recommend a compliance with the prayer of this petition.

No. 14 Is the petition of John E. Turnbull, praying Legislative encouragement to the Manufacturing of Agricultural Implements: The committee cannot at present recommend any direct encouragement for this purpose.

The committee are of opinion that further Legislative encouragement should be held out for introduction of improved breeds of Horses, and they recommend that the following sums be granted in Supply, as Premiums for this purpose, and placed at the disposal of his Excellency the Lieutenant Governor or Administrator of the Government for the time being:—

The sum of £200 for the best thorough bred stallion, not under sixteen hands high, and not less than four nor more than six years old:

The sum of £150 for the second best of the same description and size.

The sum of £200 for the best Cleveland Bay stallion, not under sixteen hands high, and not less than four nor more than six.

The Horses to be imported from the United Kingdom during the current year; and before any Premium is paid, it should be certified to his Excellency the Lieutenant Governor, by three competent judges to be appointed by his Excellency the Lieutenant Governor, by three competent judges to be appointed by his Excellency for that purpose, that the Horse is in every respect of the character, age and description required, and that the owner or importer thereof is justly entitled to the premium; approved security to be given that the Horses shall be kept in the Province for five years for the purposes intended.

The committee recommend that the grants in aid of Agricultural Societies be continued.

On motion of Mr. Partelow, Resolved, That the two several Petitions of James Eagle and Henry Kinney, [illegible] Parish of Portland, in the county of saint John, praying reimbursement of expenses incurred in consequence of wounds received while in discharge of their duty, and which was presented to the house on the thirty first day of January last, and ordered to lie on the table, be now referred to the committee of supply.

On like motion of Mr. Partelow—Resolved, That the petition of Isabella Gough, Widow of the late James Gough, a Nightly Watch and Policeman of Portland, who was mortally wounded while in the discharge of his duty, praying that pecuniary relief may be extended to her, and which was presented to the house on the fourth day of February last, and ordered to lie on the table, be also referred to the committee of supply.

Friday, March 17.

Resolved, that there be granted to his Excellency the Lieutenant Governor Administrator of the Government for the time being, a sum not exceeding £300, to be applied in the employment of the Dredging Machine on the Shoals of the River saint John, and such other plan as may be required, the ensuing year.

To Messrs William Snow and son the sum of £50 for the encouragement of their Establishment for the manufacture of Cloth.

To the Justices of the Peace for the county of York, the sum of £19 12s 1d to remunerate them for expenses incurred in trying eleven Prisoners, convicted at the Court of over and Terminer and General Gaol Delivery, in October last, to the Provincial Penitentiary.

Monday, March 20.

On motion of Mr. Ritchie,—Whereas several Petitions have been presented to this house, praying that the Seat of Government may be removed from Fredericton to the City of saint John; and whereas it is highly desirable to obtain the probable expense which such proposed change would occasion therefore

Resolved, that an humble Address be presented to his Excellency the Lieutenant Governor, praying that his Excellency will be pleased to appoint two or more Commissioners to inquire into and make an Estimate during the recess, of the probable expense which would be incurred in accomplishing this object, and report their proceedings to his Excellency for the information of the Legislature at its next meeting.

To which Resolution Mr Street moved the following amendment—To expunge the whole thereof as well as the Preamble thereto and substitute the following:

Resolved, That inasmuch as the removal of the Seat of Government from Fredericton to the City of Saint John, must be attended with a very heavy expense, and in the present state of the revenue of the general interest of the Province, it is inexpedient to pass any Resolution, authorising the appointment of Commissioners to inquire into the probable expense thereof.

The question being taken upon the said proposed amendment, the House divided as follows:—

Yeas: The hon. Mr. Rankin, the hon. Mr Baillie, Messrs. Boyd, Brown, Creaney, Carman, Street, Crocket, L. A. Wilmot, Fisher, Taylor, Hayward, Miles, Gilbert, Connell, Partelow, Montgomery, Smith, Wark, Porter, Reid, McLeod, Reed, Spooner.

Nays: Messrs. Barberie, Steves, Hannington, Landry, Ritchie, Botsford, Vail, R. D. Wilmot, Woodward, Jordan.

And so it was carried in the affirmative, and the amended Resolution adopted by the House.

"Your Committee would earnestly recommend, that in all cases where now Bridgesare to be erected if practicable, Stone should be used instead of Wood materials, for although the first outlay would be materially increased, a great saving would in the end be effected.

The usual Grant of £400 is also recommended to be expended through the Lands of the Nova scotia and New Brunswick Land Company.

The Parish of Portland Police Bill has passed the House of Assembly, and we are informed there is little doubt of its going through the Council. The assessment is limited to £1200.

APPOINTMENT OF DR. SUMNER, BISHOP OF CHESTER, TO THE PRIMACY. The Lord Bishop of Chester, (Dr. Sumner,) is appointed to succeed the late Dr. Howley, as Archbishop of Canterbury. The Right Rev. Prelate has left the Palace for London, in compliance with Royal commands.—*London Globe.*

His Lordship has a strong bias to evangelical principles.

SOMETHING LIKE AN IMPOSTOR.—An old vagabond has been for some years past practising the trade of a mendicant about the streets of New Orleans, and the police accidentally discovered that so far from his being an object of charity, he was the holder of $15,000 worth of property in Louisiana, and had $5,000 deposited in the City Banks. We need not say that he "went to jail."

LIVERPOOL TIMBER TRADE.

Review for the month ending Feb. 25.

PINE TIMBER.—There has been more active business this month at improved prices for St. John, and declining prices for Quebec. The sales of Quebec amount to above 12 cargoes, varying from 12½ to 15d per foot, as in quality, the lowest and highest rates having been paid through auctions.—Two cargoes of St. John, of 18½ and 19 inches average, have been sold at 12d and 12½d respectively, and this week two fresh arrivals have been sold, averaging 17 and 19½ inches, at 16d and 18d per foot respectively; the retail value for moderate sized Wood being 15½d per foot. 146 logs Nova Scotia were sold by auction at 12 per foot, and 150 logs Hemlock at 9¾d to 10d per foot.—Holders of St. John are firm just now, and the business of chartering has this year opened with St. John instead of Quebec.

RED PINE has maintained its value; the sales by auction having yielded from 19½d to 21d per foot, whilst by private bargain, off the quay, with cargo, 19½d per foot has been accepted. However, the stock, to meet the forthcoming imports of Baltic Fir, to be admitted at the last reduction of duty in April, are quite sufficient.

QUEBEC DEALS have gone off readily at from £8 10s to £10 12s 6d for second and middling qualities Yellow Pine, and £8 10s per standard for Spruce.

PLANK—NEW BRUNSWICK AND NOVA SCOTIA FIR.—6,428 pieces fair quality Miramichi Yellow Pine were sold by auction at 2d 3-16ths per foot of 2 inches, and 10,000 Spruce at 2d to 2½d per foot, with some Scantlings at 1¾d per foot. St. John Spruce,—a cargo of middling quality was sold off the quay at from 4d 15-16 and 2d 1-16th per foot, and a better cargo from the Store at from 2d to 2d 7-16ths per foot as in dimension. The last sales of St. John were at 2d 1-32 and 2d 3-16th per foot of the former, one-third was Red Pine, and the remainder Spruce. Boards have not been much inquired for, and few have been imported of late. Prices of Deals and Boards are improving.

BIRCH TIMBER.—447 logs Nova Scotia, of middling quality, were sold by auction at from 11½d to 12½d per foot, 100 logs better qualay, at 12d per foot for small size, and 17½d for large; 437 logs Prince Edward's Island were sold by auction at from 14½d a 16½d per foot, and by private bargain a cargo of good Nova Scotia at 14d per foot. The last sale of St. John, with cargo, was at 14d per foot.

RAILWAY SLEEPERS.—17,000 pieces Canada Hackmatack, 9 x 10 x 5 were sold at from 3s 1d to 3s 4½d each and 9,930 pieces, 9 x 9 x 4½ at 2s to 2s 2½d each, and 549 pieces 9 x 9 x 9 at 4s 4d each.—This week 3s 9d and 2s 9d each has been refused for a cargo 9 x 10 x 5 and 9 x 9x 4½ respectively.

BRUTAL OUTRAGE.—A most brutal act was perpetrated about a fortnight ago, at a farm on the Mascareen Shore, within four miles of Magaguadavic, on a mare, the property of Captain Henry Helms, of the St. John Packet *Favourite*. The animal was observed to be falling off in condition, and to be, seemingly, disinclined to eat. This induced the owner to examine into the matter, when it was discovered that some ruthless wretch had inflicted, apparently with a knife, a gash of about 6 inches long in the under side, and two severe stabs on the right side of the tongue. The poor creature died shortly afterwards.

It will be a great pity if the monster who could so wreak his spite on a poor dumb animal should escape detection.—We hope he may yet be discovered, and meet with his deserts.—*Charlotte Courrier.*

EXTRAORDINARY THEFT.—No less than six large quarters of Beef were stolen a few days ago from the premises of Mr. James Healy, butcher, in St. Andrews, and notwithstanding a vigilant search has been since made for them, no clue to the place of their concealment can be obtained.—*Ib.*

AN EVENING WITH CHLOROFORM.—A practice has assumed the form of a mania in Edinburgh, certainly not less exciting than the Railway mania. It consists in converting fashionable evening parties into a species of pharmaceutical association for experimenting on the effects of chloroform and other substances of similar properties. One of these exhibitions is worthy of notice. A number of ladies and gentlemen were invited to an evening party in the house of a respectable medical practitioner. At ten, instead of music and dancing, the learned doctor entered with a flask and sponge, and every guest was treated to a trip to the realms of insensibility. Some of the ladies were foolish enough, when there, to utter such speeches as "Oh, my beloved Charles—come to my arms!" at the same time unwittingly extending them to receive the dear creature. Some of the gentlemen, not having taken the precaution to swallow a seidlitz or a carminative previous to their first appearance, committed some slight breaches of etiquette.——*Medical Times.*

Eighteen Hundred and Thirty Seven versus Eighteen Hundred and Forty Eight.—In the first of these years Mr. Louis Joseph Papineau excited a rebellion in Canada, and did his utmost to upset the authority of his sovereign; in fact, he entered into a treasonable conspiracy against her person, crown and dignity. Mr. Papineau, unlike others of his fellow conspirators, concealed himself with treason in secret chambers; he was never seen in the field,—no red coat had a chance to get a shot at him.—As the consequence of his treason, he was compelled to fly, and from that time to within a year or so of this present writing, he was an exile in foreign parts. By the mercy of his outraged sovereign he was permitted to return, white washed from his treason; he received from the bounty of his country four thousand five hundred pounds, to which he could have no shadow of right, for an attainted traitor forfeits every civil right. Mr. Papineau had the grace to keep himself quiet for a few months, but on the very first opportunity he publishes a long and laboured document, in which he sets forth the very same opinions by which he then deluded them, and as the climax of abomination, he, on his introduction into Parliament, stands up at the table of the house, before his brother legislators takes the Book of God into his hand, and solemnly swears allegiance to the Queen, and to do his utmost to protect her from all treasonable conspiracies, and to reveal any such that shall come to his knowledge! The quondam rebel actually bolted the oath, to the utter disgust of every loyal man who was present, and the only wonder is, it did not choke him.—*Montreal Courier.*

Large purchases of produce have been lately made in Canada West, by several of our merchants, preparatory to the opening of the navigation, for exportation to Europe.—*Ib.*

On Thursday afternoon the Royal Artillery in Garrison commenced their annual practice with shot and shell, at a target placed on the ice, at 600 yards distance from the south west extremity of St. Helen's Island. The practice was to have been resumed yesterday afternoon, but was prevented by the snow. It will also take place again on Tuesday and Thursday next, at two o'clock. By the kindness of Capt. Collington, R. A., notice was given to Lieutenant Colonel Maitland, of the Montreal Volunteer Artillery, who desires us to mention the fact, in order that any of the officers or non-commissioned officers of that Battalion may attend; and Captain Collington also mentioned that he would be happy to give them any information they might require. Considering the very small opportunity for practice which is afforded to the Artillery the firing on Thursday was very credible. Five round shot, if we recollect rightly, struck the target, and two of them very near the centre, and it was plainly well marked by the contents of the spherical case.—*Ib.*

We were informed yesterday, that Brady, the man who was tried for the murder of O'Rourke, the celebrated pugilist, some months ago, and acquitted, died a few weeks since, and before his death confessed not only the murder of O'Rourke, but of another man: the latter crime having been perpetrated some years ago. This man was acquitted of O'Rourke's murder in the face of the strongest evidence we ever heard in our lives, both direct and circumstantial.—*Ib.*

DREADFUL LOSS OF LIFE.—The Packet ship Omega, of 1277 tons, Captain Garrick, of and from Liverpool bound to New York, sailed on the 16th January last; with a general cargo and 315 passengers. On reaching the banks of Newfoundland she encountered very heavy weather, which carried away some of her yards, sails, rudder, &c., leaving her a complete wreck. In this dilemma she was fallen in with by the ship Aurora, bound to this port, which took off half the passengers, and would have taken the whole had not a gale of wind sprung up and prevented it. In transferring the passengers, the Omega's pinnace was lost with the second mate and four hands. On the 11th of February the Omega was fallen in with by the brig Barbara, bound to Cork, which vessel had nearly completed the removal of the remaining passengers, when a gale of wind likewise separated them, leaving about 30, including the captain and mate on board, who are supposed not to have survived the next night.—The Barbara bore up for Newfoundland—lost her boats, and mistaking the land got among the breakers and was driven on a rock, which stove a hole in her bottom,—thirty five individuals reached the shore, but in a few minutes after the vessel fell over and went down, carrying with her about one hundred and fifty souls. Taking all together it is a tale of disaster, almost unparallelled, and one the like of which we hope it may not become our province again to record.

The Aurora arrived at Halifax with a part of her passengers; a large number having died on board from privation and sickness occasioned by their being on very short allowance for 17 days; having only 2½ ounces of bread and a wine glass of water, for each person on board per day.

DR. HALSEY'S GOLD AND SILVER PILLS—Are founded upon the principle that nearly all diseases arise from the same causes, or that a morbid condition of the *liver, stomach, and bowels*, predisposes the system to every class of disease. When these important function become obstructed with superabundance of bile and viscid matter, Nature ceases to fulfil her proper office. It is then that the *blood* becomes impure, because the secretive organs of the liver, whose office is is to seperate the worn-out principle of this vital fluid, are no longer fit for their office, and the wasted parts of the blood continues therefore in its circulation and become diffused throughout the whole system. Thus filled with infectious humours the body is made liable to sickness. If, by chance, it is exposed to a sudden change in the weather, a bad cold, or consumption, would be the result—if in the vicinny of contagious disorders, it would imbibe the infection.

Dr. Halsey's Gold and Silver Pills, although pleasant to take and innocent in operation, is the most excellent medicine in the world, to remove the bile and viscid matter from the system, and to restore the liver, stomach, and bowels, to the performance of their proper functions thereby rendering the blood pure, and diversing the system from all morbid and infectious humours, which we finally remove every disease, however long standing, and endow the system with health, strength and vigour.

A circular giving a full explanation of the two-fold action of the *Gold and Silver Pills*, can be had of the agent gratis.

For sale at the Proprietors general Depot, No 2 Courtland street, New York, and by his appointed Agents in the Cities & Towns in the United states, and at the store of the subscriber, 5, brick building, North Market wharf. Price 1s. 3d. per box with liberal allowance to wholesale Dealers.

H. G. KINNEAR.
General Agent for the Provinces.

St. John, January 29, 1848.

EAST BOSTON, May 23rd, 1847.

MR. S. W. FOWLE—Sir, I have seen so much of the virtue of "Wistar's Balsam of Wild Cherry" that I feel it my duty to add my testimony in its praise. My son about 14 years of age, has for the last ten months been afflicted with a cough, pains in the side and body, and a gradual wasting, until he was but a mere living skeleton. I had the advice of three Physicians, but none of them could give him any relief, and gradually yet surely he seemed to be sinking into the tomb. Happening accidentally to see one of your "Free Almanac's" we felt as though the Balsam would help him, as there was some cases that had been cured when they were as bad as he was. I therefore procured a bottle of Dr. Kidder, the Agent in this place, and before he had used all of it he began to grow better, and by using three bottles his cough was all gone, and he is now enjoying *good health*, for which he is solely indebted through the blessing of God to *Wistar's Balsam of Wild Cherry.*

WM. DIXON.

None genuine unless signed I. BUTTS on the wrapper. ☞ For sale by Peters & Tilley, King street, st. John, N. B

☞ *Some of our subscribers on the Eastern shore make complaints in not receiving the Chronicle regularly, and at other times with the cover off. &c. We shall take an early opportunity in exposing these persons who fraudulently take the reading, sending, or delaying of the paper; and as we are making enquiries for that purpose, we would thank our subscribers who may be thus wronged, to note at any time when the paper may come to hand without covers, or not on a regular Mail day.*

☞ The English Mail will be closed at the Post Office to-morrow, Saturday, at 3 o'clock.

MARRIED.

On the 16th instant, by the Rev. Robert Irvine, Mr. William Baillie, to Miss Margaret Hammond, both of this City.

On the 15th inst, by the Rev. Henry Daniel, M. Henry McAlpine, to Miss Sarah Jane Clark, of his City.

In St. Paul's chapel, Portland, on the 17th ult., by the Rev. John McGivern, A. B., Robert Beauchamp Hare, Quarter Master in Her Majesty's 82nd Regiment, to Miss Margaret J. McGivern, of this City.

March 10, 1848 T. HANFORD

FOR SALE.

THAT beautiful *Villa* residence, occupied by Mrs. Wheeler, in the Parish of Lancaster, near Carleton, situate on the main road leading to Manawagonish. The property is delightfully situated, commanding a fine view of the scenery in the neighbourhood of the Falls, and of the City and Harbor of Saint John. The House is new, substantially and thoroughly built, finished in good style, and provided with every requisite for the comfort and convenience of a family. The land has a front of 120 feet on the highway and extends back 520 feet to the old Manawagonish road, and will admit of six building lots being set off from it, leaving ample gardens and other grounds attached to the dwelling house. The premises may be viewed at any time, and any further information will be given on application to the subscriber. GEO. WHEELER.
