ANOTHER FIRM IS LIFTED FROM LIST OF CIGAR STRIKE

Settlement Made in Coleman Case Today.

BUT TWO ARE LEFT NOW

These Will Be Interviewed by Strike Committee This Afternoon.

Fifty cigarmakers on strike from the George Coleman cigar factory since Monday last return to work again on Tuesday morning as a result of a conference held this morning between Mr. Coleman and a delegation from the Cigarmakers' Union.

"Mr. Coleman agreed to meet the demands of the cigarmakers, and the 50 men who are out will go back to work there Tuesday," announced the press committee at 2 o'clock this afternoon.

The conference today was a lengthy one, and the situation was discussed from every angle.

The situation is gradually clearing, and this afternoon the two remaining manufacturers will be interviewed, when it is believed the strike will be finally settled.

The cigarmakers are well pleased with the turn of affairs, they say, and look for final arrangements to be completed this afternoon.

One manufacturer to be seen this afternoon has practically consented to meet the union's demands, and no difficulty is anticipated in this quarter in making a final settlement.

Throughout the strike the best of feelings have existed between the men and the bosses, and the absence of any bitterness has had a great deal to do with facilitating matters toward a satisfactory settlement of the strike.

FOUR THOUSAND QUIT IN PITTSFIELD PLANT

[Canadian Press.]

Pittsfield, Mass., Sept. 2.—About 4,000 employees of the General Electric plant dropped their tools and left the plant on a strike at 9 o'clock this morning, as an action of protest against conditions at the plant. The strikers marched through the principal streets of the city to the city common, where a mass meeting was addressed by international officers.

SAYS MISSTATEMENTS

Hudson which they should have given their own ministers.

Says Horwood Deceived.

Andrews told the jury it was impossible to conclude the case today, since he could not rush through his address. He declared Horwood's private report on the Parliament Buildings to Dr. Montague was the justification of his own acts. Regarding Kelly's caisson letter there was "a secret between Horwood and Kelly." Horwood, however, deceived both Kelly and the ministers. He gave Kelly to understand the ministers had seen the tender, when they knew nothing of it. Andrews said that according to Salt's records there was an overpayment of $230,000 to $250,000 on the caissons. Why didn't Horwood take the motor car which he said Kelly offered him? asked counsel. Did he prefer cash? What was the probability in the case of a man who could be bought for $2,000 a year increase in salary? Did Kelly get $100,000 and Horwood $100,000? Horwood wasn't actuated by friendship for the ministers or political zeal.

GREEK CITIES

to "drive the oppressor from Greek soil." The recruiting of volunteers was urged and large meetings are being organized.

Popular sentiment in Greece has been profoundly stirred by the abandonment without combat of the Greek forts in Eastern Macedonia, and has been raised to the highest pitch by Rumania's entry into the war, says the dispatch.

VENIZELOS WARNS GREECE.

London, Sept. 2.—Former Premier Venizelos of Greece, leader of the party which favors participation in the war with the Entente Allies, is quoted in a dispatch to the Star from Athens as having said to friends that the situation was becoming more and more grave for Greece. M. Venizelos blamed those who had advance knowledge of Rumania's intentions for not bringing about the intervention of Greece, at least simultaneously with Rumania. The Star's correspondent quotes him further as follows:

"With the Bulgarian troops between the Rumanians and the armies of the Entente Allies, and with the Russians advancing through Dobrudja, who can doubt that Bulgaria will seek to sign a separate peace with the entente. If this should happen before Greece goes in on the side of the entente, it would mean the burial of Greece."

Magical Effect on Neuralgia Throbbing Pain Goes Quickly

A Year's Sufferer Cured by "Nerviline."

No person reading this need ever again suffer long from Neuralgia.

Nerviline will quickly cure the worst Neuralgia, and Mrs. G. Evans, in her strong letter written from Russel post-office, says: "One long year, the longest of my life, was almost entirely given up to treating dreadful attacks of Neuralgia. The agony I experienced during some of the bad attacks was simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline! I read of the wonderful pain-subduing power it possessed and made up my mind to prove it valuable or useless. Nerviline at once eased the pain and cured the headache. Continuous treatment with this magic-working remedy cured me entirely, and I have ever since stayed well."

Mrs. Evans' case is but one of hundreds that might be quoted. Nerviline is a specific for all nerve, muscular or joint pain. It quickly cures neuralgia, sciatica, lumbago, lame back, neuritis and rheumatism. Forty years in use, and today the most widely used liniment in the Dominion. Don't take anything but "Nerviline," which any dealer anywhere can supply in large, 50-cent, family-size bottles, or in a small, 25-cent, trial size.

NO FEAR OF ALIENS SAYS WILSON WHEN ACCEPTS NOMINATION

Does Not Desire the Favor of Pro-Germans.

WANTS TO SAVE MEXICO

Declares Republicans and Protection No Good for the States.

[Canadian Press.]

Long Branch, N. J., Sept. 2.—President Wilson formally accepted his renomination here this afternoon with an address recounting the legislative record of the Democratic party, a vigorous defence of his Mexican policy, his dealings with the European belligerents and an outline of his view of America's obligations for the future.

With the members of the notification committee, headed by Senator James grouped about him at Shadow Lawn, the summer White House, the president declared the Republican party was "just the party that cannot meet the new conditions of a new age," and that the day of little Americanism, when "methods of 'protection' and industrial nursing were the chief study of our provincial statesmen," was past and gone.

"We can no longer indulge our traditional provincialism," said the president. "We are to play a leading part in the world drama whether we wish it or not. We shall lend, not borrow; act for ourselves, not imitate or follow; organize and initiate, not peep about merely to see where we may get in."

One for Aliens.

Speaking of his diplomatic negotiations with the European belligerents, the president followed a declaration that while property rights might be vindicated by claims for damages, the loss of life and the fundamental rights of humanity never could be, with this statement:

"The record is clear and consistent throughout and stands distinct and definite for anyone to judge who wishes to know the truth about it."

Immediately afterwards he said:

"I am the candidate of a party, but I am above all things else an American citizen. I neither seek the favor nor fear the displeasure of that small alien element amongst us which puts loyalty to any foreign power before loyalty to the United States."

Regarding his Mexican policy, the president reiterated that the people of Mexico were struggling, "blindly it may be—and as yet ineffectually," to free themselves from alien interests, "some of them Americans, pressing for things they could never have got in their own country," and that he would do everything in his power to prevent anyone standing in their way.

"It is hard doctrine," said he, "only for those who wish to get something for themselves out of Mexico." At another point the president said:

"Mistakes I have no doubt made in this perplexing business, but not in purpose or object." He declared at another point:

"I am more interested in the fortunes of oppressed men and pitiful women and children than in any property rights whatever."

Promises Kept.

At the outset of his references to the legislative achievements of his party, the president enumerated the laws placed on the statute books relating to business, including tariff revision, anti-trust laws, revision of the banking and currency system, rural credits, rehabilitation of the merchant marine and creation of the federal trade commission.

"What other party has understood the task so well or executed it so intelligently and energetically?" he asked. "What other party has attempted it at all? The Republican leaders apparently know of no means of assisting business but protection. How to stimulate it and put it upon a new footing of energy and enterprise they have not suggested."

At the conclusion of his review of the party record the president declared:

"This extraordinary recital must sound like a platform, a list of sanguine promises; but it is not. It is a record of promises made four years ago and now actually redeemed in constructive legislation." Then, later he said: "We have in four years come very near to carrying out the platform of the Progressive party as well as our own; for we are also progressives."

The president's address was some five thousand words long, one of the most lengthy he has delivered on any occasion since taking office.

DRAGGING OPERATIONS PROVE TO BE UNSUCCESSFUL

Firemen's Efforts Fail To Locate Body of Missing Woman.

Dragging operations by the firemen yesterday afternoon in an effort to locate the body of Miss Rose Smith of 19 Clarence street, who, it was supposed, had been drowned near the Springbank pumphouse.

The firemen in a boat dragged the river bed for 2,000 feet up and down in the vicinity where Miss Smith was last seen and near the point where a woman's footprints were discovered.

The river is particularly quiet at this point, and the firemen believe that had Miss Smith been drowned at that point her body would undoubtedly have been found by the grappling apparatus used.

Miss Smith was last seen a week ago today at 2 o'clock in the afternoon, and since then no trace has been found of her.

In case she has been drowned, the body will arise to the surface about Monday, it is expected, and a careful watch will be made along the river by relatives the first few days of next week.

Miss Smith, proar to her disappearance, had been ill for some days and showed signs of mental depression.

CITY RESOLUTIONS ALL PASSED BY MEETING

Doubt Expressed Over Fate of Centralization Idea, However.

City Clerk S. Baker has returned from Toronto, where he attended the annual convention of the Ontario Municipal Union. He reports that the attendance was large, and the papers read interesting.

All the resolutions sent from London were adopted, and will be presented to the Government.

The most important was that to give the council full control of all spending bodies in the city. That this will pass the Legislature is doubted, as the Legislature seems to lean towards decentralization, not centralization of municipal authority.

W. R. Meredith of this city protested against the amendment to the act, permitting the council to publish the names of bakers who do not live up to the bread act. However, the association adopted the idea, and it will probably be made into law, as the delegates were unanimous.

Financial, Market and Commercial Section

TOMATOES TAKE SUDDEN JUMP IN PRICE TODAY

Cool Weather Prevents Ripening and Cost Goes Up.

Tomatoes took a sudden jump on the local market this morning. At the beginning of the week they sold for 20c a basket. This morning they brought from 35c to 40c and, in some cases, 50c. The jump was caused by the scarcity of the ripe product. Several days of cool weather have prevented the tomatoes from ripening, and there are therefore few fit for market, although the crop itself is a good one. Potatoes were steady, bringing 50c and 60c a peck and $1.50 to $2.25 a bushel. Beets sold for 30c a dozen, while green onions brought 40c. Celery was slightly cheaper at 30c to 50c. Green corn was plentiful, and sold at from 10c to 15c a dozen.

Apples were steady at 50c and 60c a bushel. There was a wide range of prices for plums, which brought from 35c to 70c basket. Pears were steady at $1 to $1.60 a bushel. Peaches brought from 50c to $1.

There was a fairly good market for hay which brought $11 to $14 a ton. Straw went at $8 to $8.50. Dairy produce was steady, although eggs were scarcer and slightly dearer at 27c to 28c a dozen. Creamery butter brought 35c to 36c a pound.

Poultry was steady, although a fairly large quantity was offered.

Live hogs were sold at $11 to $11.25 a cwt. Fat sows brought $8.75. Small pigs fluctuated a little, selling from $10 to $16 a pair. Dressed hogs brought $15.50. Veal sold at $14 to $16 a cwt.

The market was a good-sized one, there being a large attendance of both buyers and sellers, owing to the fact that there will be no market on Monday.

GRAIN.

Winnipeg, Sept. 1.—Wheat closed today 1⅛c lower for October, 1¼c down for December, and 2c lower for May. Oats dropped ¼c for October and ⅛c for December. Barley was up 1½c. Flax was up 3½c in October, 3½c in November, and 3¼c in December. The closing period of the market was very quiet. Wheat took a fair drop on the day, after running in a good range. October was exactly 5c from high to low points. The chief items on the bull side today were the domestic situation, and strong cables, but war news was an important bear factor and broke the market, after a strong opening. The general trade was fair mostly scalping. The exporters were out of the market and the only good buying was from houses with outside interest. Prices moved very quickly and hindered spreading. The cash premium continued to turn high with 7½c over paid for October today for No. 1 northern. Oats and wheat were both in good demand, with receipts light.

Chicago, Sept. 2.—Indications that the strike settlement would be a reality gave a lift to the wheat market here today. Misgivings of a hitch in Congress had virtually disappeared, and there was a noticeable consequent lessening of pressure to sell. Besides, estimates were current that fully half of the North American surplus of wheat already had been disposed of for export, and that unless European demand subsided the whole surplus would be gone within the next two months.

Opening prices, which ranged from ⅝@2¼c higher, with December at $1 45@1 46, and May at $1 47@1 48, were followed by moderate additional gains, and then something of a reaction.

Liverpool, Sept. 2.—Wheat—Spot was easy; No. 1 Manitoba, 14s 5d; No. 2, 14s 4d; No. 2 red western winter, 14s 5½d.

Corn—Spot quiet; American mixed, new, 10s 7½d; do, via Galveston, 10s 9d

WALL STREET.

New York, Sept. 2—Wall Street, 10:10 a.m.—Gains exceeded losses at today's irregular opening, with strength in Steel, Marine preferred and coppers, while specialties, particularly motors, were under further pressure.

10:30 a.m.—Irregular price changes registered at the outset of today's trading apparently deflected the conflicting views held by speculative interests respecting the importance of railway legislation. Favorites, notably Marines, Inspiration Copper, United States Steel and Reading, opened at gains of substantial fractions to a full point, with like advances in some of the more conspicuous specialties. These were counterbalanced by further moderate pressure upon motors, Tennessee Copper and some of the war descriptions.

Close.—Covering of short contracts, a natural precaution in view of the approaching holidays, comprised the bulk of today's light dealings, the movement being heightened by the encouraging outlook of the railroad controversy. Marines were the chief feature, with the preferred at a new high record. United States Steel regained much of yesterday's reversal, and rails were higher under the lead of Reading and Canadian Pacific. Specialties were represented by Kelly-Springfield Tire, Lee Tire and Studebaker, and coppers, petroleums and American Zinc preferred also registered material gains. The closing was strong. Bonds were steady.

WALL STREET REVIEW.
[Canadian Press.]

New York, Sept. 2—(Weekly Financial Review.)—The shadow of the railroad strike hung over the financial market this week, the outcome still being very much in doubt at the close of yesterday's session of the stock exchange. Quoted values, particularly as to rails, were held in check by the tense situation, but the undertone was surprisingly strong, with new records for Mercantile Marines, Inspiration Copper and Kelly-Springfield tire, one of the better-known automobile accessories. United States Steel again held undisputed sway over the industrial division, repeating last week's high record of 99⅝. Minor steel and iron shares benefited by the strength of the leading issue and coppers and other metals were substantially responsive to favorable trade conditions, as well as increased or extra dividend disbursements.

Motors were almost the only really weak shares, some of this group declining to lowest quotations of the year. A large and aggressive short interest has developed in the stocks, their operations evidently being based upon the financial status of some of the less prominent companies.

The success of the new British two-year loan was without appreciable effect on rates to London, which held about steady. Features of the foreign exchange markets were the decline in marks or German remittances to 69¾, the lowest quotation since the beginning of the war, and an advance of over 3 points to 34.60 in the rate of Petrograd.

Business was maintained at record-breaking pace and railroad tonnage was limited only by shortage of equipment. Grains and other foodstuffs are being rushed to market and the enormous bank exchanges and clearings at reserve centres are in themselves strong proof of the easy money situation.

MUNICIPAL BOND SALES.

Toronto, Sept. 2.—The municipal bond sales in Canada for August, compiled by the Monetary Times, amounted to $807,297, compared with $1,485,225 for July and $1,087,415 for the corresponding period of last year. The following are the particulars of the sales in Canada by provinces:

Ontario, $48,746; Saskatchewan, $593,426; Quebec, $108,000; Manitoba, $79,525; Nova Scotia, $12,500. Total, $807,297.

Comparing the record of August, 1915, with that of the month just ended, the bond sales are as follows:

	1916.	1915.
Canada	$807,297	$1,087,415
United States	97,300	750,000
Totals	$904,597	$1,837,415

NEW YORK COTTON

Bullish Government Crop Figures Pave Way to Sensational Advance During the Week.

[Reported by Thomson & McKinnon.]

New York, Sept. 1.

The Government report on the condition 61.2 and indicated crop of 11,800,000 bales exclusive of linters has verified our early predictions of another short crop. The figures point to a yield of slightly under 13,000,000 when linters were added. We believe final figures will show a total around 13,500,000. Based upon a cr
