# COBALT---Two New Rich Veins Found on Buffalo Within a Week---COBALT

## TWO FINDS IN A WEEK ON BUFFALO CLAIM

### Another Vein Five Inches Wide Uncovered—Samples of Gold From Larder Lake.

COBALT, Ont., May 1.—(Special.)—Another sensational find made at the Buffalo yesterday. A big bonanza silver vein, six inches wide in places, was uncovered. The solid metal is exposed to view on top of bed-rock a few feet from the surface. Supt. Jones has a gang of men engaged in stripping. This is their second valuable find within a week. The new vein runs directly towards Nancy Helen.

Col. Rogers of Ottawa was in New Liskeard Monday and brought down from the Reddick claims at Larder a bagful of gold nuggets, which are said to have surpassed anything yet found in that district. This makes Larder Proprietary look good, as that company bought the Calverley and other claims adjoining the Dr. Reddick property. F. B. Mosure.

### BRITISHERS WILL BUY.

**But First Want Endorsation of Their Brokers.**

D. M. Gilpin has returned from a business trip to London, England, where he went in connection with the object of promoting deals for some of the Cobalt properties.

"I found the London financiers quite inquisitive," said Mr. Gilpin, "but they have not yet obtained sufficient information of the Ontario silver camp to become enthusiastic. The firm of Gibbins & Co. have undertaken to send out an expert to report on the Hazel Jule claim and, incidentally, to look over the whole camp. The English people I found are keen to buy some of the Cobalt stocks, but they want the endorsation of their brokers before they invest. There is quite a display of Cobalt ore at the immigration office at London and a wide interest is being taken in this. Such stocks as the Townsite and England's Premier, which have been floated in London, are finding a good investment demand. From what I could learn there will be a big field for the mining stocks at the English centre and at Paris before the present summer is over."

**Machinery at Nancy Helen.**

New machinery and a first-class power house have been installed at the Nancy Helen Mine, said W. R. Smyth, M.L.A., who was at the Parliament Buildings yesterday. He is one of the largest owners in the Nancy Helen and is spending most of his time at Cobalt in development work.

The vein recently found on the Buffalo property, which is of great richness, is regarded as a continuation of one of the Nancy Helen lodes. Shipments will probably be made in the course of the month.

**Cobalt Development Co., Limited.**

Samuel Herbert & Co., 20 East Kingstreet, Toronto, report as follows: The most significant development of the last few days is on that portion of the property of the Temiskaming & Hudson Bay Co., which adjoins on the south one of the five properties of the Cobalt Development Co. The Temiskaming & Hudson Bay stock originally sold at 40c per share, and without a doubt Cobalt Development selling at 25c per share is the cheapest as well as the best buy on the market to-day.

This company has 760 acres as assets as follows: 160 acres of mining claims and 600 acres of Townsite property.

As this stock will be traded on all the American and Canadian curb markets, we expect a very broad market, with a decidedly advancing tendency.

**Bilingual Schools.**

Inspector Rochon, Dr. Parent and Father Forget had a conference with Hon. Dr. Pyne, Hon. Dr. Reaume, Dr. Colquhoun and Dr. Seath yesterday afternoon on the subject of inspection and teaching in bilingual schools.

**Customs Receipts.**

The total duty collected at the port of Toronto for April was $1,024,471.04, an increase of $220,745.29 over April of last year.

## LARDER LAKE

### Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of $1.00 per share will be exhausted sooner than expected. The price will then be materially advanced.

The advance will take place any day and probably without notice—just as soon as the stock has been introduced by placing a very limited amount at our initial price of $1.00 per share—most of which is sold.

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and in a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much longer.

My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time.

My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record.

Larder Lake Proprietary will shortly be listed on the Exchanges and placed on the New York and Boston curbs.

I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see $10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six months past.

The facts about the Larder Lake Goldfields, and the Proprietary Company in particular, are far too great to present here.

Full particulars, however, may be secured on request by calling personally, or by mail, telegraph or 'phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States—two days behind now—but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.

## PRINCE ON SAME FOOTING.

**Will Get No More Privileges Than Other Cadets.**

LONDON, May 1.—Prince Edward of Wales, eldest son of the Prince of Wales, to-day joined the Royal Naval College at Osborne, Isle of Wight, as a cadet. He will be treated exactly the same as the 400 other cadets, will occupy a bunk in the college dormitory and will be restricted to the 25 cents weekly pocket money allowed by the regulations. Prince Edward was born June 23, 1894.

### BETTER OFF HERE.

LONDON, May 1.—Sir Wilfrid Laurier, the Canadian premier, addressing the Canada Club last night, said he had no fear that Canada would be Americanized.

The American who crossed the border knew that his property and life were securer than in his own country.

**Providence Fender Approved.**

The railway and municipal board have given their approval to the adoption of the Providence fender by the Peterboro Street Railway.

## COAL DROPS 50C A TON WILL NOT BE ANY LOWER

### Any Change, Say Dealers, Will Be in an Upward Direction and May Come Soon.

Consumers of coal will not get the regular "summer rates," if the dealers, who are united this year and control the situation, do not take another think. It was announced yesterday that for the present there will be a reduction of 50 cents a ton, but the dealers do not hold out any hope for a further drop to the figures that usually prevail in the heated term, namely, $6 a ton or less.

"Yes, the winter is over at last and coal has taken a downward slump," said Noel Marshall of the Standard Fuel Company to The World.

The reduction of 50 cents is the usual spring one, which comes with the slack season of May.

The general opinion of the coal dealers visited was that $6.50 is the lowest figure likely to be quoted this year. In fact, it was pretty emphatically stated that the next move would come soon, and in an upward direction.

"The reasons?" said the manager of the Milnes Coal Company. "Well, there are several." Then it was explained that the cost of handling coal is higher this year than formerly. Wages have largely increased. Also, the summer price of $6 quoted on coal last year was no index of its true value. It meant selling at 50 cents per ton below the cost of production and the other outlays. Last year there was a "fighting trade" and prices slumped out of sight. This year things are normal and prices are likely to be what dealers call "reasonable."

What the average consumer thinks is another matter, but one that does not influence quotations.

## GOVERNMENT GRATUITIES.

**Two Officials of Education Department Rewarded for Long Services.**

The provincial government has decided to award the following gratuities in the education department:

To Professor McLellan, principal of the normal school at Hamilton, who has been 42 years in educational service, $4000.

J. E. Hodgson, for 28 years inspector of high schools, $2000.

To the family of the late W. H. Jenkins, for six years registrar of the education department, $1000.

**Kindergartners Meet.**

NEW YORK, May 1.—The convention of the International Kindergarten Union began here to-day. Mrs. Maureen Hughes of Toronto, president, was the speaker.

The officers' ticket named Miss Fannie Belle Curtis, Brooklyn, for president, and Miss Ada Vanstone Harris, Rochester, for recording secretary.

## "In the Wars"

When "in the wars," when you slice your finger, chop your hand; when the children come in with cut or bruise; when the housewife burns her hand on the stove door or with the smoothing iron; when unsightly pimples break out and when scratched become ugly and painful; when you get a cut or scratch from barbed wire and fear blood poison—then is the time when Zam-Buk proves its merit. It takes the soreness out of injuries, stops bleeding, prevents blood poison, soothes and heals. Made from purely herbal essences.

Mr. Alf Henry Orth, of Shipley, Ont., says:—"Zam-Buk is without doubt the best healing balm in Canada. I had a rusty wire nail run under my thumb-nail, which caused a very bad wound indeed. The pain was very acute, and the nail being rusty I feared serious consequences. I knew how good Zam-Buk is, and so melted a little and let it run into the wound under the thumb-nail. In quick time it gave me relief, and after that I went on with my work just as usual. In a short time the injury was quite cured, and the soreness went away almost immediately Zam-Buk was applied."

Zam-Buk is obtainable from all druggists at 50c per box. For cuts, burns, bruises, and all skin injuries and diseases, freckles, pimples, eczema, itch, rashes, blood poison, postules, ulcers, etc., is unequalled. Cures piles. 6 boxes for $2.50 from Zam-Buk Co., Toronto. Send, 1c. stamp for trial box.

Zam-Buk

# LARDER LAKE

"One Good Investment is worth a Lifetime of Labor."

## UNDERWRITERS' SYNDICATE.

"A Hundred Dollars invested in the Right Place at the Right Time will earn as much as one man steadily employed."

Telephone or Telegraph Orders at our expense. Telephone Main 2708.

Are you going to join us and make a fortune? This is the right place and now is the right time.

Read the proposition below and bear in mind that if you join us you will be associated with us on the ground floor at the bottom price and will share in the results therefrom in exactly the same proportion, according to your interest therein, as we will ourselves.

Consider what this proposition is—the return of your investment and still hold 733 shares, full paid and forever non-assessable, of the wonderful Blue Bell Gold Mine, out of each membership, which will have cost you nothing. There is no other investment that will compare with it. One or two memberships may make you a fortune—independent for life.

We believe the Blue Bell property will prove one of the richest gold properties ever known.

Bear in mind that the Blue Bell properties consist of 1,080 acres and are in the heart of the gold zone.

Fabulous prices are being offered for properties lying anywhere near Blue Bell.

We are willing to stake our reputation on the merits of LARDER LAKE.

The following report from our Consulting Engineer explains itself. Mr. Magee arrived in Toronto from Larder Lake on the 25th of April, and left Toronto for Larder Lake on the night of April 29, after purchasing boats, complete camping outfits and provisions. He will take charge of the Blue Bell properties and push the development of same. Stamp mills will be forwarded and installed without delay. Our syndicate memberships are meeting with favor and are being taken by investors more liberally than we expected.

Spoons Bay, Larder Lake, New Ontario, 22nd April, 1907.

Law & Co., Toronto, Ont.:

Gentlemen,—Acting on instructions from you, I proceeded to Heaslip by the T. & N. O. Railway, from there to Tomstown by stage, and from Tomstown to Larder Lake by stage also. I regret that owing to bad weather and snow our examination was somewhat delayed. However, we eventually were able to make an examination of the properties in which the Blue Bell Syndicate are interested, and I herewith enclose report of the result of our examination. Owing to some parts of the property being under snow, I have not made any remarks about anything we did not actually see, and have made a report as close to the actual facts as possible.

COPY OF REPORT OF EXAMINATION OF BLUE BELL LARDER LAKE SYNDICATE PROPERTIES.

Formation.—The principal formations are green schists, slates and diorite.

Lead No. 1.—Consists of a vein of quartz about six feet wide, with a strike east, northeast, west, southwest and a dip of 45 degrees to the southwest. At one point on this lead I put in a small blast, and after about one hour's work obtained over one hundred pounds of rock of which every lump of every size carried free visible gold in large quantities, which should assay not less than six or seven thousand dollars to the ton. At another point on the same lead I took some more samples and found the formation the same. This lead I did not consider a vein proper, but really a series of quartz veins running through a large porphyritic dyke at least twenty feet wide and extending right across the lots into the other Blue Bell properties.

Lead No. 2.—This is a vein of quartz about three feet wide running northeast and southwest. I traced this vein for about 130 yds., where it joined No. 1, in which we got the best samples of gold. I look upon this vein as only being one of three veins of a similar nature as factors of the main lead.

There is an ample supply of good timber on all the lots for all building and mining purposes for years to come, and as a bluff on which the lots are located runs right into Larder Lake abundance of pure water is assured.

From what I have seen from my examination of these properties and the results obtained from sampling, I have no hesitation whatever in saying (even in its present undeveloped state) the Blue Bell Mining Syndicate have some of the best located claims in the Larder Lake camp, and if active development work were to be rushed forward at once I predict the present properties will be producing gold as soon as machinery can be installed and practical mining operations begun.

J. G. MAGEE,
Consulting Engineer of Blue Bell Syndicate.
April 25th, 1907.

P.S.—Since my return from Larder Lake I have received a copy of the assay from No. 1 or main lead which shows gold values of seven thousand nine hundred and eighty dollars ($7,980) to the ton, which exceeds my estimate by nearly one thousand dollars ($1,000). J. G. MAGEE.

### EXAMPLE.

**Showing Cost of and Estimated Results From One Membership**

Cost of One Membership consisting of 1,000 shares..... $100

All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company, Limited, who will act as Trustees for the Underwriters' Syndicate, during which period 267 shares out of each membership will be permitted to be sold at 50 cents per share, which will amount to ..... $133.50

Law & Company's commission of 25 per cent., amounting to $33.50, for selling the 267 shares at 50 cents per share, deducted from the $133.50 leaves to the owner of the membership the full amount of his investment or cost of his membership..... $100

Also, in addition to the return of $100 he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.

These 733 shares, which will be the result of each membership, will be worth at the advertised market price $366.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount.

Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.

Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.

The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. The distribution of all money and shares to the owners of memberships will be made at the time the membership pool is dissolved, which will be some time within six months from May 15th, 1907.

The Trusts and Guarantee Company, Limited, will issue receipts to all applicants or holders of memberships, showing or indicating their respective interests.

### APPLICATION FOR MEMBERSHIP.

**Cut out, fill in and forward with remittance.**

.....1907

To the LARDER LAKE UNDERWRITERS' SYNDICATE,
Law & Co., 728-729-730-731-732 Traders Bank Building,
Toronto, Canada:

I hereby make application for.....memberships in the Larder Lake Underwriters' Syndicate, and enclose herewith Draft, Postoffice or Express Order in favor of the Larder Lake Underwriters' Syndicate for.....Dollars in payment of same, on the understanding that this money shall be deposited with The Trusts and Guarantee Company, Limited, Toronto, and be held by it until such time as Messrs. Law & Company, Toronto, shall deliver or cause to be delivered to the said Trust Company scrip representing..... shares of the Blue Bell Gold Mines, Limited, issued in my name, fully paid up and non-assessable. Upon receipt of the shares of the said Blue Bell Gold Mines, Limited, by the Trusts and Guarantee Company, Limited, the said Trusts Company shall forthwith pay over to Messrs. Law & Company the moneys so deposited, and shall hold said shares subject to the pooling conditions contained in the Official Prospectus of the said Larder Lake Underwriters' Syndicate. The copy of the said Official Prospectus of the said Syndicate filed with the Trusts and Guarantee Company, Limited, shall be deemed to be the prospectus defining the terms and conditions of the pool. And I hereby irrevocably constitute and appoint the said Trusts and Guarantee Company, Limited, my attorney to execute any and all transfers of the said shares that may be necessary in order to properly carry out the intention of the pooling arrangement, I hereby ratifying and confirming any and all actions of my said attorney in the premises.

## REVENUE FROM ESTATES.

**Province Paid $308,381 in Succession Dues in April.**

The gross revenue of the succession duties department for April has been $308,381. Of this amount $150,000 is the amount reported as a deposit from the Fulford estate, mende pending the adjustment of the final accounts.

The state of the late Hon. A. G. Blair is stated to be of the net value of $192,000, one-third of which goes to his widow, the balance to be divided equally among seven children.

## IMPOSSIBLE TO STOOP OR BEND

### SEVERAL DOCTORS COULD DO NO GOOD.

### PAIN IN BACK AND KIDNEYS.

People often say, "How are we to know when the kidneys are out of order?"

The location of the kidneys, close as it is to the small of the back, which is not affected materially by other organs, renders the detection of kidney trouble a simple matter.

The note of warning comes from the back. Backache is the signal sent out by the kidneys the minute they become overtaxed. Those who heed the warning when it first comes, usually have but little trouble. The danger lies in delay. A few doses of

**Doan's Kidney Pills**

taken in time, often saves years of suffering, and in many cases life itself.

They stimulate the action of the kidneys, enabling them to perform their duty perfectly.

Miss S. C. Pye, Ecum Secum, N.S., writes: "For the past three years I have been troubled with a very bad pain in my back and kidneys. It was so bad it was impossible for me to stoop or bend. I had several doctors attend me, but found no relief until I picked up one of your Egyptian Dream Books, and found out about your remarkable remedy, Doan's Kidney Pills. I procured two boxes and their action surprised me, for they completely cured me. I don't think they have an equal for kidney trouble."

Doan's Kidney Pills are 50 cents per box or 3 boxes for $1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

## MORE MONEY FROM BARS FROM FEWER LICENSES

### Revenue to Province Increased by $201,696.22 by New Legislation.

The report on the operation of the Liquor License Act for 1906 has just been issued by the provincial government.

Attention is drawn to the fact that the number of licenses has been reduced by 145 less than in 1905. The fines collected had increased by $8000. The revenue to the province from the license branch had increased owing to new legislation by $201,696.22. The revenue from licenses, transfers and fines for 1903-4 was $304,677.70; for 1904-5, $297,825.44; and for 1905-6, $330,430.33. The licenses for these three years, including tavern, shop and wholesale, numbered respectively, 2974, 2898 and 2745.

The municipal revenue for the years named was $257,866.64, $248,492.60 and $241,019.57.

During 1906 there were 4216 commitments for drunkenness in the province, an increase of 59 over 1905.

Special tables, giving detailed information regarding licenses, revenue, expenditure, payments to inspectors and commissioners, local option municipalities, prosecutions, statutory duties and other matters, are provided.

**Epworth League Officers.**

The annual election of officers of the Elm-street Methodist Epworth League resulted: Hon. president, Rev. T. E. Bartley; president, Rev. C. J. McCombe; first vice-president, J. Donnell; second vice-president, P. G. Price; third vice-president, F. L. Farewell; fourth vice-president, Miss F. Wilson; fifth vice-president, Miss M. Fowler; recording secretary, W. E. Atley; corresponding secretary, Miss E. Robinson; treasurer, Miss R. Manton; pianist, George Graham; district representative, J. A. Haugh; choir leader, Miss L. McBrien.

## REFUSED LEAVE TO APPEAL.

**Toronto Railway Moves to Upset Verdict for Damages.**

From now out, it is announced, the Toronto Railway will take all cases, disputes, actions, etc., to the privy council for readjustment, settlement and knock-outs. This body is the only place where the company can get a look in.

The game was started yesterday at Osgoode Hall, when an application was made in the court of appeal on behalf of the company for leave to appeal to the privy council against a verdict of $5000 damages recently awarded to Mrs. Mary King, for the death of her husband, a driver, who was killed by a street car.

The court of appeal refused to allow an appeal to be made to the privy council.

**Fishing and Shooting.**

Is the title of an attractive booklet, distributed free by the Canadian Pacific Railway. Well illustrated and written by experienced wielders of rod and gun, it is of both interest and value to fishermen and sportsmen. Trout season is now open; secure a copy before planning your outing. Ask nearest C. P. R. ticket agent, or write C. B. Foster, district passenger agent, Toronto. ed

## FREE TO MEN UNTIL CURED.

**Not One Penny in Advance Nor on Deposit**

To any man suffering from debility, losses, impotency, varicocele, or from lame back, rheumatism, etc., who will call in person or apply by letter, I will give absolutely free one of my world-famed Dr. Sanden Electric Belts until a cure is completed. This is my faith in my treatment, as nearly 40 years' experience has proved that my method will cure any curable case of debility, and I am prepared to take the risk of a trial. This offer is made to all sufferers, but I especially solicit those who are tired of useless drugging for these troubles, as I have demonstrated in so many thousands of cases that my method of electrical treatment cures where all known drugs fail. I don't ask one cent in advance or on deposit. If you have faith to write me or call I will at once arrange to give you a belt suited in strength to your ailment, and trust you to pay me when cured or satisfied. In many cases low as $5. My great success has brought forth many imitators, and I must caution the afflicted that the genuine can only be had at address as below.

I have two best little books ever written upon electricity and its medical uses, and even if you don't need or wish to try my treatment they would interest and instruct you. I send them free, sealed, by mail.

DR. A. B. SANDEN,
140 Yonge Street, - - - - Toronto, Ont.
Office Hours: 9 to 6. Saturdays until 9 p.m.
