Prior to his departure from the city Mr. Sam Grigg presented the Y. M. C. A. with a nicely bound edition of "Picturesque Canada" in two volumes. The books now adorn the parlor table.

Among those who will take leading parts in the rendering of Handel's grand Te Deum on Thursday evening will be Prof. D. J. O'Brien, James Egan and Mrs. Egan, of Hamilton. Dr. Verrinder had a splendid practice last night with full band and chorus of 250 voices.

Farm Pupils.

On Saturday Rev. Dr. Armstrong, of Moore, sent from the Grigg House to their respective places a party of farm pupils who came out by the Lake Huron and Vancouver steamships. Special arrangements having been made this year in England for farm pupil immigration the farmers of Ontario are now receiving the benefit. Another party left Liverpool Friday last. The weekly system gives the farmers a chance to make their applications and to place dependence on a supply.

A lady took out her pocket-book in a street car Friday to get her fare, and returning it, as she supposed, to her pocket, she put it in the folds of her dress. When she was stepping off the car the purse dropped down just outside the steps, and Driver William Perry, as he was turning his horse around, found it, and shortly afterward handed it to Superintendent Smith. Saturday morning Mr. Smith was notified by a lady that she had lost her purse, and upon proving her property it was returned to her. The purse contained over $9.

"Chip of the Old Block."

The musical farce entitled "The Chip of the Old Block" was presented at the Grand on Saturday evening and was provocative of much merriment. Mr. Robert L. Scott appeared in the roll of the Commodore and made the most of his eccentric character. The plot of the play is much the same as that of other comedy shows where a designing scoundrel is trying to defraud a young girl out of her property, but is defeated in the orthodox fashion. In the second act a number of burlesques on Shakespearean pieces are introduced. The company was well balanced, and gave a very fair performance.

Sudden Death.

In the death of Mr. Neil McCallum, of the fourth concession of North Dorcester, an old and highly respected resident has passed away. COMING CLOSE.

Earthquake Shocks in the Mohawk Valley, N. Y.

UTICA, N. Y., May 25.—Shortly after 7 a.m. to-day the Mohawk Valley was disturbed by a slight shock of earthquake accompanied by lightning and heavy winds. The shock in this vicinity was very light, but increased in intensity in Montgomery, county where at Fort Hunter it was quite severe.

At Little Falls dishes were rattled and a rumbling as of distant thunder was heard. At Fort Hunter buildings were shaken and beds moved so that the occupants were awakened.

In Utica dishes were rattled and some people report slight vibration, but the shocks were very light.

THE FISHERIES.

Suggestions of the Newfoundland Delegates—Canadian Sealers Will Defy the President's Authority.

LONDON, May 25.—The Newfoundland delegates had an interview Friday with Lord Knutsford, the Colonial Secretary, at which the fishery question was fully discussed. The delegates will have another interview with the Colonial Secretary after Whitsuntide. The Chronicle publishes an account of an interview with the Newfoundland delegates on the fishery question. In the opinion of the delegates a settlement might be arrived at by France abolishing the bounty system in return for the repeal of the Bait Act. In this way, they argued, the value of the French shore claims as a lever on the bait question would be destroyed, and the way would be paved to the buying out of the French claims, which matter could best be arranged by arbitration. The delegates protested against British officers aiding and defending French aggression. They declared that there would be no thought of annexation to the United States unless England neglected colonial interests. The delegates further declared that it was a fallacy to suppose that France valued the shore as the nursery of her navy, because the naval training ground was really on the high seas in the vicinity of the grand bank. The real point aimed at by France, according to the delegates, is to secure unrestricted access to the bait supply.

THE SEALERS.

OTTAWA, May 25.—Senator Macdonald, of Victoria, B. C., is here. Speaking of the Behring Sea matter, he said that the sealers will simply ignore the action of the American Executive. "The Canadian sealing fleet," he said, "started on their annual haul early in January last. They go down the coast as far as San Francisco and then follow the seals north, picking them up as they go along. They are going to Behring Sea, as they consider they have a perfect right to do. I have long thought that the whole matter will be brought to sudden maturity by some act of bloodshed on one side or the other. Some bold captain with a shipload of valuable skins and feeling himself legitimately in possession of them, will defend his property and the diplomats will regret they did not use more expedition in bringing about a termination of the dispute."
